## DRIVERS DEPOSIT NATIONAL BANK

UNION STOCK YARDS,

CAPITAL & SURPLUS \$750,000.

*Chicago, Ill.*

TO WHOM IT MAY CONCERN

We take pleasure in testifying to the responsibility of the CHICAGO HOUSE WRECKING COMPANY who is a customer of this bank and who are incorporated under the laws of the State of Illinois, and have a fully paid up capital and surplus of \$350,000.00.

They are the leading establishment of their kind in the world, occupying large quarters, and employing a great number of people.

The Officers are personally known to us, and we know them to be first class business men who will carry out their agreements. We commend them to the business public, feeling sure that any contracts or agreements entered into, will be entirely satisfactory.

# THE WORLD'S FAIRS

At St. Louis and Chicago and the  
Expositions of Buffalo and Omaha

BUILT AT A COST OF \$90,000,000

## WERE PURCHASED BY US

We are the foremost dismantlers and purchasers of large institutions in the World

---

We have purchased the following large Public and Private Buildings ∴ The Chicago Post Office and Sub-Treasury ∴ The Cleveland Post Office and Case Building ∴ The Weddel House, Cleveland, O. ∴ The Mackaye Spectatorium, The Four Seasons Hotel, Harrogate, Tenn.

---

## OUR NEW MERCHANDISE

A large percentage of the material listed in this catalogue, was bought by us at Sheriffs', Receivers', Trustees' and Assignees' Sale. We purchase any manufactured article that can be obtained at low enough figures, thereby giving our customers the opportunity of purchasing new goods at second hand prices. ∴ ∴ ∴

## Our Gigantic Operations.

**T**HE CHICAGO HOUSE WRECKING CO. performs an extraordinary and unique function in the mercantile world and redirects to the channels of industry enormous quantities of highly valuable material. Our operations embrace not only the United States, but Europe and Asia as well, where we are known as the "Great Bargain House" of the world. We are supreme in our line, have no competitors, and pursue original and unique methods in securing the supplies we place upon the markets of the earth.

We were organized in 1892 for the purpose of purchasing the **World's Columbian Exposition** at **Chicago** in 1893. We dismantled this \$38,000,000 magnificent exposition, with its miles of palatial and gigantic structures. Turning the millions upon millions of tons of valuable material into marketable product. Just imagine what this means and you will appreciate our tremendous operations. A veritable city with its miles upon miles of streets and buildings, built of the most costly material known to the architectural and sculptor's art, and you will get some idea of what this Company has accomplished.

### The Louisiana Purchase Exposition.

Our latest gigantic transaction was the purchase of the entire \$50,000,000 **Louisiana Purchase Exposition**, which covered twice the area of the World's Fair at Chicago and it was four times as large as the last World's Fair of Paris, France. You, who have visited this fair, with its beautiful buildings and architecture, its countless attractions and visible grandeur, its water works and sewer systems, roads, streets and walks, having an area of 1,240 acres, equaling a city of 50,000 inhabitants, but of a vastly better character, will appreciate the magnitude of our undertaking. Everything used in its construction was the best to be obtained in the markets of the world. It was built as a monument to the progress of the twentieth century, and the enormous amount of high class material used in its construction was marvelous. Our fame as buyers and sellers of gigantic institutions being world wide, it was only natural that the directors of this Fair should negotiate with us for the dismantling of the entire exposition.

From this marvelous exposition we obtained **100,000,000 feet of lumber**, thousands of tons of railroad and structural iron, miles upon miles of piping, millions of pounds of copper wire, acres of roofing material of every kind, and enormous quantities of plumbing material of every conceivable description, besides hundreds of thousands of dollars worth of goods, too numerous to mention.

We have from 1,200 to 1,500 experienced dismantlers employed at the fair ground in St. Louis, taking down, assorting and listing the different classes of material. Besides two complete fire departments and a perfect police organization.

In 1897 we bought up the **Trans-Mississippi Exposition** of Omaha, Neb. It was an exhibition of colossal architecture, and built at a cost of **\$2,500,000**. We dismantled it and turned the enormous quantities of material again into the channels of industry.

**The Pan-American Exposition** of Buffalo, N. Y., cost the citizens of that city, **\$8,750,000**. This magnificent spectacle, was purchased by us and the enormous quantities of building material were added to our extensive stock.

**The Chicago P. O. and Sub-Treasury** whose original cost was **\$7,000,000**, also the **Cleveland P. O.**, passed through our hands and found a place again in the World's markets.

In addition to the above, we have purchased many other famous institutions and public buildings, including the **Weddell House** in **Cleveland, Ohio**, and the **Four Seasons Hotel** at **Harrogate, Tenn.**

Tremendous as is the scope of these gigantic business deals, we still further enlarged our field of operations, until it is now practically an unlimited one. Where there are large **Sheriffs', Receivers', Assignees', or Manufacturers' Sales**, there our numerous wide awake representatives are on the alert to secure for us stocks of **General Merchandise** of every nature and description. We are, therefore, buyers and purveyors of everything from a needle to a locomotive.

The key-note of our business success is economy and the reduction of waste to a minimum.

## To the Economical Buyer

It means that we are in an unparalleled position to offer you the greatest bargains on earth. Our sales are perpetual and unending. Our lumber, sash, doors and roofing material can be purchased at an enormous saving. The lumber is well seasoned and is superior to the new product that is on the market. On the bulk of our material, the wear and tear, has been so slight as to be a negligible factor in considering the purchase. There is a small fortune for the contractor in a big deal, by doing business with us.

To those who contemplate furnishing a home or office will find our supply of household goods and office fixtures inexhaustible. We have a magnificent collection of **Persian and American Rugs** in various weaves of grace and beauty, **Parlor and Bed Room Suits**, in high grade **solid oak** and **mahogany finish**, **Steel Ranges** and **Base Burners**, plain and heavily nickel plated. In office supplies we have a very large stock of handsome, **solid oak Roll Top Desks** that we secured with our purchase of the **St. Louis Fair**. Besides a complete assortment of **handsome Rotary Leather-Seated Office Chairs**.

From a book of less than 100 pages to catalogue our stock on hand, a few years ago, this book of 500 pages does not begin to list the thousands of articles, the tons upon tons of merchandise of every nature and description, which by our agency are redistributed to the world. No matter what it is you want, we can furnish it to you. Though this is an incomplete list it will greatly assist you in selecting your bargains. Keep it by you. Consult it often. Keep posted. Then act promptly. Our bargains do not need to go a-begging. Don't wait until they are all disposed of. Just the thing you need most, may be had from us at an incredibly low price today. Tomorrow some one else may have carried off the prize, and you must wait or purchase elsewhere at a disadvantage.

The CHICAGO RECORD-HERALD, June 14, 1905, published the following article by America's leading newspaper correspondent—William E. Curtis:

## LAYING FAIR IN RUINS

Wreckers Engaged in Interesting Task on St. Louis Exposition Site.

## PILE UP IN A GREAT HEAP

Buying and Selling of Material Involves Millions, Says William E. Curtis.

BY WILLIAM E. CURTIS.

[SPECIAL TO THE RECORD-HERALD.]

ST. LOUIS, June 13.—It is almost as much of a job to get rid of a big exposition as it is to create one, and it is even more fun to watch the wreckers tearing down a building than it is to see the builders put one up. Destruction is more entertaining than creation in many lines of activity, particularly to those who destroy—as, for instance, Admiral Togo.

There is a melancholy aspect to the question, a pathetic and a profound sense of regret, to see magnificent buildings torn to pieces; \$17,000,000 worth of architectural triumphs razed from the face of the earth. Of course, the St. Louis people had to get Chicago men to do it—the Chicago House Wrecking Company, the same that pulled down the government building at Chicago some years ago and removed what the fire left of “the White City.” They also destroyed the buildings of the Omaha and Buffalo expositions. It took them eighteen months to clear away the ruins from Jackson Park and nine months each to demolish the Buffalo and Omaha expositions. Here they have two years in which to do the job, beginning with the latter part of March, when the exposition officials moved out, and the wreckers moved in their force of 1,200 experienced men. They have a complete fire department and police organization and are very strict about smoking around the grounds, because they lost several thousand dollars at

Chicago by the burning of the Manufactures and other buildings, which, they say, were set on fire by the strikers.

People are allowed to go about the grounds, however, and there are a great many visitors. Many of them come from curiosity; many more are buyers in search of bargains, and they are sent to the Transportation building, where is the biggest junk shop you ever saw—a regular department store in which the wreckers have gathered and classified the articles which have been taken from the interior of the buildings and other small portable merchandise, all of which is for sale at trifling prices. The catalogue of these articles contains 120 pages, with the different classes of articles arranged alphabetically. The first article on the list is an aerial fire truck, the next fire alarm boxes, and the third the ambulances that ran to the Emergency hospital, while the last items are woven wire mattresses, wrenches and wrought iron pipe.

Between these extremes is every portable article that belonged to the Exposition Company, taken from all the buildings purchased by the wreckers, and the prices at which they are sold are ridiculous.

\* \* \*

The wrecking company paid \$450,000 for everything within the grounds, including the fence—excepting a few of the foreign and state buildings. They paid \$600 for the Ohio building, which cost \$175,000, and \$3,330 for the Pennsylvania building, which cost \$300,000, including all the furniture, carpets and other equipments. They paid \$600 for the German building, which cost over \$100,000, and were much disappointed when they discovered that all of the beautiful decorations on the walls and ceilings were painted on canvas and had been sent back to Germany. But there is said to be more than \$600 worth of copper on the roof and dome, so that the contractors will probably come out even. They bought most of the other State buildings, also, for nominal prices.

\* \* \*

When the wreckers tear down one of the big buildings they start at the topmost pinnacle and work gradually downward. After they have removed all the towers and ornaments and slid them to the ground in chutes, they uncover the ridge pole and take off the roof. The same gang of men have done this sort of work so long that they do it very rapidly and

with comparative ease. As fast as an object reaches the ground it is seized by other workmen and carried to its proper place. Very little is wasted. All of the stuff is carefully saved, and 90,000 tons of it have already been sold to the Pittsburg Plate Glass Company at a dollar a ton. It will be ground up and worked over into plaster. Three million pounds of copper wire, which originally cost the Exposition Company \$900,000, has also been secured. It is the most profitable item. Every foot of it is carefully inspected, it is reeled up on the original spools, which were preserved, and the larger part of it is as good as new. The wreckers have about a million electric bulbs, which they are disposing of in lots to dealers and contractors in that sort of supplies. There are 125,000 bulbs on the Varied Industries building, and there were nearly 200,000 on the Electrical building, inside and out. About 900 carloads of sewer pipe have been taken up from the soil and it is all being cleaned and inspected, ready to be offered for sale; 2,000 car loads of lumber have already been shipped to various parts of the country, and several hundred carloads of doors and windows have been sold to contractors who are building factories, warehouses and other cheap structures. Forty-five miles of railroad iron have been sold to a suburban trolley railroad company in Illinois. 100,000 ties at 30 cents each, which cost 50; 400 tons of spikes for 1¼ cents each, which cost 2 cents each, and 3,000 telegraph or trolley poles for \$9, which cost \$12 each. The trestle work on the intramural road has also been disposed of.

\* \* \*

The Horticultural, Agricultural and the Forestry, Fish and Game buildings have all been torn away, and nothing remains to mark where they stood except enormous piles of lumber, which are being carefully sorted over and trimmed at a sawmill, buzzing away at the very spot where the big ears of corn were displayed. There were 11,000,000 feet of timber and lumber in the Agricultural building, of which about 80 per cent. was recovered in commercial sizes. The bigger the building the less the lumber is cut. Three million feet of lumber were saved from the Horticultural building, and Mr. Harris, the manager for the wrecking company, tells me that they will save, altogether, about 90,000,000 feet, which will sell for \$11 a thousand and upward. Lumber that has been badly used and is full of nails is cut into short lengths for fuel and other purposes. Lumber is the greatest item

of salvage, and from that alone the wreckers expect to reimburse themselves for all they paid to the Exposition officials. They are shipping about twenty-five carloads a day to Texas, and hope to make a contract with the Panama Canal commission. The fencing around the grounds is about fifteen miles long, and that, of course, is valuable for similar purposes.

\* \* \*

There is an enormous quantity of construction iron in the buildings, but none of it has thus far been sold. The big arches of the Manufactures building at Chicago were sold for a steamship pier in New York, but were made worthless by the fire and had to go to the scrap-heap. Out of the other buildings at Chicago, however, came a big steel mill near Pittsburg, the car shops at Harvey, near Chicago, and several of the buildings in Dowie's town of Zion, near Waukegan. The biggest Catholic church in Milwaukee, belonging to a Polish congregation, in care of Father Krutza, was built from the wreckage of the Chicago postoffice. The Illinois Theater at Chicago, is built of it also. The buildings of the shipbuilding plant at Fore River, Mass., came out of the Buffalo Exposition, as did the shops of the Lamb Wire and Fence Company, at Adrian, Mich.

The wreckers paid \$80,000 for the Chicago buildings; they paid \$90,000 for those at Buffalo and \$60,000 for those at Omaha and made a profit, and they expect to make big money here. Most of their business is done by correspondence. People write to them for everything imaginable. Mr. Harris got a letter the other day from an old lady out West who asked him to send her a souvenir of the Exposition—something she could keep and hand down to her children. She said that even a nail would be welcome.

There are four brothers in the company, sons of M. Harris, one of the early settlers of Chicago, who lived in that city sixty years until he died four years ago. They, like their father, are natural Yankee traders, and will buy anything on a speculation that is offered them if they can get it at their price.

At the close of the Chicago Exposition they bought the Ferris Wheel for \$9,000, although originally it cost several hundred thousand. They spent \$175,000 to take it down and set it up again at St. Louis, and now they are negotiating with a syndicate that proposes to remove it to Coney Island, New York.

WILLIAM E. CURTIS.

## The Extent of Our Plant

**W**E are situated on the south bank of the Chicago River, 5 minutes' ride from the Union Stock Yards. We occupy 25 acres of land. Our plant is the most extensive of its kind on earth.

Our main warehouse is a building 150 ft. frontage by 600 ft. in length, and is 61 ft. in height. It is equipped with traveling cranes and all modern improvements. It is constructed entirely of steel, iron and brick. We give employment to an army of people.

We have extensive shops for preparing for the market, the various merchandise we secure—machine shops, boiler shops, furniture repair shops, renovating establishment, pipe threading department, steam fitting department, etc., etc.

You will find our establishment full of interest to visitors.

## Come and See Us

Probably our hardest occupation is to correctly describe the vast quantities of material in our possession. Nearly every one exclaims after visiting our establishment "we had no idea what an enormous institution this is, and what a large amount of material you have for sale." The fact of the matter is, that no one could correctly depict such an institution. It is Dickens' "Old Curiosity Shop" on a tremendous scale. You will enjoy your visit to our plant and it will constitute as great a novelty as you have ever experienced. You will find that we have under-drawn the picture of everything. Therefore, when you are in Chicago, be sure to call and see us. We will at all times extend to you the right hand of good fellowship, and whether you purchase or not it will afford us pleasure to give you a trip through our plant.

If you are in the market for any considerable quantity of material, it will pay you to make a special trip to call and see us. We will make it worth your while, and you will be well satisfied. We will be equally as pleased to have you call and see us at St. Louis. Your visit will give you an opportunity to see the wonderful methods employed in dismantling the greatest exposition in the world's history.

## How to Reach Our Plant

When you are in Chicago; you can reach our plant from the center of the city by taking any of the surface lines running south from the center of the city. After you pay your fare be sure to ask the conductor for a transfer. Get off at 35th street and transfer west, or you can take the elevated road to 35th street and then take the surface line going west. It passes in front of our doors; any conductor knows where our plant is.

When you are in St. Louis take the Olive street car—marked World's Fair—and ride to the Lindell entrance of the World's Fair. We have our representatives at the gate, who will give you proper attention.

## Confession

As an evidence of our human proclivities, we sometimes make mistakes. Try as we will to protect ourselves and our patrons from them, and preach to our employes as hard as we are capable of, they yet occur. It is an earthly failing common to all.

"To err is human, to forgive Divine." Yet we seek not forgiveness so much as we call upon you for patience.

Should we make an error that causes you to suffer, think then of your own failings and tell us of all the facts in plain, unabusive language.

Our mistakes will promptly be rectified. If not you can then "jump" on us to your heart's content.

**ALL INQUIRIES ARE GIVEN PROMPT ATTENTION.**

## Terms

OUR terms are strictly net spot cash f. o. b. cars Chicago. Material subject to prior sale. Do not take offense if we ask you to send us cash in advance. If you don't want to send us the full amount with your order, send us at least 25 per cent on account; the balance to be paid C. O. D. We are perfectly responsible for your money, and it will avoid an endless amount of investigation on our part, and also much delay. Any money sent us in excess of your order will be promptly refunded.

We buy our goods for cash—very often in advance, and we, therefore, see no reason why anyone should take offense at our request.

We guarantee all our goods to be exactly as represented, and if you receive any material that is not as represented, hold same subject to our order and notify us of this fact. Under no circumstances are we responsible for any damage beyond the price of the goods. No charge for repairs or expense required for defective goods or occasioned by them will be allowed without our authority. If the goods received from us were represented as perfect and proved defective, the measure of damage will be the price of the defective article in question.

## Responsibility

We are thoroughly responsible, and if you are unacquainted with us or have never done any business with us, all you need to do is to look up our rating in any of the Commercial Agencies or ask your banker. Or, if you want more positive proof, we give you authority to write to the Drovers' Deposit National Bank, Union Stock Yards, Chicago, who are acquainted with us and who will answer any inquiries; provided you enclose a 2 cent stamp for their reply.

We have a paid-in capital stock and surplus of \$1,000,000.00. Any representations that we make will be faithfully lived up to.

## Our Shipping Facilities

We have perfect shipping facilities. Our Chicago plant is located on the line of the Chicago Junction Railway which is a belt line system and connects with every trunk line leaving Chicago. At St. Louis we have railroad tracks running throughout the grounds. We can, therefore, take good care of carload orders. We have railroad tracks laid through our main warehouses and buildings. On account of our large shipping facilities, we can secure the very best rates.

We have a splendid Traffic Department and will be very glad to answer any and all inquiries with reference to railroad matters. If any material received from us reaches destination in damaged condition do not accept same without having the agent mark on the expense bill the extent of the damage, and if you will do this, we will protect all legitimate claims.

# STEEL AND IRON ROOFING, SIDING AND CEILING

The following represent the grades that we have for sale  
at the present time.

## BRAND NEW MATERIAL.

**No. 10.** Light, strictly new, perfect, high grade, semi-hardened steel sheets; the best material ever offered you for the money. The sheets when flat are 24 inches in width and either 6 or 8 feet in length. This material is painted red two sides before shipment. This material when furnished in Corrugated, "V" crimped or Standing Seam is 22 inches in width, and we charge only for the actual size of the sheets ready for shipment.

Price per square:

Flat.....	\$2 00
Corrugated, "V" Crimped or Standing Seam.....	2 10

**No. 11.** Description exactly the same as the No. 10, with the exception that these plates are considerably heavier and are extra hard and suitable for long service.

Price per square:

Flat.....	\$2 25
Corrugated, "V" Crimped or Standing Seam.....	2 35

**No. 12.** We offer you the same grade as the No. 11 roofing noted above, with the exception that it is the highest grade galvanized sheets on the market. They will last a lifetime and no superior covering can be purchased. The sheets are exactly the same size as the Nos. 10 and 11 grades.

Price per square:

Flat.....	\$3 90
Corrugated, "V" Crimped or Standing Seam.....	4 00

**No. 5.** Tinned steel, new sheets, consisting of what is known as Waster sheets. They are irregular in size and of different thickness. We cannot accept orders for specified size sheets. They range about 10x20 inches up to about 20x28 inches. We furnish this roofing in

corrugated or flat only. The sheets are not absolutely perfect, but they will make a first-class grade of cheap roof covering or siding.

Price per square:

Flat.....	\$1 80
Corrugated.....	1 85

**No. 15.** Exactly the same as the No. 10, except that the size of the sheets is 24 inches x 24 inches flat; when corrugated or "V" crimped, 22 inches x 24 inches. It is brand new, painted red two sides.

Price per square:

Flat.....	\$1.75
Corrugated, "V" Crimped or Standing Seam.....	1.85

## BEADED SIDING AND CEILING.

This material is made from the best quality semi-hardened steel sheets, painted two sides. Our cut (page 6) shows the style that we furnish. It is adapted for all purposes such as Public Halls, Warehouses, Factories, Stores, etc., etc.

The sheets when beaded cover 22 inches from center of outside bead, and are furnished in 6 and 8 foot lengths. These beads are small corrugations  $\frac{5}{8}$  inches wide by  $\frac{3}{8}$  inches deep. No special tools are necessary in applying this material. The sheets should be lapped one or two inches at the end and over one crimp at the sides. They can be put on either perpendicular or horizontally, and can be laid directly on studding or boards placed the proper distance apart, or it can be put on over old plaster.

## This Material is Brand New.

Price per square:.....\$2.25

Samples mailed on application.

A Square Means 100 Square Feet.

# Steel and Iron Roofing, Siding and Ceiling—Continued

## SECOND HAND STEEL COVERING.

We also have a limited quantity of good second hand roofing and siding for sale as follows:

**No. 3.** Second hand iron in promiscuous size sheets only, furnished in flat or corrugated. Has an occasional nail hole. Especially adapted for siding purposes. Usually comes in very heavy gauges, running from about 20 to 24. This iron is asphaltum dipped.

Price per square, Flat.....\$2.10  
 " " " Corrugated..... 2.15

**No. 3 1-2.** Second hand iron, exactly the same description as No. 3, but free from nail holes and edges nicely trimmed.

Price per square, Flat.....\$2.30  
 " " " Corrugated..... 2.35

**No. 4.** Second hand galvanized, unpainted. Comes in flat or corrugated only. Promiscuous size sheets. This is a very good roofing, most of it 20 and 24 gauge.

Price per square, Flat.....\$3.10  
 " " " Corrugated..... 3.15

**No. 6.** Second hand steel, asphaltum painted, comes in flat, corrugated or "V" crimped. Sheets are 5½ ft. long by about 2 ft. in width. Made of No. 24 gauge, in good condition.

Price per square, Flat.....\$2.55  
 " " " Corrugated..... 2.60  
 " " " "V" Crimped..... 2.70

## STEEL PRESSED BRICK SIDING.

BRAND NEW.

Made of the best grade of annealed sheet steel, and is an excellent imitation of pressed brick; easy to apply and rich and handsome in appearance. Each sheet is painted red both sides before shipment.

Price per square.....\$2.25

## Extra for Nails, Paint, etc.

All prices on Steel and Iron Roofing, Siding and Ceiling, are made without nails, paint, "V" sticks or tin cleats. We charge extra for these items as follows:

Nails per square.....\$0.06

"V" Sticks for under "V" Crimped Roofing, per square..... .10

Tin Cleats for use in laying standing Seam Roofing, per square..... .10

Dry paint, either Red or Black, per square .05

Ready Mixed Roofing Paint, in buckets of 5 or 10 gallons, Red or Black, per gallon .44  
 In 1 gallon cans, per gallon..... .55

In half barrels of 25 gallons, per gallon. .37

In barrels of 50 gallons, per gallon..... .93

Lead Washers, per square ..... .10

(One gallon of this ready mixed paint is enough for 2½ squares, one coat one side).

## Special Freight Prepaid Notice.

All steel and Iron Roofing, Siding and Ceiling, quoted on pages 8 and 9, except the second hand, described on this page (prices on which are F. O. B. Chicago,) will be shipped freight prepaid to all points East of Colorado, not including Oklahoma, Texas and Indian Territory. Ask for freight prepaid prices to all other points. Do not confuse this proposition with any other section of our catalogue, as all other prices quoted in this book are strictly F. O. B. cars Chicago.

All prices except Roofing, are F. O. B. Cars, Chicago.

**DIRECTIONS FOR APPLYING PRESSED STANDING SEAM ROOFING.**

1. Snip and then turn end locks with jointer by bending one end of sheet up and the other down. Commence laying at right hand corner and eave of building. Flatten right hand cap of first course and lay left hand cap to a chalk line. Let the bottom sheet project over eave and end of building 1 inch or more. Bend down projecting portion of sheet and nail to the end and eave of building, or if there are fire walls turn sheet up 4 to 6 inches, nail securely and counter-flash. Use two cleats on ends and one every 12 or 14 inches on sides. Continue laying the sheets until upper part of roof is reached. If a comb roof, allow 1 inch on one side and 2 inches on the opposite side to form a standing seam along the ridge.

Start next course (with the piece, if any, which was cut from the last sheet laid at comb) with flanges of sheets overlapping the first course, press down, turn the ends of cleats over, and then press the seam together with tongs; this finishes seam. Continue until roof is covered.

The comb is made by turning up one side 1 inch and the other side 2 inches, first flattening standing seam for 6 or 8 inches back from comb. Anchor the 1-inch side with cleats, and then turn the 2-inch side over the 1-inch, fold the cleat back over the top and press together with tongs. This makes standing seam along the comb. Hips are made in the same way after cutting to the right angle.

**HOW TO LAY THE CORRUGATED IRON ROOFING.**

Begin to lay the sheets from the eaves, the first covering the lower left hand corner projecting one corrugation over the side and from 2 to 4 inches over the eaves. Hammer the projecting side corrugation down against the edge of the sheathing, nailing it in place. Nail across the sheet near the eaves through the tops and alternate corrugations.

Place second sheet to the right of the first, lap over one corrugation of the first sheet and with the same amount of eave projections. Nail the sheets where they lap and directly perpendicular through tops of the corrugation and about 8 inches apart. Nail also left to right across the entire length of the roof, then begin at the right to lay the second row in the same manner as first and so continue until the entire roofing is laid.

When nailing across the lower ends of the sheets in the second row, put the nails so they will pass through both the first and second row, etc.

**HOW TO LAY THE CORRUGATED SIDING.**

Begin at the left hand corner in applying the corrugated from base to cornice, giving the sheets from 1 to 2-inch lap at the end and one corrugation lap at the side. Nail side lap every 6 inches and end lap in every other corrugation with  $2\frac{1}{2}$ -inch corrugated, and in every third corrugation with  $1\frac{1}{4}$ -inch corrugated, driving the nails through the top of the corrugation. Care should be taken that the iron is kept a few inches from the ground. It is usually best to have the base-board 6 to 12 inches wide partially covered with plain iron for the bottom.

**HOW TO LAY THE "V" CRIMPED ROOFING.**

This material may be laid over sheathing, shingles, etc., or laid on directly to the rafters. Our Nos. 10, 11 and 12 grades are 22 inches from center to center. It can be used on any roof having a pitch of more than 2 inches to the foot. The ends of the sheets can either be lapped from 1 to 3 inches or put together with lock joint. To make the lock joint, take a pair of tinners' snips and cut in  $\frac{1}{8}$ -inch near the crimp, and on each end of the sheet, turn one end under and one end over, and when placed together on the roof, put the joint down closer.

In laying the material, begin at the left hand corner of the eave and end of the building, and lay the sheets from the eave to the ridge, and nail through the crimp every 8 inches. At the end laps, use four nails to the lap.

**FOR PUTTING ON BRICK SIDING OVER SHEATHING.**

Take a level and chalk line and strike level of the building.

Place a sheet of siding at one corner of the building, allowing the end to extend 2 feet past the corner so that the cross grooves are immediately over the corner, the lower edge of the sheet resting on the chalk line.

Nail the sheet fast to the wall through the grooves sufficiently to hold it fast and to bring it down solid all the way along. Begin at the middle of the sheet to nail and work toward ends and sides, placing nails two or three bricks apart. Never nail through the brick.

Bend the projecting 2 feet around the corner (if projects) with the hands or with a piece of board, using a mallet slightly to bring down any uneven places.

Lay around the building until you meet the commencement. Place the first sheet of the second tier over the first so as to break joints perfectly as in brick work, leaving the half groove at the bottom of the sheet lap over the first and fit closely in the half groove at the top of the first sheet.

# TARRED ROOFING FELT.

## "EAGLE" BRAND PREPARED ROOFING.

Composed of two and three sheets of carefully saturated felt, and between sheets is a layer of water proof, insoluble cement. This combination of felt and cement is forced between steam rollers of great weight, thus making a solid, flexible sheet, with the layers of composition thoroughly combined. It is practically fireproof against sparks and cinders. It can be put on over old shingles, tin, iron or slate roofs, without removing the old roof. It can be applied without previous experience, requiring no special tools. It is 32 inches wide, about 40 feet long, and each roll contains 108 square feet.

Lot No. 2—Two-ply Roofing Felt complete with cement, caps and nails sufficient to lay.	
Price per roll.....	\$1.05
Per roll without cement, caps or nails.....	.60
Lot No. 3—Three-ply Roofing Felt complete with cement, caps and nails.	Per roll.....
Per roll without cement, caps or nails.....	1.25

# VULCANITE ASPHALT ROOFING

**We Offer for Sale the Celebrated  
"VULCANITE ASPHALT ROOFING"**

Owing to the enormous amount of trouble and expense connected with the annual varnishing (or tarring) of roofs covered with felt, the public have for the past number of years been on the lookout for some other cheap roofing material—something which will not require their constant attention.

Since the introduction of Vulcanite Asphalt for Roofing purposes it is universally acknowledged that a great want has been supplied.

Vulcanite Asphalt is the best cheap roofing material known; is extremely durable; is not affected by heat or cold; is easily fixed; is always pliable and flexible; does not stick together in the rolls; is impregnated with, and improved by, superior damp-proof materials which cannot evaporate, and therefore requires no annual varnishing; is superior in texture and more firmly compressed than felt or any similar material. Vulcanite Asphalt does not (like felt) absorb moisture; it cannot, therefore, be affected by the ACTION OF FROST, and consequently preserves a close and even surface.

## Finished with Flint on Both Sides---Fireproof

It is in rolls, each containing 108 square feet, 32 inches wide and 40 feet 6 inches long.

Vulcanite being a bituminous, horn-like and elastic substance, while retaining its elasticity, becomes in course of time of a metallic hardness.

Price per square, including Tin Caps, Nails and one quart of cement for the laps.....

**\$ 1.75**

# GALVANIZED RUBBER ROOFING

**The Highest Grade of Ready Roof Covering Made.  
No Coating Necessary. Practically Indestructible.**

## WATER PROOF--FIRE PROOF--LIGHTNING PROOF

## GALVANIZED RUBBER ROOFING

We are offering you the very best grade of roofing covering ever manufactured. We have an enormous quantity of this material for sale. It is absolutely brand new and put up in original rolls just as it came from the factory. Its base is the best and strongest wool felt obtainable, closely woven and especially made to meet severe roofing conditions. You need have no fear or hesitancy in placing your order with us for this material. It is water proof, weather proof, acid proof, fire resisting, and the best ready-to-lay material manufactured. There is no tar, asphaltum or paper used in its manufacture. Each fibre of this material is completely saturated with acid and fire proof compound, and it is practically indestructible. To give you an idea of its quality we will mail you a sample on request.

Our prices are per square, and not per roll. Do not make any mistake on this point. Unlike most roofing coverings, it does not require a coating after it is on the roof. However, if it is painted about once every three to five years it will last longer.

Put up in rolls 36 inches wide, containing 216 square feet, or enough to lay 2 squares. Each roll complete with nails, caps and sufficient cement to make the laps.

## STRUCTURAL IRON MATERIAL.

When you need any structural iron material, do not purchase until you have given us an opportunity to figure with you. Our dismantling operations are of a very large character, and it is but natural that our stock of such material is extremely heavy. Anything in the line can be had of us on short notice and at very low prices.

Special Work—cutting to length, punching and iron work of any kind—is given close attention. Send us your diagrams and blue prints for our estimates. **Quick Delivery and Low Prices.**

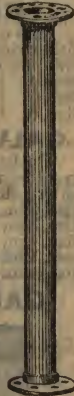

### WROUGHT IRON TUBULAR COLUMNS.

No. 1. Hollow steel columns with cast iron removable caps and bases. In diameters from 3 to 10 inch. Extensively used for almost every purpose. A perfect substitute for cast iron columns. They are hollow, and where desired can be filled with a mixture of concrete, sand and other material, which makes practically a solid stone column with an outside wrought iron jacket.

The average weight per foot, of these columns, is as follows:

Size, inches. ....	3	3½	4	5	6	7	8	9	10
Weight per foot in lbs. ....	4½	6	7½	10	13	18	23	27	35

### WROUGHT IRON COLUMNS WITH SCREWED FLANGES.

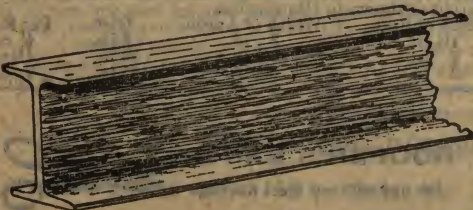

No. 2. A complete stock, in all sizes, from 1½ to 14 inch diameter. This material is put up in first class shape. The columns are thoroughly overhauled and in straight lengths and have new threads with new cast iron flanges screwed on. The flanges have bolt holes punched where desired. We can furnish them in lengths from 3 to 16 ft. The average weight per pound, as follows:

Size in	1½	2	2½	3	3½	4	4½	5	6	7	8	9	10	12	14
Weight ft.	3	4	6	8	9	11	13	15	19	24	29	35	42	52	61

### CAST IRON COLUMNS. Round and Square.

No. 3. A complete stock of cast iron columns, in first class condition, ranging from 4 to 12 inch diameter, and in lengths from about 6 foot up to 16 foot. These columns are of various kinds. In sending your estimate for prices, kindly give us an idea for what purpose you intend using them, and we will send you list of what we have. We cut cast iron columns to length.

### "I" BEAMS.

No. 4. Our stock of I beams include everything ranging in size from 3 to 24 inch, and lengths from 3 to 40 ft. We cut beams to length, also drill to order.

### BEAM PLATES.

No. 5. Beam plates to fit any beam ordered.

### STEEL TRUSSES.

No. 6. Send us sketch of your needs and we will quote low prices.

### IRON STAIR STRINGERS.

No. 7. Like cut, made to order, any length desired. Can be made in any width stringers desired, from 4 to 1 inch. We furnish them complete with brackets for fastening to wood tread, as shown in cut. The iron work only is supplied by us. We will also estimate on platforms.

### CIRCULAR IRON STAIRS, For Banks, Etc.

No. 8. We have three of these in stock at the present time. If interested ask for description.

### STORE FRONTS.

No. 9. Send us memorandum of your wants and we will make you quotations on such as we have that will fill your requirements.

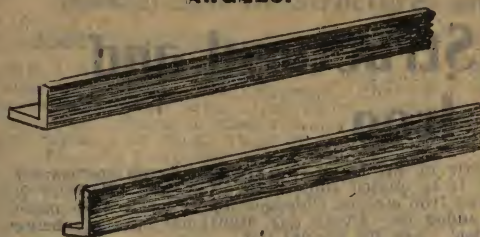

### CHANNELS.

No. 10. Our stock of channels include everything ranging in size from 3 to 24 inch, and lengths from 3 to 40 ft. We cut channels to length and drilled.

**PRICES FURNISHED ON APPLICATION.**

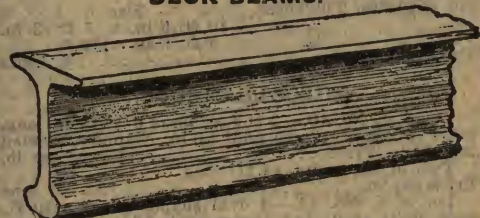

**ANGLES.**

No. 11. We have angles of equal and unequal lengths sizes from  $\frac{1}{2} \times \frac{1}{2}$  to 8x8. Angles cut to length.

**TEES.**

No. 12. From 1 to 5 inch. A complete stock always on hand.

**DECK BEAMS.**

No. 13. Our stock of deck beams include everything ranging from 3 to 24 inch in size, and lengths from 8 to 40 ft. We cut deck beams to length and drilled.

**RAILS.**

No. 14. Light and heavy sectional rails, cut to length, for building purposes.

**STEEL AND IRON PLATES.**

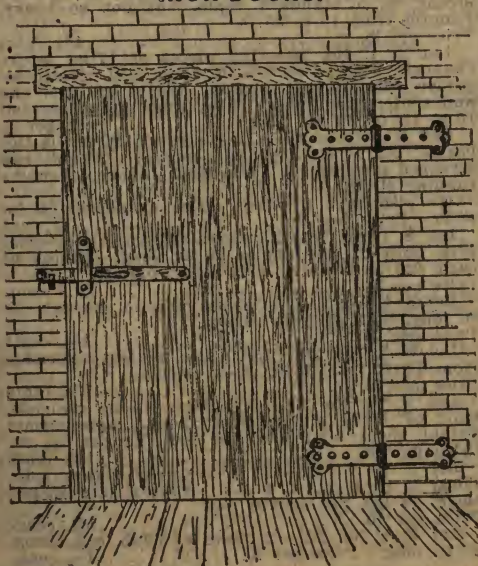

No. 15. Can furnish any size plate desired; thickness ranging from  $\frac{1}{8}$  to  $\frac{3}{8}$  inch. Plates cut to length and special work. Send in your diagram for our estimate.

**IRON RODS.**

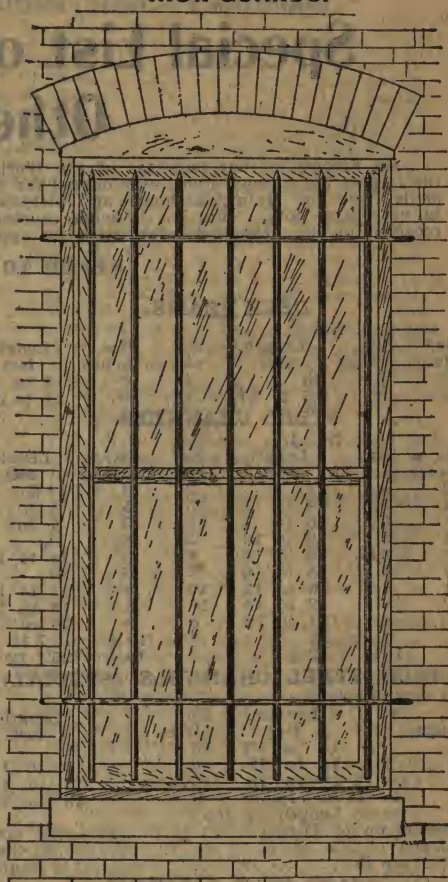

No. 16. All sizes from  $\frac{1}{8}$  to 2 inch, and any length desired. We thread to order and furnish, where wanted, with nuts complete.

**TURN BUCKLES.**

No. 17. All sizes in turn buckles, from  $\frac{1}{8}$  to 2 inch.

**IRON DOORS.**

No. 18. Fireproof iron doors made to order for any purpose.

**IRON GUARDS.**

No. 19. Can furnish anything required in this line.

**HITCHING POSTS.**

No. 20. These hitching posts are made with a flange on the bottom, as shown in cut, and can be bolted on to sidewalk. The posts are 2 to 4 inch diameter and 1, 2, 3, 4 and 5 ft. long.

Length, feet.....	1	2	3	4	5
Price each, 2 in. diam.	\$1.00	\$1.10	\$1.20	\$1.30	\$1.40

" " 4 " "	2.00	2.25	2.50	2.75	3.00

**FANCY CAST IRON POSTS.**

No. 21. We usually have on hand anywhere from 25 to 100 fancy cast iron hitching posts, ornamental. They usually run from 2½ to 4½ ft. They are in first class condition. Prices on application.

**CAST IRON WASHERS.**

No. 22. All sizes. Price 2 cents per lb.

**CAST IRON THRESHOLDS FOR STORE FRONTS.**

No. 23. All sizes. Write us your wants.

**IRON FENCE.**

No. 24. Usually on hand. Send us memorandum of your want.

# Special List of Structural and Other Iron

On account of our purchase of the World's Fair at St. Louis, we are placing on the market the largest list of such items ever offered for sale. It is quoted subject to prior sale. Delivery is made from our Main Warehouse at Thirty-fifth and Iron streets, Chicago. Special prices are made in very large lots. This list is being constantly added to. Every day additional cars are being received by us. Detailed information on application. Ask for special list.

Lot S. I. No. 10.—2 box columns 6 1/2 x 16 ft. long, built of 2 1/2-in. plates and 2-6-in. channels, riveted together. Price ..... 1 cent per lb.

Two of the same, 14 ft. long.

Price per lb. .... 1 cent

Lot S. I. No. 11.—4 oval shaped trusses 40 ft. long, built of 2, 3x3 angles with 12-in. plates 3/4-in. thick. Suitable for bridge support.

Lot S. I. No. 12.—One piece of 18-in. wrought iron pipe, heavy cast flanges, slightly bent. Can be used for culvert.

Lot S. I. No. 13.—8 wrought iron columns, 13 ft. long, built of 8 pieces of 4x4 angle iron, making a column 15 in. square. Riveted together with 8-in. plates every 2 ft.

Three same as above, 20 ft. long.

Price per 100 lbs. .... 80 cents

Lot S. I. No. 14.—5 trusses, built of 3x4 angle iron, doubled, 32 ft. long, 6 ft. high; 6 ft. high at one end and 3 ft. at the other. These trusses are slanting. They are well braced with 3x3 angles and 3/4-in. plates.

Lot S. I. No. 15.—50 pieces of 19-in. lattice beams, built of 3x3 angles with straps 3/4 x 2 1/4 in. wide, riveted 2 ft. apart. There are also 12-in. plates bracing each end and center, making it as strong as a standard beam, but not so heavy. Lengths from 15 to 25 ft.

Price per lb. .... 1 1/4 cents

Lot S. I. No. 16.—100 pieces of 17-in. lattice channels, built of 3x3 x 3/4-in. angle iron, riveted together with 2 1/4 x 3/4 straps. Plates at each end and center for braces. The lengths of these run from 15 to 30 ft. Price ..... 1 cent per lb.

Lot S. I. No. 17.—12 pieces of 22-in. lattice beams, built of 3 1/2 x 5-in. angles, riveted and strapped same as the 19-in. beams above. Lengths running 40 ft.

We also have 6 pieces, same as above, 15 in. wide. Price per lb. .... 1 cent

Lot S. I. No. 18.—25 pieces of 2-in. lattice channels, built of 3x4 angles 20 ft. long. Braced at each end and center with 12-in. plates. Price per lb. .... 1 cent.

Lot S. I. No. 19.—50 pieces of solid channels, 24 ft. long, built of 1/2-in. metal.

Price per lb. .... 1 1/4 cents

Lot S. I. No. 20.—1,000 steel plates, measuring from 12x12 to 12x20, 3/4-in. steel. Price per lb. .... 1 1/4 cents

Lot S. I. No. 21.—50 pieces 15-in. channels, built of 1/2-in. metal, 40 ft. long. Approximate weight about 40 lbs. to the foot, flanges 3 1/2 in. Price per lb. .... 1 1/4 cents

Lot S. I. No. 22.—25 pieces steel plates, 1 in. thick, 2 ft. 6 in. x 4 ft. Approximate weight about 45 lbs. per square foot.

Price per lb. .... 1 1/4 cents

Lot S. I. No. 23.—2 pieces of 60-lb. rail, about 25 ft. long. Price per lb. .... 1 1/2 cents

## Special List of Structural and Other Iron.—Continued.

## MISCELLANEOUS.—Continued.

Lot S. I. No. 24.—25 columns 40 ft. long 15x17 in. square. Built of 15-in. channels. Channels being riveted together with cross plates, making it very strong. Braces of these columns are made of steel plates 1 in. thick,  $2\frac{1}{2}$ x3 ft. square. The above will make a stronger column than a solid iron one. Approximate weight is 100 lbs. per ft. Price per lb. . . . . 1 cent

Lot S. I. No. 25.—1 girder 32 ft. 8 in. long, 40 in. wide, built of 3x5 angles, center is made of  $\frac{3}{8}$ -in. steel plate. Width of girder is 10 in. Braced every 4 ft. with 3x3 angle iron. Price per lb. . . . . 1 cent

Lot S. I. No. 26.—1 girder 38 ft. 8 in., built of 4x6 angles, has  $\frac{3}{8}$ -in. steel plates, 42 in. wide, 12-in. flange. Braced every 4 ft. with 3x3 angle iron. Price per lb. . . . . 1 cent

Lot S. I. No. 27.—4 girders 32 ft. 8 in. long, built of 3x5 angles, with  $\frac{3}{8}$ -in. steel plate in center, all riveted. Face of girder  $10\frac{1}{2}$  in. wide, width 36 in. Braced every 4 ft. with 3x3 angle iron. Price . . . . . 1 cent lb.

Lot S. I. No. 28.—8 steel plates 36 in. wide by 16 ft. long, built of  $\frac{3}{8}$ -in. metal. Price per lb. . . . . 1½ cents

Lot S. I. No. 29.—2 steel plates 18 in. long, built of  $\frac{3}{8}$ -in. steel, 42 in. wide. Price per lb. . . . . 1 cent

Lot S. I. No. 30.—2 plates 16 ft. long, 38 in. wide, built of  $1\frac{1}{2}$ -in. steel. Price per lb. . . . . 1½ cents

Lot S. I. No. 31.—5 girders 36 in. wide by 18 ft. long, built of 3x5 angle iron and  $\frac{3}{8}$ -in. steel plate, width of flange  $10\frac{1}{2}$  in. Braced every 4 ft. with 3x5 angle iron. Price per lb. . . . . 1 cent

Lot S. I. No. 32.—5 steel plates 36x $\frac{3}{4}$  in. thick. Price per lb. . . . . 1 cent

Lot S. I. No. 33.—5 girders 16 ft. long, 24 in. wide, built of 3x5 angle iron and  $\frac{3}{8}$ -in. steel plate, width of flange  $10\frac{1}{2}$  in. Braced every 4 ft. with 3x3 angle iron. Price per lb. . . . . 1 cent

Lot S. I. No. 34.—3 girders 32 ft. 8 in. long, 36 in. wide, built of 3x6 angle iron,  $\frac{3}{8}$ -in. steel plate in center. Braced every 4 ft. with 3x3 angle iron. Price per lb. . . . . 1 cent

Lot S. I. No. 35.—9 steel plates 36 in. wide by 16 ft. long,  $\frac{3}{8}$  in. thick. Price per lb. . . . . 1½ cents

Lot S. I. No. 36.—2 girders 36 in. wide by 18 ft. long, built of 3x5 angle iron,  $\frac{3}{8}$ -in. plate in center. Braced every 4 ft. with 3x3 angle iron. Width of flange  $10\frac{1}{2}$  in. Price per lb. . . . . 1 cent

Lot S. I. No. 37.—1,000 ft. of 5x3 angle iron,  $\frac{3}{8}$  in. thick, in length from 10 to 30 ft. Price per lb. . . . . 1½ cents

Lot S. I. No. 38.—1,000 ft. 4x6 angle iron, running in length from 10 to 40 ft.,  $\frac{1}{2}$  in. thick. Price per lb. . . . . 1½ cents

Lot S. I. No. 39.—3,000 ft. of 3x3 angle iron, 5-16 in. thick. Lengths from 10 to 25 ft.

Lot S. I. No. 40.—1,000 ft. of 4x4 angle iron,  $\frac{3}{8}$  in. thick, from 10 to 20 ft. long. This angle iron has occasional rivet holes.

Lot S. I. No. 41.—2,000 feet galvanized culverts, 12, 14, 16 in. in diameter, 5-ft. lengths. Suitable for running water under sidewalk, etc. Any length desired from 5 ft. up. 12-in. at . . . . . 70 cents per ft.  
14-in. at . . . . . 80 cents per ft.  
16 in. at . . . . . 90 cents per ft.

Lot S. I. No. 42.—50 pieces bent or curved wrought iron pipe, from 8 to 14 in. diameter, 25 to 30 ft. long. Can be used where it is desired to run water on a curve. Price per lb. . . . . 1½ cents

Lot S. I. No. 43.—50 tons of 4, 6, 8, 10, 12 and 15 in. beams, running in lengths up to 8 ft. Price per lb. . . . . 1 cent

Lot S. I. No. 44.—Steel culverts made of  $\frac{3}{8}$ -in. metal lengths, 14 to 20 ft. 500 ft. of 60-in. . . . . \$4.00 per ft.  
500 ft. of 54-in. . . . . 3.50 per ft.  
500 ft. of 48-in. . . . . 2.75 per ft.  
500 ft. of 42-in. . . . . 2.75 per ft.

500 ft. of 30-in. . . . . \$2.50 per ft.  
500 ft. of 26-in. . . . . 2.00 per ft.  
500 ft. of 18-in. . . . . 1.50 per ft.  
500 ft. of 15-in. . . . . 1.25 per ft.  
500 ft. of 14-in. . . . . 1.00 per ft.  
500 ft. of 12-in. . . . . .90 per ft.  
500 ft. of 10-in. . . . . .80 per ft.

Lot S. I. No. 45.—7 gates 18 ft. high 4 ft. wide, built of  $3\frac{1}{4}$  in. rods, very fancy design, circle top. Spear at the top of each rod.

Lot S. I. No. 46.—1 round cast iron column 9 ft. 1 in. long, 10 in. in diameter, built of 1 in. metal. Price per lb. . . . . 1 cent

Lot S. I. No. 47.—Two cast iron columns 8 in. diameter, 9 ft. 3 in. long, built of 1 in. metal. Price per lb. . . . . 1 cent

Lot S. I. No. 48.—6 cast iron columns 8 in. in diameter, 11 ft. 5 in. long, built of 1 in. cast iron. Price per lb. . . . . 1½ cents

Lot S. I. No. 49.—1 cast iron column 5 in. in diameter, 10 ft. 1 in. long, built of  $\frac{3}{8}$  in. metal, slightly bent. Price per lb. . . . . 1 cent

Lot S. I. No. 50.—3 cast iron columns, 7 in. in diameter, 10 ft. long, built of 1 in. cast iron. Price per lb. . . . . 1½ cents

Lot S. I. No. 51.—3 store front columns, 6x6x10 ft. long, built of  $\frac{3}{4}$  in. metal. Price per lb. . . . . 1½ cents

Lot S. I. No. 53.—Two 7 in. of the same description. Price per lb. . . . . 1½ cents

Lot S. I. No. 54.—3 ton of 2 in. angle iron in lengths of  $10\frac{1}{2}$  to 15 ft. Price per lb. . . . . 1½ cents

Lot S. I. No. 55.—1 solid cast iron weight, suitable for elevator weight, 6x8 in. x 6 ft. 6 in. long. Price per lb. . . . . 1½ cents

Lot S. I. No. 56.—In first-class condition, with bracing irons, and rollers on bottom, 3-22 ft. long, complete with winch. Price, each. . . . . 20.00

3-35 ft. long, complete with winch. Price, each. . . . . 35.00

Lot S. I. No. 57.—2,000 ft. of 3x3½ "T" iron by  $\frac{1}{2}$  in. thick. Price per lb. . . . . 1 cent

Lot S. I. No. 58.—400 ft. of 3 in. channel beams, 18 ft. long. Price per lb. . . . . 1½ cents

Lot S. I. No. 59.—10 ton of  $\frac{3}{8}$  in. rod in all lengths, fair condition, only, per lb. . . . . 1 cent

Lot S. I. No. 60.—500 ft. of flat rail, used by lumber and milling companies, about 25 lbs. to the yard. All punched for spikes. Price per lb. . . . . 1½ cents

Lot S. I. No. 61.—1 pipe coil, made of  $1\frac{1}{4}$  in. extra heavy pipe, 6 ft. high, 30 in. in diameter. This coil is round and is well braced with 2x2 angle iron. Has connection at each end.

Lot S. I. No. 62.—1 coil, built of  $1\frac{1}{2}$  in. extra heavy pipe, 24 in. in diameter, well braced with  $1\frac{1}{2}$  in. angle iron. First-class condition. Connections at each end.

Lot S. I. No. 63.—1 pipe coil, built of 1 in. extra heavy pipe, 18 in. in diameter, 4 ft. 8 in. high. Coil is in good condition.

Lot S. I. No. 64.—5 ton of rail, from 12 to 20 lbs., not suitable for relaying. Will answer for building purposes. Price, per lb. . . . . 1½ cents

Lot S. I. No. 65.—10 tons of shafting, running from 1 in. in diameter to 3 in., and in lengths from 1 to 5 ft. Price per lb. . . . . 1½ cents

Lot S. I. No. 66.—Three oval shaped building trusses, 48 in. long, 8 ft. high. Constructed of  $3\frac{1}{2}$ x3½ tees on top, bottom of  $1\frac{1}{4}$  in. round iron. They are braced all the way through with  $\frac{3}{4}$  rod. They are complete with turn buckles and cast iron plates. Weight approximately 675 lbs. Price per lb. . . . . 1 cent

Lot S. I. No. 67.—One steel fire door, complete with rollers, built of  $\frac{1}{4}$  in. steel plate, size 6 ft. wide, 8 ft. high. Price. . . . . \$5.00

Lot S. I. No. 68.—Five iron frames, with hinge connections, 5 ft. 6 in. x 6 ft. 6 in., built of 4 in. x  $\frac{3}{8}$  in. plates on each side, top and bottom of  $1\frac{1}{2}$  in. plates. Price per lb. . . . . 1½ cents

## Special List of Structural and Other Iron.—Continued

### MISCELLANEOUS.

#### Continued.

Lot S. I. No. 69.—Four iron shutters, used for fire protection for windows, 8 ft. 2 in. high, 2 ft. 3 in. wide. These shutters are built of a solid plate  $\frac{1}{4}$  in. thick, complete with hinges and locks. Price, each .....\$3.50

Lot S. I. No. 70.—Six shutters, 8 ft. 3 in. x 2 ft. wide, built of solid plate 1-16 in. thick, complete with hinges. Price, each.....\$3.00

Lot S. I. No. 71.—Three pair of double shutters, 8 ft. high, 4 ft. 4 in. wide. Complete with hinges and locks. Built of 1-16 in. plate, well braced. Oval top. Price per pair.....\$7.00

Lot S. I. No. 72.—10,000 ft. of wire cable, sizes  $\frac{3}{8}$  to  $\frac{7}{8}$  in., in miscellaneous lengths, occasional broken strands. Not guaranteed. Price per ft.....1 cent

Lot S. I. No. 81.—23 ft. of iron fence, fancy cross panel design, 4 ft. high. Posts built of  $1\frac{1}{2}$  in. angle iron; tops are built of 1 in. cross iron; very pretty design. Cast iron rosettes in the center of each panel. Price per ft.....60 cents

Lot S. I. No. 82.—15 iron doors, 3 ft. wide, 7 ft. high, complete with rollers and locks. These doors were used for fire protection in an elevator. There is an opening in each door 25x27 in., which is made for fire-proof glass to go in, making them strictly fire-proof. Also three size 2 ft. 5 in. x 7 ft., two size 3 ft. x 6 ft. 7 in. Price, each.....\$5.50

Lot S. I. No. 83.—Two pieces of 10 in. angles, 8 ft. long,  $\frac{3}{8}$  in. thick. Price per lb.....1 cent

Lot S. I. No. 84.—Sixteen pieces of 12 in. channels, 10 ft. long,  $\frac{3}{8}$  in. thick. Price per lb.....1 cent

Lot S. I. No. 85.—About 200 pieces of "I" beams, running from 6 in. to 3 ft. long, and from 8 to 15. Price per lb.....1 cent

Lot S. I. No. 86.—25 ton of steel wrought rail, measuring in lengths from 3 to 30 ft. and in weight from 12 to 60 lbs. per yard. The above rails are suitable for building purposes, such as sidewalk and foundations for floors and walls. Price per lb.....1 cent

Lot S. I. No. 87.—One piece of 7 in. deck beam, 7 ft. 6 in. long. Price per lb.....1 cent

Lot S. I. No. 88.—17 ft. of 6 in. shaft with a flange coupling on one end, at, lb.....1 $\frac{1}{4}$  cents

Lot S. I. No. 89.—One cast iron stack plate, for 36 in. stack, 11 ft. in diameter, 2 $\frac{1}{2}$  in. thick. Price per lb.....1 $\frac{1}{2}$  cents

#### Lot S. I. No. 90:

8 ft. 6 in. shaft  
10 ft. 5 in. shaft  
10 ft. 9 in. shaft  
12 ft. 8 in. shaft  
14 ft. 6 $\frac{1}{2}$  in. shaft

Price per lb.....1 $\frac{1}{4}$  cents

Lot S. I. No. 91.—One cast iron plate, 6 ft. 6 in. wide, 14 ft. long, 2 $\frac{1}{2}$  in. thick, at, lb.....1 $\frac{1}{2}$  cents

Lot S. I. No. 92.—One piece of cast iron plate, 16 ft. long, 6 ft. 6 in. wide, 2 $\frac{1}{2}$  in. thick.

### THREADED NUTS.

Lot S. I. No. 95.—Tapped, square nuts for machine screws for bolts, size  $\frac{3}{4}$ ,  $\frac{1}{2}$ ,  $\frac{3}{8}$ , 1 inch. Specified sizes, per lb.....4 cents  
Mixed sizes all kinds, per lb.....3 cents

### WASHERS.

Lot S. I. No. 96.—Cast iron washers, sizes  $\frac{3}{4}$ ,  $\frac{1}{2}$ , 1 inch. Specified sizes, per lb.....1 $\frac{1}{4}$  cents  
Mixed sizes, per lb.....1 $\frac{1}{4}$  cents

Lot S. I. No. 97.—Cast iron washers, sizes 1 $\frac{1}{2}$ , 1 $\frac{1}{4}$ , 1 $\frac{3}{8}$ , 1 $\frac{1}{2}$ . Specified sizes, per lb.....1 $\frac{1}{4}$  cents  
Mixed sizes, per lb.....1 cent

### ROUND IRON RODS.

Lot S. I. No. 98.—Threaded and complete with nuts, sizes as follows:  $\frac{3}{4}$ ,  $\frac{1}{2}$ , 1, 1 $\frac{1}{8}$ , 1 $\frac{1}{4}$ , 1 $\frac{1}{2}$ , 1 $\frac{3}{4}$ , 2 inch. Lengths ranging from 8 to 30 ft. Specified sizes, per lb.....2 cents

### MIXED ALL KINDS.

100 lb. lots.....\$1.75 per 100 lbs.  
500 lb. lots.....1.65 per 100 lbs.  
2,000 lb. lots.....1.50 per 100 lbs.  
Carload lots.....1.25 per 100 lbs.

### "I" BEAMS.

Lot S. I. No. 99:  
200-10 in., lengths 15 $\frac{1}{2}$  to 18 ft.  
50-12 in., lengths 15 $\frac{1}{2}$  to 18 ft.

### STEEL PLATES.

Lot S. I. No. 103.—40,000 pounds large steel plates used in building a small city jail. Price per lb.....1 $\frac{1}{2}$  cents

### WROUGHT IRON PIPE.

Lot S. I. No. 104.—Millions of feet ranging from  $\frac{3}{8}$  to 24 inch. Write for prices on your requirements.

### LAG SCREWS.

Lot S. I. No. 105.—100 cases of lag screws, 5-16x3 $\frac{1}{2}$ , 5-16x5, and other sizes, per lb. 5 cents

## SPECIAL IRON WORK.

We can cut beams, plates and other iron to order. We are also able to make you a very low price on any special ironwork. Send us blue prints or sketches for our quotations. We can save you considerable money. It will pay you to come and see us if you are interested in any very large amount of iron material. Our stock is an extensive one and is being constantly added to. In addition to the iron work, we can furnish you with all the general building material you will need in the construction of any building, no matter how large.

## THE U. S. GOVERNMENT BUILDING

### Louisiana Purchase Exposition

### A MAGNIFICENT STEEL STRUCTURE FOR SALE

We own the immense building used at the St. Louis Exposition by the United States Government. It was constructed at an enormous expense. It is built of steel and iron. Its dimensions are approximately 200 feet by 700 feet. Strictly modern in conception. Can be used for an Auditorium, Railroad Terminal, Exhibition Hall, Factory Building or a building of any kind where large clear space is needed. Blue prints, photographs and specifications on application.

**IRON BOLTS—MIXED****ROUND AND SQUARE HEADS**

**Item No. 1.** Mixed bolts; all kinds square and round heads; sizes ranging from  $\frac{3}{8}$  to 1 inch diam. Lengths from 1 to 20 in. new bolts.  
In lots of 50 lbs., per lb.....\$0 03  
" " 100 " " ..... 2½

**Item No. 2.** New bolts, mixed, from  $\frac{1}{4}$  to  $\frac{1}{2}$  in. diameter; lengths up to 18 in.  
In lots of 100 lbs., per lb.....\$0 03  
In smaller quantities, " ..... 3½

**Item No. 3.** Carriage bolts, brand new; sizes  $\frac{1}{2}$  to  $\frac{1}{2}$  inch; lengths up to 3 in.  
Per lb., any quantity.....\$0 04

**Item No. 4.** Bolts bought at underwriters' sale; damaged by water, somewhat rusty, but good for general use. All sizes and kinds mixed.  
In 100 lb. lots, per lb.....\$0 02½  
In smaller quantities ..... 3

At an additional  $\frac{1}{2}$  cent per pound, we will make selection as nearly as possible to your requirements.

**Item No. 5.** Second-hand bolts, from the various expositions and wrecking jobs.  
Sizes  $\frac{3}{8}$  to 1 in. Lengths 5 to 24 in.  
Per 100 lbs .....\$2 00  
Per 500 " ..... 8 00

**WOOD LAC SCREWS****ASSORTED SIZES AND LENGTHS**

	Price per Lb.
Mixed, any quantity, not less than 10 lbs.	\$0 04
In lots of 25 lbs.	3½
" " 50 "	3¼
" " 100 "	3

**WOOD SCREWS**

New wood screws, all sizes and lengths, mixed together, all in perfect condition. In any quantity, but not less than 5 lbs. Lb...\$0 10  
Brass wood screws, all sizes mixed together.  
In any quantity, not less than 2½ lbs. Per lb..... 22

**MIXED RIVETS  
BRAND NEW**

Wagon makers' tinnern's cornice, barrel, shovel, cooper, belt, stove and all kinds. They consist of round, flat, oval heads, etc.; are about  $\frac{1}{8}$  to  $\frac{1}{2}$  in. long. On account of being mixed, we make the following low prices:

	Per Lb.
200 lb. lots	\$0 02
100 " "	2½
50 " "	3
25 " "	3½

**WROUGHT RIVETS**

3 tons of new round head boiler makers' rivets.  
Size  $\frac{3}{4}$  in., length 3 in. Per lb.....\$0 03

**WE ARE QUOTING LOW PRICES ON GARDEN TOOLS ELSEWHERE IN THIS BOOK**

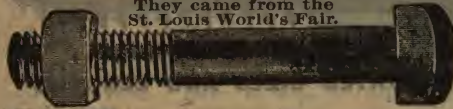

# A SPECIAL SALE OF BOLTS.

The following bolts are offered at extremely low prices for quick acceptance. These bolts are in some instances rusty, but are good for use. ORDER BY NUMBER.

## SECOND HAND STANDARD BLACK PIPE.

For Steam, Water, Gas and Oil. It is of a second-hand nature, but is thoroughly practical for further use. It is all carefully inspected before shipment, being re-threaded, oiled and complete with couplings. It comes in random lengths, up to about 20 feet. We make an additional charge when ordered in special lengths, as noted below.

Pipe ordered cut to specified lengths, is not furnished with couplings.

Size Inside Diam.	Approximate Weight Per Foot	Black Pipe Price Per Foot	Size Inside Diam.	Approximate Weight Per Foot	Black Pipe Price Per Foot

## EXTRA HEAVY BLACK WROUGHT IRON PIPE.

### SECOND HAND—IN GOOD CONDITION.

For Ice Manufacturing, High Steam Pressure, etc.

Size Inside Diameter	Approximate Weight Per Foot	Price Per Foot
inch	lbs	
1	1 1/2	\$0.05
1 1/2	3 1/2	.08
1 3/4	5	.11
2	6	.14

## CUTTING PIPE TO LENGTH.

We make the following additional charges for threading and cutting pipe to special lengths; price quoted is per thread. Couplings for special lengths pipe will be charged for extra.

Size, Diameter	1	1 1/2	2	2 1/2	3	3 1/2	4	5	6	7	8	9
Price, per thread	3c	4 1/2c	4 1/2c	5c	9c	10c	14c	20c	40c	44c	60c	70c 90c

## Second Hand Wrought Iron Casing.

This list represents our second-hand casing, suitable for use for all purposes where standard pipe is used; also for well casing. It is all in good condition, practically free from rust, and in long lengths. Has standard casing threads (14 to the inch) and has new threads.

Nominal Inside Diameter, Inches.	Outside Diameter, Inches.	Nominal Weight Per Foot, Pounds.	Price, Per Foot.
2	2½	\$ 2.22	\$0.07
2¼	2½	2.82	.08½
2¾	3	3.45	.10
3	3¼	4.10	.12
3¼	3½	4.45	.14
3¾	4	5.56	.18
4¼	4½	6.36	.20
5¾	6	10.46	.30

### FLANGED.

Same as described above, with the exception that instead of having threaded end and couplings, it is furnished with two cast iron flanges to each length expanded on the casing, and is furnished complete with flanges, bolts and nuts at the following prices:

3½ inch.....	15c	5 inch.....	25c
4 " .....	19c	6 " .....	38c

### LARGE FLANGED PIPE.

We offer for sale several carloads of wrought iron pipe, ranging in size from 6 to 18 inch diameter. It is fitted with cast iron flanges riveted on the pipe. Write us for information, stating your wants.

### STEEL TUBES.

For Many Uses.

These tubes are second-hand, but we pay much time and attention in thoroughly overhauling them, shipping only such tubes as are practical for further use. They have straight ends and are oiled. They are extensively used as hitching posts, columns, etc. Lengths 8 to 16 feet. These tubes are not suitable for retubing boilers. We are making low prices on first class boiler tubes. Write for our prices.

WE CAN CUT THEM TO ANY LENGTH DESIRED.

Outside Diameter Inches	Approximate Weight Per 100 Feet	Price Per Foot
2 .....	191 .....	\$0.06
2½.....	275 .....	.07
3 .....	333 .....	.08
3½.....	428 .....	.10
4 .....	547 .....	.12

WE ALSO HAVE A COMPLETE STOCK OF TUBES FOR RETUBING BOILERS. WRITE FOR PRICES.

## RIVETED IRON PIPE

This is extra strong pipe, made up special for this special work. Most of it was used in the piping of the Cascade at the St. Louis World's Fair. It was taken out in fine shape and is as good as new for further use.

No. of feet.	Size.	Thickness.	No. of feet.	Size.	Thickness.
23.....	90-inch	5-16-inch	294.....	50-inch	5-16-inch
27.....	74-inch	$\frac{3}{8}$ -inch	28.....	40-inch	5-16-inch
26.....	52-inch	$\frac{3}{8}$ -inch			

## SPIRAL RIVETED PIPE

The following is an approximate list of what we have of this material:

No. of feet.	Size.	Thickness.	No. of feet.	Size.	Thickness.
400.....	36-inch	$\frac{1}{4}$ -inch	582.....	20-inch	3-16-inch

1750.....	11-inch	No. 16 Iron	1750.....	10-inch	No. 16 iron

### 1½-INCH IRON PIPE.

No. 948-A9. 10,000 feet 1½-inch, inside diameter, Iron Pipe; light weight. Approximate weight, 175 pounds to the 100 feet. We cannot thread it. Lengths, 16 to 20 feet. In air condition only, more or less pitted. Suitable for railing, separators, and general purposes.  
Per foot, ..... 3 cents.

### LARGE SIZES CURVED PIPE

No. 948-A10. Two carloads wrought iron flanged pipe, sizes 6, to 18-inch. Bent special.

Diagrams sent on application.

### 16-IN. HEAVY HYDRAULIC WROUGHT IRON LAP-WELDED PIPE, CAST IRON FLANGES.

No. 948-A3. Suitable for a working pressure of 800 pounds. This pipe was, all tested to 2,000 pounds pressure per square inch.

Flanges, 2½-inch thick, tongue and grooved, 25-inch diameter.

Outside diameter pipe....16 inches.

Inside diameter pipe....15 inches.

Approx. Wgt. per ft....70 pounds.

Thickness..... $\frac{3}{8}$ -inch.

### WROUGHT IRON-LAP WELDED PIPE

Cast Iron Threaded Flanges.

#### No. 948-A4.

Sizes Inside Diameter. Inches	Approximate Weight Per Foot	Price Per Foot
10	40	\$1.10
12	49	1.35

### SPECIAL 20-INCH O. D. PIPE

No. 948-A5. 1,000 feet of finest quality wrought iron lap-welded pipe, in 13-ft. lengths. Built for a special process plant. This pipe has a 1-inch plug at each end, separating an extra pipe, 18-inch O. D., which lines the 20-inch pipe. It is tapped on both ends to take off the product. It is fitted with heavy cast-iron flanges. It has the appearance of a 20-inch O. D. pipe, 17-inch inside diameter. Both runs of pipe are  $\frac{3}{8}$ -inch thick. It is good as new. We will also quote this pipe with the 18-inch pipe removed.

### CAST IRON SLEEVE FOR TUBING

No. 948-A11. Sleeve for use in greenhouse and other heating. Lengths about 4½-inch.

For tubing—size, inches...	3	4	6
Price, each .....	7	8	11c

### STEEL TUBING

No. 948-A8. Seconds—that means not steam tight—some of it has split in the seam. It is suitable for low pressure, concrete work, columns, culverts, drains, etc., etc. Average lengths, 20 feet; plain ends, we do not thread it.

## MALLEABLE IRON RAILING FITTINGS.

PLEASE READ WITH CARE:

To construct a railing two pipes high, the upper outlet of all Fittings used in lower pipes should be tapped with *Left Hand Thread*, but when orders are sent us without specifying how outlets are to be tapped, All Fittings will invariably be furnished right hand

As the fittings do not need to be steam or water tight a sufficiently clean thread to screw up well and make a good job can be made by running a left hand top into any outlet tapped right hand

In ordering these fittings describe by number and size

Prices quoted are for Right Hand only.

### WATER GAUGES.

Brand New.

With brass body, iron wheels and two guards to protect glass tube; prices are for gauges complete, as shown in illustration.

Size connection 3/4 inch, glass 1/2 x 10.	
Price, each.....	\$0.85
Size connection 1/2 inch, glass 3/4 x 12.	
Price, each.....	\$0.90

With four guards, finished body.

Size connection 1/2 inch, glass 3/4 x 12.	
Price each.....	\$1.30
Size connection 3/4 inch, glass 1/2 x 16.	
Price, each.....	\$2.00

## Brand New Leader Injectors.

### DESCRIPTION.

It has no movable parts in its internal construction; no loose valves, rings or springs to get out of order, and embodies simplicity, durability, neatness of design, great range of work under the various conditions required of injectors, high or low steam, long or short lift, without any adjustment or change of tubes, or Globe Valve in Suction Pipe.

Will lift water from well or stream, heating and forcing into boilers at about 200 degrees temperature, whether engine is running or not. Operated by one lever; will lift water from 1 to 22 feet vertically, horizontal distance not so important when Suction Pipe is air tight.

Every Injector Tested and Fully Guaranteed.

V96. 2-3 inch water gate valves	3.50
V97. 1-4 inch water relief valve, Am. Underwriter Co.	15.00
V98. 1-4 inch hub end gate (Henry)	5.00
V99. 1-7 inch flanged angle, blank flanges	13.50
V100. 1-4 inch electric alarm valve, Neranger Pat.	10.00

### BACK PRESSURE VALVES.

V101. 1-2 1/2 inch, threaded	\$ 2.60
V102. 3-3 inch, threaded	3.00
V103. 2-4 inch, threaded	4.50
V104. 4 1/2 inch, threaded	5.70
V105. 5 inch, threaded	6.70
V106. 6 inch, threaded	8.60

### QUICK OPENING GATE VALVES.

V107. 4-6 inch, flanged, double disc, Scott Valve Co.	\$ 8.00
V108. 4-10 inch, flanged, single disc for light pressure, Scott Valve Co.	5.00

### TRAPS.

V109. 2 Anderson traps, No. 5, 200 lb. pressure, 1 1/2 in. openings	\$25.00
V110. 1 Kieley trap, 8 in. dia., 200 lb. pressure, 1 in. openings	10.00
V111. 1 Cookson trap, No. 4, 1 1/4 in. openings	18.00
V112. 1 Emergency trap, Wrightman Co., No. 3, 1 in. inlet and 1 1/2 in. outlet	12.00
V113. 1 Kieley, 200 lb. pressure, 1 in. openings	10.00
V114. 1 Cookson, No. 6, 1 1/2 in. inlet and 2 in. outlet	35.00
V115. 7 No. 6 Cookson steam traps, 2 in. inlet, and outlet, by-pass, water glass connection and glass	35.00

V116. 1 No. 3 Morehead steam return trap, 1 1/2 in. connections, capacity 9,000 square feet radiation	75.00
---	-------

V117. 3 Automatic boiler feeds, 1 in. connections	10.00
---	-------

For low pressure steam boiler. They are governed by a float and where city water pressure is higher than boiler pressure they will automatically admit water to the water line of the boiler.

V118. Bundy separator, 8 in. flanged	40.00
V119. 15-12 inch single disc gate valves, flanged for light pressure	17.50

### FLANGED GATE VALVES WITH BY-PASS.

Lot No.	Price each.
V120. 1-10 inch, C.C., 500, 2 inch by-pass, tongue and groove flanges	\$30.00
V121. 2-10 inch, C.C., 500, 2 inch by-pass, plain flanges	30.00
V122. 2-10 inch, Ex. Hvy. Eaton, 2 1/2 inch, by-pass, tongue and groove flanges	30.00
V123. 1-10 inch, Ex. Hvy., Mattern, 2 inch, by-pass, plain flanges	30.00
V124. 3-10 inch, Ex. Hvy., Chapman, 1 1/2 inch, by-pass, tongue and groove flanges	30.00
V125. 3-12 inch, Ex. Hvy., Crane, 2 1/2 inch, by-pass, pl'n flanges	40.00
V126. 1-12 inch, Ex. Hvy., Crane, 2 1/2 inch, by-pass, tongue and groove flanges	40.00
V128. 2-14 inch, Ex. Hvy., Eaton, 3 inch, by-pass, tongue and groove flanges	75.00
V129. 4-16 inch, Ex. Hvy., Eaton, 4 inch, by-pass, tongue and groove flanges	80.00
V130. 1-18 inch, Ex. Hvy., Eaton, 4 inch, by-pass, tongue and groove flanges	100.00

### GATE VALVES.

V131. 9-8 inch, Ex. Hvy., Chapman, tongue and groove flanges	\$30.00
V132. 7-12 inch, Standard Chapman, plain flanges	23.00
V133. 2-12 inch, Standard Mich. B. & I. Wks., plain flanges	23.00
V134. 1-12 inch, Standard Mich. B. & I. Wks., with companion flanges	25.00
V135. 2-10 inch, Standard Mich. B. & I. Wks., threaded indicator	20.00

### QUICK OPENING GATE VALVES, FLANGED.

V136. 20-12 inch, Scott, single disc, tapped 1 1/2 inch on bonnet	\$15.00
V137. 4-12 inch, Eddy single disc, with companion flanges	12.50

### HUB GATE VALVES, FOR CAST IRON WATER PIPE.

Manufactured by Rensselaer Co., Troy, N. Y.

V138. 20-4 inch	\$ 4.00
V139. 4-6 inch	6.00
V140. 3-8 inch	10.00
V141. 1-10 inch	16.00
V142. 4-12 inch	22.50
V143. 1-24 inch	120.00

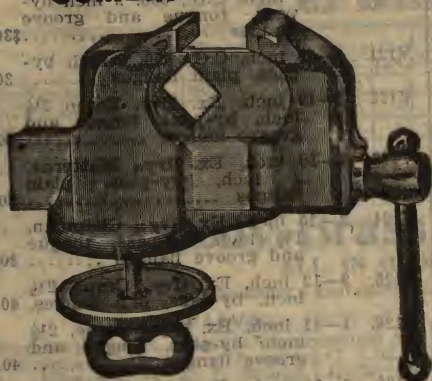

As the work of dismantling the Exposition progresses, we will have a great many more valves, ranging up to 36 inch. Write us for anything in the valve line.

# HIGH GRADE PIPE STOCKS AND DIES.

WE ALWAYS HAVE THEM ON HAND.

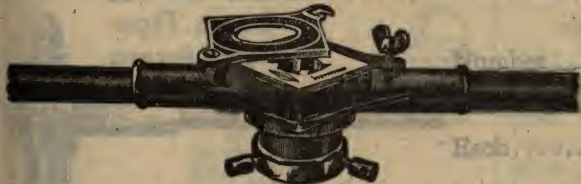

The dies used in these outfits are the "Q." and "E." Dies, they combine the advantages of durability and easy cutting.

STRENGTH AND SUPERIOR CUTTING QUALITIES are gained by the use of the right material in the right place, in such proportions as the severe nature of the work requires. This is accomplished in the Q. and E. Dies by uniting the BEST TOOL STEEL for cutting edges with a low grade, non-hardening body.

The Steel Sections or Chasers, are placed at an angle that long experimental work has determined to be the correct position for free and easy thread cutting. We confidently recommend these Stocks and Dies to the trade and users as the most substantial pipe threading outfits manufactured.

## MALLEABLE IRON PIPE STOCKS WITH Q. & E. DIES.

No.	Dimensions of Dies	Pipe Sizes of Dies	Stock Complete with R. H. Dies

Each set packed in a nice varnished hardwood box.

THESE TOOLS ARE FULLY GUARANTEED.

## TRIMO PIPE WRENCHES.

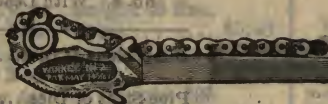

This wrench is drop forged from bar steel, is interchangeable in all its parts, and has no wooden handle to break. Does not lock upon the pipe, but releases its hold readily. Grips the pipe firmly without lost motion. Does not crush the pipe nor slip. The movable jaw and the nut are made with a round top and bottom thread, guaranteed not to strip or burr. An inserted jaw is placed in the handle, which can be renewed for little expense when dull or worn.

# BOILER TUBES

## FOR RETUBING PURPOSES

We offer below an opportunity to purchase the finest selected Boiler Tubes at prices that mean an enormous saving to you. These Tubes are carefully inspected before shipment and we guarantee them absolutely satisfactory for retubing boilers of any kind.

We ship them forward with the understanding that you will be satisfied with them, and give you the privilege upon inspection, to return them to us provided you do not find them up to our representations, and you can return them then at our expense for freight.

We cut these tubes to length. They have square ends, are straight, and are practically free from rust and scales.

## Float Valves

"Enterprise" Reversible Float and Outlet Valves for automatically controlling the flow of water in reservoir tanks, cisterns, stock tanks, etc. The only positive closing float valve in use. Equally effective under high or low pressure. Valve opens with the flow instead of against it. Will not chatter. Has brass valve seat. Valve will not stick. Is not injured by freezing as all plug valves are. Pressure is resisted by pivot bolt arch instead of the buoyancy of float. By reversing the lever a perfect working outlet valve is obtained.

## Eureka Cylinders

No. 318. This Cylinder is made of seamless drawn brass tubing and fitted with perfection check valve, far more durable than the poppet valve used in other makes of cylinders. It is set in place after the well is made, using the setting tool attached to the drill rod to crowd it down to its place. The Dog Spring Coupling holds firmly to the walls of the inside of pipe or well casing, while the Cylinder proper is revolved by the setting tool as it screws down on the coupling, expanding the rubber packing between the Cylinder and coupling and locking it to the pipe. It may be attached to the screen point in the same manner. Printed directions for use sent with each cylinder. Size of well, 2 inches. Inside diameter, inches, 1 1/8.  
Price, Cylinder Complete..... \$2.25  
Seating tools for above..... .025

## COMBINATION PLIERS.

P 0013.

The handiest tool in existence.

Combination pliers, made of best grade tool steel, have both flat and pipe jaws adjusted with 2 clutches and will grip up to 3/4 inch gas pipe. One handle is extended into a finely tempered screw driver. They are sharpened between jaws, making a wire cutter. These pliers are handsomely nickel plated.

6 inch.....\$1.00

10 inch.....\$1.25

WE CARRY AN ENORMOUS STOCK OF PLUMBING SUPPLIES.

# Greenhouse Heating Apparatus.

## Boiler Flues for Piping.

We carry a large stock of material suitable for heating greenhouses. In heating greenhouses the consideration of the cubical contents may be overlooked, as the glass exposure is so great as to constitute almost the sole cause of loss of heat. We do not consider steam in a greenhouse as good as hot water, but it has some advantages in very large greenhouses. We would, however, never recommend steam for houses having less than 2,000 square feet of glass.

In a hot water greenhouse heating system, the best thing to use for radiation is 4 inch pipe. It contains one square foot of heating surface to each lineal foot of pipe, and there is such a large volume of water held in this pipe that it is a safeguard against sudden atmospheric changes on the outside. All things considered, we consider 4 inch boiler flues the finest of all pipe to use for greenhouse heating. We furnish these boiler flues in random lengths from six to twenty feet each. They are joined together with sleeve couplings, as we show in the above illustration with calked joints. These sleeve couplings are made of larger diameter wrought iron pipe so that there is no danger of splitting them even though they are tightly packed. These boiler tubes are used in connection with cast iron greenhouse fittings with hub ends, as we show elsewhere in this catalogue.

Price for specially selected boiler tubes in random lengths, thoroughly cleaned, with sleeve couplings.....15 cents per foot

Price for the boiler tubes only, without the sleeve couplings.....10 cents per foot.

Boiler Flue with sleeve coupling.

## SPECIALY THREADED BOILER FLUES.

We are also in a position to furnish these boiler flues with special casing thread, and with threaded couplings, so that they can be made up the same as threaded pipe is, made and can still be used with the calked joint greenhouse fittings at the end of the run. These boiler flues are practically the same strength as wrought pipe. They are lighter and are furnished for much less money.

Price, 3/4 inch, threaded as above, including the couplings, per foot.....\$0.13

Price, 4 inch, threaded as above, including the couplings, per foot.....17.

## GREENHOUSE HEATING BOILERS.

We have two hundred boilers on hand, suitable for greenhouse heating, in the following types:

Cast Iron Sectional Boilers, Locomotive Fire Box Boilers,

Horizontal Tubular Boilers, Kroeschell Greenhouse Boilers,

Herbert Return Flue Boilers.

Price on these boilers quoted on application.

## COMPLETE GREENHOUSE HEATING PLANT.

If you will send us a sketch of your greenhouse, showing the location of the benches, preferred location for the boiler, location of the door, etc., we will figure up for you a complete greenhouse heating plant, all the pipe, pipe fittings required, the boiler, with or without smokestack, and all the valves, etc., to install the complete plant and make you a special quotation.

Ask for prices on Greenhouse Sash—For Pipe cut to length for posts—For Rubber Hose, all sizes—For 4 inch Sky Light Glass, suitable for greenhouse work.

# HEATING STEAM AND HOT WATER

## THE SIZE OF THE PLANT YOU WILL NEED

In heating buildings by Steam and Hot Water, the amount of Boiler Surface and Radiation required depends largely on the kind of building, its location, and the following conditions: Whether building is protected or isolated; whether stone or wood; amount of Glass Surface to space to be heated, and also largely upon the exposure of rooms.

Without this information it is impossible to correctly estimate the amount of Radiating surface and the size Boiler required.

We give below results that will be obtained by averaging the different existing conditions. By actual experience, and the different existing conditions, the following rule has been found to give entire satisfaction in the coldest weather, and will give you a temperature of 70 degrees in zero weather.

	Sq. Ft. of Radiation will heat	
	LOW PRESSURE	HOT WATER.

IF YOU WOULD PREFER TO HAVE US ESTIMATE the heating plant for you, including the size boiler, amount of radiation for each room, amount of pipe, fittings, valves, etc., required for the complete plant, it will be necessary for you to furnish us with a plan of your house, showing size and location of the rooms, height of the ceilings and number of windows in the rooms. Indicate on this plan the points of the compass; give us height of the basement underneath, indicate on the plans whether your house is a warmly built one or not, and what the rooms are used for.

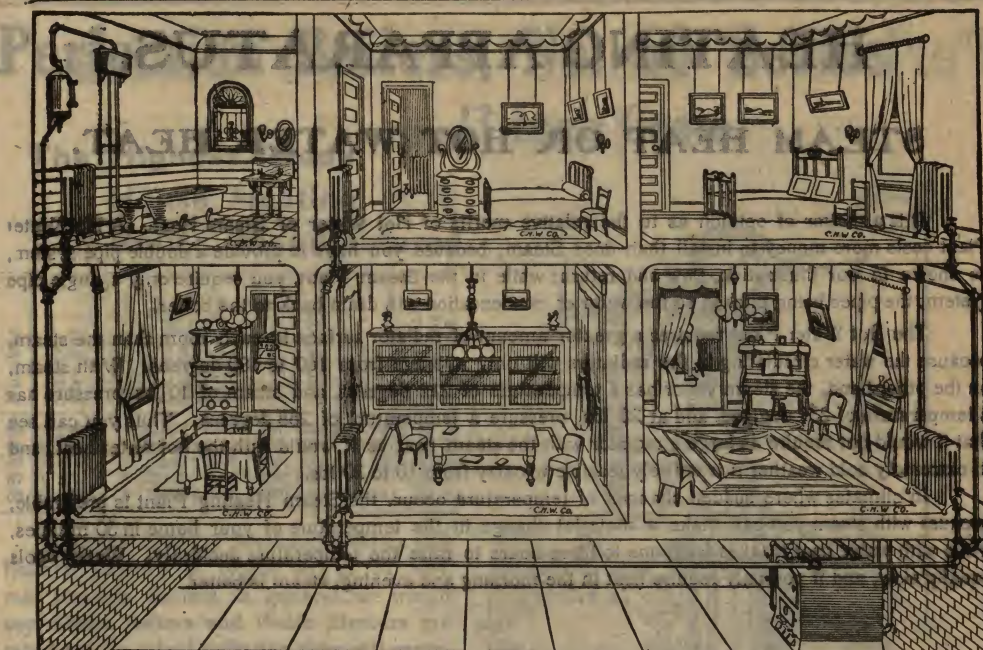

Also, tell us whether your chimney has good draught, or whether the draught is rather impeded.

On receipt of plans and information as asked for above, we will make up for you a complete and detailed estimate of all that will be required to install either the steam or hot water heating plant in your building.

On application, we will furnish with your order, complete specifications and working plans covering the installation of either a steam or hot water heating plant; so that any man handy with tools can install the same.

**We Especially Invite You to Call and Visit Us when in Chicago.**

We carry in stock Steam and Hot Water Heating Apparatus of every kind. We are in position to save you money on the heating of any building for any purpose. If you have a Home, Store, Church, Club House, Office, Hotel, Factory, a Brooder House, Greenhouse, or in fact a building of any kind requiring heat, you will find our Hot Water or Steam Heating Plants the least expensive and the most satisfactory. They can be installed in any old building, or in any new building that is being erected. The installation of one of these plants in a completed building will not tear up the building a particle.

With our up-to-date methods we can show you how to install such a plant without calling into your service an experienced steam fitter. Any man who can cut pipe, thread it and screw it together is competent to install a heating plant with the aid of our comprehensive working drawings and instructions. If you have no tools, we will loan you a complete set.

The illustration above shows one of our Modern Hot Water Heating Systems installed in any ordinary residence of 7 rooms with two halls.

### HEATING PROPOSITION NO. 1. HOT WATER.

We will furnish you with a complete Hot Water Heating Plant for an average size two-story residence, figuring the first floor with a nine foot ceiling and the second floor with an eight foot ceiling. The Parlor and Sitting Room of average size 12x15, the Dining Room 12 feet square and the hall 8 feet wide 20 feet long. The Bed Rooms up-stairs one of them 12x12 and the other 10x12, and an 8x8 bath room.

The apparatus will consist of one of our new modern Cast Iron Sectional Boilers with a capacity of 500 feet of radiation. This boiler has a large deep fire pot, and occupies small floor space. The heater is a special design and is offered you without hesitation as the most economical heater on the market. Many salient improvements over other cast iron sectional heaters have been made on it. We guarantee it will give you absolute satisfaction.

This heater is of splendid design. It is made in the best manner and each section is thoroughly tested before it is put together. It is very economical for the reason that the consumption of fuel is absolutely perfect, owing to the depth of the fire pot. There are no waste gases. In any temperature, except the most severe weather, the boiler would not need firing oftener than twice in 24 hours. It is made with the most improved style of draught doors and checks. It is controlled in the living rooms above by means of a draught door chain.

Should future enlargements of your home necessitate the increase of your heating plant, you can get additional sections for this boiler and set them in at little expense.

There are seven highly ornamental three column pattern, Cast Iron Sectional Radiators, together with seven Hot Water Quick Opening Radiator Valves, nickel plated all over with union; seven Hot Water Radiator Union Elbows, nickel plated all over; seven Nickel Plated Compression Radiator Air Valves; and an Expansion Tank, complete with gauge cocks, water glass, guard rods, etc. Includes also all the necessary piping, running the mains in the basement with 2 inch pipe, and making connection to the radiators with the right size pipe throughout. The necessary Asbestos covering to cover all the mains in the basement, and Asbestos cement to be mixed into mortar to make a covering for the boiler, and all the fittings on the mains in the basement, and all the necessary fittings, such as elbows, tees, nipples, unions, couplings, etc., to install the entire plant, together with pipe hangers for hanging the mains, and floor and ceiling plates for all the pipes that would pass through the floor and ceiling.

We furnish working drawings and instructions so that any ordinary mechanic can install the plant.

**Our Special Price for all the Material, \$200.00.**

# HEATING APPARATUS.

## STEAM HEAT OR HOT WATER HEAT.

It is a matter of opinion as to the relative merits of Hot Water or Steam Heat. A Hot Water Plant costs more money to install than does Steam, because you have to provide a double pipe system, as shown in our illustration, flow and return; while in the Steam Plant, you require only a single pipe system, the pipes being pitched so the water of condensation will drain back to the boiler.

The Hot Water Plant requires a greater amount of radiator surface in each room than the steam, because the water circulating in the radiators will only average from 160 to 180 degrees. With steam, on the other hand, the steam vapor has a temperature of 212 degrees, and steam of 10 lbs. pressure has a temperature of 239 degrees, and at 20 lbs. pressure a temperature of 258 degrees. Thus you can see that it would not require as large a radiator with the steam heat as it would with the hot water heat, and in extremely cold weather it is entirely feasible to carry from 10 to 20 lbs.

In climates where sudden changes of temperature occur, the Steam Heating Plant is preferable, because with steam you can make a material change in the temperature of your home in 30 minutes, while with water heat it takes from one to three hours to raise the temperature decidedly. Water cools equally slow, and if you only require heat in the morning and evening, steam is better.

### HEATING PROPOSITION NO. 2. STEAM.

We make the following offer for the necessary material to heat with steam a home as outlined in our Hot Water Proposition.

The boiler will be practically just the same in every way as the one described for water, with the addition of a full set of steam trimmings, including an Automatic Diaphragm Damper regulator that will automatically control the draughts to maintain any pressure at which it is set. The boiler pressure operates on this to open or close the check doors. Pressure gauge, safety valve, etc.

We will supply a cast iron sectional boiler with seven cast iron radiators, seven nickel-plated Jenkins' Disc Radiator Valves, and all pipe and pipe fittings, such as elbows, tees, nipples, unions, hangers, floor and ceiling plates, etc. sufficient to install the plant, together with pipe covering to cover all of the mains in the basement, and asbestos cement to make a covering for the boiler.

**Our Special Price for All the Material.....\$165.00**

### MERITS.

It is hardly necessary for us to enter into a statement of facts as to why Steam or Hot Water Heat is superior to any other kind. You do away with the dirt such as you accumulate by using a stove, furnace or grate. You can at all times maintain an evenly distributed temperature. With a furnace, on the other hand, it is impossible to heat a room on the windward side of your house when a strong wind is blowing. Enough air will blow in around the windows to force the ascending warm air back down the stack. The strongest wind cannot affect the circulation of either steam or water in a pipe. No danger of coal gas. The greatest argument of all is the tremendous saving in fuel. A Steam or Hot Water Plant will provide as much heat with six (6) tons of coal as a furnace will with ten (10) and distribute it much better. Any kind of fuel can be used in our heating plants. You can turn off the heat at any radiator without affecting the circulation to the balance of the system.

**Send us your lumber bills for our estimate; we can save you**

**from 30 to 50 per cent.**

**Our Special Price for All the Material.....\$200.00**

# Perfection Boilers, No. 60 Series

## 13 Inch Grate.

### The Highest Grade

### House Heating

### Boiler Manufactured.

Number	Size of Fire Pot	Size of Smoke Pipe	Floor Space Including Smoke Box	Tappings at Flow and Return	Direct Water Radiation	Direct Steam Radiation	Price for Water	Price for Steam with Trimmings Complete
64	13x12	7	22x23	2-2	300	150	\$ 45 00	\$ 52 50
65	13x15	7	22x27	2-2	400	225	60 00	67 50
66	13x18	7	22x31	2-2	500	300	75 00	82 50

68	13x24	8	22x39	2-2	700	450	105 00	112 50

Concerning these Sectional Heaters and Boilers shown on pages 53 to 57 and our Heating Boilers in general, we would say, Steam Boilers and Water Heaters are rated for the actual radiation they will carry, including all flow pipes, return pipes and risers.

In estimating the size of Boiler, a liberal allowance should be made for the radiation from the flow and return pipes and fittings; good practice puts this at from 20 to 25 per cent.

If the main flow and return pipes are not covered, the loss of heat per square foot is much greater than is given off by the radiators, and provision should be made accordingly.

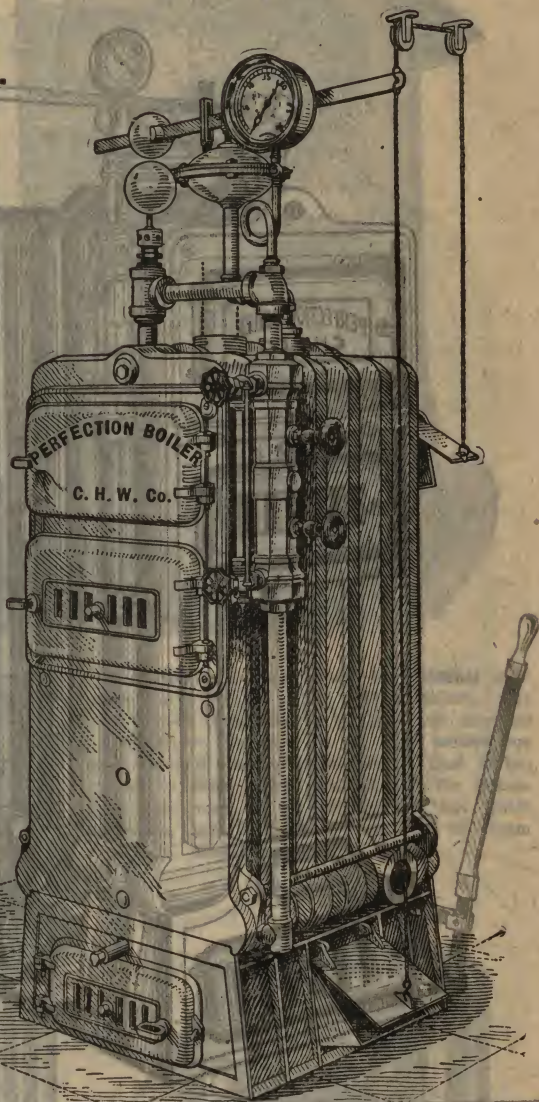

All Boilers must be attached to a chimney of sufficient size with a good draft, and must not be less (round or square) than given in the list for the Boiler specified; they must also be of ample height above the highest part of the building, and such chimney must be used only for the Boiler, otherwise our guarantee is void.

Our Boilers are guaranteed only to the extent of furnishing new castings for any found defective in manufacture.

The listed ratings are conservatively made and in accordance with accepted standards, but on account of the varying conditions surrounding the installation of Boilers, great care is necessary. See that all conditions are properly provided for.

When a pipe coil is introduced in the fire box of a Boiler, or a steam coil is placed in a tank for the purpose of heating water for domestic use, additional capacity must be provided when determining the size of Boiler required, as follows: Two square feet of radiation for hot water, and  $1\frac{1}{4}$  square feet of radiation for steam for each gallon of water heated  $50^{\circ}$  per hour.

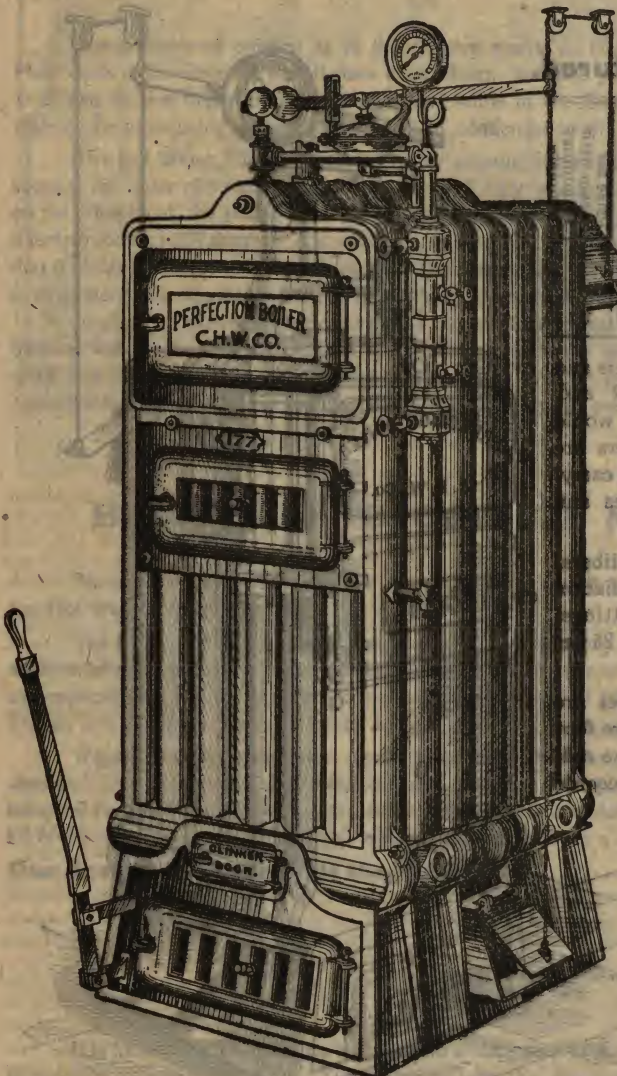

Note last paragraph above regarding extra capacity, when water is heated for domestic use.

# Perfection Boiler No. 170 Series

## 17 Inch Grate.

Our No. 170 Series of Perfection Boiler are built much on the same lines as the No. 60, save they are larger. The fire pot is four inches wider, each section about one inch longer and ten inches higher. This extra height is taken up by another row of flue spaces, as shown in the sectional view on page 55. These boilers embody the same telling features as the No. 60 boilers with the deep fire pot, slow combustion and absolutely perfect consumption of the fuel. They give the same wonderful results with 80% of the heat units of the fuel distributed into the home. The tappings on this series of boiler are 2 1/2". If it is desired, a three inch main may be taken off by using 2 1/2" nipple and a 2 1/2"x3 elbow at the top. The 2 1/2" opening at the top of the boiler is ample for a 3" main, as the friction on the main is equal to one size in pipe. These boilers have the anti-clinker grates that have circular motion, and the teeth grind the clinkers into fine particles. The boilers in this Series are all shipped set up and tested at the foundry, so that it is only necessary to set them on the base, put on the trimmings and proceed with the piping.

See page 53 regarding ratings, guarantee, etc. See page 55 for sectional view of this boiler.

We make working drawings for plants with full instructions for installing.

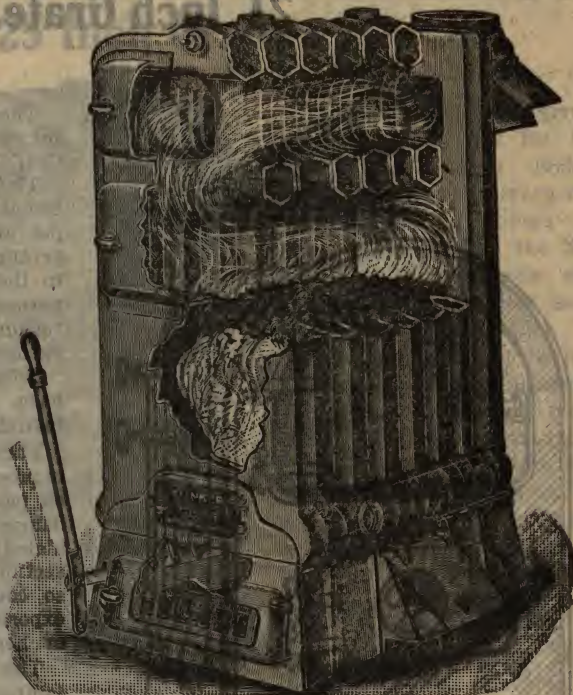

# PERFECTION BOILERS

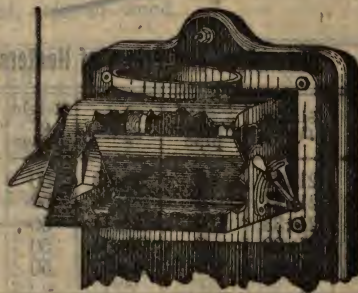

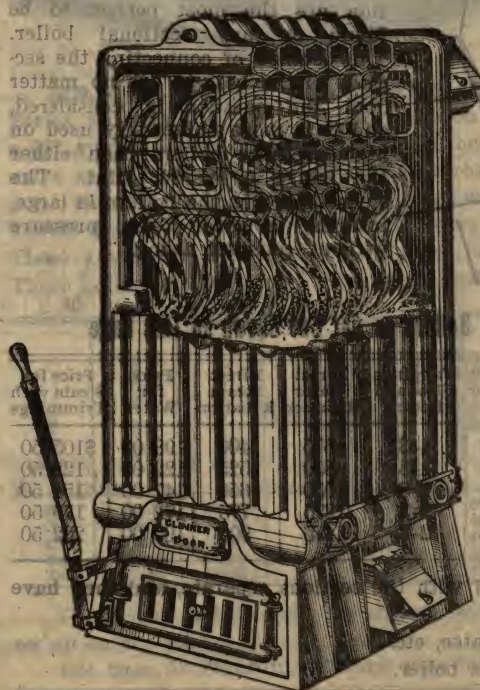

## No. 60 and No. 170 Series—Sectional Views

In the sectional view shown herewith of our No. 60 Series Steam and Hot Water Boilers, we call particular attention to the very deep fire pot. These fire pots are twenty inches from the door to the grate, and are designed to carry from twelve to eighteen inches of fire in this boiler, according to the weather. This deep fire pot is a new principle applied to small house heating boilers, and it makes a boiler that does not require firing oftener than twice or three times in twenty-four hours, except in the severest weather. Absolutely perfect combustion of the fuel is assured, because with this deep bed the gases are liberated and as they trickle up through the hot mass of fuel are entirely burned. Even the cheapest grade of soft coal will burn in this boiler with very little deposit of soot.

For a heating plant in a house where not more than 500 feet of hot water radiation or 325 feet of steam radiation (actual surface) is used there is no better boiler than this in existence. You will note the improved shaking device and the draft and check doors on this boiler. The clinker door is another big improvement, as it enables you to take out the clinkers from the grate at any time. Note how the sections are cast "Y" shape, so that there is a much greater exposed surface to the fire. These boilers are absolutely guaranteed first class and up to their rated capacity.

This sectional view shows the internal construction of our No. 170 Series Boilers. The fire box of these boilers is three and one-half inches wider than the No. 60, each section one and one-half inches longer and is nine inches higher. These boilers are adapted for houses requiring from 500 to 800 feet of hot water radiation, and from 200 to 300 feet of steam radiation, actual surface.

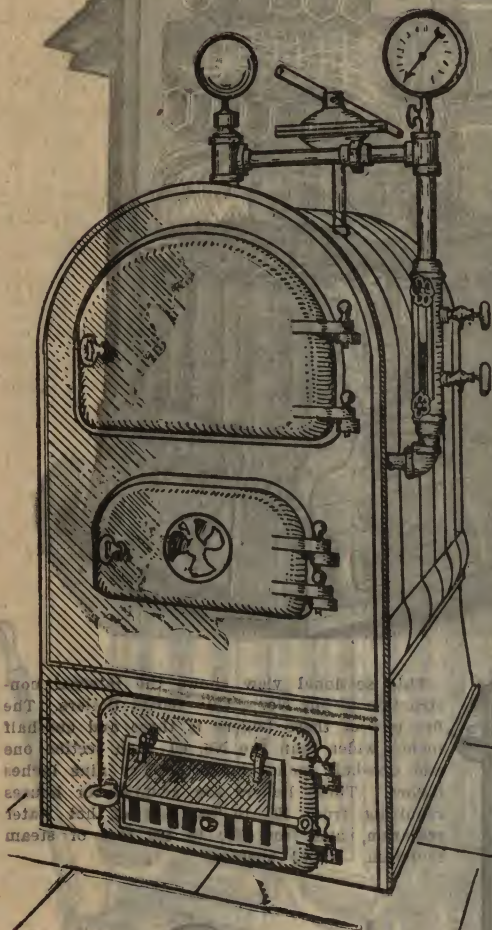

This illustration shows our smoke box extension with the adjustable damper and set screw, permitting one to adjust this to suit the draft, or carry a slow or brisk fire.

Write for Our Special Heating Catalogue.

# Perfection Boilers, No. 80 Series

## 21 Inch Grate.

The heaters that we are offering for sale represent the best Sectional Cast Iron Heaters manufactured. The construction of these Sectional Boilers and Heaters is simple and easily understood. It is arranged with the idea of utilizing to the fullest extent the forces of nature for the production and diffusion of heat and easy management. Efficiency and economy have been fully considered in their manufacture.

These boilers are equipped with the improved smoke box extension shown on page 55, and with the adjustable damper plate. The draft can be regulated to suit the chimney. The sections of the boilers have been so constructed that every part is exposed to the action of the fire or heated gases. The non-corrosive push nipple joints used in connecting the sections are the most perfect to be found on any sectional boiler. This method of connecting the sections is the best to use no matter how the question is considered, and it is more universally used on high pressure boilers than either the flange or screw joint. The steam space in the boilers is large, insuring a good steam pressure without constant firing.

Dimensions and Prices of Heaters and Boilers as per Cut Shown on This Page

See page 53 regarding ratings, guarantee, etc.  
See page 57 for sectional view of this boiler.

Let us make you a detailed estimate of a heating plant.

# Perfection Boiler, No. 250 Series

## 25 Inch Grate.

The sectional view given herewith shows our No. 80 series 'Perfection' Boiler. These boilers are designed for house heating boilers of larger capacity than the No. 60 Series. The grates are considerably wider, and each section is almost twice as long as in the No. 60 Series. These boilers are designed for houses that need from 500 to 1,000 feet of hot water radiation, or from 325 to 600 feet of steam (actual radiator surface). Note in these boilers the perfect flue space. You will see that the heat travels forward through two flues, one on either side of the boiler, doubling back through a large flue area in the centre.

Our No. 250 Series of Perfection Boiler is quite similar in design to the No. 80 Series, sectional view of which is shown on this page. The boiler is bigger, it having a 25" grate and each section is nine inches higher than in the No. 80 Series. This extra space is taken up by a row of overhanging flue spaces and with a deeper fire pot. Our No. 250 Series has a clinker door, located on a line with the grate, and is also provided with an extra heavy, strong grinding grate with round top. These grates will grind up all the ashes and clinkers, but will not waste the fuel. These boilers are adapted for hard coal, soft coal, coke or wood.

Number.	Size of Grate.	Floor Space.	Size of Smoke-pipe.	Height of Boiler.	Height of Water Line on Steam Boiler.	Size and Number of Flue Tapping Same Number & Size Returns.	Direct Water Radiation.	Direct Steam Radiation.	Price for Water.	Price for Steam with Steam Trimmings.

259	25x50	40x66	12	59	46 1/2	2-4 in.	2875	1675	350 00	357 50

The boilers in this series are shipped with the sections separate, and they have to be set up on the job.

See page 53 regarding ratings, guarantee, etc.

With our complete equipment we can cut all large sized pipe to fit the job.

# Horizontal Tubular Boilers

We have always in stock any number of good second-hand Horizontal Tubular boilers ranging in size from 30 inches diameter by 8 feet in length up to 72 inches diameter by 20 feet in length; or, in other words, from 10 to 175 horse power, with a capacity of 1,000 to 18,000 feet of radiation. These boilers are thoroughly overhauled before shipment. On large heating jobs we recommend their use.

If you will give us plans and information as outlined on page 50 of this book, we can better estimate your requirements, and will make you a proposition on a complete tubular boiler ready for installation. Can furnish these with or without domes. They are practical for either steam or hot water heating.

The following are the general specifications of what we have to offer in these boilers:

\*In computing water radiation add 40 per cent. to steam capacity.

## FIRE BOX BOILERS.

We can furnish you anything you may require in good second-hand Fire Box boilers for heating jobs from 1,000 to 10,000 feet of radiation at extremely low prices, practical for either steam or water heating.

## HOT BLAST APPARATUS.

We usually have in stock outfits for heating large buildings by hot blast with engine direct connected or belt driven, for factories, theatres and other public buildings. Write for specifications on your requirements.

**We make a specialty of Greenhouse Heating Apparatus.**

 All Radiators containing above 60 feet but not exceeding 112 feet, 1 1/2 inch.  
 All Radiators containing above 112 feet, 2 inch.

**Full Stock of Steam or Hot Water Heating Boilers Always on Hand**

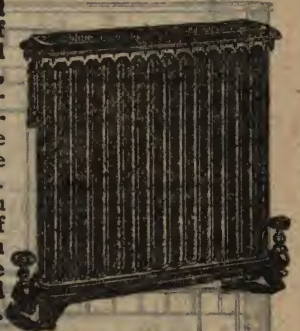

# RADIATION

## SECOND HAND.

Cast Iron Radiator.

Pipe Radiator.

In connection with our purchasing and dismantling, we secure large numbers of fine radiators. We have them in all styles, for steam and water; for factory, residence, public halls, and other purposes. If you will write us your requirements in the heating line, we will make you a proposition to furnish you all of the material necessary to install your plant. Write us your wants. We can save you money. At the present time our stock of re-built radiators includes anything you require. They are in fine condition, have been rebuilt, and every radiator is tested under cold water pressure before shipment. You can purchase without hesitation. We guarantee them.

Our stock consists of the following:

### BOX COILS.

Made of 1-inch standard black wrought iron pipe, with return bends and headers—splendid for factory heating. They are in various shapes, and ranging in sizes from 25 to 200 square feet of heating surface to each coil. These radiators are computed on the bases of about 3 lineal feet of pipe to 1 square foot of heating surface.

Price per square foot of heating surface ..... \$0 15

### PIPE RADIATORS.

These radiators are shown in the above illustrations. They are constructed of upright lengths of standard black wrought iron pipe, usually 1 inch in diameter. They have fancy cast iron substantial bases, are fitted with return bends on top, and have a fancy cast iron cover. We have them square, oblong and circular. They are, as a rule, 36 inch. in height on an average, although we have some from 20 inch. up; also some that are much higher. They range in size from 15 sq. feet of heating surface up to 250 sq. feet of heating surface. The openings can be made any size required, and can be used on either single or two-pipe systems.

Price per square foot of heating surface ..... \$0 16

### CAST IRON RADIATION.

Our stock consists of 2 and 3 column steam and water radiators, ranging in heights from 18 to 45 inch. We can furnish almost anything required in 38 inch radiators, either 2 or 3 column. These radiators are standard size, and contain 4 sq. feet of heating surface to the 2 column, and 5 sq. feet to the 3 column. They are very ornamental in pattern, and suitable for the best residence purposes. Prices as follows:

#### FOR STEAM.

Heights up to 24 inch, price per square foot of heating surface ..... \$0 20  
 Heights from 24 to 32 inch, inclusive, per square foot of heating surface ..... 19  
 All other heights, per square foot of heating surface ..... 18

#### FOR WATER.

Heights up to 24 inch, price per square foot of heating surface ..... \$0 23  
 From 24 to 32 inch, inclusive, per square foot of heating surface ..... 20  
 All other heights, per square foot of heating surface ..... 18

### CIRCULAR CAST IRON RADIATION.

Thirty of them on hand. They are intended for bow windows, but could also be used for factory and other purposes. They are 18 3/4 inches in height, 16 section, 8 inches wide, and contain 53 1/4 square feet of heating surface to each radiator.

Price per radiator ..... \$7 00

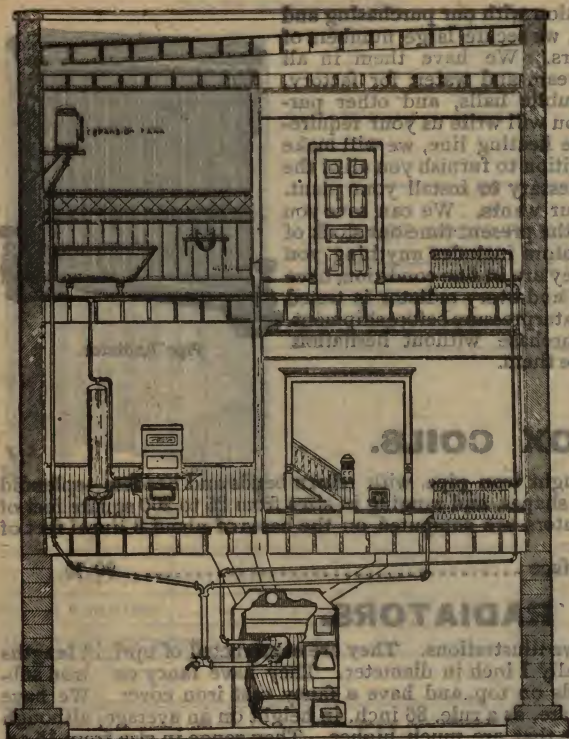

### FOR GREENHOUSEMEN.

We have pipe, flues, and everything necessary to install complete heating plant. Let us estimate on your requirements.

# HOT WATER APPLIANCES FOR FURNACE

If You Have a Furnace, You Undoubtedly Have One or More Rooms  
Not Satisfactorily Heated.

This drawing shows Smith's Little Giant connected  
to Two Radiators and Expansion Tank.  
Can heat from one to four rooms.

It is impossible to heat with warm air a room distant from the furnace, where a long and almost level pipe has to be used. Especially is this true in regard to a second floor chamber, where, in addition to the long pipe in basement, there is usually not sufficient room in partition to admit a wall stack large enough to carry the required volume of air.

A **HOT WATER RADIATOR** in such a room insures a temperature that is pleasant and satisfactory.

A **HOT WATER RADIATOR** in a front hall has a wonderful effect in moderating the temperature of the rooms on each floor opening into the hall.

Many store buildings have offices or apartments above the store, all of which can be heated with **HOT WATER**, and the store floor with **WARM AIR**.

Our Smith's Patent Hot Water Appliances enable you to about double the capacity of your furnace.

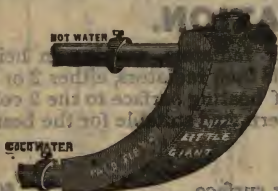

**CIRCULAR GIANT.**

Made in six sizes, from 14 to 24 inches.

Can be placed in any furnace, but especially adapted to one with drum or dome, in which it acts as a deflector, throwing heat to sides of furnace and increasing the capacity very materially.

Will heat from one to eight rooms with Hot Water, and is also effective in heating large tanks. Has no joints. Saves fuel and at the same time insures better heat.

**LITTLE GIANT.**

Is made in four sizes.

Has no joints.

Can be placed in any furnace.

Will heat from one to four rooms.

The capacities as given below are conservative; the heater is in many cases doing more than rated to do:

Size No.	Height Inches	Width Inches	Size of Pipe	Bot. Centers of Pipe	Cap'y Sq. Ft. of Rad.	Price
0	2	5	1	6%	50	\$4.75
1	3	8	1 1/2	6%	80	6.00
2	10 1/2	10	1 1/2	8%	100	7.25
3	12	12	2		150	9.75

No 3 is tapped at top.

Size No.	Diameter	Size of Pipe	Capacity Sq. Ft. of Radiator	Price
14	14 inches	1 1/2 inches	75	\$ 7.25
16	16 "	1 1/2 "	100	8.75

# PLUMBING DEPARTMENT

ON account of our purchases of complete stocks of General Merchandise at SHERIFFS', RECEIVERS', MANUFACTURERS' and other Sales, we are always in position to offer you exceedingly rare bargains in Plumbing Supplies of every kind. We carry the largest stock of such Supplies to be found anywhere in this Country. For years Consumers have been forced to pay exorbitant prices for anything in the Plumbing Line, because the Plumbing Trade is controlled by Associations and Combines. We are practically the only Supply House in this Country today who does not allow anyone to dictate to whom the Plumbing is to be sold.

The Material that we are offering is just as good as anything manufactured, with few exceptions, and these are fully noted; everything offered in the Plumbing Line is absolutely brand new.

We are in position to make you a quotation completely on everything needed to install a Modern Plumbing Outfit in your Home, Factory or Building. It makes no difference whether there is a Water Supply adjacent to you or not. If you are in the Country and must furnish your own Water Supply, we can make you a very low proposition for the complete installation of such a Plant.

If you are so situated that you cannot obtain the services of a regular Plumber to put in your Plumbing Material, we can give you all the detailed information you will need and can furnish all the necessary parts to do the Plumbing. We can furnish you with traps, both lead and brass, with iron pipe threads soldered on. We will also supply full descriptions and illustrations, so that any ordinary mechanic without practical plumbing experience will be able to install the entire plant for you. In such a case, it will be necessary to furnish us a plan of your House or Building, showing the size of rooms, with height of ceiling, and the present source of water supply, if any, and the location of the cess-pool or sewer, or such other place as you wish to drain to.

We have in our employ a competent force of Plumbing Experts, who will be pleased to give you any information that you may require. We are ready to estimate on furnishing Plumbing, no matter how large a quantity you may require.

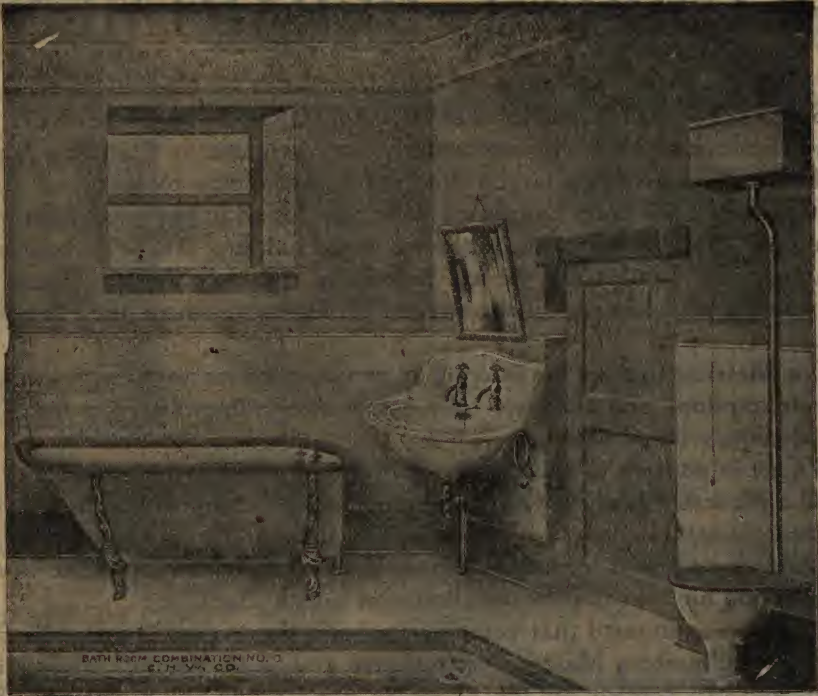

In the following Pages, we show a complete line of Modern Up-to-date Bath Room Outfits. For your information, we give you the shipping weight of these Outfits, which is as follows:

No. 0 .....	250 lbs.
No. 1 .....	500 lbs.
No. 2 .....	550 lbs.
No. 3 .....	600 lbs.
No. 4 .....	650 lbs.
No. 5 .....	700 lbs.
No. 6 Kitchen Outfit .....	250 lbs.

The freight rates furnished on application. Or, if you desire, send us a complete list of what you need, and we will estimate just what the freight will cost you to your shipping point.

## Bath Room Combination No. 1.

**THE BATH TUB.** Modern and graceful in shape, made of heavy steel, white enameled on the inside and painted on the outside, and is finished with a polished hardwood rim with decorated cast iron legs. Length of tub is 5 foot.

The fittings consist of the following:

Nickel-plated connected waste and overflow, nickel-plated double compression bath cock with tail pieces for iron or lead pipe (in ordering specify which); chain and rubber stopper.

**THE LAVATORY.** One piece, cast iron, roll rim, white porcelain enameled lavatory, nicely finished on the outside. It is for straight wall, and is all cast in one piece. It is absolutely sanitary. It is fitted with two nickel-plated compression basin cocks, nickel-plated "S" trap with waste to the floor, nickel-plated chain and rubber stopper; floor flanges and fancy brackets.

**THE CLOSET** is a sanitary Vitreous bowl, complete with a polished hardwood Oak seat and copper lined Oak tank, fitted with ball cock, syphon, chain, pull, etc.; with nickel-plated flush pipe.

**QUALITY.** The material on this outfit is all new. The bath tub is strictly perfect. Every fitting used on this outfit is perfect.

The closet bowl and lavatory slab are Class "B," but the defects are so slight that they will not impair the usefulness or appearance to any extent.

Price for this outfit.....\$25.00

**NOTE.** We will furnish this bath tub in 4½ foot length at a deduction of 35 cents.

If 5½ foot tub is wanted, add.....\$0.60

If 6 foot tub is wanted, add.....\$1.60

We will furnish nickel-plated supply pipes for this bath tub at an additional price of.....\$1.50

The Lavatory we will furnish with trap to wall instead of to floor at the same price.

We will furnish nickel-plated supply pipes for lavatory at an additional price of.....\$1.25

**This is a Good Outfit at a Low Price.**

**BATHROOM COMBINATION No. 1.**

**THE BATH TUB** is cast iron; has a heavy 3-inch roll rim; is made in one piece; is white porcelain enameled on the inside and over the roll rim; is finished on the outside with a single coat of Iron Filler Paint.

The fittings are heavy brass nickel-plated, consisting of nickel-plated waste plug and overflow; nickel-plated Fuller double bath cock for hot and cold water; nickel-plated chain and rubber stopper; floor flanges, etc. Tub is  $4\frac{1}{2}$  feet in length and 30 inches in width.

**THE LAVATORY** is pink Tennessee marble for straight wall, complete with back and Patent overflow bowl; nickel-plated compression basin cocks; nickel-plated "S" trap from basin to floor; floor flanges; basin clamps; nickel-plated twisted brackets; chain and rubber stopper.

**THE CLOSET** is a vitreous porcelain washout-bowl, with hardwood seat for attachment against the wall; Tank is copper lined and furnished in either Natural, Golden or Antique Oak, or Cherry (In ordering state your preference), fitted with latest appliances and complete in every way, including chain and pull; nickel-plated flush and supply pipes, the flush pipe being connected to the bowl with a patent rubber elbow, includes floor screws, floor flanges, etc.

**QUALITY.** The outfit consists of all new material. The tub is Class "B." The defects are very slight, scarcely noticeable and do not mar the appearance or usefulness of the tub.

Price as described.....\$37.50

If 4 or 4 1/2 foot tub is wanted, deduct.....	\$1.50
If 5 1/2 foot tub is wanted, add.....	1.50
If 6 foot tub is wanted, add.....	3.00

## BATH ROOM COMBINATION No. 4

**THE BATH TUB** is the finest cast iron tub on the market. It has a heavy 3-inch roll rim, is made in one piece; is white porcelain enameled on the inside and over the roll rim. Is handsomely finished on the outside with ivory white consisting of seven coats of paint, having a polished finish.

The fittings are extra heavy brass nickel-plated, consisting of outside standing "Roman" waste with china index button marked "Waste;" Fuller double bath cock; off-set supply pipes; with floor flanges, etc. Tub is 5¼ feet in length and 30 inches in width.

**THE LAVATORY** is for corner of room and is handsome countersunk Italian marble or beautiful selection of pink or extra rich dark chocolate color Tennessee (in ordering, state preference). Has two backs; oval porcelain basin with heavy nickel-plated bi-transit "Roman" waste; nickel-plated Fuller basin cocks; one nickel-plated rope pattern bracket; nickel-plated brass supply pipes with air chambers, nickel-plated brass flask trap; complete with clamps, screws and nickel-plated floor clamps.

**THE CLOSET** is of low tank pattern, thoroughly sanitary and modern in construction. It is the latest improved vitreous syphon wash-down bowl with jet. The seat and cover are made of seasoned quarter-sawed oak with high polished finish. The seat is saddle-shaped and attaches directly to the bowl with post and nickel-plated hinges. The tank is lined with heavy copper and includes a high pressure ball-cock and float valve syphon, and has nickel-plated push button action. We can furnish the woodwork in natural, golden or antique oak (in ordering state preference as to finish). It has two-inch elbow connection between the tank and the bowl, and nickel-plated supply pipes from floor to the tank with stop valve.

**SHOWER BATH.** A newly designed portable Shower Bath, consisting of a brass nickel-plated perforated shower with a substantial wall fastening and braced curtain ring, with superior quality rubber curtain and rubber tubing and "hold-fast" connection to attach to bath cock. It is designed to be fastened to the wall above tub with screws.

Included with this outfit, we supply the following accessories:

One Plate Glass Shelf, 24x5 inches, with nickel-plated brass brackets.

One Hard Finished Oak Seat with nickel-plated adjustable clamps, rubber bound, for hanging over edge of bath tub.

One Nickel-plated Toilet Paper Holder for holding paper on rolls.

A handsome Nickel-plated Brass Soap Cup for hanging over the rim of the tub.

Nickel-plated Brass Towel-bar for Bath Tub, ½-inch diameter, 30 inches long, with two nickel-plated brass posts for holding same 3 inches from the wall.

A second Nickel-plated Brass Bar, 24 inches long, like the above, for the lavatory.

A Nickel-plated Brass Combined Tumbler, Mug and Soap Combination for the lavatory.

**QUALITY.** We guarantee every article used in this Bath Room Combination to be strictly new and perfect. The enamelware is guaranteed for two years against crazes, chips or defects from ordinary wear. Any article proven defective within this time will be cheerfully replaced with perfect material. The outfit will be furnished with floor screws, flanges, clamps, etc., complete and ready to set up.

Price as described.....\$90.00

**NOTE.** We will furnish this Bat Tub with gold bands at an additional price of..... 3.00

If 6-foot Tub is wanted, add..... 3.50

Price on the complete Shower Bath only..... 14.00

**We carry the largest stock of Plumbing Material in Chicago.**

## BATH ROOM COMBINATION No. 5

**THE BATH TUB** is the finest cast iron tub on the market. It has a heavy 3-inch roll rim, is made in one piece; is white porcelain enameled on the inside and over the roll rim. Is handsomely finished on the outside with ivory white, consisting of seven coats of paint, having a polished finish and with two gold bands around the entire outside of the tub. The fittings are extra heavy brass nickel-plated, consisting of outside standing "Roman" waste with china index button marked "Waste;" Fuller double bath cock; off-set supply pipes; with floor flanges, etc.

Tub is 5½ feet in length and 30 inches in width.

**THE LAVATORY** is the handsomest manufactured. It is made to set away from the wall about 1 to 3 inches. It is cast in two pieces, the pedestal part being one piece and the bowl slab with basin complete in one piece, the two bolted together with nickel-plated fittings. It stands 30 inches high. Size of oval slab is 22x27 inches. It is handsomely enameled in white over all. The slab is very deeply countersunk and the pedestal is also oval in shape, harmonizing beautifully with the slab.

The fittings are heavy brass nickel-plated, consisting of special design semi-low down compression basin cock, with cross and ball handle with china index button marked respectively "Hot" and "Cold;" improved "Roman" lifting waste with china index button marked "Waste;" nickel-plated "Roman" flask trap, vented, with both the vent and waste pipes to the wall; nickel-plated brass air chamber supply pipes with angle stop valve.

**THE CLOSET** is of low tank pattern, thoroughly sanitary and modern in construction. It is a genuine syphon jet vitreous porcelain bowl with extra deep seal, especially constructed so that there can be no chance for sewer gas to find its way back through this fixture. It has an extra large jet and the syphonic action is perfect. The seat and cover are made of seasoned quarter-sawn oak with high polished finish. The seat is saddle shaped and attaches directly to the bowl with post and nickel-plated hinges. The tank is lined with heavy copper and includes a high pressure ball cock and float valve syphon, and has nickel-plated push button action. It has 2-inch nickel-plated off-set connection between the tank and the bowl, and nickel-plated supply pipes from floor to the tank with stop valve.

We can furnish woodwork natural, golden or antique oak. (In ordering, state preference as to finish.)

**SHOWER BATH.** A newly designed portable shower bath, consisting of a brass nickel-plated perforated shower with a substantial wall fastening and braced curtain ring, with superior quality rubber curtain and rubber tubing and "hold-fast" connection to attach to bath cock. It is designed to be fastened to the wall above tub with screws.

Included with this outfit, we supply the following accessories:

One Plate Glass Shelf, 24½ inches, with nickel-plated brass brackets.

One Hard Finish Oak Seat with nickel-plated adjustable clamps, rubber bound, for hanging over edge of bath tub.

One Nickel-plated Toilet Paper Holder for holding paper on rolls.

A handsome Nickel-plated Brass Soap Cup for hanging over the rim of the tub.

Nickel-plated Brass Towel Bar for bath tub, ½-inch diameter; 30 inches long, with two nickel-plated brass posts holding same 3 inches from wall.

A second Nickel-plated Brass Bar, 24 inches long, like the above, for the Lavatory.

**QUALITY.** We guarantee every article used in this Bath Room combination to be strictly new and perfect. The enamelware is guaranteed for two years against crazes, chips or defects from ordinary wear. Any article proven defective within this time will be cheerfully replaced with perfect material. The outfit will be furnished with floor screws, flanges, clamps, etc., complete and ready to set up.

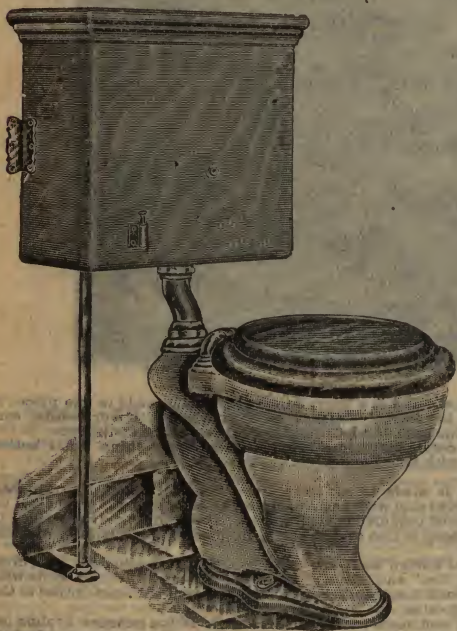

**NOTE.** The fittings on the Bath Tub can be changed from the style described and instead, we will include a nickel-plated compression bell supply and waste fitting. This fitting admits the water about 4 inches from the bottom of the tub, the handles projecting upward to the same height as the waste fitting shown in the illustration, and each handle is marked with china indexed button "Hot" and "Cold." When the tub is furnished with the bell supply fitting the portable shower can not be used, and is not furnished. Price, with bell supply fitting..... \$110.00  
If 4 or 4½-Foot Bath Tub is wanted, deduct..... \$5.00  
If 6-Foot Tub is wanted, add..... \$3.50

**No. 87. Combination.**

## HIGHEST GRADE BENT WOOD TANK SYPHON FLUSHDOWN COMBINATION

**No. 87** The Tank is an especial feature. It is made from one piece of solid wood, (not veneered), steamed and bent from one extreme side to the other, with recess front effect. Made with inner wood casing surrounding the heavy copper lining, with a dead air space between the two, providing suitable ventilation for dampness to escape without coming in contact with outer bent wood case, thus making a strong, durable Tank with fewest possible seams. This Tank represents the highest degree of perfection in closet woodwork. Outfit includes vitreous porcelain "Flushdown" bowl, with seat and cover attached, the woodwork of this matching the Tank; nickel plated supply pipe and nickel plated flush connection, closet floor screws, etc.

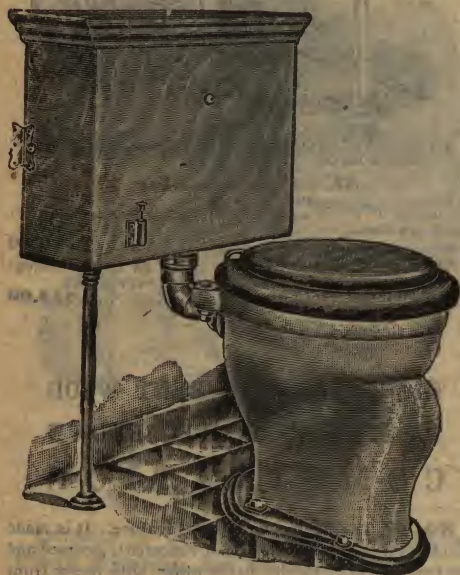

Price, outfit complete, plain bowl..... \$19.00

"Bent Wood Tank" furnished on any of our other Low Tank Combinations \$5.00 extra

# Low Down Closets.

Each Outfit complete as follows: Vitreous Porcelain Syphon washdown closet bowl, round cornered, polished, hardwood tank copper lined, with nickel plated "push button" action, polished hardwood seat and cover attached to the bowl, with nickel plated post hinges, nickel plated elbow flush connection, nickel plated supply pipe to the floor with floor plate, nickel plated floor screws, etc. The whole outfit complete and ready to connect.

Combination**

Consists of embossed front washout closet bowl, with trap vent; copper lined, polished hardwood tank with brackets; polished hardwood seat with back and brackets to fasten to the wall. Nickel plated flush and supply pipes, slip joint elbow connection, floor screws, chain and pull.

**Price Complete  
\$11.50**

**If without trap vent  
\$11.00**

## Semi-Frost-Proof Closet Combinations

Many bath rooms are not heated, and a closet bowl having a water seal in the bowl itself would freeze and burst. These outfits are for such rooms. The water seal, being in a lead trap below the floor, is not liable to freeze, and if it should, the lead trap will expand and will not burst.

**No. 50  
Combination**

Consists of offset porcelain closet bowl; copper lined polished hardwood tank and polished hardwood seat to attach directly to the bowl, nickel plated flush and supply pipes, slip joint elbow connection, and a 4-inch lead "P" trap with ferrule, floor screws, chain and pull.

**Price Complete  
\$12.00**

### Special Bargain.

For nickel plated supply pipe add Net..... 1.00

# PLUMBERS' SANITARY EARTHENWARE

## AN ENORMOUS STOCK ON HAND

Brand new material, never was used. Some people have an erroneous idea that our plumbing material was taken out of buildings that we have dismantled. Such is not the case; all the items we offer are Brand New.

All the following goods come in three grades:

1st grade.—Goods perfect in every way.

2nd grade.—Earthenware Seconds. Goods that have some trifling defect, scarcely noticeable.

3rd grade.—Earthenware Thirds. Goods with some marked defect, but which we absolutely guarantee will not interfere with their usefulness.

### URINALS

**We can furnish anything in the plumbing line you may need.**

# White Porcelain Enameled Bath Tubs.

We are offering you a strictly perfect cast iron, seamless, white porcelain enameled bath tub, guaranteed in every way. Our guarantee means that should the enameling in any way chip or become defective within one year after its purchase that we will furnish another tub to replace it, provided tub is returned to us by freight and the dated guaranteed label attached to tub to be returned with the tub. We do not mean to replace the fittings with this after they have been used.

Our guarantee only includes replacing of the tub itself.

These tubs have 3-inch roll rim, fancy designed cast iron feet, are enameled on the inside and over the roll rim, and painted with one coat of iron filler on the outside.

We will finish these tubs on the outside with a zinc white finish, using 5 coats of paint, the first coat being rubbed off with sand paper and pumice stone, the finish being perfect and smooth, at an additional price of \$7.50. Tubs when so finished have to be boxed; they cannot be shipped crated. Our price for the additional finish includes the boxing and delivery on board cars.

These tubs are furnished complete with the following fittings: Nickel plated Fuller double bath cocks, nickel plated standing Roman waste, nickel plated brass supply pipes, nickel plated floor flanges, etc., all the trimming being high grade. Does not include soap cup and bath seat.

In ordering, mention

## STYLE NO. 41.

Price includes tub and trimmings.

Length, ft.	
4.....	\$28.00
4½.....	28.00
5.....	30.00
5½.....	33.00
6.....	36.50

## STYLE NO. 42.

Just the same as above but without our guaranteed label, at the following prices:

Length, ft.	
4.....	\$26.00
4½.....	26.00
5.....	28.00
5½.....	31.00
6.....	34.50

Our class "B" tubs on pages 86 & 87 are much cheaper in price, and they may answer your purpose as well.

# Roll Rim Enameled Iron Bath Tubs

**BRAND NEW**

Plain Bath Tub.

The Bath Tubs listed on this and the following page are 3 inch Roll Rim, White Porcelain Enameled, Seamless Cast Iron Bath Tubs, "B" grade. By that we mean a tub that was as carefully made as a Class "A" tub, but through some very slight imperfection cannot be classed as a strictly perfect tub, but the tub will give you just as good satisfaction as a strictly perfect tub. The defects are very slight, consisting mainly of some chip off the enamel around the outer edge of the roll rim or a slight craze. We re-enamel these defects so they are not noticeable. These tubs will give you good service.

## Price for Tubs without Any Fittings

# White Porcelain Enameled Bath Tubs

## Narrow Roll Rim

Brand New Cast Iron Tubs, White Porcelain Enameled on the inside and over the roll rim and painted on the outside. Especially suitable where little space is available.

### DIMENSIONS

Width over rim,  $24\frac{1}{2}$  inches; height, 23 inches; width inside,  $21\frac{1}{2}$  inches; depth,  $18\frac{1}{2}$  inches.

### QUALITY

They are high grade new tubs. Class "B"—that means, not strictly perfect. There is some defect in the enamel which we have repaired in a workmanlike and thorough manner, and the defect is scarcely visible.

## Special Bath Tubs with Single Faucets.

25 roll rim, white porcelain enameled, cast iron bath tubs, with waste opening but no overflow, and with but one faucet hole. They have another opening about six inches from the bottom of the tub, which we will cover with an enamel flasher and gasket to make absolutely water tight. These are very good tubs, some slight defect in the enamel rendering them Class "B." On account of the drilling, we will quote them with waste plug and rubber stopper and single nickel plated faucet for iron pipe connection. F.O.B. cars Chicago. Price, 4½ feet.....\$10.00 5 feet, each crated.....\$11.00

## Miscellaneous Lavatories.

- No. L-3. Three hexagon or six-sided marble lavatories, designed to stand in the center of the room, made up complete with gilt iron stands with floor flanges, with nickel-plated supply pipes to the floor, nickel-plated trap to the floor, nickel-plated Fuller basin cocks, chain and stopper, 14-inch patent overflow metal plug basin, basin clamps, etc.  
Price of the lavatory, each..... 15.00
- No. L-4. One hexagon or six-sided marble lavatory, designed to stand in the center of the room, made up complete with gilt iron stand with floor flange, with nickel-plated supply pipes to the floor, nickel-plated trap to the floor, with barbers' shampoo faucet. This shampoo faucet will have an inlet for the hot and cold water to enter into the basin through one opening, and have a gooseneck on top to which will be attached a shampoo spray.  
Price complete, including the shampoo spray..... 20.00
- No. L-5. Fifty enameled iron lavatories suitable for shop or factory use. These lavatories have perfect castings, but through some mishap considerable of the enamel has become chipped off. We will furnish these lavatories with one basin cock, new, and one waste plug, chain and stopper, and lead trap with waste either to the floor or to the wall, as specified. We can furnish basin cock for iron pipe connection when so specified. These lavatories are mostly size 18x24, and the backs are cast right on the slab all in one piece. The backs are 6 to 10 inches high. Price each..... 6.00
- No. L-6. Eighteen enameled iron lavatories for corner, ¼ circle, defects similar to those described above, and trimmed same as above.  
Price each..... 6.00  
One extra basin cock for above lavatories..... .60

## CLOSETS.

- No. W.F. 46. Fifty white porcelain enameled iron closets. These are front washout combinations, with trap vent. They are enameled inside and out. Have seat lugs for attaching seat directly to the bowl. The bowls were used at the World's Fair, and we will furnish the outfits with new, copper lined, oak tank, new seat with cover to attach directly to the bowl, new flush and supply pipes, nickel-plated, elbow flush connection, floor screws, chain and pull, complete outfit ready to set up.  
Price each..... 12.50
- No. W.F. 42. Six white porcelain enameled syphon jet closet combinations. These consist of iron syphon jet closet bowl, white porcelain enameled inside and out, and comes in one piece with seat lugs. These bowls were used at the St. Louis Exposition. We furnish them complete with round cornered, copper lined, oak tank, seat and cover to attach directly to the bowl, nickel-plated flush pipe, nickel plated supply pipe, slip joint connection, floor screws, chain and pull, etc., complete outfit.  
Price each..... 17.50

**KITCHEN COMBINATION No. 6.**

PRICE, \$30.00

This handsome sanitary and modern complete Kitchen Combination consists of the following: **Kitchen Sink**, cast iron, white porcelain enameled, heavy roll rim with 15 inch high roll rim back. The size of sink is 18x30. The drain board is cast iron, white porcelain enameled and reverseable, and can be placed at either side; size of drain board 18x24. It is countersunk and grooved, so that the water will drain back to the sink. It is furnished complete with nickel plated brass strainer; sink bolts and collar for attaching trap to the sink. 1½ inch nickel plated trap to the wall including wall plate. The sink is complete with one pair of heavy brass nickel plated Fuller bibbs with flanges, and fitted with two fancy brackets for sink and one for the drain board.

**The Range Boiler** is galvanized iron, 200 pounds test; 30 gallons in size. Has fancy cast iron stand with brass coupling for lead or iron pipe and with an inside tube.

**A Standard Gas Range Boiler Heater** for attachment below the base of the boiler for connection to gas fixture with either hose or iron pipe as shown in the illustration. The burner is complete with gas cock and air mixing chamber, so that it makes perfect combustion; a hot blue flame. This heating apparatus is for use when it is not convenient to build a fire in the range.

We furnish also an attachment from the range boiler to the range proper. We furnish for this a set of our lead pipe connections, 24 inches long to be used between the range and the boiler.

**A Water Front** for your kitchen range. This consists of a cast iron attachment to fit in the front of the firebox of the kitchen range. It is made with two openings at one end; one above the other. Price, outfit complete as described .....\$30.00

**Quality.** This material is all new and perfect. With this sanitary enameled iron outfit you can keep your kitchen as clean as your parlor. Both the drain board and the sink being enameled iron and absolutely non-absorbent, they can always be kept spotlessly white with little effort. Every first class housewife will appreciate this advantage. The sink being arranged with brackets and waste connection to the wall leaves the floor open, and makes a very nice and simple arrangement for any kitchen. This outfit being open gives you an opportunity to keep your kitchen clean and sanitary at all times. Everything unnecessary out of the way.

The waste pipe shown in this illustration leads from the sink to the range boiler and is not included in this price. If you wish us to make you a price on the pipe, send us an exact sketch of your kitchen, giving the location of the range, preferred location for the sink, etc., with measurements.

**NOTE.** We can furnish this sink, size 18x24 instead of 18x30 at a reduction in price of \$1.50

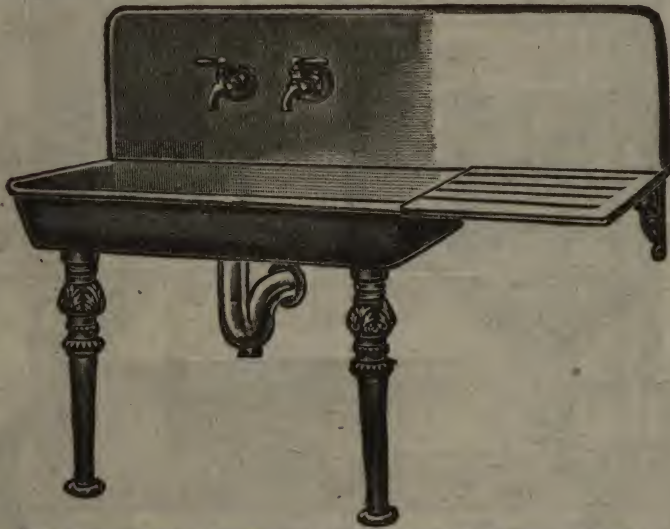

We will furnish a 35 gallon range boiler at an additional price of \$1.25, or a 40 gallon at \$2.50

For those who wish to install their own plumbing, we can furnish the trap with this sink with iron pipe thread, so that the connection can be made with ordinary iron pipe threaded and screwed together. Extra for Iron Pipe Thread on trap. ....\$0.75

If Water Front is not wanted deduct \$5.00.

# WROUGHT STEEL KITCHEN SINKS

## ABSOLUTELY NEW MATERIAL

We purchased Three carloads of them at manufacturer's sale. They are unquestionably superior to any cast-iron sink, being stronger, more durable and lighter. They are drawn from a single sheet of steel. **They will not break from any cause whatever.** Steel being less porous than cast iron, they are more sanitary. Their great elasticity also avoids the danger of breaking dishes. The Sinks in this list are all heavily porcelain enameled, both inside and outside.

They are all 6 inches in depth.

### Lot No. 01.

Seamless wrought steel kitchen sinks, with roll edges. (For use with brackets for exposed plumbing.)

### HEAVILY ENAMELED BOTH INSIDE AND OUTSIDE

All 6 inches in depth.

Complete with Stand, Tube and Couplings.

Size, 30 gallons.....	\$7.00
" 35 ".....	8.25
" 40 ".....	9.00

## LEAD PIPE CONNECTION

From Boiler to Range.

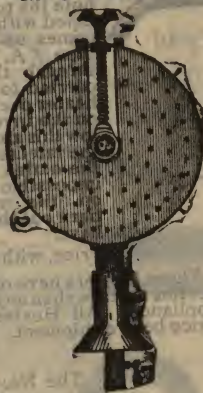

No. 1903. Lead pipe with a 3/4-inch brass union wiped on one end and a 1/4-inch brass nipple wiped on the other.

By using these lead pipe boiler connections the job of connecting a range boiler is much simplified. Use one on the flow from bottom of boiler to lower opening of water front, and one from upper opening in water front to the opening in the side of the boiler. The lead pipe will easily bend and the balance of the distance can be filled in with 3/4-inch iron pipe.

Price per set of two.....\$3.00

## GAS RANGE BOILER HEATERS

No. 1906.

These Heaters burn gas as fuel and are a complete little stove to clamp under the range boiler, as shown in the illustrations, and they can be attached with either a rubber gas hose or with iron pipe. They have an air mixing chamber and a gas cock, making powerful heat and will quickly warm entire contents of range boiler.

Price for 30 gallon boiler.....each, \$2.00  
" 40 "....." 2.50

Showing method of connecting.

## WATER FRONTS

We can furnish Water Fronts for any range made today. This cut shows the style of Water Fronts which are used in steel ranges without reservoir. It is made of cast iron, hollow on the inside, with two openings in the end, tapped so as to take iron pipe connection to the circulating range boiler. The water is heated by passing through the Water Front, which is placed in front of the fire box of the range. Price of all ordinary patterns of Water Fronts for family size ranges is \$6.00. In ordering specify the maker's name of your range, the number of the range and the size.

# INSTANTANEOUS WATER HEATERS

For Artificial or Natural Gas

The Instantaneous Water Heater is certainly an ideal appliance to obtain hot water quickly at any time of day or night. We carry a complete line of Instantaneous Heaters for natural or artificial gas and for gasoline.

The No. 2 Instantaneous Gas Heater shown above will heat a flowing stream of water at the rate of  $2\frac{1}{2}$  gallons a minute to 120 degrees Fahrenheit, or 6 cubic feet of gas will heat 80 gallons of water in this to a temperature of 120 degrees. So this makes one half cent's worth of gas for sufficient hot water for a bath. These Heaters produce better and quicker results than any other Heater made. They are the ideal thing for a home or any public bath room, as you can furnish any number of baths one right after the other without waiting for water to heat.

In the sectional view you will note the patent spray top indicated with letter "B." Water comes up through the supply pipe "A," and is sprayed through the spray top "B," carried to the outside of the heater over the cone "C," falls on the inverted cone "D," below this and then trickles down the intensely hot plate "E" to the outlet. With the improved controlling arrangement, it is impossible to turn on the gas and light the fire without turning on the water at the same time. Thus it is impossible to burn out the heater. Size No. 2 is the most popular size that we have.

Sectional view of No. 2.

Price, with shelf and bracket.....\$18.50

These Heaters have one third more heating surface than any other similar appliance. All Heaters are tested twice before shipment.

The No. 3 Heater, a trifle smaller than the No. 2, will heat 2 gallons of water a minute.

Price, with shelf and bracket..\$15.00

The No. 1 Heater is a larger size Heater and will heat 3 gallons of water a minute.

Price, with shelf and bracket..\$27.50

All of the above Heaters are made with the patent spray top so that combustible heat cannot pass through the vent pipe, and they are all equipped with duplex safety valve.

Above Heaters embrace all possible features known to facilitate the heating of water.

No. 3.

No. 1.

No. 2.

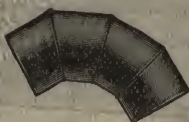

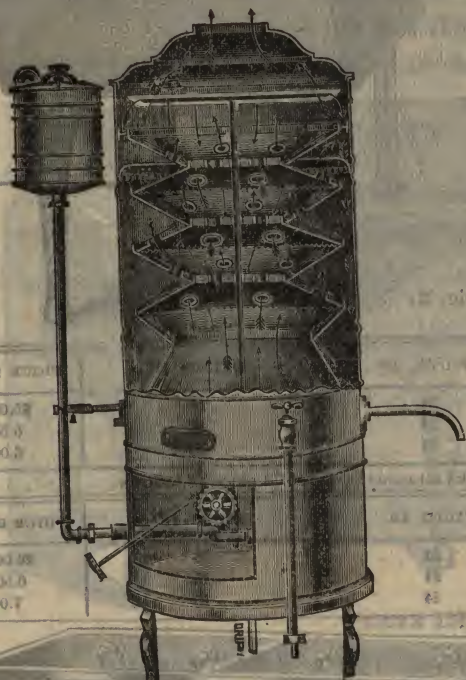

# Instantaneous Water Heaters.

## For Gasoline.

This illustration shows the Instantaneous Heater with Gasoline Attachment. The Heater heats water on the same principle as shown in our gas heaters. It can be connected direct with city water works, or, in the event there is no city water works, can be supplied from an over-heated tank.

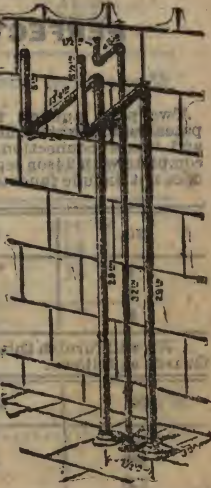

The dimensions: Diameter, 12 inches; height, 20 inches; shipping weight, 60 lbs. Capacity, 4 gallons per minute.

## ECONOMY STONEWARE LAUNDRY TUBS.

We are in a position to promptly fill your wants on anything in the line of the "Wesely" patented, improved stoneware laundry tub.

The best imported Portland cement and crushed granite is used in construction. They are molded and made into one solid piece, with rounded inside corners, that can be easily kept clean. They are stronger and harder than any made from stone, and are strictly sanitary and free from leakage, having no joints or seams for dirt or vermin to lodge into. The strainers, plugs and waste connections are cast in the tub when being made. The patent metallic rim, which is also cast in the tub, adds to their appearance, and at the same time protects the edges.

One part laundry tub, with patent metallic rings, brass plugs and waste connections. Tub is complete with 2 iron legs. Price is without faucets.

### WATERING TROUGHS.

L.M. 27.	Twenty-five cast iron bath tubs, suitable for watering troughs. These bath tubs either through a broken rim or because the enamel is nearly all chipped off are not suitable for use as bath tubs, but make first class watering troughs. We will furnish these with waste plug in the bottom so that they can be well drained, and an overflow cover to cover the overflow opening near the top.	
Price 4 $\frac{1}{2}$ -foot tub.....		\$ 6.00
Price 5-foot tub.....		6.50
Price 5 $\frac{1}{2}$ -foot tub.....		7.00

### SHOP WASH SINKS.

L.M. 28.	These consist of a large sized sink with four-legged stand made of pipe and fittings and floor flanges, so that it would stand securely and evenly on the floor with a pipe coming up over the top of the sink, and with two faucets to fit into this, with waste plug strainer so that the sink can carry three to four inches of water in it, with trap complete to the floor.	
Size 20x36.....		\$ 6.50
Size 20x40.....		7.25

### ELECTRIC SWITCH BOARD SLABS.

L.M. 29.	We have a large stock of slate slabs. The slabs are about one inch thick, and we get these out in almost any size required. Our stock comprises slabs in sizes about as follows: 24 by 24 inches; 20 inches by 5 feet; 24 inches by 5 feet; 30 inches by 5 feet.	
Price of slabs in our stock sizes, per square foot.....		\$ 0.25
Price of slabs cut to measure on application.		

### LARGE SIZE CAST IRON SOIL PIPE.

L.M. 30.	We have considerable cast iron soil pipe from the St. Louis Exposition, 8 inches and 10 inches in diameter. This soil pipe is in perfect condition, standard weight, recoated.	
Price 8-inch, per 5-foot length.....		\$ 2.75
Price 10-inch, per 5-foot length.....		4.00

### HIGH GRADE BASIN BOWLS.

L.M. 32.	These bowls are in natural flower effects and will make very handsome outfits. They are in various patterns and strictly perfect.	
Size 14x17, no overflow, metal plug. Price each.....		\$ 2.00
Size 14x17, patent overflow, metal plug. Price each.....		2.00
Size 15x19, no overflow, metal plug. Price each.....		2.25
Size 15x19, patent overflow, metal plug. Price each.....		2.25

**WE CARRY EVERYTHING IN ELECTRICAL SUPPLIES.**

## MISCELLANEOUS BARGAINS.

### MARBLE TILE AND SLABS.

- Item No. A. Six pieces of white Italian marble tile, 12x12 inches, 1 inch thick. Polished on one side, second hand. Each, \$0.25
- Item No. B. 600 square feet second hand Italian and Tennessee marble tile. Size, 9x9 inches and 14x14 inches. White and black. Finished on one side. Price per square foot..... \$0.25
- Item No. C. 30 second hand marble lavatory slabs, without backs, in excellent condition. These are for 14 and 15 inch round and 14x17 inch oval bowls. Ranging in size from 20 to 24 up to 20x36 inches. Price each.....\$2.00
- Item No. D. 500 feet white Italian marble wainscoting, 5 inches wide,  $\frac{3}{4}$  inch thick. In first class condition. Second hand. Price per lineal foot.....\$0.15
- Item No. E. 100 second hand Italian marble slabs with backs, ranging in size from 20 to 24 to 24x48 inches, and from  $1\frac{1}{4}$  to  $1\frac{1}{2}$  inches thick. These are in good condition, the defects are stains without cracks. They are for 14, 15 and 16 inch round basins, and 14x17 to 15x19 inch oval basins. Price each.....\$2.50
- Item No. F. 10 Tennessee quarter circle corner slabs for 14x17 inch basins. They are 24x24 inches. Complete with 12 inch backs,  $1\frac{1}{4}$  inches thick. They are in excellent condition, no cracks and no stains. Either 1 or 2 cock holes. Price each, \$3.00
- Item No. G. 14 quarter circle Italian marble corner slabs. Complete with backs, for 14 inch round and 14x17 inch oval basins, ranging from 20x20 to 24x24 inches. The backs from 8 to 12 inches high. Second hand. The defects are stains. Price, each, \$2.25
- Item No. H. 6 mantel tops of Tennessee marble. 78 inches long, 16 inches wide,  $1\frac{1}{4}$  inches thick. Price each.....\$4.00

### LAVATORY TRIMMINGS.

We will furnish you trimming for any of above slabs as follows:

- 1 pair N. P. Compression Basin Cocks.  
 1 N. P. "S" Trap, no vent.  
 1 pair N. P. Brackets, Clamps, etc.  
 1 P. O. M. P. Round Bowl—for all...\$5.00  
 If 14x17 P. O. M. P. Bowl, add..... 50  
 If 15x19 P. O. M. P. Bowl, add..... 1.00

### CLOSET BOWLS.

- A B. 57. 2 Combined Hopper and Trap Bowls, very highly decorated, hand painted, first class condition, brand new made for rubber connections, each, \$1.25
- B. No. 56. 30 loose Hopper and Traps made by Kelly Bros. They are solid vitreous porcelain, in first class condition. Each.....\$0.75

### BATH TUBS.

A. B. No. 67. 11 brand new Porcelain Enamelled Bath Tubs, full of pit holes in the enamel. These tubs are perfect casting, the only defect being in the enamel, which would spoil the appearance, but for actual use and good service are as good as any tub on the market; complete with nickel-plated compression double bath cock, nickel-plated overflow strainer, waste plug and rubber stopper.

$4\frac{1}{2}$  ft. long, with trimmings, each, \$13.50  
 5 " " " " " " 14.00  
 5  $\frac{1}{2}$  " " " " " " 15.00

A. B. 68. 20 brand new Porcelain Enamelled Iron Bath Tubs. They are crazed in the enamel. These tubs are perfect casting, the enamel being more or less crazed but they are perfectly solid and will give good service. They are complete with nickel plated compression double bath cock, nickel plated overflow strainer, nickel-plated waste plug and rubber stopper.

$4\frac{1}{2}$  ft., price each.....\$14.00  
 5 " " " " " " 14.50  
 5  $\frac{1}{2}$  " " " " " " 16.00

A. B. No. 55. 10 Second Hand Bath Tubs with flat rims, white enamel painted inside. They are  $4\frac{1}{2}$  and 5 ft. long,  $19\frac{1}{2}$  inches deep and  $28\frac{1}{2}$  inches wide, outside measurements; complete with nickel plated compression double bath cock. Waste and overflow chain and plug. Each...\$11.00

A. B. No. 58. 6 Copper Lined Bath Tubs, boxed in pine wood, 5 feet long, 24 inches wide, 18 inches deep. These are absolutely in perfect condition, but are second hand. Each.....\$6.00

**Above Trimmings are all High Grade and Brand New.**

## AIR PRESSURE WATER WORKS SYSTEM

### Individual Water Works Plant for Your Home or Farm

Our system consists of a large heavy, air-tight, steel storage tank and a powerful force pump. In the larger system these pumps may be worked by either a windmill or a gasoline engine. We furnish the gasoline engines for this purpose.

**OPERATION.** A normally empty tank is full of air, and as water is pumped into the bottom of the tank, the air above is compressed into smaller and smaller space, the pressure increasing in proportion to the quantity of water forced into the tank. Approximately with a 60-pound pressure, the tank will be two-thirds full of water and with an 80-pound pressure the same as water from city water works. Water will be delivered a fraction more than two feet in height for every pound pressure in the tank. Of course, as the water is drawn out of this tank, the pressure decreases, because the air has a chance to expand. To overcome this a tank with a sufficient reserve capacity should be used. Starting off with a tank two-thirds full of water, that is, at 60-pound pressure, approximately four-fifths of this amount of water would be delivered by the time the pressure reduces to 10 pounds.

From this tank you could pipe water to your plumbing fixtures, to your heating plant, to your lawn for sprinkling purposes, to your barn and to the pasture lot, in fact, it can be piped anywhere and almost any distance.

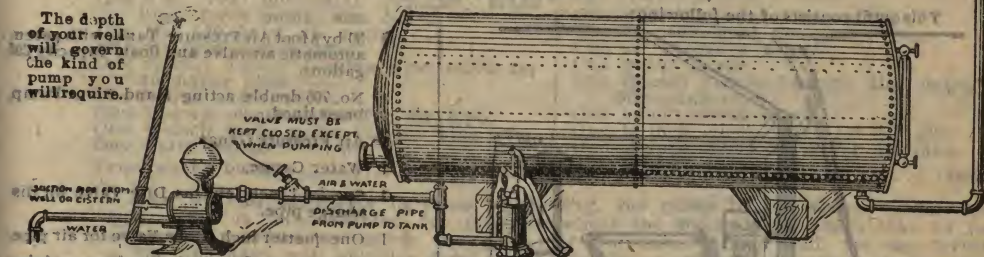

The advantages of this system over an elevated tank are that the tank may be placed in your cellar, or in a pit, and it is thus protected from the elements, from freezing in the winter, and from extreme heat in summer. Another advantage is that water may be piped much higher than with the average elevated tank, a pressure of 60 pounds being equal to a tank elevated 110 feet. With this system a pressure may be maintained that will throw water over any building, and thus provide effective fire protection.

As compared with an attic tank, with our system, there is no danger from leaks, or from settling walls, either of which would crack your plaster.

Water under heavy pressure will absorb some air, and this destroys all animal or vegetable matter in the water, and keeps it remarkably sweet and clean. An evidence of this absorption of air, is that when the water is drawn into a glass it is a whitish color, but this passes off in five or ten seconds in the form of minute bubbles. This absorption of air will gradually rob the tank of its air cushion, so that it is necessary to supply fresh air to the tank once or twice a month.

This can be accomplished in two ways. The least expensive is to have a separate hand air pump as shown in our Outfit No. 21, herewith. In connecting this pump it should always be connected as shown in the illustration into the bottom of the tank and never into the air space at the top of the tank. It can be connected with  $\frac{1}{4}$  inch pipe and  $\frac{1}{4}$  inch globe valve and  $\frac{1}{4}$  inch globe valve between the pump and the tank itself.

**THE COST OF THE SYSTEM.** The cost depends on the size of the tank, and on the kind of pump you need.

Our Outfit No. 21 consisting of:

One 2nd Hand Air Pressure Tank, capacity approximately 300 gallons.

One No. 705 Double-acting Hand Force Pump, brass lined, new.

One No. 600 Hand Air Force Pump, new.

One Air Pressure Gauge.

This size outfit is suitable for supplying water to kitchen, bath room and laundry of the average residence. The pump is especially designed for this work, and combines strength with ease of operation, five to ten minutes of pumping per day being sufficient for ordinary requirements. It should be placed not more than 20 feet higher than the level of the water in the well or cistern.

The tank has a total capacity of about 300 gallons, and, deducting the space occupied by air, will deliver 200 gallons of water. It is equipped with a water glass on the tank so that one may easily see the relative amount of air and water in the tank.

Price, outfit complete as above.....\$65.00

If the water line in your well is over 20 feet below the surface you should use our No. 605 Double-acting Anti-freezing, 8-way Force Pump. The upper cylinder of this pump is 2 inches in diameter, and the lower cylinder is 3x10 inches. The lower cylinder can be lowered to the bottom of deep wells, so that it is used as a deep well pump. When we furnish a gasoline engine, we supply these pumps with windmill attachment so that direct connection can be made with the walking beam of the engine.

Price of No. 705 Force Pump, special No. 600 Air Force Pump, Pressure Gauge Valves, etc., as listed above.....\$22.50

Price of Heavy Plain Tanks, both used and new, for air pressure water supply systems. Tested and guaranteed.

One Water Gauge.

One special 1-inch Jenkins Disc Valve for discharge pipe.

One 1 inch Check Valve.

One  $\frac{1}{4}$  inch Globe Valve for air pipe.

One  $\frac{1}{4}$  " Check " " " " pipe.

**HAVE RUNNING WATER AND MODERN PLUMBING IN YOUR COUNTRY HOME.**

# AIR PRESSURE WATER WORKS SYSTEM

## FOR SUPPLYING RUNNING WATER FOR COUNTRY HOMES.

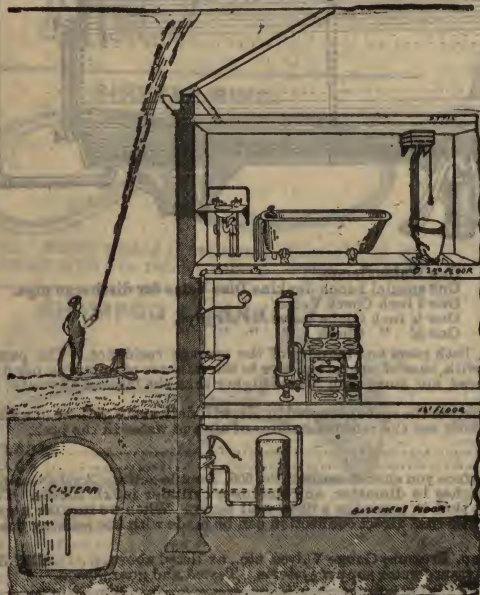

### OUTFIT NO. 1.

This outfit consists of the following:

- 1 30 by 8 foot Air Pressure Tank, with patent automatic air valve and float. Capacity 295 gallons.
- 1 No. 705 double acting Hand Force Pump, brass lined.
- 1 Air Pressure Gauge.
- 1 Water Gauge.
- 1 Special 1-inch Jenkins Disc Valve for discharge pipe.
- 1 One-quarter inch Globe Valve for air pipe.

This size outfit is suitable for supplying water to kitchen, bath room and laundry of the average residence. The pump is especially designed for this work, and combines strength with ease of operation, five to ten minutes pumping per day being sufficient for ordinary requirements. It should be placed not more than twenty feet higher than the level of the water in the well or cistern.

The tank has a total capacity of 295 gallons, and, deducting the space occupied by air, will deliver 200 gallons of water. It is equipped with our patent air valve which automatically maintains the correct proportion of air in the tank without the use of an air pump.

Price—outfit complete, as above, with Automatic Tank.....\$90 00  
 Price—outfit complete, as above, but with Plain Tank, and with a separate Hand Air Pump..... 80 00  
 This is one of our most popular outfits. It is guaranteed to develop a pressure of 50 lbs. to the square inch, and to deliver water through pipes to a horizontal distance of one mile, and to a height of 100 feet above the tank. Complete directions for setting up and operating accompany each outfit.

### OUTFIT NO. 2.

Same as outfit No. 1, only the tank is 36 inches by 8 feet. Capacity, 425 gallons.

Price complete, Automatic Tank.....\$105 00  
 Price complete, Plain Tank and a separate Air Pump..... 95 00

### OUTFIT NO. 3.

Same as outfit No. 1, only the tank is 36 inches by 12 feet. Capacity, 620 gallons.

Price complete, Automatic Tank.....\$120 00  
 Price complete, Plain Tank and a separate Air Pump..... 110 00

We can furnish these outfits with tanks up to 14,000 gallons capacity, and with larger and more powerful pumps.

Prices of the larger size outfits on application.

**Ask for our Prices on Wrought Iron—Lap Welded Casing.**

# Air Pressure Water Supply

## OUTFIT No. 5.

This outfit consists of the following:

- One new extra heavy tank, built especially for Air Pressure work, tested to 125 lbs. air pressure and guaranteed tight. Tank 42 inches in diameter, 14 feet long, capacity, 1,000 gallons.
- One Fig. 705 horizontal cylinder brass lined force pump, size No. 2.
- One No. 600 hand air pump.
- One air pressure gauge.
- One water gauge.
- One special 1-inch Jenkins disc valve for discharge pipe.
- One 1-inch check valve.
- One  $\frac{1}{4}$ -inch check valve for air pipe.
- One  $\frac{1}{4}$ -inch globe valve for air pipe.

Price above outfit.....\$145.00

## OUTFIT No. 6.

This outfit consists of the following:

- Tank, 42 inches by 16 ft., capacity, 1,150 gallons, brand new, especially built for Air Pressure work, tested to 125 lbs. air pressure, and guaranteed tight.
- One Fig. 705 horizontal cylinder brass lined force pump, size No. 2.
- One No. 600 hand air pump.
- One air pressure gauge.
- One special 1-inch Jenkins disc valve for discharge pipe.
- One 1-inch check valve.
- One  $\frac{1}{4}$ -inch check valve for air pipe.
- One  $\frac{1}{4}$ -inch globe valve for air pipe.
- One water gauge.

Price above outfit.....\$155.00

Now we can substitute in place of the Fig. 705 pump in the above outfits (and this pump is only adapted for pumping where the water is not more than 20 feet below the surface or below the pump), if you have a deep well, we can furnish a Fig. 505 deep well cylinder force pump, Size No. 2, without change in price. This 505 pump will be furnished with a wind mill head, if you so specify, without extra charge.

## OUTFIT No. 7.

This outfit consists of the following:

- One 48-inch by 16 ft. tank, capacity, 1,500 gallons, especially built for Air Pressure work, new, tested to 125 lbs. air pressure, and guaranteed tight.
- One Fig. 705 hand force pump.
- One No. 600 hand air pump.
- One air pressure gauge.
- One water gauge.
- One special 1-inch Jenkins disc valve for discharge pipe.
- One 1-inch check valve.
- One  $\frac{1}{4}$ -inch check valve for air pipe.
- One  $\frac{1}{4}$ -inch globe valve for air pipe.

Price above outfit.....\$175.00

## OUTFIT No. 8.

Tank 48 inches in diameter, 20 feet long, capacity, 1,880 gallons, especially built for Air Pressure work, tested to 125 lbs. air pressure, and guaranteed tight, brand new.

- One Fig. 705 hand force pump.
- One No. 600 hand air pump.
- One air pressure gauge.
- One water gauge.
- One special 1-inch Jenkins disc valve for discharge pipe.
- One 1-inch check valve.
- One  $\frac{1}{4}$ -inch check valve for air pipe.
- One  $\frac{1}{4}$ -inch globe valve for air pipe.

Price above outfit.....\$220.00

## Gasoline Engine Pumping Outfits

We can furnish you a  $1\frac{1}{2}$  H.P. gasoline engine with pump, all mounted on the same base. Pump is a high grade pressure pump, and is back geared about 6 to 1. It will pump 30 barrels of water an hour against a pressure of 50 or 60 lbs. The pump is strongly constructed and rigidly attached to the engine. It is driven by the finest quality of machine cut gears, which are so designed as to be very strong, and capable of withstanding the work put upon them without wearing away. The pump piston rod is made of the best Tobin Bronze, especially drawn for this class of work. The piston and removable pump lining are of the hardest bronze. The stuffing box and gland are also of bronze, making all working parts of the pump rust proof. This combined pump and engine is valuable for fire protection to mills, barns, or residences. The engine may be used independent for power purposes. It takes but a few seconds to disconnect the pump. The engine is shipped ready to run, and is supplied with wrenches, oil can, batteries, spark coils, switch and wire to connect batteries. This would be a brand new engine and pump. Substituting this gasoline engine and pump would increase

the price of any of the above outfits \$100.

If you use a deep well pump, we can furnish the gasoline engine with pump jack instead of with the pump back geared and mounted on the same base, and when so furnished with the pump jack, we would furnish a deep well cylinder pump listed above and the gasoline engine and pump jack, and this would increase the cost of the above outfits \$75.00.

We can furnish a brand new power air compressor, with heavy balance wheel for either hand or power drive. Wheel has two hand bosses by which the levers can be varied according to pressure required. The outer rim of the balance wheel forms a pulley—30 inches in diameter, 3-inch face. The valves which are contained in the base of the pump, are brass; piston is metal; ring packed. It is capable of a maximum pressure of 100 lbs.; cylinder 3 inches in diameter, 4-inch stroke, has a displacement of 28 cubic inches of free air every revolution of the crank shaft. It is fitted for  $\frac{1}{2}$ -inch suction and  $\frac{1}{2}$ -inch discharge pipe.

Price .....\$37.00 net extra.  
Price of this Air Compressor separate from the outfit .....\$45.00

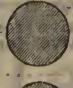

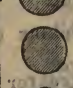

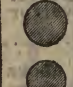

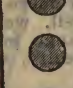

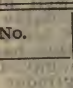

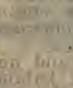

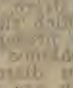

Ask for Quotations on Machinery of all Kinds.

# WIRE! WIRE! WIRE!

## Galvanized Wire Shorts

This term is used to denote smooth new wire secured by us under contract from the various wire mills. It is galvanized and extensively used for building fences and many other purposes. It is put up one gauge only in a bale, each containing 100 lbs.

Regular Galvanized Wire Shorts, lengths in a bale ranging anywhere from 15 to 250 feet.

### PRICES AS FOLLOWS:

Gauges.	Price, 100 lbs.
9 .....	\$1.60
10 .....	1.60
11 .....	1.60
12 .....	1.60
14 .....	1.60
15 .....	1.60

## STEEL FENCE POST.

This cut shows a section of Bruley's Steel Fence Post. The post is 4 feet and upwards above the ground as may be required; it is made of Bessemer steel 1 1/2"x 3/4". The base is made of wrought iron tubing 18 to 36 inches long, with one end pointed. We can also furnish an iron brace 12x3 inches; this is ONLY necessary in wet ground. Weight of post complete, 10 pounds and upwards.

The base is first driven into the ground, then 6 to 12 inches of the post is inserted into it and a little cement is thrown in to fill up the top of the base and keep out the water. There is a cap used while the base is being driven into the ground.

In the post, diagonal notches are cut 4 inches apart, so that any kind of wire or woven fence can

be used. After placing the wire in the notches, a slight tap of the hammer will make it rigid.

Corner and end posts are made by placing a piece of 2 by 4 hardwood, from top of corner post to foot of next post and then after stretching the wire, fasten each wire of the fence with staples to the 2 by 4. Temporary posts should be used for wire stretchers.

Ten miles of fence made with this post can be built while the holes for one mile of wooden posts are being dug, thus saving at least 5 cents per post.

As fast as your wood posts rot or burn-out, replace them with steel; take a few posts in one hand and a sledge in the other and walk to any part of your farm—no team needed. Repairs once made are good for all time.

The tube or base being separate from the post is the main feature of this invention; it makes the post absolutely rigid, and the tube being pointed, it is quickly driven.

### PRICES AS FOLLOWS. Price is for Post complete with Base.

BASE UNDER GROUND.	LENGTH OF POST ABOVE GROUND.		
	5 Feet	4 1/2 Feet	4 Feet
24 inches .....	36 Cents	35 Cents	34 Cents

Width 14 feet; height 48 inches.....**4.70**

Width 14 feet; height 50 inches.....**4.85**

Width 16 feet; height 54 inches.....**5.35**

Approximate weights, 100 to 140 lbs.

### No. WF4. Double Drive Gates.

Width 8 feet; height 42 inches....per pair, **\$3.00**

Width 10 feet; height 34 inches....**3.70**

Width 10 feet; height 58 inches....**4.00**

Width 12 feet; height 58 inches....**4.70**

Width 14 feet; height 50 inches....**5.35**

Approximate weights, 100 to 150 lbs.

### Yankee Gates.

**No. WF5.** We also have in this lot six (6) YANKEE STEEL GATES. It is the best steel gate manufactured, nothing to get out of order; it is simple and satisfactory. These gates are 16 feet 10 inches in width, and are intended for 16 foot gate set post, for the reason that a lap of 5 inches on post is allowed at each end. They are 48 inches in height, built extra strong and weigh approximately 140 lbs. Price.....each,**\$10.00**

Send us your lumber bill for our estimate

# Mixed Wire Nails.

A VERY HANDY ASSORTMENT.

2,000 kegs of these nails on hand. We purchased them from the nail mills. They are mixed, all sizes in a keg. We have sold a great many of them during the past few years and they are very popular. The assortment ranges from about 3 to 30d, and mostly common and barbed nails in the assortment. Each keg contains from 100 to 115 lbs. of nails.

Price per single keg.....	\$1.60
Price per keg in lots of 3 kegs.....	1.55
Price per keg in lots of 5 kegs.....	1.50

## SMALL MIXED WIRE NAILS.

Item No. B 14.

We have on hand 10,000 lbs. small steel wire nails, in lengths from 3-16 to 17 1/2 inches, and in gauge from 22 to 12, which we warrant to be strictly brand new and perfect. They come mixed 50 lbs. in a case; they are mostly barbed; come in flat and oval heads. We do not sell less than a case.

Price for 50 lb. case.....	\$1.00
----------------------------	--------

## CEMENT COATED WIRE NAILS.

Put up one size to a keg. We bought 10 carloads. They are coated with cement, insuring them against rust, and making the very best grade of wire nails manufactured. One size only in a keg. Can furnish any pennyweight from 2 to 60. Our quotations as follows:

2 to 10D, per keg.....	\$2.30
10 to 20D, per keg.....	2.15
20 to 30D, per keg.....	2.00
30 to 60D, per keg.....	1.80

When ordered in lots of five or more kegs at a time, we allow a deduction of 5 cents per keg on above prices.

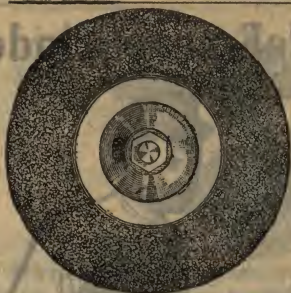

## BRIGHT WIRE NAILS.

One Size Only in a Keg.

3d wire nails, common and fine, per 100 lbs.....	\$2.70
7d finishing wire nails, per 100 lbs.....	2.25
6d to 12d, common, per 100 lbs.....	2.60
20d to 60d, common, per 100 lbs.....	2.40

See Gasoline Lamps, Mantles and Sundries, on Another Page.

# EMERY WHEELS.

We have on hand a complete stock brand New Emery Wheels, representative of the very best makes on the market, and each one fully guaranteed.

## BENCH EMERY GRINDER.

cluding stones

**No. 1.** This Machine will run 2 wheels 6 in. diameter, 1 in. thick. Has 1/2 in. steel spindle, 1/2 in. between flanges, pulley 2 in. diameter, 1 1/4 in. face. Weight, 9 lbs. Price, not including stones.....\$2.10

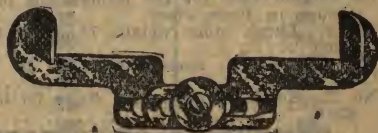

**No. 2 Grind-er.** This Machine was run 2 wheels 10 in. diameter, 1 1/2 in. thick. Has a Steel Spindle 1/2 in. in Bearings, 1/2 in. between flanges. The bearings are 2 in. long, made with caps, and are adjustable. Mounted with brass oil cups, pulley, 2 1/4 in. in diameter, 1 1/4 in. face. Weight of grinder complete, 20 lbs. Price, not including stones.....\$4.50

**No. 3 Emery Grinder.** Will run 2 wheels 12 in. diameter, 2 in. thick. Has a steel spindle 1 1/2 in. long and 1 1/4 in. diameter in bearings, 1 in. between flanges. The bearings are 3 in. long, and same style as engine lathe bearings, mounted with brass oil cups. Pulley, 2 1/2 in. diameter, 2 1/4 in. face. Weight, 40 lbs. Price, not including stones.....\$6.50

**No. 4 Emery Grinder.** Will run 2 wheels 16 in. diameter, 2 1/2 in. thick. Has steel spindle 1 5/16 in. diameter in bearings, 1 1/2 in. between flanges. The bearings are 4 in. long and same style as engine lathe bearings. Mounted with brass oil cups, pulley 4 1/2 in. diameter, 2 1/4 in. face. Weight, 65 lbs. Price, not including stones.....\$8.75

## BICYCLE TOE CLAMPS.

**Our Adjustable Safety Clamp** is adjustable to any and all sizes of shoes, and hence can be worn by ladies as well as gentlemen. It will not bend or throw out of shape, as it rests against the pedal side and is made of heavy steel. Price, per pair.....\$0.07 Per dozen.....0.70

We have everything in Mill Supplies for sale.

# Bicycle Grindstone. Bicycle Emery Grinder

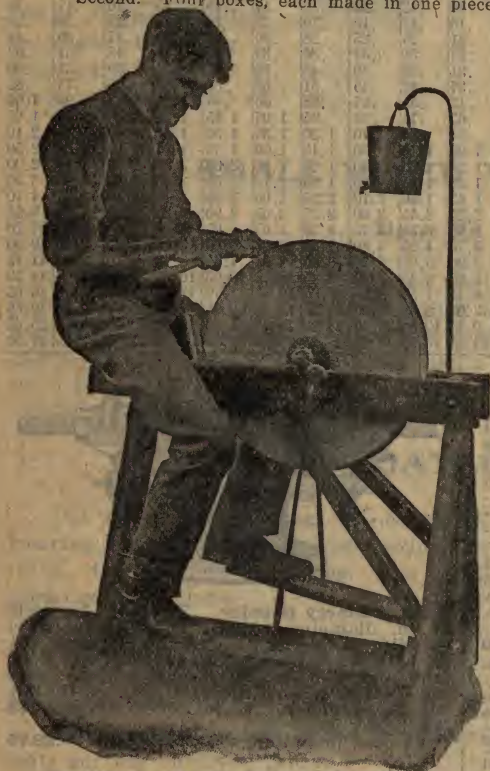

Makes grinding a pleasure. Ball bearing throughout. It is ball bearing, self cleaning and will not get foul. It is scientifically constructed. It is as perfect as a bicycle. One man does the work of two and twice as quick.

The frame is made of 2x4 timber, and is provided with three legs, two of which act as braces. A three-legged implement always stands firmly even on uneven surfaces. The frame is thoroughly braced and bolted together, so that it is very rigid and firm, and is strong enough to support a stone of 500 lbs. or more, and it does not wobble or move from side to side when being pushed with both pedals, because it cannot collapse as other frames do.

The machinery or running gear is made of the best quality of steel and consists of:

First. Two flanges with a portion of the axle and a crank on each, all in one piece, thus rendering it impossible for the different portions to get out of adjustment.

Second. Four boxes, each made in one piece,

the larger to support the axle and the stone, the smaller ones for the pitman and pedals.

Comes in three sizes:

- |  |        |
|--|--------|
| No. 1. Large, stone weighs 75 to 90 lbs.             |        |
| Each .....   | \$2.75 |
| No. 2. Medium, stone weighs 60 to 75 lbs. Each ..... | 2.50   |
| No. 3. Small, stone weighs 40 to 50 lbs. Each .....  | 2.25   |

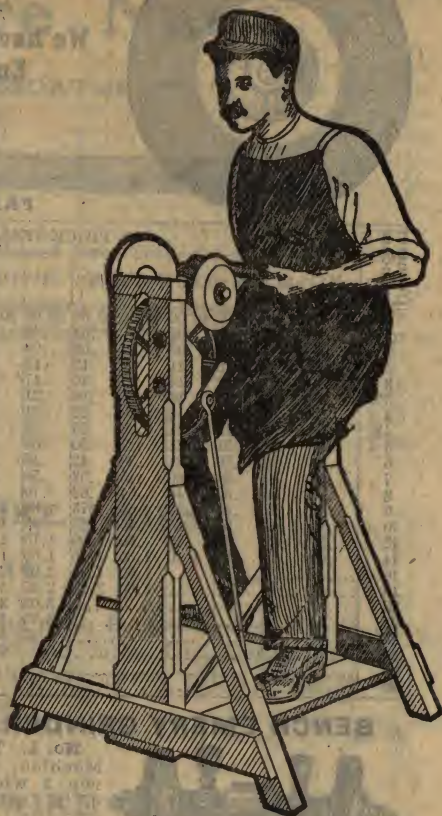

## UNMOUNTED GRINDSTONES

Several Carloads of best Berea, Ohio, unmounted grindstones. Can furnish all sizes. Price, per pound .....

## MOUNTED GRINDSTONES

Lot No. 4. 200 grindstones, mounted with common fixtures, not ball-bearing. Medium size stone.

Price, each .....

It will do all the work of the power machine. It is absolutely accurate and true running, which cannot be said of another grinder on the market.

The BICYCLE EMERY GRINDER never needs oiling, for the working parts are entirely ball-bearing and perfectly protected so that dirt cannot accumulate.

The frame is manufactured entirely of first-class properly seasoned lumber, braced in the most thorough manner by wood and steel.

The pedals are hinged to the frame by steel hinges.

The Pitman rod is so connected to the pedal that it would be immediately released should the pedal come suddenly in contact with something on the floor.

There are no parts to wear out quickly, but any part can be duplicated at once.

It has a comfortable cast iron, adjustable seat, properly secured, and in front of the seat the table is provided with an adjustable tool rest. The entire outfit is guaranteed absolutely to give satisfaction, or the machine will be replaced without cost.

Sickles can be ground, saws gummed, skates ground, razors concaved, metal polished, scissors and all kinds of tools sharpened, axes and hatchets can be ground and it will be suitable and very desirable and a money saver for general farm purposes.

**Complete Grinding Outfit for \$7.00**

**No Matter What It Is You Want, We Have It.**

We carry a complete stock of steel shafting, both new and second-hand. We generally have on hand all sizes of second-hand shafting. It is all straight and true. Prices are for shafts from 2 feet to 24 feet long, inclusive; on lengths longer than 24 feet we charge  $\frac{1}{2}$  cent net per lb. extra.

## MISCELLANEOUS—Continued.

**BALANCE WHEELS.**

We invite inquiries for anything in the way of balance wheels. We have upwards of a hundred in stock now, of which the following is an extract:

No. 1412.	48x26 heavy balance wheel, 4½ in. bore, double spoke, 1 in. rim, 10 ton counter balance weights for elevator...	
No. 3053.	One split balance wheel, 50 in. dia., 8 in. face, thickness of metal 4½ in....	
No. 3162.	One balance wheel 34 in. dia., 1¾ in. shaft, weight about 125 lbs.....	2.00
No. 3181.	One balance wheel 26 in. dia., square rim 2½x3.....	4.50
No. 3194.	One solid web round rim balance wheel 28 in. dia., weight about 300 lbs.....	6.00
No. 3199.	One balance wheel 24 in. dia., solid web, square rim....	5.00
No. 3200.	One heavy balance wheel, square rim, 15 in. dia. x 3 in. face .....	1.50
No. 3488.	One heavy solid balance wheel, 56 in. dia. x 6 in. face, weight about 4,000 lbs. ....	

No. 3077.	One shrouded pulley 30 in. dia. x 14' in. face.....	
No. 3133.	One shrouded pulley 26x 3½ .....	1.50
No. 3480.	One Champion oil separator.....	
No. 3484.	One oil separator, 1½ in. opening.	
No. X-93.	One Worthington water meter, with 1½ in. opening.....	
No. 3397.	One American Tool Works 5 ft. semi-universal radial drill.....	
No. 3443.	One Walter A. Wood reaper; will take a knife or sickle 48 in. long.....	
No. M-125.	One pug mill or brick machine, not complete. WRITE FOR PARTICULARS.	
No. 3367.	One power meat cutter with 4 knives, automatic turning table, two pulleys, all complete.....	
No. M-122.	Pile driver hammers, 1,000 to 2,000 lbs. in weight.....	
No. M-123.	3,000 6 in. galvanized flange pipe, adapted for irrigating purposes. Per foot.....	.18
No. M-124.	Lot of wrought iron pipe goose necks .....	
No. M-126.	1,000 ft. of 1¼ in. and 1½ in. hydraulic pipe good for 10,000 lbs. pressure .....	
No. M-131.	5,000 ft. of 3 in. (slip joints) spiral riveted pipe, 22 gauge iron. Per ft.....	.06
No. M-127.	One 40 in. cast iron hitching post, weight about 100 lbs.	2.00

No. 3210.	Two heavy fly wheels, 46 in. dia., heavy square rim 3x5 in., 6 spokes, bored 3 7-16 in. (Can be bushed or bored.) Weight 1,000 lbs.....

## FLANGE OR PLATE COUPLINGS.

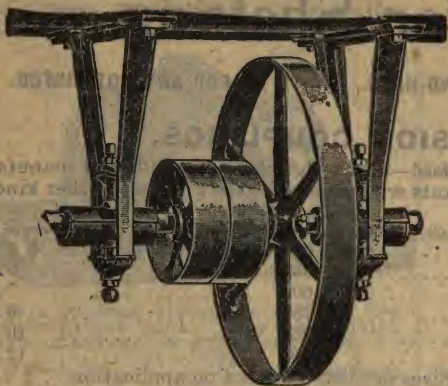

All kinds—new or second-hand. Prices on application.

In ordering second-hand shafting or couplings, it may save unavoidable delays if you will give us privilege of sending new goods, charging for the difference, provided we have not size wanted in the second-hand.

# COUNTERSHAFTS.

Always on hand, any quantity of good second-hand countershafts. Write for size you want. The following is from a recent inventory of our stock.

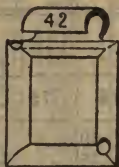

- No. M-62. One countershaft with 3 step cone pulley, 10, 15, 20 in. x 5 in. face; shaft 2 3-16 in. x 6 ft. long; tight and loose pulley 20 in. dia. x 6 in. face; two hangers 14 in. drop.....
- No. M-63. One countershaft with 3 step cone pulley 8, 10, 12 in. x 4 in. face; shaft 1 15-16 in. dia. x 4 ft. long; tight and loose pulley 16 in. dia. x 4 in. face; with two hangers 14 in. drop.....
- No. M-64. One countershaft with 3 step cone pulley 7½, 10, 12½ x 3 in. face; shaft 1 3-16 x 4 ft. long; pulley 16 in. dia. x 2 in. face, with two hangers 10 in. drop.
- No. M-65. One countershaft with 3 step cone pulley 7, 10½, 13 in. x 3 in. face; shaft 1 7-16 in. x 5 ft. long; tight and loose pulley 16 in. dia. x 3 in. face, with two hangers 12 in. drop.....
- No. M-66. One countershaft with 5 step cone pulley 6, 8, 10, 12, 14 in. x 2 in. face; shaft 1 5-16 in. x 5 ft. long; two hangers 14 in. drop; tight and loose pulley 10 x 3.....
- No. M-67. One countershaft with 4 step cone pulley 2, 4, 6, 8 in. x 1½ in. face; shaft 1 3-16 in. x 5 ft. long, with two hangers 14 in. drop; tight and loose pulley 10 x 3.....
- No. M-68. One countershaft with 4 step cone pulley 4, 6, 8, 10 in. x 2½ in. face; shaft 1 7-16 in. x 5 ft. long; tight and loose pulley 8 in. dia. x 4 in. face, with two hangers 14 in. drop.....
- No. M-69. One countershaft with 4 step cone pulley 2, 4, 6, 8 in. x 1½ in. face; shaft 1 3-16 in. x 3 ft. long; tight and loose pulley 6 in. dia. x 3 in. face; two hangers 8 in. drop.....
- No. M-70. One countershaft with 3 step cone pulley 2, 4, 6 x 1½ in. face; shaft 1 3-16 in. x 3 ft. long; tight and loose pulley 6 in. dia. x 3 in. face, with two hangers 8 in. drop.....
- No. M-71. One countershaft with 4 step cone pulley 10, 14, 18, 22 in. x 3 in. face; shaft 2 3-16 in. dia. x 6 ft. long; tight and loose pulley 16 in. dia. x 6 in. face, with two hangers 16 in. drop.....
- No. M-72. One countershaft with 5 step cone pulley (wood) for wood turning lathe, 4, 6, 8, 10, 12 in. x 2 in. face; shaft 1 7-16 in. x 5 ft. long, with two hangers 14 in. drop; pulley 10 in. dia. x 3 in. face.....
- No. M-73. One countershaft with 3 step cone pulley 8, 10, 12 in. x 3 in. face; shaft 1 15-16 in. x 5 ft. long, with two hangers 15 in. drop; tight and loose pulley 10 in. dia. x 5 in. face.....
- No. M-74. One countershaft with 3 step cone pulley 8, 10, 12 in. x 3 in. face; shaft 1 15-16 in. x 5 ft. long; tight and loose pulley 10 in. dia. x 5 ft. face, with two hangers 14 in. drop.....
- No. M-75. One countershaft with 5 step cone pulley 4, 6, 8, 10 and 12 in. x 2½ in. face; shaft 1 9-16 in. x 5 ft. long; tight and loose pulley 14 in. dia. x 4 in. face, with two hangers 14 in. drop.....
- No. M-76. One countershaft with 4 step cone pulley 6, 8, 10, 12 in. x 2 in. face; shaft 1 7-16 in. x 4 ft. 6 in. long; tight and loose pulley 12 in. dia. x 4 in. face, complete with two hangers 14 in. drop....
- No. 3129. One countershaft, 4 step wood cone pulleys 12 in., 10 in., 8 in., 6 in. x 2½ in. face; tight and loose iron pulleys 9 in. dia. x 4 in. face, with shifter rod..
- No. 3144. One friction clutch countershaft pulley 14x4, with shifting lever; will fit with suitable cone pulleys..... 12.00
- No. 3147. One countershaft with tight and loose pulleys 18 in. dia. x 8 in. face; 5 step cone 17 in., 15 in., 13 in., 11 in., 9 in., with two hangers and shaft 7 ft. x 2 in.. 12.00
- No. 3149. One clutch countershaft, complete with tight and loose pulleys 14 in. dia. x 4¼ in. face, 3 step cone pulleys 12 in., 10 in., 8 in.; shaft 1¾ in. x 5 ft., complete with hangers..... 15.00
- No. 3163. One countershaft with shifting device; length of shaft 3 ft. x 1¾ in.; tight and loose pulleys 18x4, with two hangers and safety collars..... 7.50
- No. 3164. Same as No. 3163.....
- No. 3185. One countershaft with one pulley 16 in. dia. x 4½ in. face; two pulleys 8 in. dia. x 4¼ in. face, with two hangers 12 in. drop; shaft 48 in. long..... 4.00
- No. 3212. One countershaft, tight and loose pulleys 20 in. dia. x 6 in. face; 4 step cone pulley 20, 16, 10, 6; shaft 48 in. long, 1 15-16.....

**ALL MATERIAL IS FOR QUICK DELIVERY.**

# Link Chain Belting.

For use on mowers, reapers, binders, corn and wheat drills, corn shellers, straw stackers, feed cutters, traction engines, etc. When ordering chain for repairs, be sure and give number of chain; also lay one link on paper and mark around with pencil, showing size and shape of links.

No.	Links per ft.	Working Strain.	Approximate in Leather Belting.	Price per ft.
25	13.3	75 lb.	1 in. Single	\$0.08

66	6.	700 lb.	6½ in. Single	.18
67	5.2	700 lb.	7 in. Single	.18
75	4.6	750 lb.	7½ in. Single	.21

## Attachment Links for Chain Belting.

These Attachment Links are made to fit the sizes of chain as listed below, and must not be ordered except to match the sizes we state they will fit. For example, it will be noticed that the A 10 attachment is only made for Nos. 35 and 45 chain, and must not therefore be ordered to be used on any other size.

# Hercules Steel Face Pulleys

We purchased at a recent sale, three carloads of these pulleys. They are all guaranteed new and perfect in every way. We are offering you the most perfect and scientific pulley on the market.

## CONSTRUCTION

The rim is formed from the best quality of cold rolled sheet steel.

The arms are made of selected and thoroughly seasoned maple.

The flanges and inner surface of the rim are painted, and the face covered with glass varnish.

The wood is soaked in hot linseed oil—to prevent warping—and coated with the best waterproof paint.

The rim is fastened to the center by bolts through the face, and by rivets through the flanges.

## ADVANTAGES

It is fully guaranteed.

It is very strong and very light.

It is not harmed in the least by atmospheric changes.

It is the most economical to buy, to install, and to operate.

Metal-fastened belts do not harm its surface.

Oil and dust will not accumulate and cake on its face.

An abundance of clamping bolts, a minimum distance from the shaft, give a maximum clamping power without injury to the shaft.

It has the best face for a maximum load with a loose belt.

## SIZES ON HAND AND NET PRICES EACH

DIAM. IN INCHES	FACE IN INCHES						
	3	4	5	6	8	10	12
6	\$0.70	\$0.80	\$0.85	\$0.90	\$1.10

24		2.10	2.35	2.60	3.15	3.75	4.35

## ORDER AS FOLLOWS:

- 1st—Number of pulleys.
  - 2d—Diameter in inches.
  - 3d—Width of face in inches
  - 4th—Exact size of shaft.
  - 5th—Whether straight or crown face.
- (Unless otherwise ordered, crown face will be sent.)
- One wood bushing is included in the price of each standard bore pulley.

Pulleys under 10-inch diameter bored for  $2\frac{7}{8}$ -inch bushing; pulleys 10-inch and over in diameter bored for  $3\frac{7}{8}$ -inch bushing.

Bushings supplied in sixteenths from smallest to largest sizes.

**ABSOLUTE SATISFACTION GUARANTEED.**

## OUR BELTING DEPARTMENT.

We can fill your wants for any style or size belting and can give you any grade belt you require. We carry and sell an enormous quantity of belting. We can fill telegraphic orders same day they are received. Our belting department manager, aided by years of practical experience, will be pleased to freely give you the benefit of his judgment as to the matter of selection, and will in every way possible give your belting orders proper care and attention.

We secure our stocks of belting in various ways—principally by the quick action of our efficient purchasing department, who are always on the watch for “belting snaps,” and who do not hesitate to purchase belting in enormous quantities.

If you had the time to spare and watch, you'd be surprised at the number of belting merchants who are unable to make a success of their business, and who are forced to quit the business. We usually buy their stocks for a “song.”

### LOT 1--RUBBER BELTING, GRADE “A.”

#### “Standard” Brand.

This Grade “A” Belting is strictly brand new, and first class for ordinary purposes. We carry a complete stock of sizes and plys, quoted in full rolls, and can promptly fill all orders.

The best grade of Belting for the money on the market.

### LOT 2X--RUBBER BELTING, GRADE “C.”

#### “Premier” Brand.

We are pleased to call your attention to our extra fine high grade “Premier” Brand of new Rubber Belting. We guarantee and warrant this belting equal to the best grades on the market. To those seeking for articles in this line, of special merit, we have no hesitation in recommending this brand of belting. It is made to give complete satisfaction. In ordering this belting be sure to mention “Premier” Brand, so as not to conflict with our ordinary grade quoted above.

# LEATHER BELTING—BARGAINS

## NEW LEATHER BELTS.

We are constantly buying at Manufacturers', Sheriffs', Receivers' and other Sales high grade belting, which we are selling far below its value. We guarantee satisfaction and should you purchase any belt from us, we will send it forward with the understanding that you have the privilege to return same after you see it, if you do not think it worth the price you paid for it. We will pay freight charges one way: you pay it the other way.

The belting on this page is all brand new and is in addition to the second hand we are showing on page 153. We can make any of these belts endless to order. When so ordered we charge for 3 additional feet.

No finer Belt on the market. Sold under a binding guarantee as to quality.

## SECOND HAND LEATHER BELTING.

We are in a position at all times to supply your wants in the very highest grade of SECOND HAND LEATHER BELTS on the market. We have but little trouble of the desirability of using them even in preference to buying new belts.

The stretch has all been taken out, and the belt is shipped to you all ready to take care of your requirements in first class shape.

We rebuild second hand belts and ship practically a new belt, with the exception that the stock, of course, is second hand.

We have in our employ an expert belt man who has made a life-long study of furnishing large, second hand belts to people who know what belts mean. Many of our customers who have been here in the house will recognize the truth of this statement, and will know that the knowledge possessed by our belt man is second to none in the business.

Furthermore, we ship only belting that we fully guarantee, and are willing to furnish you any of the second hand leather belts that we have in stock under a guarantee that, if upon receipt of same you do not think the belt will give you satisfaction or is not worth the amount of money you are paying us for it, we will take it back from you without any question or argument, and either furnish you another belt or cancel your order.

We make these belts endless to order, and IN ORDERING THESE ENDLESS, BE SURE TO ALLOW 3 FT. FOR LAP. We will rivet these belts, making nominal charge for same.

All Kinds of Fire Hose from the St. Louis World's Fair.

# RUBBER BELT REMNANTS.

This list of Remnants are all brand new, high grade Rubber Belting. If you fail to find the exact length you want, in this list, let us know your wishes, and we will cut any remnant, that is anywhere near the desired length, to fill the bill. You need have no hesitation in ordering these remnants, as they are the product of a well known belt manufacturer, and can be depended upon. They are suitable for work in saw mill's, rolling mills, farm machinery, wood working machinery, etc., in fact in the very hardest places, where they will be subject to the severest tests. Please order by number.

We Have an Enormous Stock of Fire Hose from the St. Louis Fair.

# Fire Department Hose.

## Double Jacket Cotton Rubber Lined.

Fifty thousand feet, size  $1\frac{1}{2}$  inch, 4 ply, solid Rubber Hose. Excellent for factories, mills, public buildings, etc. This hose was purchased by the Exposition under a guarantee that it would stand a pressure of at least 400 pounds. Most of it is of the New York Belting and Packing Company's manufacture. Considerable of it is of special brand, manufactured for Fairbanks, Morse & Co. and sold by them to the Exposition Company. This hose was used inside of the buildings and considerable of it has never seen any service. It is first class for general use. It is in 50 foot lengths and fitted with brass automatic couplings with iron pipe thread.

947-A9.

In lots of 100 feet or more we offer same, per 100 feet .....\$18.00

Special prices on very large lots.

10,000 feet same as above, in 25 foot lengths. Per length .....\$4.50

Fifty thousand feet of double jacketed, cotton rubber lined fire department hose,  $2\frac{1}{2}$  inches in diameter, representing the makes of all the leading hose manufacturers in this country; used for the fire department and naturally a very high quality, as it was on a high pressure line. This hose is in fine condition; some of it has never seen service. It is fitted with brass automatic couplings. We can furnish almost any thread desired. It is in 50 foot lengths.

Price per length for first selection.....\$27.00

Price per length for second selection 24.00

Price per length for third selection.. 15.00

## GARDEN HOSE.

15,000 feet  $\frac{3}{4}$  inch 3 ply Garden Hose, complete with couplings, 50 foot lengths. Per length .....\$2.00

## RUBBER BELT REMNANTS.

These remnants are brand new and of high grade material. We are offering them at extremely low prices to make room for an enormous stock that we recently purchased. We carry in stock large quantities of leather, rubber and canvas belting, both new and slightly used, that we are cleaning out at less than cost. Order now while this sale lasts.

# STITCHED CANVAS BELTING

## LIST No. 7

**Strictly New and Guaranteed Perfect and the Strongest Stitched Canvas Belting That is Manufactured.**

We can not speak too highly of the purchase made by us of these goods at a manufacturer's sale. Such excellent Belting was never seen before, especially in connection with such prices. It is practically impossible for the plies to separate, so closely are the rows of stitching sewed. Its friction is remarkable. It is absolutely waterproof, and no oil can injure it in the least. This belting is thoroughly stretched and is not shop-worn, yet selling at the following extremely low prices:

**WE GUARANTEE OUR BELTING.**

## ENDLESS STITCHED RUBBER BELTS.

### "PREMIER" BRAND.

This grade is especially recommended to anyone looking for a first-class Endless Stitched Rubber Belt either for threshing or other hard usages. The belts are fully guaranteed, and are as high a grade belt as is manufactured. If you are looking for a belt that will give entire satisfaction, send us your order for this brand.

The stitching on these belts makes them much more satisfactory, increasing their strength and does away with the danger of the plies coming apart. They are new, manufactured by one of the most reputable makers on the market.

Item No.	No. of Belts	Length of each—feet	Width Inches	Ply	Price per foot any quantity	Price, each complete belt
B 53	3	140	6	4	\$0.25	\$35.00
B 54	14	150	6	4	.25	37.50
B 55	6	170	6	4	.25	42.00
B 56	8	140	7	4	.29	40.00
B 57	4	150	7	4	.29	43.00
B 58	5	170	7	4	.29	48.00
B 59	10	140	8	4	.34	47.00
B 60	8	150	8	4	.34	50.00
B 61	1	160	8	4	.34	52.50
B 62	2	170	8	4	.34	55.00
B 63	2	140	9	4	.43	60.00
B 64	2	150	9	4	.43	64.00
B 65	2	160	9	4	.43	68.00
B 66	2	170	9	4	.43	72.00

You will note that our prices on these endless belts include the 3 feet necessary to make them endless. As a rule, jobbers charge 3 feet extra in making belts endless. We have absorbed this charge on the above quotation. In other words, when you buy 140 feet from us, you are practically getting 143 feet.

**Note all of the belts are strictly NEW. When you want a Boiler or an Engine get our List of Machinery.**

# RED STITCHED CANVAS BELTS

## REMNANT LIST

In the following list you will find an excellent opportunity to purchase a high-grade, absolutely perfect, brand new, Red Stitched Canvas Belt at an extremely low price. We offer you a splendid chance to save money. It's your own fault if you do not take quick advantage of it.

Thicknesses,  $\frac{1}{8}$ ,  $\frac{1}{4}$ ,  $\frac{3}{8}$ ,  $\frac{1}{2}$ ,  $\frac{3}{4}$ ,  $1\frac{1}{4}$  inch.

Price, per pound.....\$0.11½

**Lot No. 2.** We have in stock 50 rolls of Cloth Insertion Sheet Packing, all  $\frac{1}{4}$  inch thick. Rolls are from 36 to 40 inches in width. We purchased this at an extremely low price. The material is new, although slightly hardened. It is very practical for many uses, such as for steam joints, weather strips, matting, for deadening purposes, etc. We will sell this material at the following prices:

Price, per pound (less than 100 pounds)..\$0.05

In lots of 100 pounds......04

In lots of 300 pounds......03

In lots of 500 pounds......02½

**Lot No. 3.** Red Sheet Packing, equal to the highest grade on the market. It is intended for general use, and will not harden under the most extreme heat, and is very satisfactory for making gaskets, etc. Put up in rolls 36 inches wide. We do not cut rolls lengthwise, but will furnish any quantity 1 yard wide and any length desired. Sizes in stock,  $\frac{1}{8}$  to  $\frac{1}{4}$  inch.

Price, per pound.....\$0.45

## Smith's Automatic Packing

This packing comes  $\frac{3}{8}$ ",  $\frac{1}{2}$ ",  $\frac{3}{4}$ " and 1-inch thick. Each section is made in a V shape fitted into each other so that it tightens automatically as the pressure increases. In rolls of 25 feet.

Price, per pound.....\$0.30

Directions for Using Smith's Automatic Packing.—Cut the rings in a long bevel, and cut joints. Do not use Packing too large (it had better be 1-16-inch too small than 1-32-inch too large). Do not force or drive packing in stuffing box.

(Throw away your packing stick and use your fingers). Screw up the Gland Tight and allow the engine to make two or three revolutions, then release the pressure of the gland until it leaks, and then screw up the nuts with the fingers, until the leak stops. By following these directions you will find this packing the best you ever used.

**Lot No. 5.** Wire Insertion Packing. This packing comes in thicknesses from  $\frac{1}{8}$  inch up. It is used in hot joints where a cloth insertion packing would be rotted or burnt out by the heat. It is stronger and more durable.

Price, per pound.....\$0.32

## PISTON PACKING.

Round and square, made from the best quality cotton duck and rubber.

**Lot No. 6.** Round White Friction Piston Packing, in sizes from  $\frac{1}{4}$  to 2 inches, and in length to 12 feet.

Price, per pound.....\$0.30

**Lot No. 7.** Square White Friction Piston Packing, in sizes from  $\frac{1}{4}$  to 2 inches, and in lengths of 12 or 25 feet.

Price, per pound.....\$0.30

**Lot No. 8.** Square Black Friction Piston Packing, in sizes from  $\frac{1}{4}$  to 2 inches, and in lengths of 12 or 25 feet.

Price, per pound.....\$0.23

**Lot No. 9.** Square Hydraulic Piston Packing, made of white friction and fine duck. Comes in sizes from  $\frac{1}{4}$  to 2 inches, and in lengths of 12 feet.

Price, per pound.....\$0.42

**Lot No. 10.** Square Flax Packing, highest grade, manufactured from long fibre flax on the most improved machine, and saturated with an excellent lubricant. It is used in the water end of pumps and hydraulic elevators. In stock sizes as follows:  $\frac{1}{4}$ ,  $\frac{3}{8}$ ,  $\frac{1}{2}$ ,  $\frac{5}{8}$ ,  $\frac{3}{4}$  and 1 inch.

Price, per pound.....\$0.25

**Lot No. 11.** Spiral Graphite Packing, made of the very best quality of stock, guaranteed to give satisfaction. Put up in boxes containing 12 feet, and in sizes from  $\frac{3}{8}$  to 1 inch.

Price, per pound (any size).....\$0.60

# Lawn Sprinklers

## PATENT NEW CENTURY SPRINKLERS

200 Brand New Patented Lawn Sprinklers.

They are nickel plated and the most practical, and at the same time the simplest sprinkler on the market. It stands, including base, 6 inches high. It gives a fine whirling spray. The arm revolves with very light pressure. It is made of brass; for ¾-inch hose.

**Price, Each, 40 Cents**

Now is the time to purchase Belting. Our prices are very low

# FIRE AND MILL HOSE.

FROM THE  
**WORLD'S**  
**FAIR,**  
ST. LOUIS.

**PRACTICALLY  
NEW.**

TESTED BEFORE  
SHIPMENT.

**Over 100,000 feet of high grade Hose. All the 2½-in. has St. Louis threads. We will however, on application, quote this hose with special couplings for any size thread.**

- No. 346. 15,000 feet of 2½-inch Norshap double jacket cotton rubber-lined fire department hose, which was made by the Voorhees Rubber Company, and was put to a special test before acceptance by the EXPOSITION authorities, of 400 pounds to the square inch. This hose has expanded ring couplings on every 50 ft. length. Price, per foot.....55 cts.
- No. 347. 2,000 feet of 2½-inch double jacket cotton rubber-lined hose, furnished by the Simmons Hardware Co. Guaranteed to stand a test of 400 lbs. Coupled every 50 ft. lengths with expanded ring couplings. Cost 90 cts. per foot. Our price, per foot.....57 cts.
- No. 348. 10,000 feet of "Eclipse Brand," furnished by Fairbanks-Morse Co. Size 2½ inch, double jacket, cotton-lined regular fire department hose. Tested to 400 lbs. pressure. It is coupled every 50 ft. length with expanded ring couplings. Price per foot.....55 cts.
- No. 349. 15,000 feet of 1½-inch cotton jacket rubber-lined hose. Coupled in 50 ft. sections with expanded ring couplings. Tested to 300 lbs. to the square inch. Furnished by the James W. Burnes Belting & Hose Co. Price per foot.....20 cts.
- No. 350. 10,000 feet of 1½-inch 4-ply rubber hose, furnished by Fairbanks-Morse & Co. Coupled in 25 ft. sections and in 50 ft. sections. Complete with expanded ring brass couplings. Price per foot.....25 cts.
- No. 351. 9,000 feet New York Belting & Packing Co.'s Double Diamond Brand Hose, 1½-inch 4-ply rubber, with expanded ring couplings. Price per foot.....24 cts. Good as new; in fact, most of it has not been used outside of the fact that it was tested in receiving it.
- No. 353. 13,000 feet 2½-inch cotton rubber-lined fire hose for factories and mills; 50 ft. lengths; used six months; fair condition. Per foot.....26 cts.
- No. 354. 12,000 feet 2½-inch double jacketed cotton rubber-lined fire department hose. Has seen service, 50 ft. lengths, coupled. Per foot.....30 cts.
- No. 356. 1,000 feet of ¾-inch, 4-ply rubber hose, in 50-ft. lengths. "Federal Brand." Per foot.....8 cts.
- No. 357. 1,000 feet of ¾-inch, 4-ply New York Belting & Packing Co.'s "Comet Brand" hose, in 50-ft. lengths. Price per foot.....7 cts.

- No. 358. 250 feet of ¾-inch wire wound rubber steam hose, 8-ply, in 25-ft. lengths. Made by the Day Rubber Co. for 75 lbs. steam pressure. Price per foot.....35 cts.
- No. 362. 10,000 feet ¾-inch, 3-ply cheap hose, 50 ft. lengths, not guaranteed. Looks like new. All coupled. Per foot.....4 cts.
- No. 361. 500 feet of ¾-inch cotton rubber-lined garden hose, the "Reliance Brand," made by the Goodyear Rubber Co. in 50 ft. lengths, with couplings. Price per foot.....8 cts.

## High Grade Cotton Rubber Lined Fire Hose.

From the World's Fair, St. Louis.

Not exactly new, but never was used.  
Shows very little signs of wear.

Lot (No. 6. This hose is rubber-lined in the best manner, so that the water way is absolutely clear and smooth. The tube is made of Para rubber, finest quality, and cannot be sep-

arated from the jacket, and will not crack or dry out when the hose is not in use. The manufacturers have guaranteed this hose to stand a fire service pressure and to give satisfaction for three years. It is adapted for hand engines, factories, warehouses, steamboats, hotels, public institutions, etc., or wherever a durable and reliable hose for fire protection is required. It is put up in 50 foot lengths, and each length is complete with brass automatic couplings. We can furnish any thread desired. Note our prices:

- |  |         |
|--|---------|
| 1½ inch, per length of 50 feet, with couplings | \$ 9.00 |
| 1½ inch, per length of 50 feet, with couplings | 10.00   |
| 2 inch, per length of 50 feet, with couplings  | 13.00   |
| 2½ inch, per length of 50 feet, with couplings | 15.00   |

**THESE ARE ALL IN EXCELLENT CONDITION.**

# Garden and Water Hose.

We are at all times in position to supply your wants in anything you may require in the way of Garden or Water Hose. It is all new, regular grade, and we are stating absolute facts regarding its quality. We can make shipment immediately upon receipt of order, and the enormous stock we have on hand places us in better position to fill your orders promptly than anyone in the business.

## "Standard Brand."

Lot No. 1.  
(Not guaranteed.)

It will answer ordinary purposes. It is 3/4-inch. Comes in 50-foot lengths, complete with couplings. It is all 50-foot lengths, 3-ply.  
Price, per foot.....\$0.04 1/4

## "Star Brand."

Lot No. 2.

This is a much better quality than the "Standard." It is intended for those seeking a grade of good, everyday garden hose at way down prices. You will get your money's worth on a purchase of this grade. Note our prices. 3/4-inch, 50-foot lengths, complete with couplings.

Price, per foot.

3-ply.....\$0.07  
4-ply......09  
5-ply......10

## "Premier" Brand.

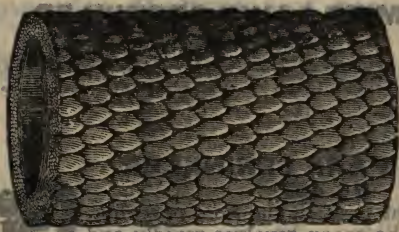

Lot No. 3.

We especially recommend your purchase of this grade. It is equal to any hose of its kind on the market and will outlast any cheap hose 3 to 1. In the long run it is the cheapest you can purchase. It is guaranteed to give entire satisfaction. You can purchase it with the knowledge that you have an article calculated to please you in every way, at a price below anything of the kind. It is all 3/4-inch diameter, 6-ply, and is in 50-foot lengths, complete with couplings.

Price per foot.....\$0.12

## Cotton Rubber Lined Water Hose.

Lot No. 4.

The jacket is made of long "Sea Island" cotton and the tube of finest "Para" rubber. It is new, 50-foot lengths, 3/4-inch diameter. Complete with couplings. A strong, durable and lasting hose.  
Per foot.....\$0.10

## Wire Wound Rubber Water Hose.

Lot No. 5.

The hose is made of 4-ply high grade material, protected by heavy galvanized wire wound on the outside and is intended for use where the chances are the hose would ordinarily be much abused or neglected. Furnished in 50 foot lengths, 3/4-inch diameter, with couplings.  
Price, per foot.....\$0.10

## Steam and Brewers' Hose.

Lot No. 7. Always on hand, a complete assortment of new steam hose, in all sizes. The grade that we furnish is constructed with numerous plies of fine duck and a heavy tube of Para rubber. Note our prices:

# DECK TURRET REVOLVING MONITOR NOZZLES.

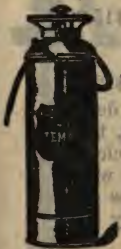

**No. 853**—175 modern monitor nozzles, made especially for the Exposition Buildings, and attracted wide attention. They are the most perfect fire-fighting apparatus for large factories and public buildings that can be installed. We have them in sizes 4 to 8-inch inlet, 3-inch stream; sizes 3 to 4-inch inlet, 2-inch stream. The attached sketch shows the general construction and more prominent features of same.

75 post indicator gate valves. Sizes 4 and 6-inch. The gate valves and monitor nozzles will be fully explained to those interested. Prices and further information furnished on application.

We also have the cast iron service boxes and all necessary connections needed in installing this system.

## FIRE EXTINGUISHERS.

CAME FROM THE WORLD'S FAIR—ST. LOUIS.

**No. 600.** Stempel Ball and Gold Medal Fire Extinguishers; 3-gallon capacity, solid copper, lead lined, tested to 400 lbs., leased during the Exposition period, practically new, all in first class condition and fully guaranteed, cost \$15.00 and \$16.50 each.

Price, each.....\$10.50

We carry other material besides that listed in this catalogue. Write us your wants.

# Hydrants and Indicators

used at the

**St. Louis World's Fair.**

## The Pratt & Cady Hydrants.

96 5¼-inch hydrants manufactured by Pratt & Cady Company, of Hartford, Conn. Set 4 feet in the ground, have 2 2½-inch hose connections and 1 4-inch steamer connection; inlet is fitted with companion flanges for 8-inch standard threaded pipe.

Price, each .....\$25.00

150 4¼-inch hydrants manufactured by Pratt & Cady Company. These hydrants set 3 feet in the ground, have 2 2½-inch hose connections and the inlet is fitted with companion flanges for 4-inch standard threaded pipe.

Price, each .....\$17.50

## The Corey Hydrant.

78 "Corey" hydrants manufactured by the Rensselaer Company, of Troy, N. Y. They are designed to set 4 feet in the ground, have 2 2½-inch hose connections and 1 4-inch steamer connection; fitted with companion for standard 8-inch flanges threaded pipe.

Price, each .....\$25.00

59 "Corey" hydrants, designed to set 3 feet in the ground, have 2 2½-inch hose connections; inlet is fitted with companion flanges for 4-inch standard threaded pipe.

Price, each .....\$17.50

## Indicator Stands.

42 adjustable indicator stands, adjustable for valves setting 3 to 4 feet in the ground; stand 33 inches above the ground and are fitted with 6-inch M. B. & I. W. screwed gate valve.

Price, each, complete .....\$15.00

36 adjustable indicator stands, adjustable 3 to 4 feet, fitted with 4-inch M. B. & I. W. gate valve.

Price, each, complete .....\$12.50

These stands and valves are used in the mains and are very desirable for isolated plants. When water is not required in these lines, they are shut off by means of a regular hydrant wrench, and when closed it is indicated at the top of the stand by the word "Shut," and when open the indicator reads "Open." A stand of this kind saves the annoyance of the regular underground shut-off inasmuch as they are accessible at all times.

The hydrants and indicator stands above described were used at the World's Fair, St. Louis, and are in fine condition.

**WE HAVE AN ENORMOUS STOCK OF FIRE HOSE.**

# NEW PUMPS

We are offering you herewith the best Pumps on the market, at very low prices. They are guaranteed.

## Double Acting Force Pumps ANTI-FREEZING.

	No.	Upper Cylinder.	Lower Cylinder.	Price.

"	6	2½	3½x10	9 20

Can be used in Deep or Shallow Wells.

Wind Mill Heads extra.....\$0.50

Figure No. 505 is fitted with a Three-Way Cock for connecting to an underground discharge pipe. By means of the hand wheel, shown in the cut, water may thus be at the spout or forced underground to a tank, if desired.

Figures 504 and 505 Nos. 2 and 4 fitted for 1½ in. pipe.

" 504 " 505 No. 6 fitted for 1½ in. pipe.

No. 504. Plain.

No. 505. Three-Way.

## IMPROVED

## Anti-Freezing Well Force Pump

Drive Well Force Pump, with bolted base, brass hose couplings, brass stuffing box and brass thumb screw in air chamber for changing it from a force to a lift pump.

This pump can be used in wells 100 feet deep by lowering the cylinder within 15 or 20 feet of the water. In fact it will work better if the cylinder is placed under water. Diameter of cylinder is 3 inches, suction 1½ inch pipe.

Price, Brass Lined Cylinder.....\$6 00

" Iron " " ..... 5 00

We can also furnish this pump with wind mill head and back outlet opposite spout at the same price.

With Cock Spout, add extra \$0 90

## IMPROVED WIND MILL LIFT PUMP.

With Wrought Iron Set Length.

This pump is well proportioned and made strong and durable. It is adapted for drive well purposes, and will work successfully in wells from 50 to 75 feet deep by lowering the cylinder within 15 or 20 feet of the water. The set length is connected at the spout. We can furnish this pump with round instead of flat rods, if you desire, at the same price. Diameter of cylinder, 3 inches; suction fitted for 1½ inch pipe.

Price.....\$3 50

Write for our Catalogue of Household Goods. Wind Mill Lift Pump.

# Double Acting Force Pump

WITH AIR CHAMBER AND ADJUSTABLE HANDLE-SIDE DISCHARGE

Fig. 705

Fig. 705 represents a Double-Acting Force Pump, which is especially adapted for elevating water from cisterns to tanks in upper stories of residences, or for forcing water into an air-tight tank—in connection with our Air Pressure Water Supply System. See page 46. It is also used largely for cleaning and filling boilers and for fire protection, or can be used as a deck pump and many other purposes.

All sizes are fitted with 3-Wing Bronze Valves.

Brass plugs are provided for draining cylinder to prevent freezing, and also for priming when necessary.

The air chamber can be reversed so that discharge may be used on either side.

The suction and discharge are always fitted for iron pipe unless otherwise ordered, but can be fitted for hose or lead pipe if specified.

Fig. 705. Sizes and Prices

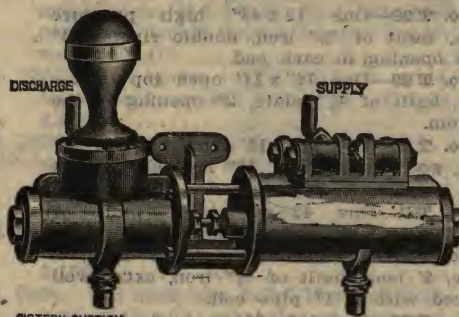

No.	Diam. Cyl.	Stroke	Suction Fitted for	Discharge Fitted for	PRICE	
					Iron	Brass-Lin. Cyl.
1	2½ in.	4 inch	1¼ in. pipe	1 in. pipe	\$8 00	\$ 9 00
2	3 in.	4 inch	1½ in. pipe	1¼ in. pipe	9 00	10 50

Fig. 705

## PERFECTION WATER LIFT

AUTOMATICALLY OPERATED BY WATER PRESSURE

Used to Pump Cistern Water or Increase City Water Pressure

Can be connected into your house supply pipe and then all city water drawn through your faucets will operate this pump and cause it to pump cistern water into an attic tank. The strongest, best constructed and most durable Water Lift made. An Iron Pump, brass lined throughout. Valves hold tight, will not cut; require no oiling. Few parts, and all parts easy of access. No inside stuffing, nuts, springs or packing. No water need be wasted.

This is a Water Lift that You can Depend Upon.

Satisfactory Operation and Durability Guaranteed.

The knowledge gained by 25 years' experience in pump building enters into the construction of this pump.

We will furnish full instructions for installing these Automatic Lifts. The different sizes are adapted to different pressures.

# STEEL AND IRON TANKS

In this list you will find Tanks for almost any purpose. It includes storage and high pressure. If desired we can change them to suit any purpose you desire. We also make special tanks to order.

**No. T1**—One second-hand tank, 48" x 8', 3/4" iron, single riveted, with a man hole 12 x 16". Can be used for high pressure.

**No. T2**—Two square tanks, second-hand, 25" wide x 36" high x 5' long, single riveted, raised open top 14 x 30". The opening in top is raised 6" above tank.

**No. T3**—Twelve second-hand tanks, 72" x 18' long, built of 1/2" iron, double riveted with cone shaped bottom and top. These tanks were used by a large packing concern in this city for rendering purposes. They are especially adapted for storage tanks.

**No. T4**—One second-hand tank, 24 x 36", built of 1/4" iron, made for high pressure purposes.

**No. T5**—One second-hand tank, 20 x 42", built for high pressure, 1/4" iron.

**No. T6**—Five second-hand, 20" x 6', built for extra high pressure. Equipped with a cast iron header, connected with bolts.

**No. T7**—One second-hand tank, 18" x 8', cast iron tank, built for high pressure, equipped with a cast iron header, connected with bolts, with a 4" pipe opening.

**No. T8**—Three brand new high pressure tanks, butt strap riveted, built to hold at least 200 lbs. pressure, with cast iron head at one end and wrought iron at the other. Equipped with a 15" opening in top of the cast iron end. Built of 3/8" iron.

**No. T9**—One brand new tank, 30 x 36", high pressure tank, built of 3/8" iron, with a 4" flange opening.

**No. T10**—One 24 x 36", same description as tank above.

**No. T11**—One second-hand tank, 30" x 5', double butt strap riveted, built to hold high pressure, with 10" flange opening in each end, with a 4" pipe opening on the side, built of 1/2" iron.

**No. T12**—One second-hand tank, 30 x 30", pressure tank, built of 3/8" iron.

**No. T13**—One second-hand tank, 42" x 6', storage tank, built of 1/4" plate, man hole 10 x 15", with two 6" pipe openings in one end.

**No. T14**—One brand new high pressure tank, 6' in diameter, 8' long, double riveted, man hole 10 x 16". Shell is built of 3/8" iron, heads are 1/2".

**No. T15**—One second-hand tank, 40 x 36", open tank, built of 1/4" iron.

**No. T16**—One second-hand 28 x 28" open tank, built of 1/4" iron.

**No. T17**—One second-hand tank, 42" x 8', built of 1/4" iron, only to be used for storage.

**No. T18**—One second-hand 24" x 9' seamless high pressure tank, built of 3/8" iron.

**No. T19**—One second-hand 54" x 16" tank, built of 3/8" iron, only good for storage purposes.

**No. T20**—One second-hand 8' 4" x 7' 4", built of 3/8" iron, double riveted, good for storage purposes.

**No. T21**—One second-hand 48 x 42" tank on cast iron legs 10' high, good for storage purposes, built of 1/4" iron.

**No. T22**—One 48" x 6' tank, single riveted, good for storage purposes, built of 1/4" iron.

**No. T23**—One 54" x 8' tank, built of 5/16" iron, with 22" opening in top and on side, good for storage purposes.

**No. T24**—One 42" x 8' tank, double riveted, built of 1/4" iron, good for storage purposes, with 15" opening at top.

**No. T25**—One 42" x 10' tank, built of 1/4" plate, 12 x 16" man hole, good for storage purposes.

**No. T26**—One 72" x 12' tank, built of 1/4" plate, with 4" pipe opening at one end, 3" pipe opening in the side, to be used for storage only.

**No. T27**—One open top tank, 8' high, 40" wide, 10' long, built of 1/4" plate, good storage tank.

**No. T28**—One 12 x 48" high pressure tank, built of 3/8" iron, double riveted, 3" pipe opening in each end.

**No. T29**—One 72" x 11' open top tank—new, built of 1/4" plate, 2" opening in the bottom.

**No. T30**—One 48" x 12' tank, built of 1/4" iron, good for storage, 12" man hole at the top.

**No. T31**—One 42" x 8' tank, built of 5/16" iron, good for storage only.

**No. T32**—One open top tank, 5' high, 4' wide, 8' long, built of 3/8" iron, extra well braced with a 1" pipe coil.

**No. T33**—One 48" x 30' tank, double riveted, built of 1/4" plate, man hole 12 x 16", with two 2" pipe openings in the side. This tank can be either used for pressure or storage.

**No. T34**—Three, second-hand 9' x 30' tanks, built of 1/4" iron, with a 16 x 20" opening, used for storage purposes. It is extra well braced.

**No. T35**—One 9' x 15', same description as above.

**No. T36**—One 82" x 12' high pressure tank, built of 3/8" iron, double riveted, man hole 11 x 16".

**TANKS—Continued**

- No. 2804. One 32x5 tank, cast iron top hinged, bolted, 200 gallons, 5-16 in. plate.
- No. 2805. One 24x6 tank, 150 gallons, 3-16 in. plate, manhole in one end.
- No. 2806. One 24x6 tank, 150 gallons, 3-16 in. plate.
- No. 2808. One 5x6x34, open top tank, 720 gallons, 3-16 in. plate.
- No. 2809. One 10x5x24 high tank, 960 gallons, 3-16 in. plate.
- No. 2810. One 72x5 tank, 1,200 gallons, 5-16 in. plate, heads bumped.
- No. 2812. One 40x4 6 open top tank, 150 gallons,  $\frac{1}{8}$  in. plate, 4 coils of  $1\frac{1}{4}$  in. pipe.
- No. 2846. One Rendering tank, size of plate, 6x20x $\frac{1}{2}$  in., containing 3 lugs, heads bumped, double riveted; manhole on end 17x22. Weight 10,700.
- No. 2847. One Rendering Tank, size of plate 6x14x $\frac{1}{2}$ , mounted on 4 legs, door on one end, bumped heads; weight 8,100 lbs.
- No. 2848. One rendering tank, size 6x20x $\frac{1}{2}$ , manhole on one end, 17x22, door on one end, weight 9,000 lbs.
- No. 2850. One rendering tank, size 6x20x $\frac{1}{2}$ , containing 3 lugs, manhole on one end; door on side near end; bumped heads; weight 11,100 lbs.
- No. 2851. One rendering tank, size 6x20x $\frac{1}{2}$ , manhole on one end 17x22; door on side near end; bumped heads, weight 11,095.
- No. 2852. One rendering tank, size 6x20x $\frac{1}{2}$ , double riveted manhole on one end; bumped heads. Weight 11,100.
- No. 2853. One rendering tank, size 6x20x $\frac{1}{2}$ ; manhole one end 17x22, door last sheet near end; double riveted, bumped heads; weight 11,470.
- No. 2857. One square tank, 44x14x6 wide, square tank, riveted 2 sections. Weight 2,380.
- No. 2858. One rendering tank, size 6x20x $\frac{1}{2}$ ; manhole on one end 17x22; door one end; 3 lugs; double riveted, bumped heads. Weight 12,465.
- No. 2860. One round tank, size 42x10x $\frac{1}{4}$ , manhole on one end, single riveted, weight 3,150.
- No. 2864. One tank, size 6x7x5-16 round tank, bumped heads, manhole on one end. Weight 4,870.
- No. 2865. One tank, size 6x13x5-16 round tank; bumped heads, manhole one end; weight 6,440.
- No. 2866. One tank, size 6x4x5-16, open top round tank, single riveted. Weight, 2,080.
- No. 2867. One tank, size 6x4x5-16, open top round tank, single riveted. Weight 2,130.
- No. 2868. One tank size 3x7, round tank, flat heads. Weight 1,200.
- No. 2870. One tank, size 42x6x $\frac{1}{4}$  round tank, manhole one end.
- No. 2871. One tank, size 4x7x5-16, rendering tank, manhole on one end, single riveted. Weight 3,000.
- No. 2873. One square tank, size 4 high by 6 wide by 6 $\frac{1}{2}$  long by  $\frac{1}{2}$  in. plate, square tank, single riveted. Weight 2250.
- No. 2874. One square tank, 6 wide by 30 in. high by 12 in. long by  $\frac{1}{2}$  in. plate, single riveted, square tank. Weight 3,970.
- No. 2881. One round tank, 42x6x3-16; manhole on one end; weight 1,430 lbs.
- No. 2882. One round tank, manhole on one end and on side, side 4x12x3-16; weighs 2,570 lbs.
- No. 2934. One tank, 78x20x $\frac{1}{2}$  M. H., one end, 3 lugs, door one end, weighs 10,880.
- No. 2935. One tank, same as above, with 3 lugs, weight 11,550.
- No. 2936. Same as above, weighs 11,370, with 3 lugs.
- No. 2937. Same as above, weighs 10,460, with 3 lugs.
- No. 2938. Same as above; no lugs, weight 10,900.
- No. 2939. Same as above; no lugs; weighs 10,930.
- No. 3055. Fifty round galvanized iron tanks, 38 in. long, 14 in. dia., with two  $\frac{1}{2}$  in. openings for storing gasoline, water, etc., each 1.75.
- No. 3066. One round pressure tank, 20x23.
- No. 3075. One open tank with cover 30x24x12 in. deep, made of heavy iron.
- No. 3426. Two oil storage tanks, 6 feet dia., 25 feet long, made of 3-16 iron, manhole on top 15 in. dia.
- No. 3427. One pressure tank, made of 5-16 plate, 15 in. dia., 2 ft. high, with two  $2\frac{1}{2}$  in. openings.
- No. 3498. One high pressure tank, 24 in. dia., 30 in. high, made of  $\frac{3}{8}$  in. steel; one opening 5 in., and one opening 3 in.
- No. 3526. One heavy castiron pressure tank, 42 in. dia. by 5 ft. long, with 10 in. opening; will bush to any size.

**SMALL GALVANIZED PRESSURE TANKS**

Item No. 003. 50 Tanks 14 inch diameter, 36 inches long, made of 20 gauge galvanized steel. Side seam soldered and riveted. Have 1 3-8 inch pipe connection and 1 3-4 inch brass plug on top. 1 3-8 inch plug on side. **\$3.00**

In good condition. Price, each

**A TRIP THROUGH OUR PLANT WOULD PROVE OF GREAT INTEREST TO YOU.**

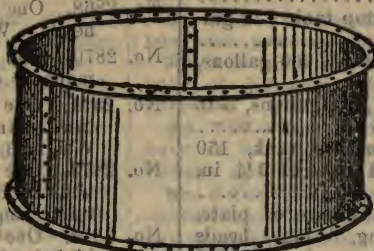

# STEEL TANKS.

Brand new—galvanized—strong and durable. Extra well riveted. Weigh less and are twice as practical as wooden tanks. A fire box can be built under them, forming a perfect tank heater.

**WE ARE LEADERS—OUR METHODS ARE ORIGINAL.**

# New Feed Cookers.

No constant attention to keep a steam boiler filled with water to keep it from burning or blowing up.

No continued building fire to keep steam up, which must be done with any kind of a steamer.

No water to be taken out at night to prevent the boiler from freezing and bursting.

It is a strictly **COMMON SENSE COOKER**, which system for cooking is so favorably known that there is no need of further argument.

## OUR No. 0 COOKER.

The furnace (or fire-box) and fire-flue under the water tank is heavy sheet steel with cast-iron grate, fire-bricks and door; 2 feet 4 inches by 6 feet long, the fire-box being of large enough capacity that one fire of wood, once renewed, is sufficient to cook one boiler of wheat or anything desired to cook. The fire-flue extends from the fire-box the full length and width of the boiler, and is 4 inches deep, in the center of which is a partition which carries the heat under one-half of the bottom of the boiler from the fire-box to the rear end of same, then back toward the fire-box on opposite side to where the draft enters the smoke-stack, which is common 6 inch stove-pipe. Thus it will be seen that we get the full benefit of the heat before its force is exhausted.

**The Boiler is made of heavy Galvanized Steel,** and has a tight-fitting cover of the same material hinged to one side of cooker. It is 6 feet long, 2 feet 4 inches wide and 18 inches in height, with angle steel around top edge that makes it perfectly rigid and will not spring in or out. The bottom is connected to sides with a one-inch flange, which sets down over furnace, and on each side of the flange is a plate of bar iron which is riveted solidly together, making it perfectly secure in every particular. The boiler is not fastened to furnace; can be removed very easily. It holds 6½ barrels. By the close-fitting cover the steam is retained inside, which requires but a small fire after the water becomes hot.

The furnace complete is close fitting, so no fire can escape, and may be set on the ground or in a building, the same as any stove. If set in a building, it should be set on a layer of brick, or a wide box, about 4 inches deep, filled with sand. The boiler and furnace weighs about 275 pounds. We furnish but one joint of pipe, but will furnish as many more as desired for 15 cents per joint. No less than five joints should be used, and six would make the draft better.

This Cooker is calculated for any purpose you wish—to boil anything—Sap, Sorghum, Rendering Lard, etc. For economy in cooking, this is the most favorable cooker made. The grate is made especially for coal, wood or cobs, and the small amount of fuel required will surprise you. Then please notice; too, our boilers; there are no wooden rims around upper edge, or wooden covers to be warped out of shape by the steam or to rot, as is the case with other makes of similar cookers, but all Galvanized Steel.

## OUR No. 1 COOKER

made same as No. 0, only it is but 5 feet long and 2 feet wide and holds 4 barrels. Weight, 200 pounds.

## OUR No. 2 COOKER

made same as No. 1, only it is but 4 feet long and holds 3 barrels. Weight, 165 pounds.

## OUR No. 3 COOKER

made same as No. 2, only it is but 4 feet long and the boiler is but 10 inches deep and holds 1½ barrels. Weight, 140 pounds.

## PRICES EACH.

No. 0, \$12.75. No. 1, \$10.90. No. 2, \$9.65. No. 3, \$9.20.

# New Galvanized Steel Wagon Tanks

**For supplying portable engines with water; for gathering maple sap; for hauling whey from creameries, liquid manure, etc.**

The construction of this Galvanized Steel Wagon Tank is practically the same that has made so popular the Galvanized Steel Stock and Reservoir Tanks. The sides and bottom are flanged together and riveted between two strips of  $1\frac{1}{2}$ -inch metal, the rivets being placed only three inches apart. The top or cover is made of galvanized steel and fastened to the tank by flanging the sides and top together and riveting or bolting between  $1\frac{1}{2}$ -inch metal. In center of top we place a  $14\times 14$ -inch man hole with a close fitting cover of galvanized steel made with hinge and arranged so that it can be readily opened to fill tank. Location and size of man hole may be changed to suit purchaser. The tank is stayed underneath cover by one-inch angle steel braces from side to side which also serve to support cover and to strengthen it. The sides are braced by angle steel braces fastened both at top and bottom. Cleaning-out hole is placed either in center of bottom at rear end or in rear end close to bottom.

## Price List of Galvanized Steel Wagon Tanks.

No.	Width	Height	Length	Capacity	Weight	Price
A	3 ft.	2 ft.	10 ft.	14 bbls.	296 lbs.	\$13.50
B	3 ft.	2 ft.	8 ft.	12 bbls.	260 lbs.	12.00
C	2½ ft.	2 ft.	8 ft.	9½ bbls.	235 lbs.	10.00
D	2 ft.	2 ft.	8 ft.	7½ bbls.	213 lbs.	8.25
E	2 ft.	2 ft.	6 ft.	5½ bbls.	180 lbs.	7.00

Unless otherwise specified in your order we place a  $14\times 14$ -inch man hole in center of top and put a one-inch cleaning-out hole in center of rear end close to bottom, in which a threaded nipple is inserted and to which either hose or pipe may be connected, or opening can be closed with screw cap or plug.

**WE HANDLE LUMBER, SEND US YOUR BILL FOR OUR ESTIMATE.**

# TANK HEATER

This Tank Heater is made with a heavy Galvanized Steel Shell, oval shape 18x13 inches in diameter, with **ONLY ONE SEAM** which lies back of cold air chamber, and is not affected with heat.

Top and grates are cast iron, perfectly tight, safe and reliable; can be used in or out of building as case may require, with perfect safety.

## EASILY FASTENED TO OUR STEEL TANKS.

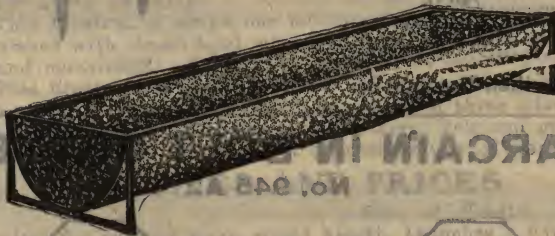

When Tank and Heater are ordered shipped together, Tanks will be arranged to receive Heater if we are advised what part of tank the Heater is to set in.

We guarantee the Heater in every respect, and assure our patrons that it is **THE BEST HEATER** on the market at the price.

Heater is complete with Shovel, Poker, Stack and Spark Arrestor.

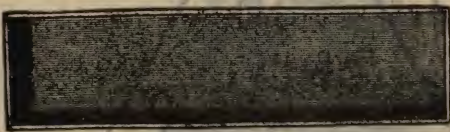

**PRICE EACH, \$2.50**

## A BARGAIN IN BOLT CUTTERS

No. 945 A2

it is  
all right

and is  
guaranteed

to do  
the work

Two machines in one; simple in construction, light, durable and practical. You can split a nut as quickly as cut a bolt; no chisel, hammer or extra man necessary; no skinned knuckles or swearing; no injury to woodwork. To investigate is to buy. A trial sells the tool.

Price, each.....\$2.00

## PORTABLE FORGES—Always on Hand

### BRAND NEW from Factory, Economical, Durable, Cheap

No. 1.

No. 2.

No. 3.

### POINTS OF ADVANTAGE

First—These forges are strongly built and have fewer wearing parts than any other; hence are less liable to get out of order.

Second—The fan is bolted direct to the bottom of the hearth and fire pit, holding it firmly and avoiding long cast iron supports, liable to break in shipping.

Third—The fan is so located that a part of its body is above the opening to fire pit, and the ash pit is so arranged that cinders do not fall inside the fan case; and should anything get into the fan case (the fan blades, by their first quarter turn, will carry it direct to the discharge opening, and unlike others, it does not have to carry it back and up over the top of the fan to get it out; hence this fan is never clogged or injured by cinders.

No. 1. For heavy smithing.

No. 2. This illustration shows our medium forge with a shield for outdoor work. It is also furnished with closed hood when ordered. This style is especially adapted for horse-shoers and machinists.

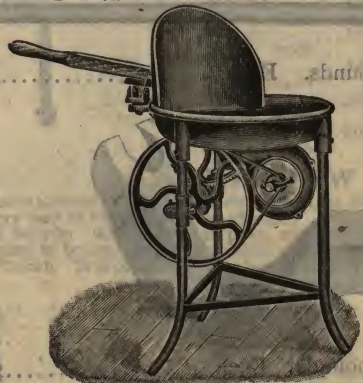

No. 3. This illustration shows a shield. It is also furnished with open or closed hood when so ordered. Will weld a 1-inch bar in about three minutes and also do much heavier work. It is just the tool for boiler makers, lock and gunsmiths, farmers and machine men, and is a practical forge for a great variety of work.

### WROUGHT ANVILS—Grade No. 2.

We have a stock of the best wrought anvils. Body is made of wrought iron with an extra heavy steel face welded to the body. The horn is good length, properly rounded. Note our prices:

Weight—Pounds.	Price per pound	Weight—Pounds.	Price per pound
100 and up.....	\$0.06½	60 to 70.....	\$0.09
80 to 100.....	.07	50 to 60.....	.10
70 to 80.....	.08		

### ALL STEEL ANVILS—Grade No. 3.

We have in stock a limited number of all-steel Swedish anvils. We bought them from a leading manufacturer. They are not strictly perfect, but are known as "seconds." The defect on them is of such a nature as not to seriously interfere with their usefulness, and we will not make shipment of any anvils except we are confident they will give entire satisfaction.

The lightest weights we have are 70 pounds.

Weight.	Price per pound	Weight.	Price per pound
70.....	\$0.07½	100 to 200.....	\$0.06
80 to 90.....	.06½	200 and up.....	.05½
90 to 100.....	.06½		

We can furnish practically any weight anvils you require, or any other grade.

## BELLOWS.

Standard, All Wood Work Kiln Dried.

We purchased these brand new Bellows, at Sheriff's sale. Warranted in perfect condition.

24 inch.....	\$4.00	32 inch.....	\$5.60	40 inch.....	\$ 9.20

# FARRIERS' CAST STEEL TOOLS.

## HORSESHOERS' AND BLACKSMITHS' HIGH GRADE CAST STEEL TOOLS.

These goods are drop forged from solid steel bars, such as any mechanic would choose to make a tool for his own use. Manufactured by one of the oldest and most reliable steel manufacturers in the world. They are known as seconds on account of some slight irregularity, but for all practical purposes they are as good as the first-class grade. For confidential reasons these tools are not branded.

## WIRE

## ROPE.

This is an approximate list of our overhauled or Rebuilt Hoisting Wire Rope. Each length is in guaranteed condition, and while we do not claim that it is absolutely as good as new, we have no hesitation in thoroughly recommending it for all ordinary uses. It is nicely oiled and in shape, ready for instant use. In addition to this list, we are usually prepared to fill orders for any other size or length; we are also prepared to Splice Wire Rope to any desired length, and will guarantee that in doing this we will execute as nice a piece of work as ever you saw. We have our Wire Rope department in charge of a man who has made the cable business a life-long study.

Stiff Swivel Hook. Fig. No. 970.

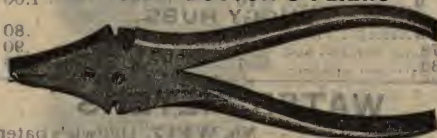

WE HAVE GOOD SECOND HAND MANILLA ROPE.

**STAPLE PULLER FENCING PLIER**

**No. WF10.** This Fencing Tool is needed by people that build or have occasion to remove or repair wire fences. They are made of forged tool steel, and are warranted to cut No. 8 hard or No. 6 soft wire. They are fully warranted in all respects. To pull staples grapple the staple just under the wire. Length 11 inches.

Price.....each, \$0.80

**IMPROVED BUTTON'S PLIERS**

**No. WF11.** Purchased at a sale five gross of these excellent improved new and perfect tools. They are the best on the market. As a Wire Cutter and Plier there is nothing that will equal them for convenience strength and durability.

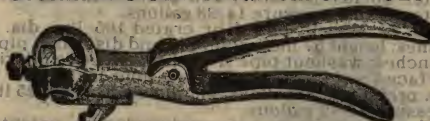

The advantages to be obtained by using this Plier and Cutter over all others in use are, owing to the great leverage secured, the superiority of the shear cut and the convenience of the entire arrangement.

These tools are made throughout from superior cast steel, tempered in the most approved manner and subject to a most severe test. They are fully warranted. Do not compare them to the cheap imported article on the market.

They are all 8 inches long and will cut anything not larger than No. 8 wire.

Price.....each, \$0.35

Price.....per dozen, 3.50

**MORRILL'S OLD ORIGINAL SAW SET**

**No. W12F.** This tool has all objectionable features eliminated. The lower part of the movable handle has a cog tooth engaging in a recess in the rear end of the plunger, thereby making a positive connection, causing the lever to draw the plunger back as well as to force it forward, doing away with the small pin which stood all the strain of the spring and frequently cut it off, causing much annoyance. The plunger works in a covered box, preventing the accumulation of sawdust and chips as in the old style set, which clogged the tool and prevented its working. The head is left open so that the operator can see the point of the tool to be set. Quality and finish guaranteed.

Price.....each, \$0.45

Price.....per dozen, 4.50

**THESE TOOLS ARE NEW AND PERFECT.**

**A JOB OF CROSS CUT SAWS**

A lot of these just came in; they are somewhat shop worn, but yet are very good for general service. They represent various makes.

## "SPECIAL CAST STEEL" BRAND AXES.

These axes were purchased by us at a Receivers Sale. Each ax is painted a solid black color with a fancy gilt band, and is known as the "Special Cast Steel" ax. The bits are bright polished, as is also the poll. The material from which these axes is made is the best grade of crucible steel obtainable. The bits are hand tempered. They have extra sharp edge. They are put up assorted, one dozen in a case, that is, each case contains an assortment of designs such as Michigan, Dayton, Yankee, etc., round and square polls. The weights are assorted from 3 to 5½ lbs. Each ax is wrapped separately. Our prices on these axes are as follows.

Price, per gross \$3.25 \$3.50 \$3.75 \$4.00

**HANDLED AXES.**

Lot No. 133.—150 dozen handled strictly first-class Axes, made of the highest grade oil tempered razor steel, black japanned and polished edge. We obtained them at a forced sale for a price that barely represents the cost of manufacture. In offering these axes, we make the claim that they are equal to any axe manufactured on earth. They were made by one of the largest manufacturers in the best equipped axe factory in the United States, where great care is used in the selection of material. The straight blade and blunt wedge shaped head is so formed that it will cut deeper without binding than any other axe on the market. The eye is oval shape and tapers towards the neck which prevents the handle coming loose. The handle is made from young growth of well seasoned hickory. Through a peculiar bend in the handle this axe always cuts in a slanting direction without the necessity of twisting the wrist. This is a point that will be greatly appreciated by lumbermen. Weighs 4½ lbs. Per dozen .....\$5.50  
In lots of 6 doz., per dozen..... 4.75

## NEW ERA DOOR CATCH

The New Era Door Catch is a new and novel invention, and a long-felt want by manufacturers and builders.

It will not get out of order as is the case with other catches. It is simple, durable, compact, neat, and easily put on. It is the most complete Door Catch ever manufactured.

It is used on all classes of work, viz.: Sideboards, Bookcases, Wardrobes, Washstands, Refrigerators, large or small Cupboards, or anything where a catch or fastening is needed.

It is pronounced by builders, cabinet makers and manufacturers to be the best catch ever made. By pushing on the button with the thumb (see No. 6) you pull at the same time, to open the door; to close door, simply push it to, as it is self-locking.

All goods guaranteed to be in perfect working order, just as represented in every particular. Should there be any not satisfactory they may be returned at our expense.

THESE GOODS ARE BRAND NEW AND UP TO DATE

# THE EASY DOUBLE ACTING SPRING HINGE.

The hinge is readily detached and each part put on separately and then coupled together. Tension of the spring adjusted by the screw in the end of the center plate, governing the swing of the door and relieving the screws from all strain.

## NO SWINGING BACK AND FORTH OF THE DOORS.

The peculiar construction of this hinge is such that it equalizes the pressure at all points, permitting the door to return to its initial point slow and easy, which is a radical departure from any hinge ever constructed. After once adjusting, the door is always in line. No unsightly springs appearing. The parts all concealed. No sagging of the door, whether spring is tight or loose, as the hinge always swings upon a fixed pintle.

While we have enumerated

## POINTS OF MERIT

in our hinge, it must be seen and used to be appreciated.

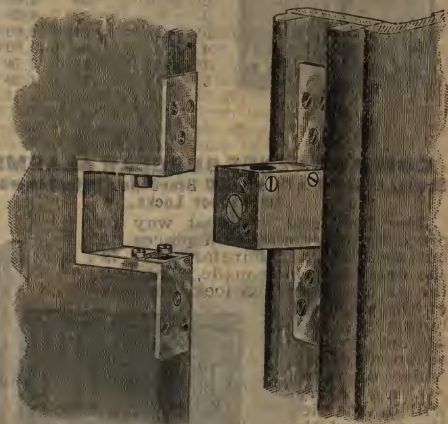

Full directions for applying hinges furnished with each order.

We have them in two styles. Iron Japanned and Iron Bronze Plated.

We purchased from the manufacturers 3000 pair of these new, improved, and thoroughly practical double acting spring hinges.

It is the only practical hinge for public or private buildings, or wherever double-acting doors are used. Built upon scientific principles, a simple, neat and strong hinge, which the cut herewith illustrates, fitted to any swing door and provides a simple and efficient construction which permits the door being readily hung and taken down. This of itself is a great feature, as one man can handle and fit the door.

## Elongated Fancy Escutcheon Bolt, with Locking Attachment.

Represents an elongated Fancy Escutcheon Bolt Catch with lock and key. They are intended for use on fine or fancy cabinet ware and cupboards. Adjustable to fit any door. All real bronze metal with bolts. Solid all bronze metal knobs. Lever of iron, coppered; balance of catch and lock and trimmings of all bronze metal. Keys nickel plated.

## COMMON SENSE BURGLAR ALARMS

Bought at Sheriff's Sale 5,600 Brand New Patent Improved Alarm Door Locks.

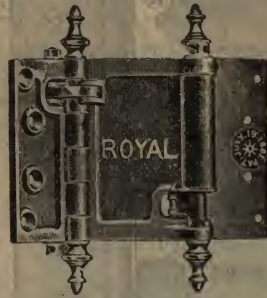

The best and simplest way to protect your homes and places of business against burglary. It is the only door lock made, that has the alarm inside the lock, and out

of the reach of burglars. It can be set by the occupant of the house or store, so an alarm will be sounded the moment the knob is touched, and will continue to ring as long as the hand is on the knob—or it can be set so it will ring the moment the knob is turned, and will ring continuously, and cannot be stopped except by the occupant of the house or store. The alarm can be disconnected at any time, so door can be used and no alarm M 88 sounded. It is put on the same as any lock, requires no special or patent knobs or spindles, and it therefore keeps the burglar in total ignorance of its presence on the door. When the alarm is set, it is impossible to turn the knob without sounding the alarm. We have them in two styles.

This is a solid brass front mortise knob door lock; japanned case 3¼x6½ inches and ¾ inches thick. Brass front, 1¼x8½ inches. Made reversible by removing the cap. Solid brass latch bolt and solid brass lock bolt. Nickel steel setting key. Hub for 5/16 inch spindle. Each lock packed in a separate box with screws. Solid brass strike and escutcheon. Brass winding key and two nickel plated steel keys. No finer lock made.

## Royal Spring Hinges.

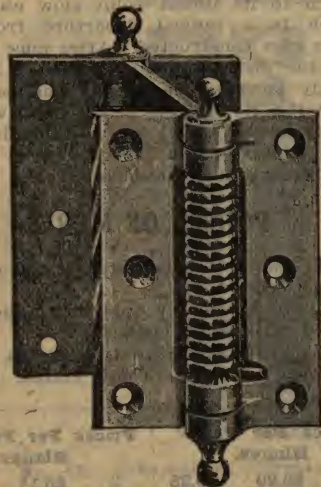

Bought at sale, 4,000 pairs, exactly like cut, Japanned iron. Made on strictly scientific principles. Fitted with extra quality steel spindles, giving great elasticity. The heaviest door may be opened to its fullest extent without any exertion. Doors cannot sag with this hinge.

**THE GEM CLOTHES OR LAUNDRY FORK.**

We bought 10,000 of them from a manufacturer who was discontinuing business. They are as handy an article as there is on the market. The invention will be appreciated by every lady in the land.

Its use is to lift boiling clothes out of the boiler. The illustration requires no further explanation. Try one and you will not do without it.

The fork end is made of galvanized iron, and will not rust the clothes; the handle is hardwood, and set firmly into the fork end.

Price each.....**\$0.06**  
Per dozen.....**0.60**  
Per gross.....**6.00**

**COMBINATION STEP LADDER AND WASH TUB STAND.**

**Cut No. 1.**

We bought at a sale two car loads of these improved wash tub stands. They are indispensable in every household.

They are made of hard wood, strongly built and will last a lifetime. Cut No. 1 shows the wash tub stand ready for use. To use the step ladder all that is necessary to do is set it up as an ordinary step ladder, and by pulling the foot out or spreading it and this held in its proper spread by the safety chain.

To use as a tub rack or stand put the hand under the second step from the top, raise the slide. Put in the slide out of the crutch casting and drop the steps down until it is held by the automatic step catch, when it is in a position to put the tubs on, one on each side, and the centre piece is made for the wringer holder.

To close up pull out the spring catch and fold up

As a step ladder it is 45 inches high. When used as a wash tub stand it is 24 in. wide by 48 in. high.

Price each.....**95c**

**Our Prices Seldom Represent Original Cost of Production.**

**MIXED LOCKS.**

**HANDY RIVETERS.**

**No. N1.** We have on hand a large quantity of these brand new Handy Riveters for use of farmers, liverymen, teamsters, etc., etc., in fact for any one desiring an article of merit, convenience and economy. It uses hollow tubular rivets. Weight, 3 pounds.

Price, each ..... \$0.28  
Per dozen ..... 2.75

**THE "STANDARD" HARNESS RIVETER Revolutionized, Simplified and Perfected.**

**No. N2.** The Riveter will last a lifetime. Small and convenient. Does perfect large riveter could not. It works. It weighs but a few ounces and measures about 2 x 2 inches. Being small and convenient, it can be used in many nooks and corners where a can be carried in the vest pocket. Countersinks both heads of the rivet to any depth desired. The screw principle being used gives it great force and power, clinching the rivet just right every time. It never sets the rivet any way but the right way. It is so constructed that it cannot break. You have a complete repair outfit always on hand.

It is used mainly in repairing harness, making halters, loops, fastening on buckles, repairing belting and fastening the straps to the webs of the self-binders. There are many other uses to which it can be put where it comes in very handy. In fact, it will mend anything where a well clinched rivet will serve the purpose. Especially designed for heavy farm work. Can be used in any position. Best of material used in its construction. No punch, no lever, no hammer is needed, as the riveter punches the holes, drives and clinches the rivet at one operation. It is a perfect hand riveter.

Price, each ..... \$0.20  
Per dozen ..... 2.00

## CASOLINE TORCHES

Light your dark places well. A poor light is an aggravation and expense. A good light is a joy and profit.

### THE INVINCIBLE TORCH

The Invincible Wall Torch is the best and simplest Torch made and for street stands, street and building work, tents, camps, steam boat landings, freight sheds, shops and warehouses it is unequaled. It is very little affected by dust, snow or rain, and cannot be blown out by wind. The one gallon tank is strongly made and braced and can be removed if desired. A solid bronze ring is provided to hang it up, and the feed pipe connection is also bronze. The burner is simple, durable and powerful, and like all our burners, is well known to the trade. A bronze check or shut-off valve adds to its safety in case of accident or carelessness. These torches are rapidly gaining in popularity, and their use is being continually extended on account of the effective work done. Our torches give a bright, clear, flame scarcely inferior to an arc light in capacity.

Each.....\$0.88

## THE HYDRO-CARBON VAPOR LAMP FOR STORES, CHURCHES, HALLS, HOTELS, FACTORIES, ETC.

### FOR PRIVATE USE THEY HAVE NO EQUAL

A brilliant, pure white light of 100-candle power at a cost of only one cent for nine-hour light. Ten times cheaper than kerosene oil. Low in price, high in candle power. Perfectly safe. Indorsed by insurance companies. Simple in construction; easy to light and easy to sell. It is finished in bronze of the best quality, and is warranted to hold its color. The founts are made of solid brass which is highly polished and lacquered and will not tarnish. The valve and burner castings are made of the best brass, finished in natural color. Price, complete.....each, \$3.00

These Lamps Burn Casoline as an Illuminant

## The Famous Universal Fire Kindler

The cheapness of coal oil and its universal use in every household has long since been acknowledged as the most convenient and quickest means of starting a fire. The famous Universal Fire Kindler brings safety and economy to the home, is clean and convenient, to start either coal or wood fires without the aid of other kindling. The Kindler is about twelve inches in length, is so constructed as to be very porous, easily and quickly saturated and indestructible by fire. The handle is made of steel wire. The Kindler will absorb from one to two ounces of oil and burn from ten to fifteen minutes. It can not explode or get out of order. Light it and hold it until it burns out and see what a long, intense heat it makes. Price 15 cents. Per dozen. \$1.50.

## WIRE STRETCHERS

The Acme Ratchets we are offering are unquestionably the Best on the Market.

The frame and lock are made of steel—making them strong and durable.

It has a large reel that will hold 10 ft. of No. 10 wire, and can be filled without obstructing the lock.

As it is strung on the wire before it is fastened to the end post, it may be placed anywhere in fence, and where it is used no stretchers are required.

It will lock either side up, and the tension may be increased or slackened with ease from either side of fence.

No wires to cut. No loops to make. No holes to bore. No loose parts to get lost. No other ratchet can be so easily and quickly applied.

It is out of the way of drive gates, etc.  
Price, each.....\$0.05

3	15	3	20	25	36	2.50
4	25	2 1/2	20	28	28	1.50

This lot is without top caps.

## SECOND HAND TRENCH BRACES.

With 1 3/8 inch screw, 1 1/2 inch pipe.

16 inches long when closed.	Price, each.	\$1.00
18 " " " "	" " "	1.15

WE CAN FURNISH EVERYTHING IN THIS LINE.

## Circular Saws.

We handle a complete line of the finest quality steel circular saws—absolutely warranted in every way. They are the celebrated "Emerson Saw," and when we say this you will readily understand that these goods are the best quality on the market, and are absolutely free from all defects, and that for the heaviest

and hardest work, where from 50,000 to 100,000 feet are sawed every ten hours, and in the hardest yellow pine.

Cash in full must be sent with orders for special saws.

### Net Price List of Brand New, Solid Tooth, Circular Saws.

Diameter, inches.	Thickness, gauge.	Size of hole, inches.	Price, each	Extra for additional gauge (heavier).	Price for beveling saws, per gauge.	Extra for setting and sharpening, if rip saw.	Extra for setting and sharpening, if cross-cut saw.

# NEW HAND POST DRILLS

No. 1.

No. 2.

No. 3.

We have on hand a large quantity of Brand New Hand Post Drills, exactly like cuts. These drills were manufactured by one of the largest and most reputable tool manufacturers in the country. They are plain and simple, yet handsomely designed and beautifully finished. They have long, heavy bearings, which are well babbitted and cannot spring or get out of line, as is the case with some of the cheap drills now on the market. The automatic feeding device is new and simple, yet efficient and positive. It is located back of the spindle, and is worked by a cam on inside of main gear wheel. This cam is constructed so as to give nearly a continuous feed. By this arrangement the drill does not jam into the work, as is frequently the case in the use of hand drills. This point alone makes a great saving in drill bits. Also the nice alignment of the lower column with the spindle, and the fact that the drill table is exactly at right angles with the spindle makes the drill turn free and easy, and the result is a saving of drill bits as well. We purchased these drills at a price which enables us to put them on the market at the following ridiculously low prices:

No. 1.

No. 2.

No. 3.

Weight 74 lbs. Drills 1-in. and to center of 12-in. circle. Spindle 1-in. steel. Upright column and feed screw are of best steel.  
Price, each.....\$4.85

Weight 96 lbs. Has extension crank and adjustable feed. Drills 1-in. to center of 12-in. circle. Spindle 1-in. steel. Upright column and feed screw are of best steel.  
Price, each.....\$5.80

Weight 114 lbs. Has extension crank and adjustable feed. Drills 1-in. holes to center of 14-in. circle. Upright column, drill spindle and feed screw are of best steel.  
Price, each.....\$6.95

## BRAND NEW DRILLS.

1/2 inch Round Shank to fit Post Drill.

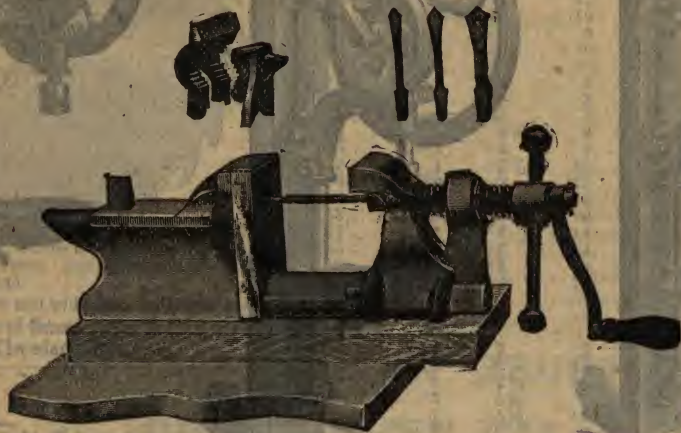

We will replace free of charge any defective drill sold by us.

# TOOL COMBINATIONS.

We purchased two carloads of these Universal Repair Machines. You will find they are the most popular and complete outfits on the market. They are quickly and easily operated, and one tool does not conflict with the working of another. The vise furnished with these outfits is the most rapid and easily adjusted on the market.

We have them in four (4) sizes, as follows:

**Size No. 1.** This is the largest size and weighs approximately 50 pounds. The jaws are faced with steel and are  $3\frac{1}{2}$  inches wide. They will open up wide enough to take in material 6 inches in diameter. The combination consists of vise, anvil, drill, hardy and pipe clamp, one set of pipe jaws that will hold pipe for threading and cutting up to 4 inches; also one twist drill bit. Top of the anvil and horn are polished. The hardy is of tool steel. In every way it is a first-class, up-to-date outfit.

Price, complete.....\$4.50

**Size No. 2.** Weighs 30 pounds. Has polished jaws and anvil. The jaws open 5 inches. Combination includes pipe clamp, holding pipe up to 2 inches, also one drill bit.

Price, complete.....\$3.00

**Size No. 3.** Weighs 16 pounds. Polished jaws and anvil. Jaws open 5 inches. Combination includes vise, drill, hardy, and one drill bit.

Price, complete.....\$2.50

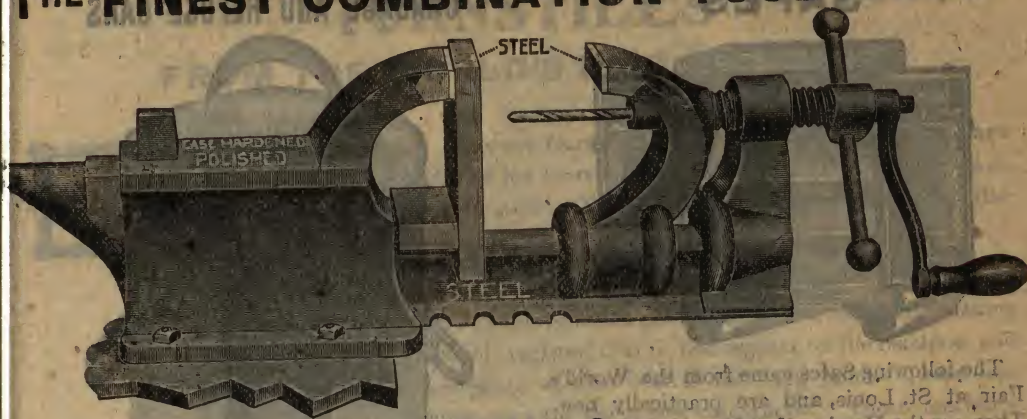

**Size No. 4.** Weighs 8 pounds. Has polished jaws and anvil. Jaws open 4 inches. Set includes vise, anvil, drill, hardy and one drill bit, all neatly painted and finished.

Price, complete.....\$1.50

Sizes Nos. 3 and 4 are especially designed for light shop work, gunsmiths, bicycle repair shops, tin shops and general tinkering. They are the best combination tools on the market.

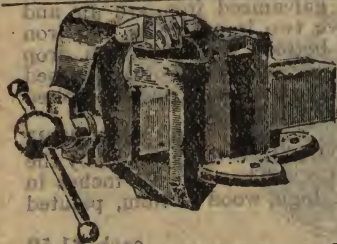

# THE FINEST COMBINATION TOOL MADE

## Style No. O

Height, 8½ inches; width of jaw, 3½ inches; jaws open, 6 inches; depth of throat, 5½ inches; jaws are faced with steel and polished; top of anvil is case hardened and polished; anvil is provided with good steel cut-off or hardy; drill will take any common sized square shank drill bits, drills half-inch holes readily and is capable of drilling both larger and smaller holes. It is easily and quickly manipulated. Can be converted from vise to drill instantly by merely removing the drill bit. No screws or bolts to take out. Draw bar is made of steel "T" rail. This is beyond question the strongest and most practical combination tool ever built, and is sold under an absolute guarantee for one year. The factory will furnish, free of charge, f. o. b. factory, any piece that may become broken from practical use. For farmers, mechanics, mills, mines and threshermen it has no equal; in fact, it is useful in every home. It has a wider range of use than any other machine ever built. Draw bar can be taken out and by sliding the loose jaw off and reversing it, it can be used as a portable drill, which alone will oftentimes save the cost of this machine. Price.....\$4.75

## BENCH VISES

From a large and modern equipped Bicycle Manufacturing Establishment. All of their bench vises. The factory went out of existence—that's why we got them. They are excellent vises—good as new.

Lot No.	Quantity.	Kind.	Weight.	Price, each
1	8	Bull-dog vise	28 pounds.	\$3.50
2	150	"	42 "	3.75
6	5	Loose jaws	30, 1, "	3.50

## UNIVERSAL VISES

4 Universal Vises for woodworkers, etc. They are patented and the best improved vise on the market. Are extra large in size. We can furnish printed matter showing description of them. We offer them subject to prior sale, each \$12.00.

## AXLE GREASE

We have on hand a large quantity of axle grease put up in original packages just as it came from factory. We have two grades and can safely assert that our best grade is unsurpassed by anything manufactured. We guarantee both grades.

Our "Standard" Brand axle grease, put up as follows in original packages:				
12½ lb. Pails.....	\$0.43	100 lb. ¼ Barrel.....	\$2.75	
25 " ".....	.80	200 " ½ ".....	5.25	
50 " Tubs.....	1.60			

Our Unexcelled Brand axle grease of better quality that will outwear any grease on the market.

Per lb. Box.....	\$0.05	50 lb. Pail.....	\$2.05	
12½ " Pail.....	.60	100 " ¼ Barrel.....	3.90	
24 " ".....	1.10	200 " ½ ".....	7.05	

No one can Afford to do Without one at the Price.

## SAFES

The following Safes came from the World's Fair at St. Louis, and are practically new. They are the Herring-Hall-Marvin Safe Co.'s make. They are strictly first-class Safes in every way.

**No. 514.** We have ten (10) Safes, style No. 36, as shown in the illustration. The body is made of No. 14 iron, paneled with  $\frac{1}{4}$  inch thick bars. The angles and lap bars are  $\frac{1}{4}$  inch thick. The front and door are made of  $\frac{1}{4}$  inch Bessemer steel, paneled with  $\frac{1}{4}$  inch thick bars, showing edges  $\frac{1}{4}$  inch and form the bolt frame, through which works two cross, one up and one down bolt on each door, controlled by a four tumbler combination lock. The bolts are polished and carrying bar, lock, handles, dial and hinge ornaments are heavily plated.

The dimensions of these Safes are as follows: Outside dimensions: Height, 61 inches; width, 34 inches; depth, 33 inches. Inside dimensions: Height, 50 inches; width 32 inches; depth, 29 inches. Approximate weight, 970 lbs. Cost, \$125 each.

Our price.....each, **\$90.00**

**No. 515.** 1 No. 35 Safe. Outside dimensions: Height, 44 inches; width, 30 inches; depth, 25 inches. Inside dimensions: Height, 36 inches; width, 28 inches; depth, 23 inches; Approximate weight, 410 lbs. Cost Exposition Company \$80.00.

Our price.....each, **\$50.00**

## GARBAGE AND REFUSE CANS

THEY CAME FROM THE WORLD'S FAIR, ST. LOUIS

**No. 617.** 1,000 Cans like illustration. They are 18 $\frac{1}{2}$  x 29 inches, capacity 34 gallons; made of heavy galvanized iron, are air and water tight; have two iron shields, two iron bands, top and bottom, malleable iron drop handle, tight-fitting cover. Bottom raised 1 $\frac{1}{4}$  inches from ground and riveted, bolted and soldered throughout.

Price.....each, **\$1.25**

**No. 618.** 1,500 Refuse Cans, made by the Columbia Can Co. They are 24 inches in diameter, 4 feet high, wood bottom, painted inside and out.

Price.....each, **\$1.50**

**No. 619.** 500 Galvanized Cans made by the Blank Can Co. They are 48 inches high by 30 inches diameter. Have galvanized bottoms, extra heavy well made, No. 22 iron, leak proof  $\frac{1}{2}$  way up, complete with handle.

Price.....each, **\$2.25**

**No. 620.** 100 Garbage Pails, size 18x24 inches, with wood bottom.

Price.....each, **\$1.25**

**No. 621.** 50 Galvanized Iron Ash Cans, 32 inches high, 18 inches diameter.

Price.....each, **\$1.50**

## 25,000 BAMBOO POLES

From the Philippine Reservation at the World's Fair, St. Louis  
USEFUL FOR THOUSANDS OF PURPOSES

We are offering for sale all the Bamboo Poles used in the Philippine Reservation Exhibition. They range from 3 to 6 inches in diameter at the bottom. These poles are from 30 to 50 feet long. Can be used for building summer homes, verandas and porches, fence posts, boats, telegraph poles, furniture, flag poles, fancy screens, etc., etc., etc.

3 inches diameter, price.....each, **50c**

4 inches diameter, price.....each, **75c**

6 inches diameter, price.....each, **1.25**

**100,000,000 FEET OF LUMBER FOR SALE**

# TURNSTILES

## FROM THE WORLD'S FAIR, ST. LOUIS

A very large number of these turnstiles are offered for immediate delivery. They are practically new. They were specially built for the Exposition.

No. 368. 150 Registering Turnstiles. Each machine can be equipped with patent electric attachment, making a double register; that is, one register on the machine and one register at some central receiving point. These machines were the finest ever constructed. These machines are automatic and non-reversible. Price on application.

No. 367. 170 H. V. bright glass top Chopper Boxes. This is a square box, made in an exceptionally substantial manner and contains a galvanized can to receive tickets, which are "chopped" as they enter, thus preventing their again being used. Price.....each, \$30.00

No. 367½. 60 Chopper Boxes, same as above, except with coin attachment, thereby doing away with the necessity of tickets, the person entering simply dropping a coin into the receiving place, which is registered simultaneously with the turnstile. Price.....each, \$60.00

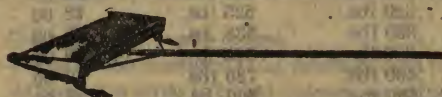

### SWEEPING MACHINES

No. 794. These wonderful Sweepers came to us from the World's Fair, St. Louis. They are the most practical Sweepers manufactured. Were used in keeping clean the highways of the Exposition. They are named the "Peerless" and are fully deserving of the name. Useful for parks, public buildings, factories, theatres, hotels, etc. We have 30 of them. Each complete with an extra brush. Cost \$50.00.

Our price.....each, \$25.00

### ASPHALT SCRAPERS

No. 610. 40 steel Asphalt Scrapers, made by the Austin Mfg. Co. for use at the World's Fair, St. Louis. Good as new. Price.....each, \$2.00

### LAWN ROLLERS

From the World's Fair, St. Louis

No. 507. 25 Rollers, 2 sections, each section 10x20 inches, counterbalanced handles. Cost \$14.00 each. Our price.....each, \$9.50

No. 508. 1 one-horse Lawn Roller, 2 sections, 4 foot track, 24 inches in diameter, weight 400 lbs.

COME AND SEE US WHEN IN CHICAGO

# BRAND NEW CHURCH AND SCHOOL BELLS.

We are prepared to fill orders at all times, for brand new Superior Cast Steel Bells, for the church, college, school, court house, factory, plantation, farm, etc., etc.

These bells are cast from a specially selected quality of steel, entirely unlike that used ordinarily, and with the aid of the most approved appliances. We offer the highest grade bell of this class if it is possible to produce, and one unequaled by the best product of any other foundry. We guarantee this metal to possess every requisite for producing bells of full, rich, mellow tone and of the greatest durability, and purchasers may rest assured of a thoroughly satisfactory return for any money they may invest in these bells. The mounting is extra strong, handsome in design, and bring out the full volume of sound with the least labor in ringing. Every bell has been given a thorough ringing test, and only bells perfect in their performance are sent out. We fully warrant all of these bells to be as represented, and in sizes twenty-two inches and larger not to break within five years, if rung and used in the proper manner. Should a bell fail within the time specified, we bind ourselves to furnish a new one, free of charge, on delivery of the broken casting here. In case of a breakage after the term of our warranty has expired, we will allow for the broken bell (without mountings) one-half its price in exchange for a new one.

We claim: For an investment of the same amount of money we can give you in our superior cast-steel bell an instrument that will furnish a greater volume of agreeable sound, and whose voice can be heard much further, than the copper and tin bell that can be purchased at its price.

## WHAT SIZE BELL TO BUY.

As a safe general rule we recommend the purchase of large bells, because of the vastly more agreeable tones obtained from large bells than are possible from small ones. This is especially the case with church bells, in which we rightly demand a solemnity of tone befitting its mission of calling men to worship, and not the sharp, business-like clang entirely inappropriate to the school, factory or fire-engine house bell. For a village church, vastly more satisfactory results will be obtained from a bell larger than thirty-six inches than from one of smaller size. It should be remembered that with increased size comes greatly increased volume and sweetness of tone, and that it is, therefore, practically impossible to install a bell too large for any church, increased size being inseparable from added sweetness.

For Elbow In stack, add cost of 8 feet of stack.

Can furnish any length desired.

We can furnish smokestacks for dwellings in all lengths and sizes.

As a means of saving on freight charges, we advise the shipments of smokestacks "knocked down." When ordered we punch holes and furnish rivets, so that anyone can set them up.

**These prices are absolutely net.**

# INDURINE WEATHERPROOF COLD WATER PAINT.

A pure mineral paint in dry powder form, requiring the addition of cold water only to be ready for instant use. Produces a hard, flexible enamel finish, will withstand great weather exposure, and will not rub, scale or crack, nor will it soften or turn yellow with age.

## IT IS ABSOLUTELY FIRE PROOF.

It is the paint for factory plants, station and hospital buildings, shops, round houses, elevators, water stations, boiler and engine rooms, dry kilns, bridges and trestles, cattle guards, fences, and all classes of outbuildings, or any place where it is desirable to retard fire and decay, and for light and cleanliness.

## It is 75 Per Cent Cheaper Than Lead and Oil Paint

Creating a saving not only in material, but in labor as well, for one coat of Indurine covers better than two coats of oil paint, and in most cases only one coat is necessary to get first-class results.

Can be used over oil paint to good advantage, and makes a first-class priming coat, as oil paint can also be applied over it; in fact it is an excellent filler for old weather-beaten surfaces, which consume an immense amount of paint, as one coat of Indurine will effectively stop the greatest suction. It will resist dampness in rooms to a remarkable degree if the surface is dry when it is applied and has a chance to dry out and harden itself before being exposed to the moisture.

Can be used to the best advantage on stone, brick, wood, and over oil paint, or, in fact, on any good firm surface. If you should wish to apply Indurine over oil paint, all loose particles should be carefully removed. If Weatherproof Indurine is to be applied to a surface that has been whitewashed, the latter should be removed, as the binding qualities are so great it would have a tendency to draw off the weaker materials, the same as oil paint would.

Four pounds of Indurine will make a gallon of paint, and will cover from 200 to 400 square feet of surface.

## "INTERIOR" FOR INSIDE USE.

Almost the same as Weatherproof," with the exception that its binding qualities are not so great, therefore is not intended for use on surfaces constantly exposed to the elements. It is an ideal paint for inside work as it is white as snow, is a great dirt killer, and positively will not rub, scale or crack, nor will it turn yellow with age. It can be used over old whitewash if the loose particles are removed before applying. "INTERIOR" has all the fire-retarding qualities of the "Weatherproof."

## CAN BE APPLIED BY ANYONE WITH ANY KIND OF BRUSH.

**IMPORTANT**—To avoid mistakes and delay when ordering, always state whether wanted for inside or outside use. Color cards, showing thirty-two colors, sent upon request.

Also in cases containing 20 5-lb. packages; put up in this way. 1c per lb. additional over above prices to cover expense of labor, packages, etc. *Not sold in less than 5-lb. packages.* Full directions with each order.

We especially recommend this article for all around farm and factory purposes, and will be pleased to answer correspondence in reference to same.

# PAINTS, COLORS, OILS & VARNISHES.

We are in position to supply you at any time with your wants in this line. We are ready to quote prices on any material not found in our catalogue that you may be in the market for. We do not handle anything but material that is of a high grade, and that will give you satisfaction.

## READY MIXED PAINTS.

### "Premier" Brand.

Every gallon of paint of this brand that we ship, is fully guaranteed to be the best that can be made, and we will replace within three years any paint that does not come up to our guarantee. Purchasing it under such a contract, you are perfectly safe, and we are entitled to your order provided our prices are right, and if you will compare the offers we are making with any other firm on earth, you will find that we are the lowest, quality considered. We issue upon application a color card showing all the various shades of our paints and stains. We carry in stock the following shades of "Premier" brand:

Quart cans.....	.65	.45
Pint cans.....	.35	.24

These paints are composed of the very best material on the market, ground in pure linseed oil, and we recommend it as being economical and durable, giving only the very best results when properly applied. We are sure that a trial order will convince you that they are all we claim, being far superior in body, more lasting and retaining their color longer and better than strictly pure oil and lead mixed by hand.

## "PERFECTION" MIXED PAINTS.

In addition to the above high grade paints, we recently purchased at sale a job of ready mixed paints, branded as the "Perfection." We can furnish this grade of paint ready mixed in any of the shades noted above. There is no guarantee on this paint. However, it can be used to advantage as an indoor paint, for priming coats or for any other purpose where a

cheap paint will answer the purpose. Our prices as follows:

1/2 Gallon.....	\$0.20	1 Gallon.....	\$0.75
3/4 Gallon.....	.40	5 Gallons.....	3.25
10 Gallons.....			\$6.25

## SPECIAL DRY COLORS.

We carry two special dry colors in stock.

Wagon Red is a very brilliant color and almost as light as Vermilion when mixed with linseed oil. Just the thing for wagons and all kinds of farm implements.

Price per lb.....10c

Screen Green is a pure green color, very suitable for window screens and screen doors, and is one of the prettiest greens in the dry colors ever put on the market.

Price per lb.....9c

## MORTON WHITE LEAD IN OIL.

Is very fine and white, but is not intended for white finishing coats, because it does not contain the dense opacity qualities of the other brands we catalogue. It can be used with excellent satisfaction in colored paints, and is a good priming or first coat lead. The Morton Lead cannot be duplicated in quality and price by any competitor.

Price per 100-lb. keg.....	\$4.00
Price per 50-lb. keg.....	2 00
Price per 25-lb. keg.....	1 00
Price per 12½-lb. keg.....	.50

## ECLIPSE WHITE LEAD IN OIL.

The reputation of this White Lead is world wide, and while this is not our high class first grade lead, still we can recommend it to be very good and durable, exceedingly white and finely ground. It is serviceable White Lead for all painting purposes. It mixes easily and spreads smoothly.

Price per 100-lb. keg.....	\$5.00
Price per 50-lb. keg.....	2 50
Price per 25-lb. keg.....	1 25
Price per 12½-lb. keg.....	.65

Strictly Pure Kettle Boiled Linseed Oil. Strictly Pure Raw Linseed Oil  
Always Sold at Market Prices

**We have a complete line of House and Barn Paints.**

# Bridging Telephones

**FULLY GUARANTEED.**

**We Contracted for 5000 Up-to-Date, Strictly Perfect, Brand New, Latest Type Bridging 'Phones.**

These new "Bridging" instruments we guarantee are equal to the very best 'phones of the kind on the market. We will ship them with this binding guaranty that if they are not strictly as represented and are not thoroughly satisfactory to you, we will take them back and exchange them for other instruments. Under such a guaranty, you are perfectly safe in purchasing from us.

They are known as the "Victor" 'phones and make a handsome, compact wall set, perfect in all its details, with parts so arranged that the utmost ease of access is afforded for their inspection, adjustment and repair. The generators, ringers, transmitters, induction coils and receivers employed are of the highest efficiency. The carbon lightning arresters used are of new design and embrace features of special merit; the adjustment of these is the simplest, and liability of formation of a short circuit owing to disintegration of particles of carbon is the least. The subscriber can clean the arrester by simply running a card between the carbons. The arcing surfaces are in plain sight. These 'phones are a radical departure from old models and are being adopted everywhere. The cabinet work is of the best quality and finely finished. The Boston four-magnet generators, furnished with these bridging bell telephones, are capable of ringing upwards of thirty well-adjusted, sensitive, 1000 or 1600-ohm bells through resistance equal to one hundred miles of No. 12 wire. They are furnished with dry batteries of best quality. Have adjustable arms, all nickel parts are finely finished and the 'phones, as furnished to you, are models in every way. We quote them as follows:

- |   |         |
|---|---------|
| No. 3 Bridged type, employing Boston four-magnet generator, ringers wound to resistance of 1000 ohms, each..... | \$10.00 |
| No. 4 Bridged type, employing Boston four magnet generator, ringers wound to resistance of 1600 ohms, each..... | \$10.50 |

# Electrical Supplies from the World's Fair

## ELECTRIC FANS.

No. EL1. 1 Jandus 12-inch Desk Fan, 110 volt, 25 cycle, alternating current.  
Each .....\$10.00

No. EL2. 2 12-inch, 220 volt, direct current Electric Fans.  
Each .....\$7.50

No. EL3. 2 56-inch 4-blade Revolving Ceiling Fans, Emerson make, direct current.  
Price, each .....\$20.00

## ELECTRICAL INSTRUMENTS.

### Testing Sets.

No. EL4. 2 "Acme" Portable Testing Sets, complete, compact and convenient sets for measurements of resistance. Combines rheostat, whet-stone bridge, galvanometer and batteries. They are complete, with sliding contact and battery. They will measure period 0-1 of an ohm to an accuracy of 1 per cent, up to 1,000,000 ohm to an accuracy of 5 per cent. Each set has a capacity of 11 megohms.  
Price per set .....\$55.00

No. EL5. 2 "Acme" Portable Testing Sets. Each set has a capacity of 11 megohms.  
Price, per set .....\$55.00

No. EL6. 1 Detector Galvanometer. Has 2 coils, 1 of no resistance and 1 of 50 ohm.  
Price .....\$8.00

### TROLLEY CLAMPS.

No. EL7. 600 regular straight line Detroit Trolley Clamps for round No. 00 wire. Bronze metal with standard base.  
Price, each .....11 cts.

## SOLDERED CURVE EARS.

No. EL8. 150 regular soldered curve ears, 9 inches long, for round No. 00 wire. Bronze metal, standard base, for type "D" hangers.  
Price, each .....10 cts.

## CABLE CLIPS.

No. EL9. 1,000 1/2 inch caustic cable clips.  
Price, each .....7 cts.  
500 5/16 inch. Each .....5 cts.

## CIRCUIT BREAKERS.

No. EL10. 1,000 ampere single pole Circuit Breaker, fitted with manual release, arranged to operate by push button, as well as by its automatic release. Cost \$95.00.  
Price .....\$70.00

## SPRING GONGS.

No. EL11. 3 6-inch Spring Gongs, wound for 30-ohm resistance. Used in fire alarm service. Cost \$12.00 each.  
Our price, each .....\$7.50

## INSULATED CROSSINGS.

No. EL13. 10 No. 999 Philadelphia insulated crossings; John Mandel Co.  
Each .....\$8.50

## HANGERS.

No. EL14. Single curved hangers. Iron part only.  
Each .....25 cts.

No. EL15. 500 Type W double curved hangers. The iron part only.  
Each .....25 cts.

## TROLLEY EARS.

No. EL16. 500 Type W soldered ears for No. 00 wire.  
Each .....15 cts.

No. EL17. 100 15-inch Type W feeder ears.  
Each .....30 cts.

**We are constantly buying goods at sheriff's and receiver's sale.**

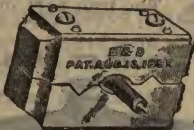

## ELECTRICAL SUPPLIES FROM THE WORLD'S FAIR.

## PORCELAIN TUBES.

No. EL88.	25,000 3-inch by 3/8-inch unglazed porcelain tubes.	Per 100	25 cts.
No. EL89.	6,000 6-inch by 3/8-inch unglazed porcelain tubes.	Per 100	40 cts.
No. EL90.	5,000 8-inch by 3/8-inch unglazed porcelain tubes.	Per 100	75 cts.
No. EL91.	10,000 10-inch by 3/8-inch unglazed porcelain tubes.	Per 100	\$1.10
No. EL92.	50,000 1/2-inch by 5/16-inch unglazed porcelain tubes.	Per 100	15 cts.
No. EL93.	10,000 8-inch by 1 1/2-inch unglazed porcelain tubes.	Per 100	\$4.50
No. EL94.	50,000 1 1/8-inch by 5/16-inch unglazed porcelain tubes.	Per 100	14 cts.
No. EL95.	60,000 4-inch by 3/8-inch unglazed porcelain tubes.	Per 100	30 cts.
No. EL96.	6,000 3/4 I. D. 6-inch long underhead, unglazed porcelain tubes.	Price, per 100	80 cts.
No. EL97.	3,000 1/2 I. D. 8-inch long underhead, unglazed porcelain tubes.	Price, per 100	\$1.50
No. EL98.	2,000 3/4 I. D. 8-inch long underhead, unglazed porcelain tubes.	Price, per 100	\$2.00
No. EL99.	1,000 3/4 I. D. 10-inch long underhead, unglazed porcelain tubes.	Price, per 100	\$2.75
No. EL100.	1,000 3/4 I. D. 12-inch long underhead, unglazed porcelain tubes.	Price, per 100	\$3.50
No. EL101.	1,000 1-inch I. D. 8-inch long underhead, unglazed porcelain tubes.	Price, per 100	\$2.75
No. EL102.	1,000 1-inch I. D. 10-inch long underhead, unglazed porcelain tubes.	Price, per 100	\$3.00
No. EL103.	1,600 1-inch I. D. 12-inch long underhead, unglazed porcelain tubes.	Price, per 100	\$4.20

## WIRE CLEATS.

No. EL105.	25,000 single wire glazed porcelain cleats, for 500,000 C. M. cable.	Price, per 100	\$4.00
No. EL106.	150,000 single wire glazed porcelain cleats, for 000 and 0000 wire.	Price, per 100	\$1.75
No. EL107.	5,000 pair 2 wire glazed porcelain cleats, for No. 14 to No. 8 wire.	Price, per 100	90 cts.

## BLOCKS FOR TYPE "C" FUSES.

No. EL108. 25 of them.

Price, each ..... \$1.25

## KNOBS.

No. EL109. Split Glazed B. &amp; D. Porcelain Wiring Knobs, 1-inch below groove. 15,000 for No. 6 to No. 00 wire.

Each ..... \$0.10

400,000 for No. 8 to No. 4 wire.

Per 100 ..... 1.00

1,000,000 for No. 10 to No. 14 wire.

Per 100 ..... .80

No. EL110. Glazed Porcelain B. &amp; D. Wiring Knobs.

10,000 No. 5 1/2. Per 100 ..... \$0.35

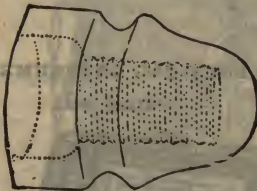

10,000 No. 4 1/2. Per 100 ..... .45

5,000 No. 3 1/2. Per 100 ..... .60

20,000 No. 8 Standard Porcelain Knobs.

Price, per 1,000 ..... \$2.75

## GLASS INSULATORS.

No. EL111. 10,000 special cable glass insulators.

Price, per 100 ..... \$5.00

## TROLLEY STRAIN EARS.

No. EL112. 100 double strain soldered ears for round No. 00 wire.

Price, each ..... 17c

## TYPE "C" BLOCKS.

No. EL113.—50 special "Type C" blocks, like cut, with fuses for same. Prices on application.

## CARBONS.

No. EL104. 4,000 1/2-inch by 9 1/2-inch solid genuine "Electra" carbons; never used.

Price, per 100 ..... \$1.75

3,000 same as above, cored. Per 100... 1.85

A chance to save Money. Buy to-day.

## RUBBER COVERED AND WEATHERPROOF WIRES AND CABLES FROM THE ST. LOUIS WORLD'S FAIR

An Enormous Quantity of this Material comes into our possession. It was furnished by the AMERICAN STEEL & WIRE CO., and was purchased after careful consideration of all the best wires on the market. Its quality was fully covered by a Guarantee before acceptance by the Exposition Company.

This wire has only been used during the Exposition and will be shipped in good condition. Some of it in fact, has never been used. We ask you to advise us just how much of this wire you can use and we will make you a proposition, which we are confident will secure your order.

### RUBBER COVERED WIRE, STRANDED.

1,000 feet	600,000 C. M.
3,000 feet	500,000 C. M.
5,000 feet	300,000 C. M.
8,000 feet	No. 4/0
6,000 feet	No. 3/0
50,000 feet	No. 1/0
100,000 feet	No. 2/0

### RUBBER COVERED WIRE, SOLID CONDUCTOR.

50,000 feet	No. 1	600,000 feet	No. 6
40,000 feet	No. 2	150,000 feet	No. 8
60,000 feet	No. 3	650,000 feet	No. 10

### PRICES ON APPLICATION.

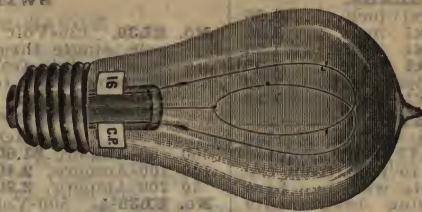

All this came from the World's Fair—St. Louis

# INCANDESCENT ELECTRIC LAMPS

FROM THE WORLD'S FAIR IN ST. LOUIS

**No. 082.** 50,000 Brand new Incandescent Lamps. 100 to 110 voltage. 16 candle power to a case. Edison, F. H., or Westinghouse base. Packed 250. Price each in case lots ..... 14c  
smaller lots ..... 16c

**No. 886.** 150,000 new Incandescent Lamps, never used, all Edison base. They are all general electric make, 100 to 110 voltage, 8 candle power, packed in cases. Price in lots of 250 or more ..... each, 12c  
When ordered in less quantities, price ..... each, 14c

**No. 887.** 200,000 same as above used lamps, but which have been tested and can still be used for some time to come. Price each in lots of 100 or more ..... 6c

**No. 080.** 15,000 brand new general electric make, natural colored Incandescent Lamps. Colors, green, ruby, opal and amber. Edison base. 104 voltage, 8 candle power. Packed 200 in a case. Price each, any quantity ..... 30c  
"..... in case lots ..... 25c

**No. 081.** 50,000, same as above in same colors. Lamps that have been used, but good for further service. Price each, any quantity ..... 15c  
"..... in lots of 200 ..... each, 10c

## LAMP CORD

**No. 1003.** 100,000 feet No. 16 lamp cord in continuous lengths. Price ..... per yard, 7c  
**No. 1004.** 250,000 feet lamp cord in short lengths, ranging from 1 foot to 10 feet. Price ..... per yard, 5c  
**No. 1005.** 500,000 feet of lamp cord in scrap lengths. Price ..... per yard, 4c

## ROSETTES

**No. 1006.** 50,000 Ceiling rosettes. Price ..... each, 20c

## RECEPTACLES

**No. 1007.** 100,000 No. 9171 G. E. Co. porcelain receptacles. Each ..... 4c  
Per dozen ..... 40c  
Per gross ..... \$4.00

BUY TO-DAY. TO-MORROW IT MAY BE TOO LATE

# ELECTRICAL MATERIAL.

## MARBLEIZED SLABS.

No. EL18.	1—1....16x24x1 inch.....	\$1.25
"	2—1....17x26x1 inch.....	1.35
"	3—1....14x27x1 inch.....	1.25
"	4—1....16x24x1 inch.....	1.25
"	5—1....15x21½x1 inch.....	1.00
"	6—1....15x25x1 inch.....	1.25

## SWITCH BOARD.

No. EL19. We have one Italian Marble switch board, size 51x72 inch; mounted on angle iron frame, 15 inch from the ground. It is complete with bus bars and has the following instruments mounted thereon:

## SWITCH BOARDS.

No. EL20. 6 Boards of various sizes. Full list on application.

## INSTRUMENTS FROM THE WORLD'S FAIR.

These came to us by reason of our purchase of the complete Exposition, and are in excellent condition, practically brand new.

## AMMETER.

No. EL21. 1 T. H. Alternating Ammeter, General Electric No. 48436.

No. EL22. 1 Thompson portable alternating Ammeter, No. 47032—from 0 to 10.

No. EL23. 1 Weston portable, direct reading Ammeter, from 0 to 200. No. 6144.

No. EL24. 1 Thompson portable alternating Ammeter, from 0 to 50. Brand new. No. 48436.

No. EL25. 1 Portable Weston Standard No. 2 D. C. Ammeter, 0 to 50 amperes.

Price ..... \$45.00

No. EL26. 1 Portable Weston Standard No. 7 D. C., 0 to 200 amperes.

Price ..... \$54.00

No. EL27. 1 Portable Ind. Coil A. C. Ammeter, 0 to 10 amperes.

Price ..... \$15.00

No. EL28. 1 Portable Ind. Coil A. C. Ammeter, 0 to 100 amperes.

Price ..... \$17.00

No. EL29. 1 inclined A. C. Ammeter with transformer to 800 amperes.

Price ..... \$7.50

No. EL30. 1 No. 7½ Norton Ammeter, reading from 0 to 200.

Price ..... \$7.00

No. EL31. 1 No. 8 Norton Ammeter, reading from 0 to 600.

Price ..... \$12.00

No. EL32. 1 Second-hand Alton and Perry Direct Reading Spring Ammeter, 0 to 200

Price ..... \$7.50

No. EL33. 1 Thompson Arc Ammeter, reading 1 to 11, brass case, iron base.

Price ..... \$7.00

## DETECTOR.

No. EL34. 1 Brand New General Electric alternating current, ground, detector, Type F, 125 cycle, slate base....

Price ..... \$20.00

No. EL35. 1 Brand New General Electric Alternating current ground detector, Type F, 125 cycle, slate base.

Price ..... \$20.00

## DETECTOR GALVANOMETER.

No. EL36. 1 Detector Galvanometer. Has two coils, one of no resistance and one of 50 ohm, thus adapting it to powerful and weak currents.

Price ..... \$8.00

## LIGHTNING ARRESTOR.

No. EL37. 1 Fort Wayne Thomson's combined lightning arrester, 1,000 volt, mounted, slate base.....

Price ..... \$5.00

## SWITCHES.

No. EL38. 125-Volt Switches, double pole, single throw, brake or clip, slate base, fusible front connection, separate or removable terminals, plain finish, conforming to underwriters' requirements, as follows:

	Each.		Each.
50	50-Ampere. \$1.60	50	300-Ampere. \$3.80
100	100-Ampere. 2.40	20	500-Ampere. 4.45
50	200-Ampere. 3.20	10	800-Ampere. 13.00

No. EL38½. 500-Volt Switches, single throw, double brake, slate base, fusible front connection, separate terminals, plain finish, conforming to underwriters' requirements, as follows:

	Each.		Each.
25	50-Ampere. \$1.60	10	200-Ampere. \$3.20
12	100-Ampere. 2.40	20	500-Ampere. 4.45

No. EL39. 110-Volt Switch Snaps, porcelain, grooved, conforming to underwriters' requirements, as follows:

	Each.		Each.
50	5-Ampere. \$ .15	100	25-Ampere. \$ .30
200	10-Ampere. .18		

No. EL40. 1,000 10-Ampere, 220-Volt D. P. Snap Switches.

Price, each ..... \$ .20

No. EL41. 500 25-Ampere 500-Volt D. P. S. T. Knife Switches.

Price, each ..... \$ .40

No. EL42. 175 50-Ampere 500-Volt D. P. S. T. Knife Switches.

Price, each ..... \$ .60

No. EL43. 200 25-Ampere 125-Volt D. P. S. T. Knife Switches.

Price, each ..... \$ .20

No. EL44. 5,000 5-Ampere Single Pole Snap Switches.

Price, each ..... \$ .12

No. EL45. 12 300-Ampere S. P. S. T. 660-Volt Hook, Type K. S., mounted on large porcelain pedestal of blue Vermont marble.

Price, each ..... \$13.00

A soldered terminal for the above.... 40.00

No. EL46. 3-Pole 2,500-Volt Single Throw Three-Knife Switches, on heavy marble base, complete with terminals.

No. EL47. 2 Crouse-Hinds, Style B, connected double pole, single throw fuse switches, each 250 amperes.

Each ..... \$ 5.00

No. EL48. 3 Crouse-Hinds switches, each 300 amperes.

Each ..... \$ 6.00

No. EL49. 1 Crouse-Hinds switch, 500 amperes ..... \$ 9.00

No. EL50. 2 Crouse-Hinds switches, each 800 amperes.

Each ..... \$19.00

No. EL51. 1 Crouse-Hinds switch, 400 amperes ..... \$ 7.00

No. EL52. 1 Second-hand T. H. current indicator, 80 amperes ..... \$ 7.00

No. EL53. 1,000 10-Ampere, 220-Volt "D. P." snap switches.

Price, each ..... \$ .20

No. EL54. 175 50-Ampere, 500-Volt D. P. S. T. knife switches.

Price, each ..... \$ .60

No. EL55. 1 Andrew's single pole, single knife switch, slate base, 250 amperes.

..... \$ 1.25

## PEDESTAL SWITCHES.

No. EL56. 12 300-Ampere, "S. P. S. T." 660-Volt Hook Type, K. S., mounted in large porcelain pedestal of blue Vermont marble; furnished by Frank Adams Electric Co. Cost each \$21.00

Our price, each ..... \$13.00

A soldered terminal for the above.... \$40.00

Can you use any considerable quantity of Weather Proof or Rubber Covered Wire? Write us your wants.

## ELECTRICAL SUPPLIES FROM THE WORLD'S FAIR.

## TEST GAUGE.

- No. EL57. 1 Crosby Standard Test Gauge, from 0 to 300 lb. pressure. In perfect condition.

## STEAM RECORDERS.

- No. EL58. Two 40-lb. Crosby Steam Pressure Recorders, 6 $\frac{1}{4}$ -inch dial.  
 No. EL59. One 90-lb. Crosby Steam Pressure Recorder, 6 $\frac{1}{4}$ -inch dial.  
 No. EL60. One 80-lb. Crosby Steam Pressure Recorder, 8-inch dial.  
 Each of the above recorders has extra charts.

## INDICATORS.

- No. EL61. 1 T. H. Current Indicator, 80 amperes.  
 Price .....\$7.00  
 No. EL62. 1 Howell Indicator, galvanometer, reading 0 to 150 wood case.\$5.00

## CIRCUIT BREAKERS.

- No. EL63. 1,000-Ampere Single Pole Circuit Breaker.

## VOLT METER.

- No. EL64. 1 Fort Wayne Electric Company's Wood Volt meter, reading from 0 to 95, brass case, marble base..\$3.00  
 No. EL65. 1 Second-hand Slattery Induction volt meter, reading 0 to 60, wood case .....\$6.00  
 No. EL66. 1 Slattery Induction volt meter, reading 0 to 60, wood case.  
 Price .....\$5.00

## ARC LAMPS.

- No. EL67. 12 100-Volt "D. C." enclosed arc lamps.  
 Price, each .....\$10.00

## SEARCH LIGHTS.

- No. EL68. 1 10,000 candle power, 90 ampere, 110-volt search light, was used at St. Louis during the Exposition and is in first-class condition in every way. Price on application.  
 No. EL69. 1 Beacon Light. Full description on application.

## ARC LAMP GLOBES.

- No. EL70. 2,000 Opal Arc Lamp Globes, size of opening 4 $\frac{1}{2}$  and 8 $\frac{1}{2}$  inches, 4 $\frac{1}{2}$  and 7 $\frac{1}{2}$  inches, 2 and 8 inches.  
 Price, each .....\$ .25  
 No. EL71. 500 No. 3 Fostoria Light Opal inner globes for G. E. Co. alternating arc lamps.  
 Price, each .....\$ .07

## POLE BRACKETS.

- No. EL72. 75 Richmond Flexible Pole Brackets, style "B," 9-inch arm, 1 $\frac{1}{2}$ -inch centers, tubes for 7-inch poles.  
 Each, single .....\$1.30  
 No. EL73. 75 Richmond Flexible Pole Brackets, style "B," 9-inch arm, 1 $\frac{1}{2}$ -inch centers, tubes for 7-inch poles.  
 Each, double .....\$2.50

## FUSE BLOCKS.

- No. EL74. 200 60 to 100-Ampere 220-Volt Fuse Blocks.  
 Price, each .....\$ .50  
 No. EL74 $\frac{1}{2}$ . 2 New Slate Base Single Pole Shawmut Enclosed Fuse Blocks, with Noark's fuses. Type B, 2,500 volt, 60 ampere fuses.  
 Price, each .....\$ .60

## FUSES.

- No. EL75. 10,000 feet 10-ampere link fuses, copper tip, 2 $\frac{1}{2}$ -inch centers. ....\$1.25  
 Per 100 feet .....  
 No. EL76. 2 New slate base, single pole Shawmut enclosed fuse blocks with Noark's fuses, Type B, 2,500 volt, 60 ampere fuses.  
 Price, each .....\$ .60

## BLOCKS.

- No. EL77. 178 60 to 100-Ampere, 220 volt.  
 Price, each .....\$ .40

## STARTING BOX.

- No. EL78. 1 Second-hand 5 H. P. C. & N. automatic starting box for.....\$4.00  
 No. EL78 $\frac{1}{2}$ . 1 2 H. P. for.....\$2.50

## COPPER CABLES.

- No. EL79. 50 reels of lead covered rubber insulated copper fire alarm and telegraph cables, No. 14; sizes 2, 3, 4 and 6 conductor. Brand new, made by the Safety Insulated Cable Co. for the St. Louis Exposition, but has never seen service.

## GUY WIRE.

- No. EL80. 10,000 feet of  $\frac{3}{8}$ -inch stranded guy wire.  
 Per 100 feet .....\$1.75

## CONDUIT.

- No. EL81. 5,000 feet of  $\frac{3}{8}$ -inch Flexible Conduit, first-class quality.  
 Price, per 100 feet.....\$2.50

## BUZZERS.

- No. EL82. 100 iron box buzzers.  
 Each .....13 cts.  
 1,000 brass push buttons. Each .....4 cts.

## STORAGE BATTERY.

- No. EL83. 10 100-ampere hour portable storage batteries. Complete at  
 Each .....\$6.00

## FLEXIBLE COPPER RAIL BONDS.

- No. EL84. 10,000 flexible copper rail bonds for No. 00 wire for use outside of splice bars on tee rails. It is  $\frac{3}{8}$ -inch diameter; length from center to center of holes in the rail, 36 inches.  
 Price, each .....37 cts.  
 500 flexible copper rail bonds for cross binding. No. 00 wire, B. & S. terminals,  $\frac{3}{8}$ -inch diameter, for standard gauge track, 4 feet 8 $\frac{1}{2}$  inches. For use on 60-pound tee rails.  
 Price, each .....57 cts.

# Miscellaneous Goods.

From the nature of our business we accumulate a vast quantity of material which it is practically impossible to correctly list, such as machinery, pulleys, building material, furniture, bric-a-brac, tools, hardware, etc., etc. Of many of such items we may have but one or two of a kind.

The list following under the head of "MISCELLANEOUS" is an attempt to gather as best we can some of these various items. It's a list well worth your time and attention. Down along some of these columns you will find much material you can use to advantage at very low prices.

## ALL OF THIS MATERIAL IS SUBJECT TO PRIOR SALE.

Please Order by Lot Number.

### LIST OF VAULT DOORS

One vault door; width of door, 30 inch; height, 78 inch; width of frame, 40 inch; height of frame, 84 inch. Is fitted with 1/2-inch cross bolts. The door is 3/4-inch thick,

dove-tail, thus making it impossible to pry same open. It is also fitted with 5-tumbler combination lock and automatic handle. On the outside of door, there is a lever which operates the bolt, thus locking the door without making it necessary to operate the combination lock. Has steel lined vestibule 27 inch deep, with inner steel doors, which are fitted with combination lock and handle. The locks of the door are in first class condition in every way. The outer door is trimmed with nickel plated hinged tips and heavy moulding goes around the entire frame, which makes a very handsome appearance. The vault door will weigh approximately 4,000 lbs. Price. .... \$250.00

One No. 103 Brand new vault door, manufactured by the National Safe & Lock Co. Opening in wall 75 inch high, 28 inch wide and 16 inch deep, including plaster. Outer door is constructed of 2-16 inch Bessemer steel, stiffened on all edges with 1 1/2 x 1 1/2 x 3-16 inch angle frame, which is also used to support the bolt work, and across the center by a 5 x 1/2-inch panel bar. Bolt work is guarded by a Yale & Towne combination lock. Inside doors are made of No. 14 steel, paneled on all edges by 2x3-16 inch bars and across the center with 4x3-16 inch bars. These inside doors have flat up and down bolts checked by key-lock. Price. .... \$55.00

One No. 110 modern fire-proof vault door, designed to fit opening in vault wall 79 inch high, 32 inch wide and 21 inch deep, including plaster. Opening in door-way, 76 inch high; 28 inch wide. Outer door plate, 3-16 inch thick; single bolt frame, 1 1/2 x 1 1/2 x 3-16 inch. Two cross bolts, one up and one down, 1/2 inch in dia. cold drawn steel, 3x1/2-inch carrying bar, 5x1/2-inch lock rail, four tumbler 026 Combination lock on outside door. 3 1/2 x 3-16 inch front jamb bars, 1/2 x 1/2 inch intermediate bars, 3-16 inch x 1 1/2 x 1/2-inch vestibule angle frame. No. 16 sheet iron vestibule plates; 3 1/2 x 3-16 inch back jamb bars. No. 14 sheet steel double inside doors, paneled on all edges with 3-16 x 2-inch panel bars, with 4x3-16 inch lock rail across the center. Flat key-lock and duplicate steel keys, and flat up and down bolts on right hand door. Two steel pin hinges each on the inside door and two pin hinges each on the outside door. The flanges in rear of vestibule will be removable so that the vault can be placed in position after the wall is built. Handles, dial, hinge tips, round bolts and carrying bars, heavily nickel plated or copper oxidized. Doors painted inside and outside in first class manner and workmanship. Vestibule painted inside and outside. Price. .... \$60.00

One No. A10. One lot of brand new vault doors, inside clearance 28x74 inch, made to fit an 18 inch wall. Opening in wall to receive vault 32x77 inch. Approximate weight 700 lbs. The door of this vault is hung on three strong hinges and fitted with a 2x3-16 inch angle around the entire edge, the door plate being made of No. 10 gauge round steel and securely locked with a Yale Combination lock. The inner doors are made double and fitted with batten bars, having up and down bolt work, securely locked with flat key-lock. The rear flanges are so made that they can be unscrewed, the vault placed in position, leveled, fitted and tried so that the bolt work and locks work perfectly, then all the crevices can be filled up and cemented, the rear flange screwed back and the vault be ready for use. By making the flange on the rear of the vault in this manner, the building can be completed, vault can be handsomely decorated and all parts nickel plated and placed in position without being marred. Price. .... \$57.50

We have the following doors in stock, which are in good condition and suitable for papers, etc. These doors have no combination lock, but are in fair condition.

2 vault doors, outside measurements:—81 inch high, 36-inch wide; height of door, 77 inch; width of door, 28 inch; depth of vestibule, 24 inch. Has double steel doors and a lever latch on the outside door. Price, each, \$35.00

One vault door, outside measurements:—77 inch high; width, 37 inch; height of door, 72 inch; width of door, 26 inch; depth of vestibule, 16 inch. Has no inside doors. Price. .... \$25.00

Two vault doors, outside measurements:—84 inch high; 39 inch wide; height of door, 78 inch; width of door, 31 inch; depth of vestibule, 24 inch. Double inner steel doors; outer door has a heavy ornamental iron moulding and lever latch. Price, each, .... \$37.50

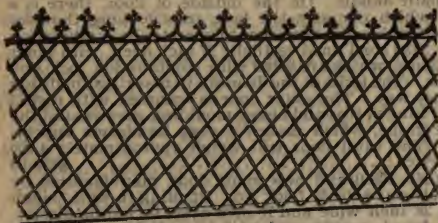

One vault door, outside measurements:—72 inch high; 38 inch wide; height of door, 56 inch; width of door, 26 inch; depth of vestibule, 18 inch. Has double inner steel doors with key-lock; heavy ornamental door and heavy hinges. The outer door has lever latch. Price. .... \$35.00

\$100,000 worth of Nearly New Furniture from World's Fair Hotel at St. Louis, Coming.

Price, per lb. ....2½c

READ EACH ITEM CAREFULLY—THEY ARE MONEY SAVERS.

# MISCELLANEOUS.

## VAULT DOORS.

We will thoroughly overhaul any of the following doors, bringing them down to a smooth finish and painting them in one color, not striping or lettering. The bright parts will be replated and the doors made very attractive. All of the following doors are strictly fire-proof and in good condition.

We have just removed from the temporary postoffice in this city the following vault doors, which were installed about seven years ago. They were put in especially for the Government. All doors manufactured by Geo. L. Damon, Boston, Mass. The doors are as follows:

**No. M71.** Five doors, width of door 33", height of door 82", thickness of door 3 1/2". Each door has four 1 1/2" horizontal bolts, two 1 1/2" vertical bolts; heavy single inside doors with key lock. Outer door is fitted with combination lock; heavily molded frame, width of frame 54", height of frame 96"; steel clad vestibule 14" deep.

**No. M72.** One vault door, width of door 37", height of door 75", 4" thick; width of frame 58", height 96". The outer door is fitted with a double combination lock, that is, there are two combination locks on the door. The inner door is much heavier than the outer door of an ordinary vault. Both the inner and outer doors are fitted with four 1 1/2" horizontal lock bolts and four 1 1/2" vertical lock bolts. Inner door has also double combination lock steel clad vestibule 21" deep.

**No. M73.** One vault door, width of door 33", height of door 80", thickness 3/4"; width of frame, 45"; height of frame, 84"; steel clad vestibule, 14" deep; heavy single inner door, key lock, outer door has four 1" horizontal bolts and combination lock.

## VAULT LININGS.

The postoffice vaults had a steel lining. The size of the linings are as follows:

**No. M74.** One room 6' wide, 8' long and 9' high, steel plates on four sides, floor and ceiling.

**No. M75.** One room 13' 6" wide, 10' long and 9' high, steel plates floor, sides and ceiling.

**No. M76.** Two rooms 40" wide, 80" long by 8 1/2" high, steel plates on floor, sides and ceiling. Prices on the steel linings on application.

## SPIRAL RIVETED PIPE.

**No. M27.** 1,750 feet of 10-inch spiral riveted new pipe, made of No. 16 iron, Asphalt inside and out, in 9-ft. lengths with flanges. Price, per foot .....\$0.35

**No. M28.** 1,750 feet of 10-inch spiral riveted new pipe, made of No. 16 iron, Asphalt inside and out, in 9-ft. lengths with slip joints. Price, per foot .....\$0.35

## WROUGHT IRON PIPE.

**No. M29.** 300 ft. of 16" wrought iron lap welded pipe, 3/4" thick with threaded ends and screwed couplings.

**No. M30.** 10 lengths of spiral riveted pipe 36", 1/2" thick.

**No. M31.** 8 lengths of spiral riveted pipe, 42", 1/4" thick.

## CAST IRON PIPE.

**No. M32.** 26" cast iron pipe; 5-9' lengths of flanged cast iron pipe; standard weight.

**No. M33.** Large soil pipe. 250 lengths of 6, 8 and 10" cast iron soil pipe. Price on application.

## PIPE MACHINE.

**No. M35.** One Eaton, Cole & Burnham 2 1/2 to 8" pipe machine, all complete with dies; overhauled and in good condition.

## CAR SEALS.

**No. M62.** 10,000 car seals; Tyden Patent. Price, per dozen .....100

## GONG BELLS.

**No. M23.** 6 regular Fire Department gong bells with weight attachment; diameter of gong 12", attached to hardwood board. Price, each .....\$4.00

**No. M24.** One electric gong; diameter 12". Price .....\$2.00

**No. M25.** One electric gong; diameter 10". Price .....\$1.50

**No. M26.** One pull gong; diameter 10". Price .....\$1.50

## HOT AIR FURNACES.

**No. M77.** For heating Churches, Halls, etc., that are only used occasionally.

In connection with our dismantling of the St. Louis Exposition, we came into possession of a number of first-class Furnaces that have seen very little service. They were installed in some of the Buildings in the Exposition, and were fired up perhaps twenty or twenty-five times. Four of these furnaces are the Front Rank Steel Furnace, manufactured in St. Louis. These four furnaces are the No. 60 Furnace, and are complete with the fire lining, grate bars, shakers, fire and ash door and check door, frame and the casing. The diameter of the casing is 60"; diameter of the drum 32"; diameter of fire pot 29"; diameter of the extra radiators inside the casing 15"; diameter of smoke pipe 10"; height of the drum 60". Height of the furnace over all, that is to the top of the casing 71". Heating capacity 50,000 to 75,000 cubic feet. The grate bars in these furnaces are a special feature, very heavy, cast triangular, with air spaces between. These Furnaces consist of main drum and the fire chambers, all products of combustion going up in this drum and from there entering two large radiators at the back, which are 15" in diameter, carried down almost to the bottom of the casing where connection is made with the smoke pipe. This forces the products of combustion to travel a long way inside the casing, giving a greater radiating capacity so that these furnaces embody correct principles. These have double belt casing around the fire jacket, insuring greater protection against the loss of heat in the cellar. They are made with a water pan set in the side and one or two of them have been drilled for the insertion of a water coil.

The manufacturer's price to the dealer on this furnace would be \$100.00, and we are offering them at a special price.

**Each No. M73.** This one with a heating capacity of 20,000 cubic feet of house space. It was made by the Excelsior Steel Furnace Co., and was used in one of the World's Fair Buildings at the St. Louis Exposition. We will furnish this complete for .....\$35.00

Now this price does not include the stack nor the conductor pipe up through the wall of your house, nothing except the furnace and the outside casing.

These furnaces have been carefully taken down, and are in first class condition.

## WIRE ROPE.

**No. M14.** We have upwards of 5,000 feet of 5/8" used wire rope in stock; six strands, 19 wires to the strand, with a hemp center. This wire is not good enough to be used for hoisting purposes, but would make serviceable wire rope for many other uses. We sell it just as it comes; lengths ranging from 200 to 300 feet. We can splice to make any desired length.

Price, per foot.....\$0.02 1/4

**We Carry a Large Line of Safes and Vaults.**

# MISCELLANEOUS

## MIXED BOLTS, ETC.

**No. MR21.** 6,000 pounds Mixed Bolts, Rivets, Lag Screws, Wood Screws, Stove Bolts, Carriage Bolts, and all kinds of Bolts and other Screws mixed together. These came to us in this way from the manufacturer and we did not separate them. They are mostly in small sizes about 1/4 inch, and from 2 to 4 inches long.  
Price.....per pound, **\$0.03**

## HAY CARRIERS

**No. MR22.** One 4-tine Grapple Fork.  
Price.....**\$3.00**  
One Hay Carrier. Price.....**2.50**

## BLOCKS.

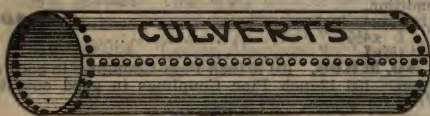

### GOOD SECOND-HAND ONES.

All kinds coming in. Write us for anything you want.

- No. 3119. One 12 in. iron double block for cable up to 1 in., with bail and hook ..... \$ 5.00
- No. 3300. One wire rope single gin block, 12 in. sheave, will take  $\frac{5}{8}$  in. rope ..... 5.00
- No. 3301. One 14 in. wood shell triple tackle block, will take  $1\frac{1}{2}$  in. rope ..... 3.00
- No. 3302. Two triple steel wire rope block, 14 in. sheave, will take  $\frac{3}{4}$  in. rope. Each ..... 9.00
- No. 3304. Two 12 in. triple steel tackle block, will take  $1\frac{1}{2}$  in. rope.... 3.00
- No. 3305. Same as No. 3304, but with becket ..... 3.25
- No. 3307. One steel wire rope block, 14 in. sheave, will take  $\frac{3}{4}$  and  $\frac{7}{8}$  in. rope ..... 9.00
- No. 3308. One triple wire rope block, 10 in. sheave ..... 6.00
- No. 3309. One 12 in. quadruple steel tackle block for  $1\frac{1}{2}$  in. manilla rope, with heavy hook..... 5.00
- No. 3379. One Yale & Towne 4 ton tackle block. ....
- No. 3380. One 4 ton single hoisting block....

## CULVERTS.

We are always in position to supply you anything in Steel or Iron Culverts. We offer the following special culverts for quick delivery:

- No. M-59. 10 pieces 14 in. dia., 16 ft. long, made of  $\frac{1}{4}$  in. steel, weight 40 lbs. to the foot ..... 8.00
- 8 pieces 14 in. dia., 12 ft. long, made of  $\frac{1}{4}$  in. steel, weight 40 lbs. to the foot ..... 8.00
- 8 pieces 20 in. dia., 16 ft. long, made of  $\frac{1}{4}$  in. steel, weight 65 lbs. to the foot ..... 8.00
- 8 to 16 ft. lengths, 30 in. dia., made of  $\frac{1}{4}$  in. steel, weight 95 lbs. to the foot.....

- 8 to 16 ft. lengths, 36 in. dia., made of  $\frac{3}{8}$  in. steel, weight 165 lbs. to the foot.....
- 12 to 16 ft. lengths, 42 in. dia., made of  $\frac{3}{8}$  in. steel, weight 180 lbs. to the foot.....
- 12 to 16 ft. lengths, 48 in. dia., made of  $\frac{3}{8}$  in. steel, weight 225 lbs. to the foot.....
- 12 to 16 ft. lengths, 54 in. dia., made of  $\frac{3}{8}$  in. steel, weight 250 lbs. to the foot.....
- 12 to 16 ft. lengths, 60 in. dia., made of  $\frac{3}{8}$  in. steel, weight 265 lbs. to the foot.....
- 14 to 18 ft. lengths, 66 in. dia., made of  $\frac{3}{8}$  in. steel, weight 290 lbs. to the foot.....
- 14 to 20 ft. lengths, 72 in. dia., made of  $\frac{3}{8}$  in. steel, weight 325 lbs. to the foot.....

Write for prices. We are constantly adding to this list.

- 500 pieces galvanized iron culvert pipe, riveted, 12 in. dia., each 5 ft. long. Per ft. .... .25

## WROUGHT IRON PIPE FLANGED.

### SECOND-HAND.

No. A-52.

- 1 piece 17 in. pipe, flanged, 14 ft.....
- 1 piece 17 in. pipe, flanged, 8 ft.....
- 1 piece 17 in. pipe, flanged, 4 ft. 6 in.....
- 1 piece 17 in. pipe, flanged, 6 ft.....
- 1 piece 15 in. pipe, flanged, 6 ft.....
- 1 piece 14 in. pipe, flanged, 4 ft. 6 in.....
- 1 piece 14 in. pipe, flanged, 3 ft. 6 in.....
- 1 piece 16 in. pipe, flanged, 3 ft.....
- 1 piece 17 in. pipe, flanged, 2 ft. 8 in.....
- 1 piece 14 in. pipe, flanged, 12 ft. 6 in.....
- 1 piece 14 in. pipe, flanged, 14 ft. 6 in.....

## KETTLES.

- No. M-119. One 28x24 iron steam jacketed kettle, complete with legs, good for 100 lbs. pressure. 25.00
- No. 3539. One cast iron kettle, 42 in. dia., 24 in. deep, with bosses for lugs. Per lb..... .02 $\frac{1}{2}$
- No. 3437. One cast iron warming kettle, 26x19x15 in. deep, with lid and four legs.....

- No. M-120. One iron stepladder, 18 ft. long, 18 in. wide ..... 7.50
- No. 3446. One iron ladder, 16 ft. .... 2.00
- No. 2052. One steam pressure mixer, 48 in. dia., 4 ft. high, with three legs, shaft, bevel gears and pinion, two driving pulleys 12x2 $\frac{1}{2}$ .....
- No. M-121. One Sprout, Waldron & Co. buhr stone mill; stones 24 in., driving pulley 24x12.....

# MACHINERY

## OF EVERY KIND

### A Few Facts About Our Wonderful Rebuilding Plant

Almost every kind of machine-made passes through our hands. We are continually buying machinery of every description and design. It is an everyday occurrence for us to purchase a whole factory or power plant, and have it shipped entire to our machine and boiler shops. There begins the delicate and important task of rebuilding and restoring. For this work we employ an army of expert mechanics and technically trained engineers.

All our machinery is brought strictly up to date and perfected in every detail now known to mechanical ingenuity. Every missing, defective or worn feature is supplied brand new, and many new patented devices are adapted and added to machines, otherwise perfect, but of a previous date.

In our great establishment, over 25 acres in area, the most intricate and deviously constructed machinery is taken apart, renovated and improved, reassembled and sent out into the world again in perfect running order.

Write and tell us what you are looking for in the machinery line. Our constantly changing stock is exceedingly hard to classify and catalogue, but you will find direct correspondence with us about your special needs most satisfactory. We are confident we can supply just what you want, whether in steam, electrical, or compressed air. We can ship you a complete power plant of any description, for any purpose, and it will be perfect in every detail and in readiness to be installed.

### Some of the Large Plants We Have Purchased

The complete boiler plant of Armour & Co., Union Stock Yards; the complete plant of the Marion Pulp Company, Marion, Ind.; the steam equipment of the Denver Street Railway Company, the Westinghouse equipment of the Allegheny County Light Company, of Pittsburg, Pa., and the power plants of all world's fairs of modern times. All these have been secured by us from time to time, have passed through the recreating process in our machine and boiler shops, and are now busily turning the wheels of industry in other fields. But we have other machinery just as good, obtained from just as reliable sources, on hand at the present moment, for your selection. Such deals of surpassing value and importance cannot but result in amazing advantages to the man looking for high class, up-to-date machinery at low prices. Give us an order and we guarantee satisfaction.

**Size, 9x25 inches.**

We bought at a recent sale 50 of these improved modern foot lathes. It is a machine combining neatness of design and finish with such features as will enable a workman to do from the smallest to the heaviest boring and turning without the least tremble or chatter. It is specially adapted for jobbing and manufacturing shops, bicycle shops, gunsmiths, electricians, model makers, inventors, etc. Indexed to cut threads from 3 to 120 per inch, right or left hand. Swings 10 inches over bed and 26 inches between centers. Planed parts are scraped to a bearing. All screws and working parts are covered to keep off chips and dirt. Gearing are all cut from the solid, and are as true and noiseless as they can possibly be made. Rack and small gear are cut from steel. Has three-speed cone pulley and back gear, giving the lathe six different speeds. Head stock has hollow steel spindle with 13-32-inch opening its entire length. Bearings 1 3-16-inch diameter, 2 1/2 inches long, run in gun metal boxes, provision being made to take up wear. Tail stock has steel spindle, 1-inch diameter, reamed to No. 1 Morse taper, with self-discharging centers. It sets over for taper turning, and can be moved to any part of the bed by one-half turn of the cam. We furnish with each lathe a face plate, two centers, wrenches, and set of change gears. Weight, 350 pounds.

# Strictly New Holliday Gas and Gasolene Engines

We are in position to offer some exceptional bargains in Strictly New Holliday Gas and Gasolene Engines. These engines are without exception the highest grade gas and gasolene engines made today. The method of using fuel in these engines makes them perfectly safe. When gasolene is used, the source of supply is located away from and below the base of the engine. The engine pumps the gasolene as required into a small reservoir located near the generator valve, the surplus returning to the supply tank. The gasolene, after being mixed with air, passes through two valves into the cylinder of the engine. These valves close after admitting the mixture, thus cutting off the supply until required.

When gas is used the operation is similar except that no pumping is required. The spark that ignites the charge is produced inside of the cylinder of the engine, consequently there is no danger of fire as there is no flame exposed. The governor is very simple and sensitive. It is located on the side of the engine, below the secondary gear, entirely out of the way where it is easily accessible and where it will not get injured. When the full capacity of the engine is not required the governor locks open the exhaust valve and at the same time the admission valve remains closed. Thus the engine runs free by its momentum and no fuel is used the adjustment of a thumb nut while the engine is running and admits the right proportion of gasolene or gas and air at the proper time. A shut-off valve prevents the admission of any gasolene or gas except when needed. Engine can be furnished with hot tube or spark igniter. Cylinder and parts subjected to heat are water-jacketed. The water jackets are readily accessible for cleaning in case this is necessary. Piston and cylinder are nicely fitted with a view to greatest efficiency. These are very important parts of a gas engine. Proper material and construction are very essential to their perfect working and durability. Crank shaft and connecting rod are made of the best steel forgings nicely turned and polished. Main bearings for crank shaft are babbitted and planed on both ends, insuring a perfect fit and making it impossible for the piston and connecting rod to get out of alignment. All bearings are easily adjusted and are constructed with a view to greatest durability. They are properly lubricated by automatic oilers. The finish is smooth and suitable giving the engine a neat and attractive appearance. Every engine is thoroughly tested before leaving the shop. Speed, time of ignition, and compression are carefully adjusted. The rated horse power is developed and the engine is tried under various conditions to make sure that every part is in perfect working order. Our engines are adapted for the use of either gas or gasolene. As regularly equipped they are shipped for use with either as ordered. If desired we equip them for use with both gas and gasolene; that is, either fuel may be used.

For further particulars regarding detail, operation and installation we refer to our book of instructions for installing and operating these engines, and this we will be pleased to mail on application.

**SPECIFICATIONS No. 12.** Horizontal center crank. Nominally rated 5 H. P. Shipping weight 950 lbs. Fly wheel 31 inches diameter by 3 inch face; extra heavy rim. Driving pulley 8 inch diameter by 3 inch face. Complete with muffler, igniter, trap, and all necessary oil and grease cups. Write for Special Price.

## Holliday Marine Gasolene Engines.

Holliday Marine Motors are built on the four cycle principle, having a positive feed and discharge, consequently easily started and steady in motion. They are built to be durable and have the necessary material to stand wear and tear. They do not belong to the class of motors that are rated with large horse power and have to be run at a highly impracticable speed to develop anywhere near the power rated. The construction is consistent for most efficient use.

All parts are made of the very best material, accurately fitted and easy of access. It is not necessary to take the motor to pieces to get at some one part.

Main bearings are phosphor-bronze and are extra long, insuring greatest durability. Main shaft is fitted with ball thrust bearings, and other parts are so constructed that friction is reduced to a minimum.

The crank revolves in a bath of oil which lubricates the cylinder, main bearings and both ends of connecting rod, thus keeping outside of engine and surroundings clean.

Spark may be advanced or retarded by a simple adjustment while the motor is running, causing fast or slow speed. The spark plug is in a protected position where it is easy of access and can be quickly removed for inspection.

There is no delicate mechanism to get out of order.

No.	H. P.	Type.	Speed.	Weight
132	2	1 Cylinder	500	225
135	3	1 "	450	290
136	6	1 "	400	595
137	7	2 "	450	490
142	12	2 "	400	850
148	18	3 "	400	1950

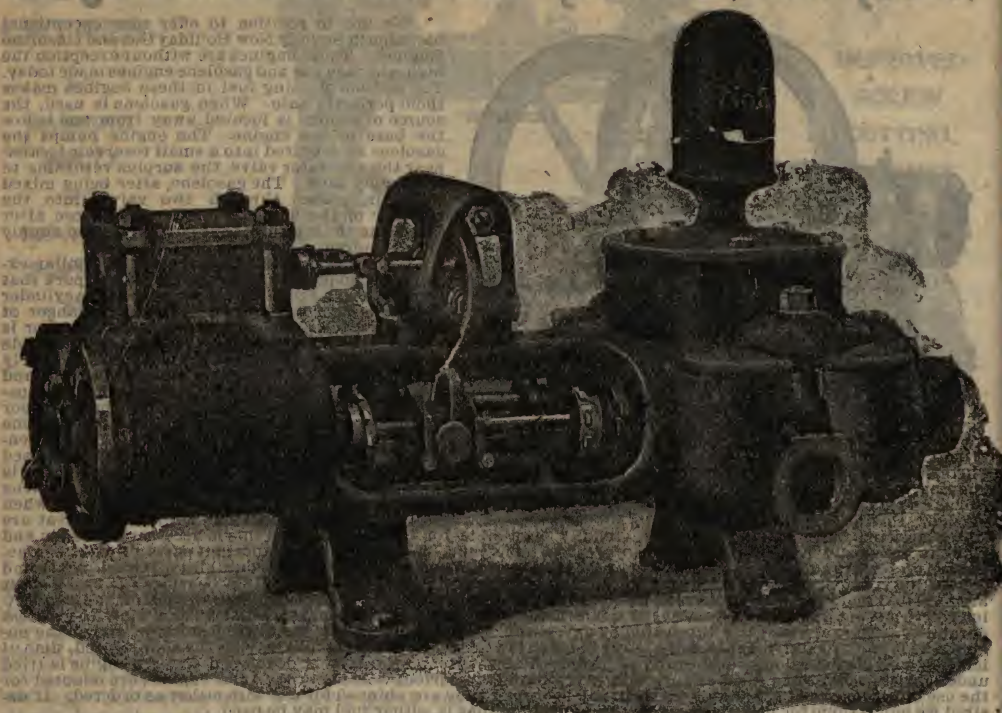

We can furnish with the Marine engines quoted above, the propeller wheel with shaft, outboard bearing, stuffing box and reverse lever, with bronze or cast iron propeller. The propeller has two blades. It is either 18 or 20 inch diameter. Write for special prices.

**All these outfits are strictly new and perfect.**

# DUPLEX STEAM PUMPS—BRAND NEW.

**FULLY GUARANTEED. PERFECT IN EVERY WAY.**

Some advantages of these steam pumps may be briefly stated as follows:

First—The suction valves are placed in small "pockets" or chambers at the side of pump cylinders, and are instantly accessible without disturbing the discharge valves or any other parts.

Second—The lever movement is adjustable to wear by means of hardened cone bearings, and all loss motion therein is readily obviated.

Third—The pump is of the inside plunger design, and, unlike other plunger pumps, the plungers—by means of inside stuffing boxes—are packed with soft, fibrous packing which can be kept absolutely tight under the most severe conditions of service.

**Table of Sizes and Capacities as Used for Boiler Feeding and all General Services.**

Size, Number.	Diameter Steam Cylinders.	Diameter Water Plungers.	Length of stroke.	Proper Stroke per Minute Ordinarily for Various Kinds of Work and Changing pressure.	Gallons Delivered per Minute by Both Plungers at Stated Number of Strokes.	Diameter of Plunger required in any Single Cylinder. Pumps to do same work at same speed.	Average Horse Power Boiler Pump will Supply Handling Hot Water.	For Cold Water add 50 per cent to these capacities.	Suction Pipe.	Discharge Pipe.

# Power Pumps--Belt Driven

We carry in stock these Brand New, perfect, up to-date Belt Driven or Power Pumps:

**Simple, Strong and Serviceable,** occupy little space. Easy to set up and keep in good working order.

The plungers are guided at both ends, and the power applied between bearings. The pin in the crank has a roller working on it within the slot, thus giving a smooth and easy motion. The slot does not wear, but wear comes on the pin and roller, and these are so made that they can be cheaply replaced. The pins are large and long, so that there is much service before any wear takes place. In fact, all the bearings on our pumps are made very large so as to reduce the wear to the least amount possible.

The pumps are furnished with heavy brass check valves, with large valve openings, and are very durable. The pumps can be run in either direction, and the valves can be arranged so as to pass the liquid through the cylinder as may be desired. We always send the valves with close nipples, to attach the valves to pump barrel. **Don't forget this.**

Where the lift from water to pump is ten feet or more it is best to use a foot valve on the end of suction pipe, when it can be used. These pumps can be run in either direction, and they can be run faster than given in the table; but do not run them too fast and try to make any pump do the work of a larger one. Your pump will do better work and last longer when **run at medium speed.**

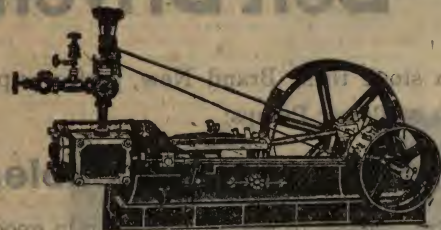

## SIZES AND PRICES OF PUMPS.

# ENGINES

Absolute satisfaction is guaranteed you. Every tiny detail in the repair of engines and other machinery is carefully guarded, and any equipment ordered from us will reach you in condition to satisfy you fully. Our repair shops are the most extensive in the west. Our main machine shop is a building 160 feet wide, nearly 600 feet long and 61 feet high.

Our machinists are men of experience and ability. The superintendent, who oversees all repairs, is prized by us because of his sterling merits and technical as well as practical knowledge of the machinery business.

We freely ask you to confer with us on any mechanical topic. We will be glad to answer all questions.

Our engines are shipped correctly and complete.

## SLIDE VALVE ENGINES—SIDE CRANK

- |   |  |
|---|--|
| No. X-8. One horizontal, side crank, 13x24 heavy box bed engine.....  | No. 3179. One 16x24 Fraser & Chalmers slide valve engine, with heavy band wheel, and complete with all fixtures and fittings .....   |
| No. 0111. One 6x12 horizontal, side crank, slide valve engine on wood frame .....   | No. 3191. One 10x20 horizontal, side crank, slide valve engine, with heavy balance wheel, any size driving pulley, and complete with all fixtures and fittings.....  |
| No. 206. One 20x30 slide valve engine, all complete .....   | No. 3201. One horizontal, right hand, Porter Hamilton, heavy duty, piston slide valve engine, manufactured by Wm. Todd & Co., Youngstown, Ohio, with cylinder 22 x27, heavy band wheel, and complete with all fixtures and fittings..... |
| No. H-277. One horizontal, right hand, link motion, slide valve engine, heavy duty type, girder frame with cylinder 10x16, all complete .....   | No. 3226. One 6x6 horizontal, side crank, slide valve engine to attach to side of boiler. Complete with brackets.....  |
| No. 292. One horizontal, side crank, slide valve engine, with cylinder 8x16.....  | No. 3315. One 12x24 horizontal, side crank, heavy duty slide valve engine, all complete .....  |
| No. X-915. One 16x24, girder frame, heavy duty, slide valve engine, shaft 6 in. dia., crank pin 3 1/4 in. dia.....  | No. 3316. One 10x16 horizontal, side crank, slide valve, left hand engine, all complete .....  |
| No. X-1075. One horizontal, plain slide valve, girder "Cummer" engine, with cylinder 14x24, all complete.....   | No. 3318. One 8x14 horizontal, side crank, slide valve engine.....   |
| No. 1201. One 20 1/2 x38, heavy, box bed, side crank, slide valve engine with 8 in. shaft; crank pin 3 in. ....   | No. 3321. One 8x16 side crank, slide valve engine .....  |
| No. 2149. One 16x24 Fraser & Chalmers slide valve, right hand engine, all complete..  | No. 3322. One horizontal, side crank, slide valve engine, right hand, box bed, with cylinder 9x16 .....  |
| No. 2576. One horizontal, side crank, 13x24 slide valve engine.....   | No. 3323. One horizontal, side crank, left hand, link motion, with cylinder 7x10...  |
| No. 2727. One 8x20 horizontal, side crank, slide valve engine.....  | No. 3342. One 9x14 side crank, slide valve engine .....  |
| No. 3058. One 16x24 side crank, slide valve, heavy box bed engine.....  | No. 3346. One 8x12 horizontal, side crank slide valve engine, with band wheel 52x 8; pulley 30x8, in first class condition.  |
| No. 3063. One 12x20 horizontal, side crank, slide valve engine.....   | No. 3347. One 12x24 horizontal, side crank engine .....  |
| No. 3093. One 14x26 horizontal, side crank, slide valve engine, all complete.....   | No. 3348. One extra heavy, box bed, slide valve engine, with cylinder 20x30, heavy rim balance wheel and any size pulley desired .....   |
| No. 3094. One 13x26 horizontal, side crank, engine, all complete.....   | No. 3373. One 7x10 side crank, slide valve engine to attach to boiler.....   |
| No. 3143. One horizontal, side crank, slide valve engine, with cylinder 12x24 heavy box bed, left hand type, with heavy balance wheel; any size driving pulley, with 3 in. steam and 4 in. exhaust..... | No. 3419. One 8x12 heavy duty, horizontal, left hand, side crank, slide valve engine, girder frame.....  |
| No. 3151. One heavy box bed, side crank, slide valve engine, with cylinder 15x26, heavy balance wheel, also driving pulley and complete with all fixtures and fittings .....                            | No. 3501. One 6x10 horizontal, side crank, slide valve engine to fit on boiler.....  |
| No. 3160. One horizontal, side crank, slide valve engine, with cylinder 8x10, with heavy band wheel and complete with all fixtures and fittings.....  |  |

Other Items Coming In Daily. Write Us Your Wants.

**ENGINES—Continued****Slide Valve Engines**

(Center Crank)

- No. X-1063. One vertical, 2 H. P. "Rochester" engine without boiler, on cast iron frame .....
- No. 2707. One 16x10 low pressure engine. Center crank, rocker valve.....
- No. 3009. One vertical, center crank 4x5 engine, all complete.....
- No. 3071. One 8x12 center crank "Tiff" engine .....
- No. 3142. One vertical, center crank, low pressure engine with cylinder 5x5 designed for a steam pressure up to 10 lbs..... 15.00
- No. 3145. 6x6 vertical, "Sturtevant" slide valve, center crank engine, extra heavy pattern, all complete.....
- No. 3202. One 10x18 vertical, center crank, poppet valve engine, complete with all fixtures and fittings.....
- No. 3320. One 12x10 horizontal, center crank, slide valve engine (low pressure).....

**Automatic—Compound and Corliss Engines**

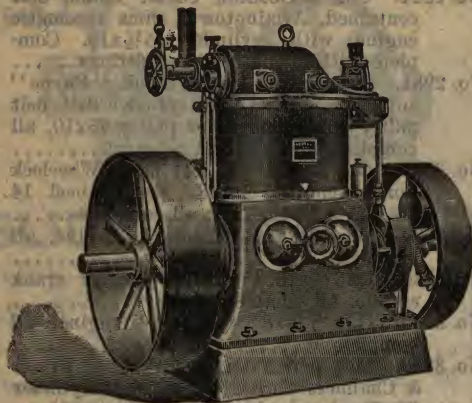

- No. X-5. One 13x12 New York safety horizontal, center crank, high speed automatic engine all complete.....
- No. 0113. One Fitchburg, box bed automatic engine, manufactured by the Fitchburg Machine Co., with cylinder 13x34. Complete with all fixtures and fittings.....
- No. 203. 1 3 cylinder vertical, center crank, Buffalo Forge Co.'s Automatic engine, cylinder 3x4 .....
- No. 206. One box bed Fitchburg or Putnam engine, 13x34, all complete.....
- No. 227. One 5 H. P. strictly brand new "Kimble" automatic engine.....
- No. 235. One horizontal, high grade, automatic cut off engine with Nordberg governor. Size of cylinder 20 in. dia. x 40 in. stroke. Heavy balance wheel, with square rim 12 ft. dia. and driving pulley 8 ft. dia. x 35 in. face, but we will furnish any size driving pulley desired....
- No. 357. One vertical, center crank, automatic balance valve "Climax" engine, with cylinder 5½x6 .....
- No. X-884. One horizontal, center crank, self contained Armington & Sims automatic engine, with cylinder 15½x15. Complete with all fixtures and fittings.....
- No. X-1088. One horizontal, center crank, automatic balance valve "Payne" engine, with cylinder 6x8; heavy balance wheel; any size driving pulley desired.....
- No. 2004. One 5x5 vertical, center crank, "Sturtevant" automatic engine.....
- No. 2415. Two 16x16 horizontal, center crank, automatic balance valve "Hendey" engines with cylinders 16x16, complete with all fixtures and fittings.....

- No. 2723. One 14½x13 horizontal, center crank, self contained Armington & Sims automatic engine. Complete with all fixtures and fittings.....
- No. 2821. One horizontal, center crank, self contained, Armington & Sims automatic engine, with cylinder 15½x15. Complete with all fixtures and fittings.....
- No. 2981. One vertical, center crank, "Payne" automatic engine with cylinder 9x9, belt pulley 48x10; governor pulley 48x10, all complete .....
- No. 3050. One horizontal, left hand Wheelock Corliss engine, 22x48. Band wheel 14 ft. dia. x 30 in. face, all complete.....
- No. 3090. One 8½x12 "Climax" engine, all complete .....
- No. 3134. One 7x18 "Climax" center crank engine, all complete (new).....
- No. 3135. One 7½x8 "Climax" engine, all complete .....
- No. 3252. One horizontal, right hand, Fraser & Chalmers Corliss engine, with cylinder 30x60; band wheel 18 ft. dia. x 14 in. face in halves. Complete with all fixtures and fittings.....
- No. 3314. One 16x24 "Atlas" automatic engine, all complete.....
- No. 3324. One horizontal, side crank, "Rice" automatic engine, with cylinder 7x12, self contained, all complete.....
- No. 3332. One 3 cylinder vertical, center crank, "Triumph" engine, rated 12 H. P..... 50.00
- No. 3338. One horizontal, center crank, self contained Armington & Sims automatic engine. Size of cylinder 14½x13. It has two band wheels and is furnished with wrought iron main shaft, automatic shaft governor, throttle valve, automatic sight feed cylinder lubricator and all oil cups and trimmings.....
- No. 3343. One 9x10 horizontal, center crank automatic balance valve "Ideal" engine .....
- No. 3344. One horizontal, compound engine, with high pressure cylinder 8 in. dia. Low pressure cylinder 5 in. dia. x 8 in. stroke; self contained, side crank on frame; pulley 30x8½ and 12x5 —rated 8 H. P. at 125 lbs. steam .....
- No. 3345. One 10x15 tangye bed, horizontal right hand, side crank Erie City automatic engine with heavy balance wheel and driving pulley.....
- No. 3391. One horizontal, center crank, self contained Armington & Sims automatic engine with cylinder 10½x12, complete with all fixtures and fittings.....
- No. 3418. One 13½x20½x15 Armington & Sims cross compound engine.....
- No. 3447. One horizontal, side crank, "Rice" automatic engine, with cylinder 16x16, complete with all fixtures and fittings..

**Satisfaction Guaranteed**

# WESTINGHOUSE ENGINES

We have recently made several large purchases of these engines. They are rebuilt completely and will be shipped practically as good as new.

One of our notable purchases was the Westinghouse plant of large engines from the Allegheny County Light Co., of Pittsburgh, Pa.

These engines are of the Standard Westinghouse type of compound engines and for fuel economy, close regulation and efficiency,

they are equal to any engines on the market.

In our experience up to a limit of 500 H. P., there is no engine that will give as good results for hard service and requirements of the Modern Electric Light & Power Station, and we have no hesitancy in stating that the Westinghouse compound engine, running non-condensing, will deliver a horse power at the shaft for a smaller expenditure of steam than other non-condensing engine of any type whatever, running under similar conditions.

Its economy under light loads and variable loads is not even remotely approached by any other non-condensing engine. Its economic performance is almost entirely independent of the effects of wear and inaccuracies of valve setting, as the Westinghouse valve is the simplest automatic balance valve on the market.

Another very salient point of superiority that the Westinghouse Engine has is that it is perfectly self oiling throughout and requires less attention, less expenditure for oil, and less expenditure for power than any other engine.

No. 2-1. One  $6\frac{1}{2} \times 6$  "Westinghouse" standard engine, balance wheel 26 in. dia. Belt wheel 8 in. face and 20 in. dia....  
 No. 0148. Four 13 and  $22 \times 13$  Westinghouse, vertical, automatic compound engine, all complete .....  
 No. 155. One "Westinghouse, Jr." automatic engine with cylinder  $9 \times 8$ .....  
 No. 0220. One 11 and  $19 \times 11$  Westinghouse, vertical, automatic, compound engine..  
 No. X-854. One  $11 \times 10$  "Westinghouse" standard engine .....  
 No. 1412. One "Westinghouse"  $15\frac{1}{2} \times 15$  standard engine.....

No. 1523. One  $7\frac{1}{2} \times 7$  "Westinghouse" standard automatic engine.....  
 No. 1538. One 12 and  $20 \times 12$  Westinghouse, vertical, automatic, compound engine...  
 No. 2340. Three 14 and  $24 \times 14$  "Westinghouse" vertical, automatic, compound engine .....  
 No. 2342. Three 18 and  $30 \times 16$  "Westinghouse" vertical, automatic, compound engine .....  
 No. 2592. One  $7 \times 6$  vertical "Westinghouse, Jr." automatic engine, with governor pulley 30 in. dia.  $\times 7$  in. face.....  
 No. 3421. One "Westinghouse" standard engine,  $8 \times 7$ .....

All on Exhibition at Our Main Warehouse in Chicago.

## Gas and Gasoline Engines

We offer only a few of our present stock of gas engines. We have many others at present being rebuilt, which we will shortly place on the market. You will find any of the following engines excellent values. Besides this list we illustrate elsewhere several new high grade Gas and Gasoline Engines.

- No. 210. Twenty upright, center crank, self contained 2 H. P. "U. S." gasoline engines. Size of balance wheel 24 in. dia., with square rim (extra heavy). Driving pulley 12 in. dia. It is complete with all fixtures and fittings, including igniter, gasoline tank, water tank, etc. It also has a pumping jack, all direct connected on one base.....
- No. X-946. One 1 H. P. "Marseilles" gasoline engine .....
- No. 703. One 2 H. P. "Ayres" gasoline engine .....
- No. X-766. One 90 H. P. "Otto" gasoline engine .....
- No. 2115. One standard, double cylinder, vertical Rochester gasoline engine, rated 12 H. P. ....
- No. 2468. One 15 H. P. Van Duzen engine...
- No. 3073. One 1½ H. P. Fairbanks, Morse, vertical, center crank gasoline engine. Two screws for belt tightener, 12 in. long, complete with bearings and boxes.
- No. 3152. One 10 H. P. horizontal, center crank "Otto" gas engine, converted into gasoline, with electric spark igniter, trap, muffler and all trimmings.....
- No. 3359. One 50 H. P. double cylinder "Lambert" natural gas engine.....
- No. 3365. One "Lewis" 45 H. P. gasoline engine .....
- No. 3366. One "Raymond" 50 H. P. gasoline engine .....
- No. 3376. One 1 H. P. "Ayres" gasoline engine (brand new) .....
- No. 3394. One 2 H. P. "Ayres" gasoline engine .....
- No. 3395. Same as No. 3394.....
- No. 3396. Same as No. 3394.....
- No. 3412. One 1 H. P. "Marseilles" gasoline engine .....
- No. 3499. One 2½ H. P. "Otto" gasoline engine .....

## A Good Traction Rig

This rig has been overhauled and rebuilt. We will sell at a bargain.

- No. 1278. One "Aultman" 16 H. P. Canton Monitor traction engine, all complete...

## Combined Rigs

Here's a short list of Engines and Boilers combined, that are rare values. In addition we can furnish practically any size rig you may need.

- No. 0143. One 4 H. P. Davey safety engine and boiler combined, with pump.....
- No. 2761. One Baxter combined engine and boiler rated 4 H. P., with cylinder 3½x3½ in., all complete.....
- No. 3089. One 4 H. P. "Baxter" combined upright engine and boiler, with cylinder 3½x3½ in., all complete.....
- No. 3284. One combined engine and boiler, mounted on skids, internally fired type, 32 in. dia. x 6 ft. long; one 18 in. flue and 16 3 in. tubes, complete with fire front, smoke box extension, smoke head door and stack saddle, and all trimmings. ENGINE 5x10, attached to top of boiler, of the side crank type, with shaft extending over boiler, any size driving pulley desired, and complete with all trimmings.....
- No. 3392. Two Olds outfit, consisting of upright combined engine and boiler, manufactured by the Olds Motor Co., Lansing, Mich. Nominally rated 1 H. P. The boiler is of the water tube type, and the engine of the automatic shaft governor type, upright, center crank, pattern attached to the same frame as the boiler. Complete with all fixtures and fittings .....
- No. 3425. One combined engine and boiler, mounted on wheels, rated 10 H. P. BOILER is 32 in. dia. x 10 ft. long, containing 30 2 in. tubes. Standard dome. ENGINE attached to the side of boiler, with cylinder 6½x10. Complete with all fixtures and fittings.....

## Direct Connected Fan and Engine

We will not remain long in possession of this. Act quickly.

- No. 2973. Wing disc fan and high speed engine direct connected; size of fan 36 in. Entire height over all 38 in.....

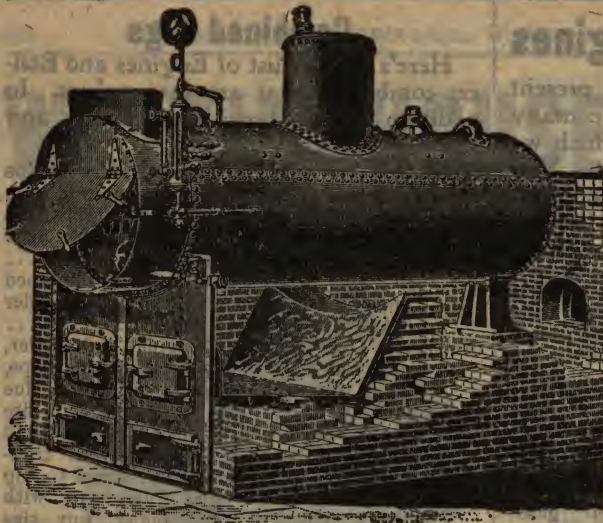

## Direct Connected Unit

A high grade Unit, of Sterling value. Will be sold cheap for quick sale.

- No. 3083. One "McEwan" Tandem Compound Engine. Manufactured by the Ridgway Engine & Dynamo Co. of Ridgway, Pa. High pressure cylinder 8 in. dia. Low pressure cylinder 14 in. dia. x 12 in. stroke. All complete and direct connected to one 600 light C. & C. 110 volt direct current generator, all complete with switchboard, with volt and ampere meter, lighting arrester, etc. ....

Further Information on Any of These Items, Gladly Furnished You.

# BOILERS

The mechanics employed by us are of the higher type—the foreman of our boiler shop is a man of mature years, intelligent and capable; his mechanical pride will not permit of any incomplete work, and your orders will be executed in a thorough and careful manner.

The fittings and castings included on all boilers are selected with great care.

You are sure to receive entire satisfaction in the purchase of any of the boilers we offer you.

Before shipment every Boiler is tested and inspected. No Boiler will be shipped without undergoing a most rigid inspection.

**Also Low Pressure Boilers For Heating Purposes.**

**BOILERS—Continued**

- No. 1070. One 48x16 Horizontal Tubular Boiler, with 12 6 in. tubes, also dome, lugs on each side of shell.
- No. 1187. One 48 in. x 14 ft. (contracted waist) fire-box boiler, water bottom, good for 60 lbs. steam. Diameter at fire box 48 in.; diameter at waist 42 in. Double riveted.
- No. 1196. Low pressure fire-box boiler, 24 in. diameter, 9 ft. long, good for 50 lbs. pressure.
- No. 1588. One Fairbanks Morse fire-box boiler, 44 in. dia., 18 ft. long over all, open bottom fire-box type, double riveted, standard dome, with manhole on top of shell.
- No. 1632. Two 60x18 Horizontal Tubular Boilers, good for 60 lbs. steam, 4 in. flues. Domeless.
- No. 1689. One 48x13 low pressure fire-box boiler.
- No. 2019. One Horizontal Tubular Boiler, domeless, 60x16, containing 77 3½ in. tubes.
- No. 2485. One 42x12 open bottom low pressure heating boiler, with dome.
- No. 2510. One 54x16 domeless boiler, with Eclipse manhole, good for 85 lbs. steam.
- No. 2595. One 42x13 open bottom low pressure fire-box boiler, no dome.
- No. 2596. One 60x16 low pressure boiler, domeless, good for 60 lbs. steam.
- No. 2675. Two 42x14 open bottom low pressure heating boilers.
- No. 2904. One 40 H. P. Erie City Economy boiler.
- No. 2965. One 50 H. P. Erie City Economy boiler.
- No. 2968. One submerged flue 48x3 ft. boiler, with 2 in. tubes.
- No. 2987. One vertical, submerged tube boiler, 36 in. dia., 9 ft. high, with 2 in. tubes.
- No. 3024. One 48x16 domeless high pressure boiler, containing 34 4 in. tubes; lugs on each side of shell.
- No. 3434. One heating boiler 20 in. x 24 in., containing 36 2 in. flues.
- No. 3509. One vertical, full length, tubular boiler, 20 in. diameter, 32 in. high, good for 25 lbs. steam pressure, containing 16 2 in. tubes, complete with hood, base, grates and all trimmings.
- No. 3519. One vertical, full length, tubular boiler, 48 in. dia., 12 ft. high, 3 in. tubes, single riveted.
- No. 3520. One vertical, full length tubular boiler, 60 in. dia. x 10 ft. high, 3 in. tubes for low duty, good for 50 lbs. steam.
- No. 3521. One 60x18 high pressure boiler, standard dome, single sheet on bottom, single sheet on top. Three lugs on each side. New Eclipse manhole.
- No. 3522. One 54x15 low pressure domeless boiler, good for 70 lbs. steam, 3 in. flues.
- No. 3523. One vertical, full length, tubular boiler, 9 ft. high, 54 in. diameter, 3 in. flues, double riveted, good for 100 lbs..
- No. 3524. One 48x3 Horizontal Tubular Boiler, built in two sheets, one on top and one on bottom with dome.
- No. 3525. One 48x16 double riveted Horizontal Tubular Boiler with dome, five 10 in. riveted flues.
- No. 3538. Horizontal Tubular Boiler, 48x16, two sheets, standard dome, with 12 6 in. riveted tubes. Eclipse manhole in front head and Eclipse manhole in back head above tubes.
- No. 3600. One open bottom fire box boiler, 11 ft. 6 in. long, 48 in. dia., domeless, containing 70 2½ in. tubes.
- No. 3601. One open bottom fire-box boiler, 40 in. dia., 12 ft. long, cast iron dome cap; fire-box 48 in. long and 30 in. wide, 2½ in. tubes.
- No. 3602. One 30x10 water bottom, low service fire box boiler.
- No. 3603. One Internally Fired Atlas Boiler, 30 in. dia., 5 ft. 6 in. over all, with one 19 in. flue; 13 2½ in. flues. Good for 40 to 50 lbs. steam.
- No. 3605. One Leffel internally fired return flue boiler, mounted on skids, 48 in. dia., 9 ft. long over all, double riveted, standard dome.
- No. 3607. One vertical Tubular boiler, 48 in. dia. x 9 feet high.
- No. 3608. One low service open bottom firebox boiler, 24 in. dia. x 8 ft. long.
- No. 3612. One 60x16 domeless low pressure heating boiler with Eclipse manhole and loops for hanging with steam drum.
- No. 3962. One 42 in. x 14 ft. Locomotive Fire-box boiler, containing 48 2½ in. tubes.

**Low Pressure Boilers**

Good for heating purposes or for any purpose where high pressure is not essential.

- No. 200. Boilers good for 40 to 50 lbs. steam pressure. Complete: with fronts, fittings, grate bars, etc.
- Two Horizontal Tubular Boilers, 36 in. dia. x 8 ft. long; 1,500 ft. steam, 2,700 ft. hot water.
- One Horizontal Tubular Boiler, 36 in. dia. x 10 ft. long; 2,200 ft. steam, 3,500 ft. hot water.
- One Horizontal Tubular Boiler, 36 in. dia. x 12 ft. long; 2,500 ft. of steam, 4,200 ft. hot water.
- Three Horizontal Tubular Boilers, 42 in. dia. x 12 ft. long; 2,600 ft. of steam, 4,150 ft. of hot water.
- Two Horizontal Tubular Boilers, 42 in. dia. x 14 ft. long; 2,800 ft. of steam, 4,500 ft. of hot water.
- One Horizontal Tubular Boiler, 42 in. dia. x 16 ft. long; 3,100 ft. of steam, 5,000 ft. of hot water.

**Additional Boilers Received Every Day.**

# Blowers, Fans, Forges, Etc.

If you need any other kind of blower than what you will find in this list—write us. We guarantee to save you from 10 to 60 per cent on your purchases. All material is first-class only. We have no other kind in our lists.

- No. X-83. One No. 4 Buffalo forge blower with inlet 8 in., outlet 8 in. ....
- No. X-85. One Huyett & Smith No. 6 noiseless pressure blower with inlet 12 in., outlet 19x10. ....
- No. 160. One No. 5 Sturtevant Monogram shavings exhaustor, direct connected to 220 volt motor. ....
- No. 347. One 6 in. power blower with countershaft attached, driving pulley 12 in. dia. x 1 in. face; tight and loose pulleys 5 in. dia. x 1½ in. face. .... 5.00
- No. 360. One Western Chief pressure blower with inlet 3 in., outlet 2 in. ....
- No. 0365. One Smith 54 in. ventilating fan, direct connected to a 5x5 high speed engine with casing. ....
- No. X-1042. One Root No. 2 pressure blower.
- No. 1258. One No. 7 "Buffalo" exhaust fan with inlet 25 in., outlet 21 in. round. Driving pulley 12x10. ....
- No. 2013. Six 48 in. "Hess" warming and ventilating fans; inlet 26 in., outlet 22x12. Tight and loose pulleys 12 in. dia. x 5 in. face on heavy cast iron frame. ....
- No. 2174. One 36 in. single disc ventilating fan complete with casing and driving pulley. .... 17.00
- No. 2200. One 24 in. pressure blower with 8 in. inlet and 6 in. outlet. ....

- No. 2746. One No. 1, 15 in. forge blower, outlet 3 in. inlet 3½ in. ....
- No. 3107. One No. 5 forge blower, opening 6½x6½, pulley 3½x3½ (brand-new). ....
- No. 3127. One second hand, hand power forge, complete with fan blower and hood (hearth cracked). .... 2.00
- No. 3154. One "Foskett & Bishop" steam trap with 2 in. inlet and 1¼ in. outlet. Will take care of 15,000 ft. of pipe. Price. .... 6.00
- No. 3211. One No. 4 "Baker" rotary pressure blower, any size pulley desired, outlet 11½ in. ....
- No. 3253. One double "Buffalo" shavings exhaustor 48 in., with two inlets 17 in. round, two outlets 16x16; driving pulley 10x10. ....
- No. 3254. Six hand "Buffalo" forge blowers with handle, belt also blower, all on one frame. ....
- No. 3255. One No. 2 forge blower direct connected to 1 H. P. water motor. Price. .... 15.00
- No. 3256. One No. 12 Buffalo forge or cupola blower. ....
- No. 3257. One No. 8 "Sturtevant" exhaustor with inlet 20 in., outlet 14x19. ....
- No. 3258. One No. 5 "Sturtevant" Monogram blower with two inlets 11 in. dia. one outlet 12 in. dia. ....
- No. 3259. One No. 6 "Boston" cupola or forge blower, with two inlets 12 in. dia. and one outlet 10 in. dia. complete with driving pulley on each side. ....
- No. 3260. One 28 in. single disc ventilating fan with casing and driving pulley. ....
- No. 3261. One double "Dixie" shavings exhaustor 24 in. with two inlets 9 in., outlet 7 in. square; pulley 4 in. dia. x 6 in. face. ....
- No. 3262. One hand power forge blower with belt, pulley and stand, all complete. .... 7.00
- No. 3263. One No. 4 blower with two inlets 9 in., outlet 9 in., pulley 6x4. ....
- No. 3264. One No. 4 "Buffalo" forge blower. ....
- No. 3265. One No. 6 "Sturtevant" exhaustor with inlet 16 in., outlet 16 in. ....
- No. 3266. One forge blower with inlet 9 in., outlet 8 in. ....
- No. 3267. One window disc ventilating fan, single disc, fan 28 in., driving pulley 6x2½. ....
- No. 3268. Two Andrews & Johnson engine driven ventilating fan; fan 36 in. dia. ....
- No. 3269. One 36 in. single disc ventilating fan with casing. ....
- No. 3270. One 48 in. window ventilating fan with driving pulley. ....
- No. 3271. One 72 in. single disc fan and shaft, no casing or bearing. Price. .... 15.00
- No. 3341. One No. 5½ "Baker" blower with 16½ in. discharge. ....
- No. N-3469. One 500 H. P. "Baragwanath" siphon condenser. ....

Iron Pipe of Every Kind at Right Prices.

FROM THE WORLD'S FAIR, ST. LOUIS

# Machinery at the Exposition

An enormous quantity of Machinery of every kind comes into our possession. At this time we have not prepared a complete list of it. It will pay you to send us a memorandum of your wants for anything in the machinery line before you purchase elsewhere. Boilers, engines, dynamos, motors, compressors, and equipment of every kind will be sold by us at extremely low prices. We list a few items of special interest.

No. 969 Three 250-h. p. "Heine" Water Tube Boilers.

No. 970 Three 36 x 48 heavy duty Wm. Todd Reversible Engines.

No. 971 Three 40 K. W. 125 volt, Northern Electric Mfg. Co's multi-polar generators, with switch-board and instruments.

No. 972 Two 18 x 30 x 16 Westinghouse Compound Engines.

No. 973 Three 14 x 24 x 14 Westinghouse Compound Engines.

No. 974 One 30 x 58 Corliss Engine.

No. 975 One 13 x 22 x 13 Westinghouse Compound Engine.

No. 976 Four Boiler Feed Pumps.

No. 1201 Two Centrifugal Pumps, 20 inch.

## MOTORS.

The following is an approximate list of the Motors that we have for sale.

No. 918 Five 20-h. p. 110 volt, Western Electric.

No. 919 Three 15-h. p. 110 volt, Western Electric.

No. 920 One 15-h. p. 115 volt, General Electric.

No. 921 Three 1-h. p. 500 volt, Cutler-Hammer.

No. 922 One 5-h. p. 500 volt, General Electric.

No. 923 One 3-h. p. 220 volt, Commercial.

No. 924 One 10-h. p. 110 volt, Commercial.

No. 925 One 5-h. p. 500 volt, Wagner.

No. 926 One 3-h. p. 500 volt, General Electric.

No. 927 One 5-h. p. 500 volt, Lundell.

No. 928 Five 2-h. p. 500 volt, General Electric.

No. 929 One 2 1/4-h. p. 500 volt, Commercial.

No. 930 One 5-h. p. 500 volt, Western Electric.

No. 931 One 45-h. p. 500 volt, Wagner.

No. 932 Two 1 1/4-h. p. 500 volt, General Electric.

No. 933 One 15-h. p. 500 volt, Fairbanks-Morse.

No. 934 One 2-h. p. 500 volt, General Electric.

No. 935 One 3-h. p. 110 volt, Stanley.

## TRANSFORMERS.

No. 936 5 K. W. Rev. 2200-110 volt.

No. 937 7 1/2 K. W. Rev. 2200-110 volt.

No. 938 10 K. W. Rev. 2200-110 volt.

No. 939 15 K. W. Rev. 2200-110 volt.

No. 940 20 K. W. Rev. 2200-110 volt.

No. 941 50 K. W. Rev. 6600-2200 volt.

No. 942 100 K. W. Rev. 6600-2200 volt.

Visit our St. Louis Headquarters. Our Offices are on the Exposition Grounds.

# Heaters, Purifiers, Condensers, Etc.

We have proven our capacity for supplying everything in the machinery line at economical prices. Our thousands of patrons everywhere will attest it. There is nothing in the line of apparatus that we cannot supply you. This list is a compilation of such heaters as will most generally be found in demand—it does not include all we have for sale. Our equipment is guaranteed correct.

| No. 111. One 1,000 H. P. "Berryman" copper tube feed water pressure heater...  | No. 3502. One Hot Water Heater, 20 in. dia., 38 in. high, one 6 in. flue. Complete with hood, base, grates, etc....  |
| No. 112. One 750 H. P. "Berryman" copper tube feed water pressure heater.....  | No. 3503. One No. 4 "Stillwell-Bierce" live or exhaust steam heater and purifier.....  |
| No. 116. One Hoppes live steam heater and purifier with 6 in. inlet, 6 in. steam outlet, 2 in. water supply.....   | No. 3504. One 50 H. P. pressure feed water heater, 4 ft. 6 in. high and 14 in. diameter.....   |
| No. 116. One open heater or purifier, 20 in. diameter, 7 ft. high.....   | No. 3505. One 100 H. P. "Baragwanath" pressure feed water heater with 6 in. steam inlet, 6 in. steam outlet and 2 in. water supply.....                                    |
| No. 123. One "Wilks" heater, 30 in. diameter, 4 ft. 6 in. high.....  | No. 3506. One Hot Water Heater, 48 in. high, 30 in. diameter, with one 16 in. flue. Complete with hood, base, grates, steam and water gauges, etc. Water supply 3 in. .... |
| No. 2103. One "Hoppes" live or exhaust steam heater or purifier, 350 H. P.....   | No. 3507. One No. 4 "Stillwell-Bierce" live or exhaust steam heater and purifier, 20 in. dia., 5 ft. high.....   |
| No. 2192. One 500 H. P. standard Erie City Iron Works heater.....  | No. 3510. One steam jacketed water heater and purifier, made by A. E. Raze, 50 H. P., with steam inlet 4 in., steam outlet 4 in., water supply 1½ in.....                  |
| No. 2405. One 400 H. P. "Wainwright" copper tube pressure heater.....  | No. 3515. One 100 H. P. "Kroeschell" heater with 5 in. steam inlet and 5 in. steam outlet, 1½ in. water supply.....  |
| No. 2128. One "Hoppes" live or exhaust steam heater or purifier, 200 H. P.....   | No. 3527. One 400 H. P. "Wainwright" pressure heater with corrugated copper tubes.....   |
| No. 2132. One "Hoppes" live or exhaust steam heater or purifier, 250 H. P.....   | No. 3528. One cast iron vertical heater, 18 in. dia., 9 ft. high over all, with 4 in. inlet and 4 in. outlet, with 1½ in. water supply.....                                |
| No. 2136. One 200 H. P. "Cochran" feed water heater, manufactured by the Harrison Safety Boiler Co., complete with pans, purifier and all fittings.....                          | No. 3529. One No. 6 "Stillwell-Bierce" live or exhaust steam heater or purifier.....   |
| No. 2131. One "Kroeschell" pressure feed water heater, 100 H. P. brass tubes with 4½ in. inlet, 4½ in. outlet, 1½ in. water supply. This heater is 30 in. dia. x 4 ft. high..... | No. 3530. One No. 7 "Stillwell-Bierce" live or exhaust steam heater or purifier.....   |
| No. 3046. One pressure feed water heater, 16 in. dia. x 5 ft. 6 in. high.....  | No. 3531. Two "Hoppes" live or exhaust steam heaters or purifiers, 150 H. P.....   |
| No. 3061. One 3 in. steam separator.....   | No. 3534. One 500 H. P. vertical tubular pressure heater, 42 in. dia., 10 ft. high..   |
| No. 3087. One No. 4 steam separator.....   | No. 3535. One "Hoppes" live or exhaust steam heater or purifier, 500 H. P., 42 in. dia. x 16 ft. long.....   |
| No. 3165. One 5 in. Cochran steam separator. Price..... \$35.00  | No. 3536. One Stillwell-Bierce horizontal condenser with 3 in. inlet and 3 in. outlet.....   |
| No. 3337. One 400 H. P. "Kroeschell" heater with brass tube, 30 in. dia. x 12 ft. high.....  | No. 3609. One "Wilks" coil hot water heater, 42 in. dia. x 4 ft. 6 in. high.....   |
| No. 3429. One steam separator, 5 in.....   |  |
| No. 3470. One 35 H. P. "Wainwright" circular, copper tube pressure feed water heater, steam inlet 3 in., water supply 1 in., diameter 22 in., height about 24 in.....            |  |
| No. 3471. One 3 in. steam separator.....   |  |
| No. 3487. One 150 H. P. heater, filter and purifier.....   |  |

Use Estimate on the Complete List of Your Requirements.

# WOOD WORKING MACHINERY

We make a specialty of furnishing complete equipment for saw and lumber  
Men who contemplate the erection of such mills will do well to correspond  
with us as to their desires or intentions. Our staff of experts are ever at your  
service.

39. One Winnie hoop machine with point-  
er and trimmer.....  
X-76. One 24x8 endless bed, single cylin-  
der, wood planer. Complete with planer  
knives, countershaft, etc.....  
080. One Houston double head tenoner...  
087. One H. B. Smith, 3 sided moulder  
and sticker, 3 1/2 in., all complete with  
countershaft attached.....  
098. One power wood tenoner; iron frame,  
wood table.....  
0101. One 2 saw lath machine with  
countershaft attached, with two  
9 in. saws..... 25.00  
M-114. One complete hub boring  
and turning outfit, consisting of  
four tools..... 100.00  
163. One standard "Richmond" double  
saw mill with 30 in. carriage and 60 in.  
track, carrying one 48 in. lower saw, and  
one 24 in. top saw. Complete with fric-  
tion, feed device and all the necessary  
trimmings.....  
164. Fifteen Shimer matcher heads.....  
0199. One No. 2 double chisel "Defiance"  
mortiser, with adjustable table and bor-  
ing attachment.....  
652. One vertical, single spindle shaper,  
with countershaft, shifting device and  
driving pulley.....  
H-956. One all iron horizontal wood bor-  
ing or tenoning machine.....  
1067. One iron power jig saw with wood  
table.....  
2214. One double spindle wood table  
shaper with 1 in. spindles; table 46x42  
cast iron frame; complete with one  
head.....  
2804. One automatic "Holliday" saw  
sharpener; will take in saws up to 54  
in.....  
3059. One set of Knight's patent dogs..  
M-3060. One head stock for wood turning  
lathe with 4 step cone; will swing 30 in.  
3069. One Smith & Garvin single gear  
plain miller; 1/2 in. spindle, rise and  
fall table, 4 step cone.....  
3047. One 24x6 "J. S. Graham" single  
cylinder, 4 roll planer complete with  
feed roll, planer knives, countershaft,  
belt tightener and driving pulley.....  
3084. One 16 in. swinging cut off saw  
with 3/4 in. mandrel.....  
3095. One Wheeland 3 saw lath mill with  
one stationary saw and two movable  
saws. All complete with countershaft,  
etc.....  
No. 3128. Tail stock for wood turning lathe,  
24 in.....  
No. 3141. One head and tail stock for  
wood turning lathe 12 in., with  
countershaft and rise and fall  
tool rest..... 15.00  
No. 3170. One complete set of hub and  
rim making machinery. Price... 100.00  
No. 3175. One iron frame, swinging cut  
off saw with 26 in. swing; arm  
only..... 10.00  
No. 3176. One No. 2 Fox mitreing ma-  
chine (foot power)..... 22.00  
No. 3178. One all iron horizontal wood  
boring machine with countershaft  
attached..... 25.00  
No. 3184. One 2 sided, 2 in. moulder.....  
No. 3192. One Daniels endless timber planer.  
Will plane timbers any size and length...  
No. 3208. One wood saw table and frame with  
mandrel 20 in. long, 3/4 in. dia., pulley  
2 1/2 x 2.....  
No. 3209. One "Home Made" saw  
table and frame, complete with 24  
in. saw; driving pulley in center,  
and complete with dado head for  
holding bits..... 20.00  
No. 3225. One brand new "Silver" band saw.  
No. 3251. One 48 in. shavings exhauster with  
outlet 20x20, inlet 20 in. round; pulley  
10x7.....  
No. 3287. One vertical single chisel, Houston  
mortiser with boring attachment.....  
No. 3325. One saw mandrel; will take  
1 15-16 in. shaft, complete with  
two collars..... 5.00  
No. 3333. One 4 sided planer and matcher or  
flooring machine, manufactured by Ben-  
jamin, Fisher & Mallory and known as  
the "Triumph" flooring machine. It  
will take in material up to 4 in. thick  
and 9 in. wide. The feed of the ma-  
chine is very powerful. Countershaft  
has 12x8 in. tight and loose pulleys and  
should make about 900 revolutions...  
No. 3383. One "Held & Co." 24x6 single  
cylinder surfacer.....  
No. 3435. One wood frame shaper,  
double spindle, 2x6 in. x 5 ft.... 25.00  
No. 3479. Head and tail stock for wood turn-  
ing lathe; will swing 15 in., 4 step cone  
pulley.....  
No. 3494. One post sander cast iron frame, 5  
ft. arm.....

All Kinds of Good Roof Coverings at Low Prices.

## AIR COMPRESSORS

- No. 3057a. One National Drill Compressor Co. machine, size 24x24x20, capacity 1,152 cubic feet of free air per minute..
- No. 3082. One 6x6x10 American Air Brake Co. air compressor.....
- No. 3146. One 7x7 horizontal Clayton belt driven air compressor, with water jacketed cylinder, all complete.....
- No. 3174. One 4x5x12 steam driven air compressor .....
- No. 3220. One Clayton 9x16x9 low duty air compressor with automatic pump governor. ....
- No. 3276. One 6x8x8 duplex Hall air compressor. ....
- No. 3291. One Allen horizontal crank and fly wheel air compressor, 8x8. ....
- No. 3328. One 1/2 ton belt driven ammonia compressor or ice machine.....
- No. 3357. One 20x20 1/4 x24 Ingersoll Sargeant straight line steam driven air compressor with unloading device and pressure tank. ....

## LATHES

- No. 41. Three 9x25 second hand lathes, used in our own shops about one month, in first-class condition.....
- No. 3169. One iron table wood lathe, 7 ft. bed; will swing 1 1/2 in.... 35.00
- No. 3430. One iron screw cutting engine lathe, screw feed only, 20 in. swing, 8 ft. bed, with countershaft.....
- No. 3423. One iron table wood turning lathe; will swing 20 in. and take in 8 ft. between centers.....
- No. 3388. One 24x10 New Haven screw cutting engine lathe, all complete.....
- No. 3382. One 11 in. swing x 4 1/2 ft. bed Barnes screw cutting engine lathe, complete with countershaft.....
- One 9x25 Barnes second hand lathe, used two weeks .....

- No. O-272. One Warner & Swasey back gear turret lathe with 6 head turret, hollow spindle 2 1/2 in. with cutting off tool, complete with countershaft.....
- No. 3088. One Warner & Swasey special brass working lathe, will swing 12 in., 3 step cone, double head, bed 7 ft.....
- No. X-77. One plain screw cutting lathe, 21 in. x 6 in. over all, 30 in. swing, with screw feed only, 4 step cone pulley, back geared, full set of screw cutting gears, 24 in. chuck and face plate.....
- No. 3012. One iron frame wood turning lathe, will swing 12 in., bed 10 ft. 6 in. long.....

## SOME GOOD ITEMS

- No. 210. 1 5 ton belt driven McDonald Duplex Refrigerating Machine, with a complete equipment of coils, condensers, etc.....
- No. 211. 2 5 H.P. 220 volt enclosed type motors.....
- No. 212. 2 Reidy Belt driven worm gear freight elevators.....
- No. 213. 1 9x12 Tift Reversible well drilling engine.....
- No. 214. 1 screw cutting engine lathe, 21 inch swing, 8 foot bed; complete with screw feed, all screw cutting gears, steady rest, large and small face plate, large chuck fitted with countershaft and taper attachment.....
- No. 215. One screw cutting engine lathe, 21 inch swing, 7 foot bed; complete with screw feed, all screw cutting gears, steady rest, large and small face plate, large chuck fitted with countershaft and taper attachment.....
- No. 216. 8 Beldon Planers, 18 inch plane housings, 2 ft. 6 in. bed; will plane 2 ft., complete with countershaft, power cross and down feed.....
- No. 217. 8 Newton plain milling machines, No. 2.....
- No. 218. 1 120 inch Buffalo Forge Co.'s steam blower, especially adapted for mechanical draft.....
- No. 209. 7 "Champion" Fire Extinguishers with hose and nozzle, each..... 8.00

All Items Subject to Prior Sale.

# IRON AND BRASS WORKING TOOLS

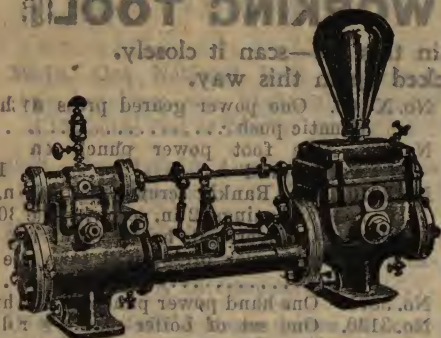

Any number of good items in this list—scan it closely.

Many a bargain is picked up in this way.

- No. 293. One pulley boring lathe, will take pulleys up to 36 in. ....
- No. X-38. One foot power, all iron, forming hammer, weight of hammer about 50 lbs., all complete. .... 120.00
- No. 0287. One back geared bolt cutter, will cut bolts up to 1 1/2 in., all complete. ....
- No. 3148. One special brass working Warner & Swasey horizontal boring or drilling machine, with tail stock ..... 15.00
- No. 3218. One iron turning lathe without tail stock, table 42 in. .... 8.00
- No. 3219. One lathe bed with tail stock only, 14 in. swing, 30 in. table. ....
- No. 3227. One wood turning lathe, consisting of back geared head stock with 4 step cone pulley, countershaft with tight and loose pulley, rise and fall tool rest, and tail stock, 34 in. swing. ....
- No. 3229. One special automatic handle lathe. ....
- No. 3230. One back geared Buckeye turret lathe, 16 in. swing, 5 head turret, quick return, complete with countershaft. ....
- No. M3232. One special brass working boring machine ..... 15.00
- No. 3233. One special cutting off lathe, will swing 16 in., 5 ft. bed, with adjustable cutting off rest. ....
- No. 3234. One special machine for threading valve stems and short rods, will take up to 1 in.; machine equipped with two heads and cutting off tool. ....
- No. 3236. One back geared 6 head turret lathe, quick return, complete with countershaft, solid spindle. ....
- No. 3237. Three single geared turret lathes, 7 head, quick return, 1 1/4 in. hollow spindle, complete with countershaft. ....
- No. 3238. One iron bed wood turning lathe, will swing 16 in., bed 42 in. long. ....
- No. 3242. One special brass working cutting off tool. ....
- No. 3244. One special brass working cutting off tool. ....
- No. 3245. One Pringle & Brodie chucking lathe. ....
- No. M-3246. One brass boring machine for boring and drilling valves, with reverse motion; bed 30 in. ....
- No. 3247. One 16x6 Fox lathe. ....
- No. 3248. One 12 in. swing, 4 ft. bed, iron table, wood turning lathe. ....
- No. 3249. One 14x5 Blaisdell screw cutting lathe with rod and feed screw, steady rest, face plate, chuck, all screw cutting gears and countershaft. ....
- No. 3250. One key-way cutter, back geared, spindle 1 in., with two key slots, length of feed 30 in. ....
- No. 3052. One hand screw press, throat 8 in., weight about 200 lbs., manufactured by the American Saw Co. ....
- No. X-106. One power geared press with automatic push. ....
- No. 828. One foot power punch on wood stand ..... 10.00
- No. 3076. One Rankin screw press, 39 in. between housings, 2 in. screw, cable 30x46.
- No. 3326. One vertical, heavy eccentric, belt driven power press; will take die 5 1/2 x 7 1/2 ..... 20.90
- No. 3371. One hand power punch, 6 in. throat.
- No. 3130. One set of boiler maker's rolls, 5 in. dia., 48 in. between housing, geared with adjusting screws. ....
- No. 3193. One set of power bending rolls, rolls 3 in. dia. x 5 in. face, with tight and loose pulley 10 in. dia. x 3 in. face. .... 20.90
- No. 3240. One set of hand or power driven bending rolls, rolls 3 1/2 in. dia. x 3 1/2 in. face, adjustable ..... 5.00
- No. X-339. Two hand power lever shears, 4 in. knife, will cut up to 1/2 in. iron. ....
- No. 3172. One hand power Gargrave's shear with 9 in. knife, all complete. ....
- No. 3511. One Thompson heavily geared bevel shear ..... 45.00
- No. 3512. One geared Alligator shear with 10 in. knife, extra heavy; will cut up to 1 in. ....
- No. 3166. One No. 2 shop saw. ....
- No. 3180. One all iron Frank Bros. double gear nut tapping machine; will tap nuts up to 2 in. ....
- No. 3168. One nut tapping machine, back geared; will tap up to 1 1/2 in. nuts. Price. .... 45.00
- No. 3387. One 36x30x8 in. bed Cove iron planer with power cross and down feed.
- No. 3514. One hydraulic press; will press up to 10,000 lbs. ....
- No. 3186. Five hand power lever punches; will punch 3/4 in. hole in 1/4 in. plate; weight about 150 lbs., 10 in. throat, 3 in. opening. Each ..... 22.50
- No. 3422. One 24x24x5 iron planer without head or bed, complete with cross rail and tool rest. ....
- No. X-102. One foot power punch, will take die 3x3, throat 3 1/2 in., for punching sheet metal. ....
- No. 3140. One hand power lever punch; will punch 3/8 in. hole up to 18 gauge ..... 2.00
- No. 3196. One belt driven, vertical crank punch, tight and loose pulleys, punch 1/2 in. hole in 14 gauge iron. ....
- No. 3473. One foot power bench punch ..... 10.00
- No. 3489. One Columbus Machine Co. back geared, cam-drawing press for drawing and cutting all kinds of tin and sheet metal; dia. of fly wheel, 28x4. ....

Order Today—Tomorrow May Be Too Late.

# PUMPS

We guarantee every pump in first-class condition. We do not sell any other kind. If you fail to find the pump you are in need of write us your wants.

## PUMPS OF ALL KINDS

- |   |  |
|---|--|
| No. X 13. One "Worthington" high duty pressure pump, 24x6x18 outside packed plunger type.....                               | No. X 780. One 10x6x10 single direct acting "Davidson" pump.....   |
| No. X 5a. One 16 and one 24x6x18 outside packed plunger type, "Worthington" compound duplex pump with jet condenser.....    | No. 893. One "Deane Bros." crank and fly wheel pump, size 7x5x10.....  |
| No. X 23. One J. H. McGowan crank and fly wheel "Donkey" pump, size 4x2x5.....  | No. 0371. One Rumsey hand power force pump with 2 in. discharge, 5x8, cylinder.....  |
| No. X 31. One crank and fly wheel vertical "Donkey" pump, size 5x3x5. Complete with air chamber and all fittings.....       | No. X 827. One 12 in. horizontal "Morris" centrifugal pump with pulley, 20x16.....   |
| No. X 34. One high pressure, vertical, belt driven hydraulic pump, cylinder 7/8 in.....                                     | No. 0931. One 20x10x12 single direct acting heavy duty "Worthington" pump, with brass lined water cylinder, 6 in. suction and 4 in. discharge..... |
| No. 074. One 3x12 heavy pressure "Deane" duplex power pump.....   | No. X 1011. One 5x3x5 "Donkey" pump.....   |
| No. X 95. One No. 2 "Knowles" single direct acting boiler feed pump, size 4x2 1/2 x 5.....                                  | No. X 1065. One small hot air engine for pumping water.....  |
| No. 0125. One 9x26 Smithville deep well pump.....   | No. 1579. One 7x4 1/2 x 12 Smedley steam pump.....   |
| No. 167. One "Crane" crank and fly wheel pressure pump, size 6x4x7.....   | No. 2058. Two hand power test pumps, each.....   |
| No. 175. 25 Upright, crank and fly wheel Donkey pumps, each at..... 20.00   | No. 2065. One 8x24 "Wheeler & Tappan" deep well pump.....  |
| No. 176. Five pump engine room oil tanks, complete with pumps, each 4.00  | No. 2160. One 7x6x10 "Gordon" duplex steam pump.....   |
| No. 271. One 12x8x12 "Crane" crank and fly wheel pump.....  | No. 2407. One 10x30 "Deane" deep well steam head.....  |
| No. 303. One vacuum or exhaust pump. Can be used for exhausting air from Electric Light Globes. Size 4 1/2 x 2 1/4 x 5..... | No. 2416. One 7 1/2 x 4 1/2 x 10 Deane duplex pump with brass lined water cylinder.....  |
| No. 316. One horizontal, crank and fly wheel "Donkey" pump, size 5x3x5.....   | No. 2419. One 3x6 power plunger pump with pulley 16x5.....   |
| No. X 741. Two 12 in. vertical submerged centrifugal pumps with shaft and clutch coupling.....                              | No. 2522. One 8x5x12 "Crane" single direct acting pump.....  |
|   | No. 2523. One Smithville duplex low pressure vice pump, size 7 1/2 x 7 x 10 with brass piston rods.....  |

All Items Offered, are in Our Possession.

## PUMPS—Continued

- No. 2617. One 9x10 duplex "Blake" belt driven geared power pump with two air chambers; suction 5 in. discharge 4 in. on each cylinder ..... 10.00
- No. 2618. One lift and pressure pump ..... 10.00
- No. 2620. One 7½x7½x10 "Knowles" low duty pump ..... 10.00
- No. 2655. Two rotary belt driven pumps with 1 in. outlet ..... 10.00
- No. 2721. One Dayton Cam Pump, size 6x4½x10 ..... 10.00
- No. 2772. One 7½x4½x10 Crane single direct acting pump ..... 10.00
- No. 2758. One 6 "Ryder" hot air pumping engine ..... 10.00
- No. 2875. One "Gordon" 12x7x12 duplex pump, with brass lined cylinders, brass piston rod and copper air chamber; 6 in. suction and 5 in. discharge ..... 10.00
- No. 2902. One 5x6x8 Marsh pump, brass fitted ..... 10.00
- No. 2911. One 4½x3¾x4 "Eastwood" duplex pump ..... 10.00
- No. 2915. One 4½x3¾x4 duplex pump ..... 10.00
- No. 2917. One 4½x3¾x4 duplex pump ..... 10.00
- No. 3000. One 5½x3¼x6 single direct acting "Deane" pump, brass fitted throughout, with 1½ in. suction and 1¼ in. discharge ..... 10.00
- No. 3001. One F. C. Wells single direct acting pump, size 6x4x7, boiler feed type, brass fitted throughout, with 2 in. suction and 1½ in. discharge ..... 10.00
- No. 3010. One Warren Webster single acting vacuum pump, size 4½x5x7 ..... 10.00
- No. 3012. One Hughes single acting air pump, size 10x9x10 ..... 10.00
- No. 3013. One "Knowles" single acting pump, size 10x6x10, all complete ..... 10.00
- No. 3014. One Morris Centrifugal pump with 5 in. suction and 4 in. discharge, can be used vertically or horizontally ..... 10.00
- No. 3015. One horizontal Morris centrifugal pump with 4 in. suction and 3 in. discharge, with driving pulley ..... 10.00
- No. 3017. Two Westinghouse duplex air pumps, 7x7x5x7x9 ..... 10.00
- No. 3018. One 8x3x8 horizontal duplex hydraulic pump ..... 10.00
- No. 3019. One 7½x7x10 single direct acting brass fitted "Deane" pump ..... 10.00
- No. 3020. One 12x7x12 No. 8 single direct acting "Deane" pump with brass lined water cylinder and brass piston rods ..... 10.00
- No. 3022. One power rotary force pump with 3 in. inlet and 3 in. outlet ..... 10.00
- No. 3030. One 2 in. rotary belt driven pump ..... 10.00
- No. 3031. One 1½ in. rotary belt driven pump ..... 10.00
- No. 3032. One Smithville single acting pump, 7½x7½x10 ..... 10.00
- No. 3033. One Smithville single direct acting pump, size 6x4x8, all complete ..... 10.00
- No. 3035. One 8 and 16x18x18 single direct acting "Knowles" compound pump; 12 in. suction and 10 in. discharge ..... 10.00
- No. 3044. One "Deane" single acting vacuum pump, size 6x8x10, all complete ..... 10.00
- No. 3049. One "Snow" Underwriter's Fire Pump, size 16x9x12. This pump has Tobin Bronze piston rods, brass lined water cylinder, brass stuffing box, glands, etc., and is all complete ..... 10.00
- No. 3074. One No. 12 Morris Sand Pump, 12 in. suction, 12 in. discharge. Driving pulley 36x24. Manufactured by Morris Machine Co ..... 10.00
- No. 3078. One No. 5 "Cameron" mining pump ..... 10.00
- No. 3085. One 4½x2¾x4 "Worthington" duplex pump, complete with receiver ..... 10.00
- No. 3086. One 3x2x3 single direct acting pump ..... 10.00
- No. 3091. One 5¼x1¼x5 "Blake" hydraulic duplex pump ..... 10.00
- No. 3092. One 5¼x3½x6 "Tappan" duplex steam pump ..... 10.00
- No. 3110. One wood pump, at ..... 2.00
- No. 3111. One water or ditch pump, at ..... 1.25
- No. 3112. One "Deming" deep well hand or power pump at ..... 5.00
- No. 3113. One hand or power deep well force pump, at ..... 3.00
- No. 3131. One 10 in. "Ryder" hot air pumping engine ..... 10.00
- No. 3171. Two 2 in. Nye vacuum pumps ..... 10.00
- No. 3187. Two Diaphragm pumps, 1 in. connection, each ..... 25.00
- No. 3195. One belt driven Deming pump, 1¼ in. pipe connections ..... 6.00
- No. 3198. One vertical power pump with plunger 3x7; tight and loose pulleys 24 in. dia x 3 in. face ..... 15.00
- No. 3203. One 7x4x8 crank and fly wheel "Crane" pump ..... 10.00
- No. 3204. One submerged centrifugal pump with 4 in. suction and 3 in. discharge ..... 35.00

This List is Constantly Changing.

**PUMPS—Continued.**

- No. 3205. One 4½x6x6 low duty "Worthington" duplex pump .....  
 No. 3213. One Diaphragm bilge pump, 3 in .....  
 No. 3214. One Deming rotary belt driven pump with tight and loose pulley, 13½x3....  
 No. 3215. One 4x2x4 "Donkey" pump .....  
 No. 3216. One "Deming" hand power thresh-er pump .....  
 No. 3221. One 7x10x12 air pump .....  
 No. 3222. One 12x7x12 single direct acting pump .....  
 No. 3223. One 7½x4½x10 Wheeler & Tappan pump .....  
 No. 3224. One No. 2 "Buffalo" jet condenser, size 7x9x12, with air pump and receiver .....  
 No. 3225. One 6x4x6 "Deane" duplex pump .....  
 No. 3272. One "Marsh" deep well steam head, 6x12, with upper stuffing box.....  
 No. 3273. One "Wheeler & Tappan" deep well steam head, 6x18 .....  
 No. 3274. One single direct acting crank and fly wheel "Rival" boiler feed pump ..... 10.00  
 No. 3275. One 5x3½x6 "Crane" crank and fly wheel boiler feed pump .....  
 No. 3277. One F. C. Wells single direct acting pump, size 7½x4½x10 .....  
 No. 3278. One 4x2½x5 rotary valve crank and fly wheel boiler feed pump .....  
 No. 3279. One No. O "Knowles" pump, size 3x1¼x4 .....  
 No. 3280. One "Blake" 4x2½x5 single direct acting pump .....  
 No. 3281. One 4x5x7 Delameter single direct acting low service pump .....  
 No. 3282. One 16x8x10 heavy duty single direct acting pump .....  
 No. 3283. One single gear "Deming" power plunger pump with tight and loose pulley, 20x3 .....  
 No. 3284. Three 10x24 "Deane" deep well steam head .....  
 No. 3288. One "Silsby" fire pump with two hose connections, 3 in. suction and 3 in. discharge .....  
 No. 3289. One 7½x4¼x10 duplex "Deane" pump, water cylinder slightly cracked; repaired in good shape ..... 75.00  
 No. 3290. One 6 in. double gear sand sucker, with 6 in. suction and 5 in. discharge...  
 No. 3313. One hand power force pump, mounted on board, 21 in. wide, 5 ft. 6 in. long, with hose reel, complete with 50 feet of ¾ in. hose with coupling ..... 17.00  
 No. 3319. One power, belt driven, boiler feed pump, with plunger 2 in. dia., 5 in. stroke; pulley 12 in. dia. x 3 in. face..  
 No. 3334. One 7½x4½x10 pump, (boiler feed) .....  
 No. 3339. One 6x4x6 duplex pump .....  
 No. 3353. One 12x8x12 "Blake" single direct acting pump .....  
 No. 3375. One 4½x2½x4 Laidlaw & Dunn duplex pump .....  
 No. 3393. One brass 3x12 wind mill power pressure pump .....  
 No. 3415. One 10x36 "Knowles" deep well steam head .....  
 No. 3424. One 7½x4½x10 F. C. Wells single direct acting boiler feed pump .....  
 No. 3444. Four Bilge pumps, 4 in. dia. each ..... 1.00  
 No. 3472. One "Carter" improved boiler feeder and purifier .....  
 No. 3495. One 25x10x24 "Gordon" outside packed duplex plunger pump .....  
 No. 3513. One crank and fly wheel vertical hydraulic pump, walking beam type, steam cylinder 6x10, plunger 1x10 in....

**AIR COMPRESSORS**

This is only a short list, because we sell them about as fast as we have them for sale. Get in line and purchase quickly—that's the way to make money.

- No. 022. One vertical duplex air compressor, 3x6, with driving pulley; suitable for low pressure .....  
 No. 325. One 6x7x6 low duty air compressor, steam driven .....  
 No. 2447. One 4 ton duplex single acting, belt driven ammonia compressor or ice machine .....  
 No. 2926. One belt driven Snyder Hughes duplex air compressor, double acting, with cylinders 12x12, with a capacity of 450 cubic feet of free air per minute. It is water jacketed in the cylinders and heads .....  
 No. 3023. One vertical, single acting ammonia compressor, belt driven, rated about 4 tons refrigeration, with tight and loose pulleys 48 in. dia. x 7½ in. face .....  
 No. 3029. One 6x6x10 American Air Brake Co. air compressor.....

**Come and See Us When in Chicago.**

# Machinery of All Kinds.

## BORING MILL.

- No. M-42. One old style vertical boring mill; will take up to 10 ft. ....  
 WRITE FOR PARTICULARS.

## TRAVELLING CRANE.

- No. M-60. ONE LOCOMOTIVE TRAVELLING CRANE, 8 ft., wheels 30 in. diameter x 8 in. face; boiler of the upright pattern, 36 in. dia. x 72 in. high; contains 48 2 in. flues, all complete; engines of the upright pattern, consisting of one pair link motion; cylinders 5 in. dia. x 8 in. stroke; drum 10 in. between flanges; capacity 200 ft. of  $\frac{5}{8}$  in. wire rope; main driving gear 30 in. dia., pinion 6 in. dia. x  $3\frac{1}{2}$  in. face,  $1\frac{1}{4}$  in. pitch; has clutch lever and bevel gears for driving boom; the boom is 35 ft. long, is not of the swinging pattern, but turns with the crane. Complete with brakes, levers, clutches, etc. ....

- No. 2714. One crusher adapted for crushing emery wheels or other hard substances, power driven, discharge opening 10 in. x 6 in.; will take pieces up to 12 in. square .....

## DIAMOND DRILL.

- No. 3377. One Bullock Champion diamond prospecting core drill with screw feed, complete with swivel head, necessary gauges and equipment. ....

## UNDERCUTTER.

- No. 3197. One Ingersoll Sargeant undercutter. ....

## TAPPET DRILL.

- No. 3330. One 3 in. Sargeant Tappett drill, with tripod and weight. ....

## ROCK DRILLS.

- No. 87. One 1 $\frac{1}{2}$  in. Bullock Monarch drill fitted for air or steam. 125.00  
 No. 88. Four 2 in. Bullock Monarch drills fitted for air or steam. 135.00  
 No. 89. Two 2 $\frac{1}{2}$  in. Bullock Monarch drills fitted for air or steam. 140.00  
 No. 90. Four 3 $\frac{1}{2}$  in. Bullock Monarch drills fitted for air or steam. 150.00  
 No. 91. One U-A Sullivan drill for air 120.00

- No. 92. Two U-C Sullivan drills for steam. Each. 130.00  
 No. 93. Three U-E Sullivan drills for steam. Each. 145.00  
 No. 94. One U-E No. 2 drill for steam 155.00  
 No. 95. Seven 2 $\frac{1}{4}$  in. Rand Little Giant drills. Each. 125.00  
 No. 96. Three 3 in. Rand Little Giant drills. Each. 140.00  
 No. 97. Two 3 $\frac{1}{2}$  in. Rand Little Giant drills. Each. 163.00  
 No. 98. One 2 $\frac{3}{4}$  in. Ingersoll drill for steam. 125.00  
 No. 99. Three 3 $\frac{3}{8}$  in. Ingersoll drills for steam. Each. 163.00  
 No. 100. Three 3 1-16 in. Ingersoll drills for steam. Each. 165.00  
 No. 101. Three 3 $\frac{1}{4}$  in. Ingersoll drills for steam. Each. 170.00

The above drills are in first class condition throughout.

- No. 3155. One 2 $\frac{1}{4}$  in. Rand drill, all complete. ....  
 No. 3121. One drag saw. ....

## DRILLS.

- No. M-103. Three bench drills, 4, 5, and 6 in. spindle. ....  
 No. X-996. One brand new Silver drill. ....  
 No. 0331. One vertical drill press, screw feed; will drill to the center of a 28 in. circle; complete with countershaft. ....  
 No. X-997. Same as No. X-996. ....  
 No. 0332. One vertical post drill, screw feed; will drill to the center of a 20 in. circle; shaft 6 ft. long; pulleys 12x3. ....  
 No. 3070. One 20 in. second hand Silver drill press. ....  
 No. 3173. One combined hand and power post drill with 3 step cone pulley; will drill to the center of a 14 in. circle. 10.00  
 No. 3206. Second-hand hand power post drill for power or hand; will swing 22 in., back geared. 7.50  
 No. 3217. One vertical, single geared, table feed drill press; will drill to the center of an 8 in. circle; 4 step cone pulley, complete with countershaft; table 15 x 30. ....  
 No. 3243. One combined hand or power upright drill press; will drill to the center of a 26 in. circle; table feed and screw feed both; with hand wheel for hand and 4 step cone pulley for power; table 18x13. 20.00  
 No. 3329. One vertical bench drill press, lever feed; will drill to the center of a 14 in. circle; 3 step cone pulley 9, 6, 4. 9.00

All Offered Subject to Prior Sale.

**MACHINERY—Continued.**

- No. 3349. One vertical, table feed drill press; will drill to the center of a 15 in. circle; square base with countershaft..... 35.00
- No. 3385. One hand power vertical post drill; will drill to the center of a 20 in. circle.....
- No. 3398. One 3 spindle bench drill.....
- No. 3399. One bench drill, single spindle; will drill to the center of an 8 in. circle; lever feed, with countershaft.....
- No. 3401. One power bench drill; will drill to the center of a 12 in. circle, with press down feed and drill chuck.....
- No. 3068. One multiple turret drill with 6 heads.....
- No. M-103. 400 ft. of 2 in. ash drill rods with couplings.....

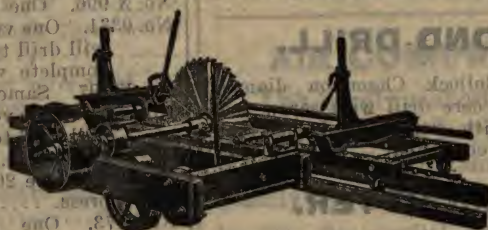

**BUFFING, POLISHING and EMERY STANDS.**

- No. 0183. Three double buffing stands with mandrel 48 in. long, driving pulley in center; will take two buffer wheels....
- No. 2470. One heavy emery stand with 1½ in. mandrel and driving pulley, single head..... 22.50

- No. 3137. One vertical adjustable emery grinder with mandrel ½ in. dia., belt pulley 3x1½.....
- No. 3370. One foot power jeweler's stand.....
- No. 3384. One double emery stand with mandrel 1¼ in., 36 in. long, tight and loose pulley in center, complete with stand.....
- No. 3400. One special automatic grinding for grinding hardened steel plates up to 6 in. dia.....
- No. 3449. One bench emery stand with mandrel 20 in. long; will take two emery wheels up to 20 in. dia.; driving pulley 2x2 in. center.....
- No. 3476. One single head emery stand with mandrel 22 in. long; driving pulley in center; will take one emery wheel in. face; driving pulley 4 in. dia. 3½ in. face.....

**EXHAUST HEAD.**

- No. M-3436. One galvanized exhaust head in.....

**SAW MILLS.****The Finest Saw Mill Machinery in the World.**

We offer you the Highest Grade Saw Mills on the market. They are absolute, PERFECT, complete with more improvements than any other Saw Mill manufactured. They are designed on thorough mechanical principles, securing EFFICIENCY, STRENGTH and RELIABILITY combined with EASE OF HANDLING and LIGHT DRAFT.

Improved Standard Circular Saw Mills. Mandrel and collar forged from one solid billet of fine quality steel. Adjustable bearings filled with HIGH GRADE metal. Improved friction boxes. (most EFFICIENT and RELIABLE feed built.) Feed shafts of polished steel, running in oil found boxes. Adjustable standard saw guides. Ratchet setting head blocks, quick acting and CORRECT in their throwing. Polished steel shaft, key-wayed full length, connecting the blocks. Heavy grade patent Automatic mill dogs. Heavily ironed carriage, with grooved and flat truck wheels and racks. Inside top edge of carriage timbers ironed full length. Flat and tee track ironed to the length of the carriage. One large mandrel nut wrench. All of good material and workmanship.

We are furnishing mostly the four sizes of Mills as follows:

No. 00	Mill with Head Blocks opening up to 26 inches.	
No. 0	" " " " " " " " " " " "	30
No. 1	" " " " " " " " " " " "	34
No. 2	" " " " " " " " " " " "	38

Prices on application.

## BRAND NEW BAND SAWS.

We thoroughly recommend these saws as representative of the highest grade goods on the market. They are strictly brand new and perfect.

They are intended for use in carriage and wagon shops, wood shops of various kinds, repair shops, and in fact every shop that does scroll sawing.

### DESCRIPTION.

**DIMENSIONS**—Height over all, 66 inches. Floor to center of pulleys, 28½ inches. Floor to top of table, 40 inches. Table to upper saw guide when up, 7 inches. Saw to frame at back of table, 20 inches. Band wheels, 20 inches diameter. Floor space, 24x24 inches.

**BAND WHEELS**—Upper and lower wheels are turned perfectly true, balanced and covered with endless rubber tires of best quality. Upper wheel can be adjusted in any direction while machine is running, to keep saw in proper alignment, and has also an up and down adjustment of several inches, to accommodate saws of different lengths.

**SAW BLADES**—We furnish two saws with each machine—½ and ¾, No. 22 gauge, 10 feet 1 inch long, set and sharpened ready for use.

**PULLEYS**—Tight and loose, 7 inches diameter for 3 inch belt, provided with shifter and lever, as shown; no countershaft required.

**FOOT POWER**—When wanted we will fit the machine with foot-treadle and gearing, thus converting it to a foot-power machine. The treadles are arranged for one or two men. See pages following.

**TABLE**—20x24 inches, made of narrow hardwood strips, glued together and held permanent with iron cleats underneath. The table can be tilted to any desired angle for bevel sawing—especially desirable for pattern work.

**SHIPPING WEIGHT**—300 lbs.

**SPEED**—350 to 400 revolutions per minute.

**PRICE**—20 inch machine, with tight and loose pulley, exactly as shown in cut, \$37.75

### FOOT POWER SAW.

We also have this band saw arranged for foot power. It is provided with one heavy band wheel, gearing to increase the speed, and two treadles. The operator is enabled to attain a good speed and the heavy band wheel serves to carry past the dead point. There is always furnished an extra lever which is to bolt on to the left hand end of the foot treadle. This is applied when the aid of a second hand is required on heavy work. In other respects general design and dimensions of the machine are same as described in above saw.

Each machine is furnished with two saw blades and outfit for brazing broken saws.

Weight, 350 lbs.

**PRICE EACH**—With gearing and foot treadles, for one or two men, no pulleys, \$46 00

**PRICE EACH**—With foot power attachments and pulleys for foot or belt power, \$50.00

### 32-INCH POWER BAND SAWS.

Constructed on same general lines as the saws described above, but with a higher degree of solidity. It is symmetrical and modern in design. Diameter of band wheels, 32 inches. Face of band wheels, 14 inches. Distance clear between saw and frame, 31 inches. Distance clear under guide when raised, 12 inches. Size of table, 24x28 inches. Height of table from floor, 40 inches.

**PRICE ON APPLICATION.**

# A Boiler and Engine Purchase

We recently purchased from a large Eastern Supply Concern their entire stock of Boilers and Engines.

## BOILERS

**LOT No. 201.** In this lot there are the following Vertical, full length tubular boilers, complete with hood, base, grates, steam gauge, safety valve, blow off valve, check valve and stop valve, also suitable injector fitted to boiler. These boilers are all tested by the manufacturers to a hydrostatic pressure of 150 lbs. to the square inch, and are guaranteed safe at a working pressure of 100 lbs. They are constructed of flanged steel, 60,000 lbs. stenciled strength and well built throughout.

4-20 in. dia. x 3 ft.	2-36 in. dia. x 6 ft.
1-20 in. dia. x 3 1/2 ft.	1-30 in. dia. x 7 ft.
2-20 in. dia. x 4 ft.	1-36 in. dia. x 7 ft.
1-24 in. dia. x 4 ft.	2-36 in. dia. x 8 ft.
1-24 in. dia. x 5 ft.	3-48 in. dia. x 9 ft.
1-24 in. dia. x 6 ft.	6-42 in. dia. x 7 ft.
1-30 in. dia. x 6 ft.	4-48 in. dia. x 10 ft.

We also have in this same lot the following Horizontal Tubular Boilers, complete with fire front, smoke box extension, smoke head door and stack saddle, grate bars and grate bearers, combination water column, complete with gauge, steam gauge, safety valve, blow-off valve, check valve and stop valve.

1-30 in. dia. x 8 ft.	1-42 in. dia. x 10 ft.
1-30 in. dia. x 7 ft.	1-44 in. dia. x 14 ft.
1-36 in. dia. x 10 ft.	

## ENGINES

**LOT No. 202.** The engines are all strictly high grade, modern in construction and design, a product of the most reputable and responsible manufacturers, and, of course, are fully warranted and fully guaranteed by the makers as well as ourselves. They now consist of the following vertical center crank or self-contained type of engines:

2-3 x 5	1-4 x 4	2-6 x 6	2-9 x 9
1-1 1/2 x 3	1-4 x 5	2-7 x 7	2-12 x 12
1-1 3/4 x 3	1-5 x 7 1/2	1-8 x 8	

We also have in this same lot the following Horizontal, center crank or self-contained type of engines:

1-5 x 6	2-7 x 7	2-8 x 8	1-8 x 10
1-5 x 5	1-7 x 9	1-9 x 9	1-7 1/2 x 10
1-6 x 8	2-7 x 10	1-9 x 12	

Also 1-6 x 6 Vertical Marine Engine with link motion and reversed lever.

We also have the following combined outfits, that is, engine and boiler on one base with all equipment, including suitable injector;

5-3 x 3	2-4 x 4	1-6 x 6
---------	---------	---------

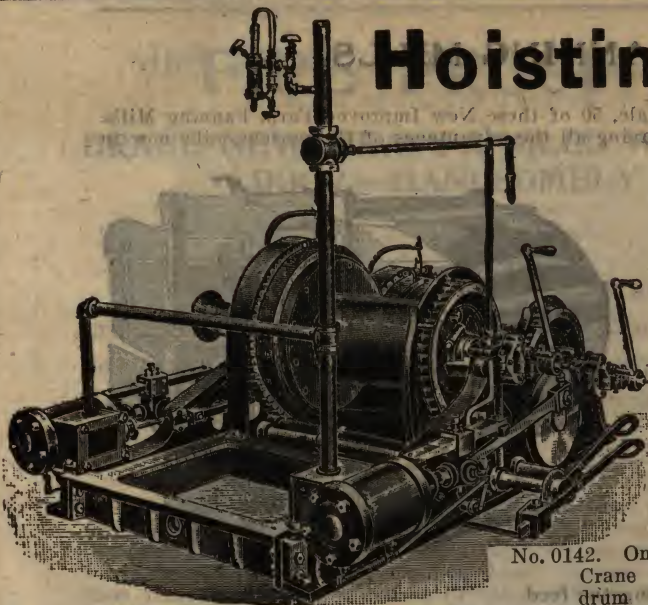

## CONTRACTOR'S HOIST

Also one 5 x 7 Contractor's Hoist mounted on wheels, double cylinder, single drum. Cylinders 5 x 7, with link motion and complete with all equipment.

**All of the Above is New Material.**

# Hoisting Rigs.

We are at all times prepared to furnish in addition to the Rigs described below, hoists of any style or size. The cut shows engines in lot No. 207. We bought twenty-five of these rigs, which we offer for quick delivery at very low prices.

No. 055. One hoisting engine, with boiler, diameter 36 in., length 6 ft. 6 in., containing 66 2 in. tubes made of 5-6 shell; heads  $\frac{3}{8}$  in. hand and manhole plates on bottom. Drum 24 in. dia. x 42 in. face, cylinder 8x12 .....

No. 077. One vertical, double cylinder, belt driven rope haulage engine, worm gear type, with two shrouded pulleys, 60 in. dia. x 8 in. face; cylinders about 6x8; on one base .....

No. 207. One double cylinder, double drum, hoisting engine and boiler, combined on one base. Nominal rating of the engine 10 H. P. Size of cylinder 5x8. Hoisting capacity with single rope at the average speed is 2,000 lbs. With two single blocks it will hoist two tons. With double and single blocks it will hoist  $2\frac{1}{2}$  tons. With double blocks it will hoist  $3\frac{3}{4}$  tons. Weight of suitable pile driving hammer, 1,200 lbs. Drums are 12 in. dia. x 20 in. long. Boiler is 32 in. dia. x 60 in. high, containing 48 2 in. tubes. Length of tubes 38 in. Approximate shipping weight of the entire outfit, 6,000 lbs. ....

One double cylinder, double drum, hoisting engine and boiler, combined on one base. Nominal rating of the engine 14 H. P. Size of cylinder  $6\frac{1}{4}$ x8. Hoisting capacity with single rope at the average speed is 3,500 lbs. With two single blocks it will hoist  $3\frac{1}{2}$  tons. With double and single blocks it will hoist 5 tons. With double blocks it will hoist 7 tons. Weight of suitable pile driving hammer 2,000 lbs. Drums are 14 in. dia. x 22 in. long. Boiler is 36 in. dia. x 72 in. high, containing 60 2 in. tubes. Length of tubes 45 in. Approximate shipping weight of the entire outfit, 7,650 lbs. ....

No. 0142. One 7x10 vertical, double cylinder, Crane hoisting engine, complete with drum .....

No. 0993. One pair of link motion hoisting engines, with cylinders 5x7, with reverse lever and quadrant, and four sheaves grooved for  $\frac{5}{8}$  in. wire rope. Can be used for endless conveyor or derrick purposes, or rope haulage; also for hoisting in balance. Complete with lubricator, throttle valve, all pipe connections and the necessary trimmings .....

No. 2131. One double cylinder vertical "Crane" hoisting engine 6x8, with drum 24 in. dia. x 26 in. face; 28 grooves for  $\frac{5}{8}$  or  $\frac{3}{4}$  in. cable .....

No. 2410. One 8x10 vertical, double cylinder, hoisting engine, with reverse motion; drum 30 in. dia. x 28 in. face, 27 grooves belt driven, all self contained on one stand .....

No. 3081. 6x8 vertical, double cylinder, reversible Crane elevator hoisting engine, drum 24 in. dia., grooved for  $\frac{5}{8}$  or  $\frac{3}{4}$  in. cable, all self contained on one base.

No. 3354. One 12x16 double cylinder, single drum "Marinette" hoisting engine, with drum 5 ft. dia. x  $4\frac{1}{2}$  ft. face .....

No. 3355. One M. C. Bullock hoist, consisting of Webster, Camp & Lane drum, 5 ft. dia. x 9 ft. face, or we can make two drums, one 5 ft. face and the other 4 ft. face, direct connected to 18x24 in. "Atlas" slide valve engine, with double brake stands and all equipment .....

No. 3356. One double cylinder, single drum, "Marinette" hoisting engine with drum 5 ft. dia. x  $4\frac{1}{2}$  ft. face, complete with brake and driving stands, cylinders 10x14 .....

No. 3358. One 8x10 double cylinder Webster, Camp & Lane hoist, drum 36x36 .....

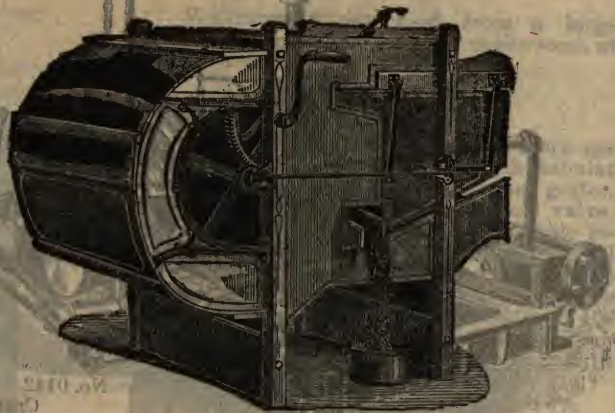

**Prices and Further Information on Application.**

# NEW FANNING MILLS.

We bought at manufacturer's sale, 50 of these New Improved Farm Fanning Mills. They are the best on the market, having all the advantages of the various mills now in use, and the following additional improvements:

Largely increased capacity over other mills in cleaning all kinds of grain and seeds; improved plan of hanging the shoe upon strong strap hinged hangers, thus preventing constant breakage; the manner in which the drum or head is fastened to the posts by means of a cast-iron half circle, and secured to the posts by screws (instead of cleats mortised into posts and held by wooden keys), adding increased strength and durability to the mill, and rendering it less liable to break when shipped in "knock down" shape; the great advantage of a screw to raise or lower the slide of the hopper with ease, in regulating the feed.

The irons are of the most approved pattern, the wheel, pinion and shake irons being extra strong. The gearing is all placed on the inside of the mill, out of the way. The bearing is formed by the hub of the large wheel running in a thimble or box, three inches long, of chilled iron, and extending through the posts, giving it a steady and easy motion.

We guarantee this mill in every way.

The fan and windboards are so arranged that the wind strikes the hurdle in such a manner as to blow all foul stuff and light grain over the hurdle. The side spout delivers the No. 1 grain at the side, and the No. 2 grain at the front of the mill. The grader can be so adjusted as to separate and deliver through the side spout a greater or less portion of the best grain. The wheat screens and grader are so arranged as to effectually take out cockle, chaff, or chert from No. 1 and No. 2 wheat.

Each mill is furnished with one wheat hurdle, one wheat screen and grader with side spout, one barley sieve, and one oat or corn sieve.

Sieves are 24 inches wide; height of mill, 3 ft. 5 in.; width of mill, 2 ft. 8 in.; capacity for cleaning, per hour, 60 to 90 bushels; shipping weight, 150 lbs. Farm mills are shipped "knock down," thus saving one-half in freight, as charged when set up.

Price for mill complete .....\$11.00

## STEAM 5-TON UNIVERSAL ROLLER.

This Roller was in use for a short time during the Louisiana Purchase Exposition, and is in first-class condition.

This roller weighs 5 tons without coal and water.

Front roll 40 in. in diameter and 44 in. wide.

Rear roll 42 in. in diameter and 44 in. wide.

Is equipped with hand-steering gear. Has self-contained horizontal engine, 2 cylinders 5½ in. stroke, fitted with balanced valves and equipped with reversing valve gear. Cylinders are jacketed and provided with metallic piston rod packing.

Price on application.

# FIRE PROOF SAFES.

## BRAND NEW, HEAVY ANGLED WITH FIVE-FLANGED DOOR—HANDSOMELY FINISHED.

The purchase of a safe reliable in make and guaranteed fire-proof is at once the simplest form of insurance. The safes herewith described are guaranteed absolutely as represented. We call attention to their construction and finish briefly, explained herewith:

### GENERAL CONSTRUCTION.

The body of our safes are made of one continuous plate of **Wrought Steel**—not iron—forming the top, bottom and sides, the back is one piece of extra selected plate steel. The door is covered with an extra heavy plate of tempered, hammered wrought steel. The whole body is then firmly braced and bound together by heavy boiler rivets, preventing them from breaking open in case of heavy timbers falling upon them during a fire, or being dropped from a high story to the debris below. Having heavy angles on the front and rear of the safe, their massiveness are assured. They are made as nearly of **one solid piece of wrought steel** as is possible, and do not, therefore, have to rely on bolts and screws to hold them together.

All these safes are secured and protected by the Yale Combination Lock. This lock is absolutely non-pickable and consists of a series of tumblers so arranged as to be susceptible to one million combinations. The various changes in the combination can be made by a very simple process. Directions for operating the lock and changing the combination are furnished with each safe. This lock is so arranged that the door can be closed, bolts thrown and the dial turned from five to ten numbers (practically **locking the safe**) without throwing the combination, which is of great importance, especially when wishing to leave the office a few moments and at the same time have the safe locked; on your return simply reverse the dial to the last number on which the combination is set and you can **open the safe**.

### DOORS.

The doors of all these safes are secured by heavy round bolts projecting from both sides of the door into the jambs of the safe. Have five and seven flanges or rebates, each of which will check the introduction of heat, and are covered on the outside with **one solid piece of hammered wrought steel**.

### OUTSIDE HINGES.

They are securely riveted on the outside of the door and front frame, where they offer superior strength. They are secured without cutting and weakening the door frame and front plate, as in the ordinary safe, and create no large opening for the heat to be conveyed into the safe, as is the case with the ordinary cast iron hinges.

### CONCRETE FILLING.

The walls of these safes are filled with an **absolutely fire-proof non-conducting** preparation; the chemical process of which is to produce a radical change in its properties when subjected to great heat, which effectually protects the contents from any fire that may surround the safe in a burning building. In a very short time after our filling is put in the safe it adheres to the steel and becomes perfectly dry and hard, forming a compact mass as resistable as granite, thereby adding firmness to the body of the safe, which is already secured to a very great extent in the construction of its shell by the heavy sheet of steel and rounded corners. It is self-evident that a safe **constructed and filled as ours will offer more resistance than one with the body made up of small pieces** fastened together with screws and bolts.

### NAME OVER DOOR.

When so requested in order we will paint the name of purchaser over door of safe in shaded gold letters, of a neat design, without extra charge.

# Fire Proof Household and Business Man's Safe.

HEAVY ANGLED SAFE WITH FIVE-FLANGE DOOR.

No. 414. Brand New.

WRITE FOR OUR LIST OF SECOND HAND VAULT DOORS.

# LUMBER LUMBER LUMBER

## 100 Million Feet of Lumber for Sale

In connection with our purchase of the **World's Fair at St. Louis**, we have over 10,000 Carloads of Lumber to offer at extremely low prices. We are now engaged in dismantling the Exposition and will make extremely low prices to those who will place their orders with us at once.

### Send Us Your Lumber Bill for Our Estimate.

Now is the time to put into execution your long contemplated improvements. Buy now, because the price at which we will sell this Lumber is bound to move it very quickly. Don't wait until prices go down—they never will. We are selling material for Granaries, Barns, Houses, Warehouses, Churches, Elevators, Tool Sheds, Cribs, Stores, School Houses, Fair Buildings, Grand Stands, and in fact, Lumber for every purpose. We can furnish Interior as well as Exterior Lumber. We have already sold thousands of feet of this material.

If you do not want an entire carload, club in with your neighbor and make up a carload order. We want you to send us your carpenter's bill of needed Lumber and material, and we will make you such a low price as is bound to secure your order.

This Lumber will all be shipped from our St. Louis headquarters. The situation of this material in the heart of the Mississippi Valley presents a golden opportunity to everyone in this country for the purchase of Lumber at right prices.

Our stock consists of the best Southern Pine Lumber, Studding, Joists and Timbers; sizes 2x4 to 3x12 and in lengths up to 24 feet.

Mixed two-inch Planking, suitable for Barns, Cribs, Outbuildings and Drive Sheds.

Dressed and Matched Flooring, 2x6.

Timbers—Extra fine grade, nearly all of them dressed on four sides, sizes 4x4 to 20x24, lengths ranging from 8 feet to 80 feet. The largest stock of Timbers ever offered at one time.

Sheathing, dressed one side, all widths and lengths. We can select lumber suitable for barns and siding from this lot.

1,000,000 feet of Lumber in short lengths; that is, in sizes, 2x4, 2x6, 2x8, 2x10, 2x12, 3x10, 3x12, and 4x6, 8, 10 and 12-inches wide. Also 4x4, 4x8, 6x8, 8x8, 8x10, 10x10, 10x12, 12x12, etc. It ranges in miscellaneous lengths from about four to ten feet. This short lumber would also answer for stock sheds. It is all good and sound. Ask for price.

We are making quotations on all of the above material only upon receipt of inquiry showing approximately the amount you are in the market for. Send us your carpenter's bill and save money. Don't wait until this material is all disposed of. Be alive to this opportunity.

**Millions of Dollars worth of Lumber Material of all kinds for Sale from our St. Louis Yard.**

# Byrkit's Patent Sheathing and Lath

No. 814. We have on hand thousands of feet of the famous Byrkit's Patent Lath and Sheathing is, no doubt, needless for us to dwell too long on the merits of this material as it is well-known to all. However, for the benefit of those who are not entirely familiar with this material, we say that it can be put on much more quickly than the ordinary 4 feet plastering lath, and away with so much waste of plaster and holds it more securely, and being matched, makes excellent sheathing. This lath is made of No. 1 quality of lumber and will be taken out of buildings very carefully so as to preserve the tongue and groove. It is also much cheaper than ordinary lath. This lath makes it possible to construct a building practically solid, substantial, frost-proof and effectively fire-proof. It can also be used satisfactorily for roof sheathing as shown in cut.

To figure the amount of patent lath you will require for your building, if you want 4 in. simply add 1-5 to the number of square feet to be used, and if the 6 in. is wanted add 1-8 to the number of square feet to be used. This is to allow for the tongue and groove. Orders for quantity of this material can be promptly filled.

For 4 in. wide.....\$10.00 per M.  
 " 6 " ".....11.00 per M.

Send us your complete list of building supplies which you require. We will mail you an extremely low price. On application we will estimate the exact cost, including freight charges.

# LARGE SASH AND PARTITION

FROM THE WORLD'S FAIR, ST. LOUIS

On this page we list a portion of the partition or sash coming from the Exposition. It is all glazed with 3/8-inch thick, heavy ribbed factory glass. Its value is considerably increased thereby. It gives an excellent clear light, though not transparent, and the glass is much heavier than ordinary lights.

This is but an abbreviated list and is being added to by daily receipts of carloads from the great Exposition.

**AWNINGS FROM THE WORLD'S FAIR.**

The following Awnings were secured by us in connection with our purchase of the St. Louis World's Fair. All of them are guaranteed to be in first class condition and complete with Irons, ready for further use. Most of them are made of Superfine 16-ounce Duck. The size of any one can be changed, either reducing it 12 inches or widening it 24 inches. We have 250 of these Awnings on hand, and can practically furnish any quantity of one size, or will make them up so that you can purchase from us any number of Awnings of any one size.

Our price of these Awnings is as follows:

Width.	Price Each.	Width.	Price Each.
27 inches	\$1.20	63	4.50
34	1.50	72	5.00
37	2.50	78	5.50
46	3.50	84	6.00
48	3.60	90	6.50
50	3.65	96	7.00
54	3.75	108	8.00
60	4.00		

No. 1563. Three Store Awnings, each about 9 feet wide; have adjusting drop bars. The upright portions of the Awnings intended to be fastened to the wall or ledge, covered with a very neat quality of blue and white stripe ticking. Have been overhauled and at the present time are in good condition.

Price ..... each, \$3.50

No. 1562½. Two Veranda or Boat Awnings were secured from some of the various naphtha launches, which carried passengers on the beautiful lagoons throughout the Exposition grounds. These are made of fine white duck of a heavy quality, are oval in shape, measuring 20 feet long and at widest or center, 5 feet across. They taper from that point to a width at ends of about 36 inches. Are fitted at intervals of about 4 feet with maple cross braces, from which descend brass tubes or stanchions; pulley ropes extend through these brass tubes for purpose of fastening Awning to a deck or floor. These may be used for various purposes such as for stairways or for porches. They are in perfect condition and show no signs of actual wear.

Price ..... each, \$4.50

These are all Brand New Goods.

## 20MIN WINES AND LIQUORS. T2103R

From the \$50,000,000.00 St. Louis World's Fair.

In connection with our purchase of the Fifty Million Dollar World's Fair at St. Louis, we came into possession of a very large quantity of finest quality Liquors of every description. Necessarily lacking complete knowledge of stock of this character, we are giving you a description as nearly as possible, and in such a way, so that the ordinary Purchaser will understand fully what we are offering for sale.

You may rest fully assured that an opportunity of this kind may never present itself again. The stocks were from some of the finest Restaurants on the Exposition Grounds.

The labels on some of the bottles may be slightly marred or the case may not look as clean as though you were purchasing from a wine house, but you may rest assured that any material we ship forward will be fully worth the price that we have asked for it.

We have made our prices about one-half of what they would cost you in purchasing from a wholesale liquor house. In other words, notice in the following list, four quarts of pure Kentucky Bourbon, 8 years old, which we are offering at—\$2.45. If you were a large wholesale dealer in liquors in this country and were to purchase this from the distillers, it would cost you at least 33 1-3% over our price.

We would advise you if you are interested, to make your selection as quickly as you possibly can. After this is gone, we are done with the business, as we are not in this line regularly.

**All Goods Shipped in Plain Cases—Without Marks of Any Kind.**

### BOTTLED GOODS.

#### WHISKIES.

Twenty thousand bottles of fine Whiskies, Liquors, Wines and Cordials, which we are offering at extremely low prices for quick sale. Most of this is Pure Kentucky Bourbon, produced by the very best distilleries. St. Louis earned a national reputation during the Exposition on account of the quality of its liquors. The whiskey that we are offering was used at the very best restaurants and hotels. All this whiskey is put up in bottles containing one quart, and four quarts to each case. Each bottle is nicely labeled, capped and sealed. It is also properly wrapped and packed, four bottles in the case, making four quarts in each case. These cases have no marks of any kind, but will have same appearance as though you were purchasing a case of dry goods. The following is the stock of whiskey we have for sale:

- |  |      |
|--|------|
| 8. Best Sour Mash Whiskey, Private Stock ..... | 3.85 |
| 9. Pure Rye, 8 years old.....                  | 2.75 |

#### PURE RYE.

We especially urge you to purchase a sample quality of the following list of Pure Eastern Ryes. These ryes are put up by the oldest rye distilleries of the country. Nothing in the imported rye, or any advertised brand of rye, is superior to these ryes which we offer:

- |   |                             |
|---|-----------------------------|
| Lot No.                                       | Price per case of 4 quarts. |
| 10. Pure Rye, 10 years old.....               | \$3.25                      |
| (Fine, mellow taste.)                         |                             |
| 11. Very Fine Eastern Rye, 12 years old ..... | 3.65                        |
| (Pure, palatable, perfect.)                   |                             |
| 12. The highest grade Eastern Rye..           | 4.00                        |
| (Recommended for age and purity.)             |                             |
| 13. Pure Malt Rye, 10 years old....           | 3.35                        |
| 14. Very fine Malt Rye, 14 years old.         | 3.85                        |

#### IRISH AND SCOTCH WHISKY.

The following Irish and Scotch Whiskies were brought in this country in bulk especially for the exposition, and was bottled on the exposition grounds. There is nothing finer in the whiskey line:

- |   |                             |
|---|-----------------------------|
| Lot No.   | Price per case of 4 quarts. |
| 15. Irish or Scotch Whiskey, 10 years old .....                 | \$3.85                      |
| (Imported in wood.)   |                             |
| 16. Finest Imported Irish and Scotch Whiskey, 12 years old..... | 4.45                        |

#### BRANDIES AND COGNACS.

These brandies and cognacs are distilled by the very best California distilleries and made of the very finest California grapes. This is also put up just the same as the whiskies quoted above, four quarts to the case.

- |   |                             |
|---|-----------------------------|
| Lot No.   | Price per case of 4 quarts. |
| 17. Pure California Grape Brandy, 6 years old ..... | 2.65                        |
| 18. Pure California Grape Brandy, 8 years old ..... | \$2.90                      |
| (Tasty, light amber color.)                         |                             |

#### SOUR MASHES.

The following list of Sour Mashses is recommended to you. It is pure hand-made Sour Mash Whiskey, absolutely free from chemicals or impurities of any kind:

- |  |                             |
|--|-----------------------------|
| Lot No.  | Price per case of 4 quarts. |
| 6. Pure Kentucky Sour Mash Whiskey, 8 years old..... | \$2.65                      |
| 7. Hand-made Sour Mash Whiskey, 10 years old .....   | 3.25                        |
| (For aroma, body and quality, none better.)          |                             |

**These goods are the best on the market.**

102.	Superior Sherry, Olorosa type, 12 years old	.70	<b>BULK GOODS.</b>		
103.	Fine Sherry, Amontillado type, 8 years old	.48	In the following you will have an opportunity to make a selection of whiskies, wines, cordials, etc., that came from the world's finest wheries and was bought in bulk with the intention of using it for service at the bars. Do not classify these goods with the cheap material you will find in the ordinary run of saloons and other distributing liquor houses. The very fact that the exposition was visited by the best people of the country is sufficient evidence that no cheap liquors would have been tolerated. The exposition patrons were treated in a manner very worthy of this exposition.		
104.	Special Sherry, Golden Hillside, 14 years old	.85			
105.	Finest Sherry, recommended, 16 years old	.97	No liquor was permitted to enter in the exposition grounds unless they conformed strictly to the question of purity; this restriction was placed by the health authorities of the pure food law committees.		
106.	Fine Angelica, high saccharine, 8 years old	.48			
107.	Extra Angelica, straw color syrupy, 10 years old	.60	<b>WHISKIES.</b>		
108.	Superior Angelica, choice and rich, 12 years old	.70	These whiskies are put up as follows: In barrels, one-half barrels, 10 gallon kegs, 6 gallon kegs, 4 gallon jugs and 2 gallon jugs. We accept no orders for less than 2 gallons. When ordered in larger quantities we allow the following rebates:		
109.	Special Angelica, recommended, 14 years old	.85			
110.	Extra Muscatel, genuine flavor of Muscatel Grapes, 8 years old	.48	On 6 gallon orders, per gallon	5c

## HIGH GRADE COFFEES.

These coffees which we list below came into our possession through one of our representatives, who purchased from one of the largest and oldest Eastern grocery houses, who for years have catered to the private trade only. These people were large enough to import all their own coffees direct from the growers and for this reason you may rest assured that you are taking no chance whatever in these coffees. If we had any doubt to the contrary, we would not for one moment offer the same to our customers.

The reason why we offer these coffees in the different packages is because this house, who had an established business from regular customers, who always bought the goods in these quantities, and we would not want to open these packages, as they are packed in order to keep the fine aroma flavor.

### Brazilian Coffees.

These coffees came from Brazil, the veritable colossus among coffee-producing countries. Santos coffee is distinguished for its soft, smooth, mellow qualities, making it a delightful satisfaction in the cup. We can furnish these coffees in:

12½-lb. pkgs. at.....	20¼c	per lb.
25-lb. bags at.....	18¾c	per lb.
50-lb. pkgs. at.....	16c	per lb.
Original sacks.....	15c	per lb.
Original sacks, green, at.....	14c	per lb.

### Mexican, Java, Central and South

#### American Coffees.

The Mexican, Java, Central and South American coffees are easily monarchs of them all in producing a rich, stimulating, delightful beverage. Can be obtained in:

12½-lb. pkgs. at.....	23c	per lb.
25-lb. pkgs. at.....	22c	per lb.
50-lb. pkgs. at.....	21c	per lb.
Original sacks.....	19¼c	per lb.
Original sacks, green, at.....	18c	per lb.

### Arabian and East India Coffee.

Mocha and Java are the prime favorites in popular estimation. You may rest assured that this coffee is the pure, genuine Mocha

and Java. This certainly gives forth a rich aromatic. Arabian Mocha, small berry in  
12½-lb. pkgs. .... 26c per lb.  
25-lb. pkgs. at..... 25c per lb.  
50-lb. pkgs. at..... 23¼c per lb.

### Arabian Coffee, long berry, in

12½-lb. pkgs. at.....	34c	per lb.
25-lb. pkgs. at.....	33c	per lb.
50-lb. pkgs. at.....	31¼c	per lb.
Original sacks at.....	28¼c	per lb.
Original sacks, green, at.....	27c	per lb.

Java coffee is grown on the island of Sumatra and Java, the Sumatra product being preferred by the American connoisseurs in American estimation. The Java Manihling district is the king of the coffee world. The large, plump, golden colored berries produce a drink highly flavored and aromatic. This Java can be furnished in

12½-lb. pkgs. at.....	40c	per lb.
25-lb. pkgs. at.....	38c	per lb.
50-lb. pkgs. at.....	36c	per lb.
Original sacks at.....	34c	per lb.
Original sacks, green, at.....	33c	per lb.

If you are a coffee drinker you certainly have a chance to get this beautiful and genuine goods at right prices.

## High Grade Teas.

These high grade teas which we list below were purchased from the same people that we bought the coffees from, and this stock of fine teas represent quality only.

The finest selection from India, Ceylon, China, Japan and the Islands of Formosa Tea Gardens; the world's choicest offerings for the delight of the epicure. The celebrated Formosa, Oolong, Japan and Imperial teas, which the fastidious tea drinker may secure here to suit the most varied and delicate individual tastes. All of these varieties in six different grades, running from the finest to the ordinary teas. Garden teas represent the earliest pickings and most careful selection of the tender shoots and buds.

The Formosa and Oologs are grown on the beautiful island of Formosa, which since the late war between Japan and China has been annexed to Japan. On the removal of the peculiar soil of this island the Formosa tea plant loses its most precious characteristic—sweet flowery aroma and delightful flavor.

The English breakfast tea is a blend of North China, Congou, India and Ceylon teas. The higher grades in this, as in all black teas, show the Pekoe types, which impart a high flavor. We offer you the very finest from all the tea growing countries as noted below. We can furnish same in the following packages.

½ chests.....	52¼c	per lb.
10-lb. packages.....	55c	per lb.

### English Breakfast Teas—Black.

In chests.....	65c	per lb.
½ chest.....	67¼c	per lb.
10-lb. packages.....	70c	per lb.

The people from whom we purchased these teas were direct importers for many years and are known as the most reliable house in their business. You take no chances in ordering these fine, high-grade teas.

All of these teas are packed in proper packages, which we have mentioned, and are absolutely air tight. This is done in order to keep the fine aroma flavor.

### Formosa and Oolong Tea, Basket and Pan Fried, Japan.

In original chests.....	30c	per lb.
½ chests.....	32c	per lb.
10-lb. packages.....	38c	per lb.

### India and Ceylon Tea.

In chests.....	40c	per lb.
½ chests.....	42¼c	per lb.
10-lb. packages.....	45c	per lb.

### North China, Moyune, Hyson, Gunpowder and Congou and English Breakfast Teas—Green.

In chests.....	50c	per lb.

# Furniture, Carpets, Rugs, Etc.

From Receivers', Sheriffs', Assignees',  
Manufacturers' and other forced sales

The low prices on furniture quoted on the following pages are the results of our methods of purchasing large quantities of high grade new goods at Sheriffs', Receivers', Assignees' and other forced sales. Our corps of competent and experienced buyers are always alert to take advantage of these sales and obtain great quantities of high grade furniture of the best grades and designs for less than the manufacturing cost.

We have demonstrated over and over again our ability to undersell other dealers, while furnishing a better grade of goods. Our unique and unexampled operations on a gigantic scale enables us to do this.

These advantages we share with our customers, and as a result we hold the confidence of the trade to which we cater. We ask for a further continuance of this trade, knowing that we can repeat the bargains offered in the past. You will notice at a glance that this list is composed of nothing but the best of all that is rich, substantial and handsome, and the prices are most attractive to the economical buyer.

Then we still have left a few choice bargains in rich and handsome furniture, which adorned the palaces of the Louisiana Purchase Exposition, and which came into our possession when we purchased that magnificent World's Fair. Many of these articles are the finest product of the world's art, and were imported at enormous expense.

No contract is too large for us to fill at a moment's notice. We make a specialty of furnishing hotels, restaurants and public offices, fitting them out in every particular ready for business in the shortest possible time. Get our quotations before you close a deal for any furnishings. Our business of dismantling large public buildings and hotels secures for us enormous quantities of furnishings which we are able to again put on the market at less than cost.

Price.....each, \$12.50

**All these come from the Great World's Fair**

# PARLOR FURNITURE

From the World's Fair, St. Louis

The following list represents only a few of the many beautiful pieces in fine parlor furniture, which came in our possession from the various Exhibition Palaces, Foreign Buildings and State Houses of the Exposition.

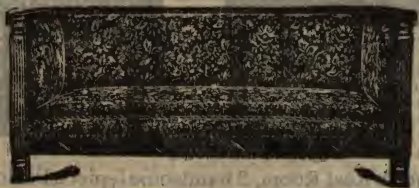

These goods have all been overhauled and are described exactly as to their present condition.

The historical features in connection with these items alone render them almost priceless.

Think of being able to secure as a souvenir from the most wonderful exposition of modern times, a handsome and durable article of household furniture.

The prices quoted are without regard to the intrinsic value of any of the articles listed. You thus have the opportunity to select some suitable article of furniture for less than actual cost of manufacture.

## DAVENPORTS AND SOFAS

**No. 7½ F.** One very beautiful Davenport, built-up ends and back, similar to cut. Filled with finest grade of upholstering material and covered with suitable coverings of tapestry and velour. Taken from Royal Hoo-hoo Exhibition Building. This Davenport is in excellent condition, shows practically no signs of 6 months' usage.

Price..... **\$18.00**

**No. 1.** One handsome Davenport about 8 feet long, back stands about 42 inches high, depth of seat about 24 inches. Seat is plain, back tufted, also ends, completely over-stuffed. Covered with fine grade of corduroy in an old gold coloring.

This was used in the reception room in the Palace of Fine Arts. Cost \$190.00 to build.

Price..... **\$55.00**

**No. 2.** Davenport Sofa. Walnut frame, length 75 inches, upholstered seat and back, Louis XV. style. Is upholstered in dark red car plush, filled with hair; in fair condition. Also used in the Palace of Fine Arts.

Price..... **\$12.00**

**No. 3.** Three-piece set, including one massive Davenport about 8 feet long, completely over-stuffed, tufted, filled with hair and sea moss. Color of covering old gold in corduroy. Two arm chairs to match, their sizes each about 34 inches wide, height of backs 35 inches, depth of seat 24 inches. Round arms are completely over-stuffed to match Sofa. Used in reception room of Administration Building. Cost to manufacture \$275.00. All we ask for this 3-piece set is..... **\$100.00**

The above is in first-class condition.

**No. 4.** Large, massive Davenport from reception room of German Exhibit, covered in a dark brown material of fine texture, tufted back and ends. Length about 7 feet 10 inches. Height of back about 36 inches. Is completely over-stuffed, filled with hair and sea moss.

Price..... **\$65.00**

**No. 5.** One beautiful Davenport, 7 feet 8 inches long, height of back about 36 inches. Arms slope from above height at back to a height at front of 30 inches. Completely over-stuffed, diamond tufted, covered with fine grade of dark velour. Depth of seat about 21 inches. In first-class condition. Taken from Palace of Varied Industries.

Price..... **\$60.00**

**No. 6.** One beautiful 3-piece Set from Pennsylvania State Building. Includes massive Sofa, nearly 8 feet long, height of back about 42 inches, same slopes backward from seat, making a very comfortable testing back; width of seat about 23 inches; back and seat are upholstered in a beautiful shade of dark red silk plush; has plain wide arms at either end, extending from back to front of seat and supported by plain round columns; woodwork in mahogany. Arm Chair is about 35 inches wide and proportioned same as Sofa. Price of this 3-Piece Set, which is in excellent condition, **\$115.00**

**No. 7.** One fine Davenport Sofa, length about 6 feet 2 inches. Has adjustable back that can be turned down and made at same level of seat into a complete bed full size. Back and seat are covered with an excellent grade of corduroy in dark green stripes, tufted. Framework of polished wood at either end, in mahogany finish. Was used in office of Captain of Jefferson Guards. Has been little wear and can be recommended as being in first-class condition.

Price..... **\$61.00**

**No. 8.** One massive upholstered Davenport, length about 9 feet. Height of back about 42 inches. Has rounding arms at either end, frame completely over-stuffed. Upholstering includes very fine grade of Florida moss, covered with a dark brown corduroy. Back and ends are tufted and seat is plain. Width of seat 23 inches. This Davenport was much admired by all visitors to the Educational Committee's Reception Rooms. Is in good condition, and shows but little wear.

Price..... **\$50.00**

**IT IS ALL OFFERED SUBJECT TO PRIOR SALE**

**SOFAS AND SETTEES—Continued**

**No. 17.** One octagon-shaped Rotunda Settee, taken from the entrance of the Jerusalem Exhibit. Is about 5 feet in diameter, in two sections, which can be placed together, making an octagon-shaped or circular seat. Has center column which rises to a height of 39 inches from floor. Settee is upholstered with Florida moss and covered with a very fine quality of dark green corduroy. Height of seat from floor about 18 inches and depth of same from edge to center column or back is about 24 inches. This is a bargain for anybody who can use such a described article.  
Price.....\$12.00

This Settee is in fair condition. We will ship same in two sections.

**No. 18.** A beautiful Rotunda Seat, which was used in the reception parlor or lobby of the Transportation Building. It is about 6 feet in diameter, has a circular seat with center pillar extending to a height from floor of about 50 inches and surmounted on top by a cap piece of either genuine mahogany or rosewood 22 inches in diameter and about 2 inches thick; finely grooved edge. Diameter of this center cushion at point of joining with seat is about 36 inches, which leaves a seat about 22 inches wide. The seat is plain and the cushion or back is diamond tufted; covering is of fine velvet in a dark green shade. Upholstering in fine moss and cotton felt. Exposition authorities claim this Settee cost \$350.00. We quote same at.....\$75.00

It is in excellent condition and shows no signs of wear. Will be suitable for club room or hotel or many other general purposes.

**No. 19.** One Rotunda Settee, appearance similar to No. 18. Has also center column of same dimensions as No. 18, tufted, and capped with mahogany headpiece. At the bottom of seat, extending around the Settee, is a 1½-inch border of beautiful French gimp, studded at intervals of 2½ inches with heavy brass caps about 1 inch wide. From point of this border there extends to floor heavy columns of genuine mahogany to the number of about 8 at edge and 4 in center of Settee. Is covered with fine imported velvet velour in dark red shades. General condition almost perfect.  
Price.....\$85.00

**No. 20.** One Rotunda Seat from Mines and Mining Building. Height about 48 inches, diameter about 6 feet, diameter across center column about 36 inches, sloping towards the top. Is plain and has circular cap of cherry finish. Has fine spring seat, upholstered in highest grade materials; this also applies to back. Has about 9 massive legs to support the seat, extending all the way around base on outer edge. These are made of genuine mahogany.  
Price of this Settee.....\$65.00

**No. 21.** Is a similar-shaped Settee, general dimensions same as above. This also applies to upholstering and general style of covering, except that covering is in sea green. Bottom edge of seat is bordered with heavy gimp in a width of 1½ inches, studded with heavy brass cap tacks 1 inch in diameter; these extend all the way around the seat. Has also heavy legs extending from base of seat to floor. Is in excellent condition; shows practically no wear.  
Price.....\$60.00

**No. 21½.** One very fine Colonial Sofa, about 6 feet in length, covered with fine mohair plush, dark red; filled with hair and moss. Back is upholstered to match seat, has fine panel back rail of black walnut extending in serpentine shape length of back, which is about at an elevation of 40 inches and rounding at the corners to height of about 22 inches from floor at the front edge of arms. This makes a very beautiful appearing article; is somewhat worn and covering shows signs of wear, but frame is intact.  
Price.....\$14.50

**No. 22½.** Is an odd Sofa, secured from Egyptian Exhibit on The Pike. Has upholstered, stuffed back, upholstered arm rail, good springs in seat and general conditions fair, although somewhat used.  
Price.....\$8.50

**No. 23½.** One odd Sofa upholstered in fine imported plush, good spring seat; filled with hair and fine sea moss. Has very neat appearing and rounding back rail, upholstered, from which there descends a neat fringe; back has also one neatly carved center panel.  
Price.....\$9.00

**No. 24½.** One Sofa about 54 inches long, with over-stuffed arm and rosette on front of same; made of walnut, nicely polished. Back is upholstered and covered with fine quality of crushed plush, dark blue shade; similar material covers the arm and seat. Top of back has a walnut rail with neatly carved center effect. Was somewhat used, but still in fair condition and will be suitable for a rear parlor or sitting-room.  
Price.....\$8.00

Price .....\$4.75

Closed

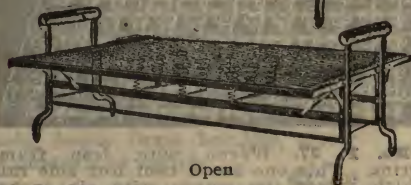

Open

**No. S.21.** Elaborate Sanitary Steel Davenport Couch. Can be opened and closed without rolling from the wall. Oil tempered helicals and spiral. The fabric is of superior quality, extra strong frame. Height of back 21½ inches, width of seat 25 inches, length when open 74 inches, width when open 48 inches. Weight, 96 lbs. Price .....\$10.25

### DRA PED DAVENPORT

**No. 290.** One very fine Steel Couch with detachable pad or cover as shown in illustration. Couch has a first-class steel frame and is well supported with two rows of steel coils. Pad is made of fine cotton felt. Was used for three months in the Louisiana State Building. Has been overhauled and is offered as being in first-class condition. Weight, 75 lbs. Price .....\$7.75

## Woven Wire Springs.

The springs we have to offer are all brand new goods, purchased at receiver's sale. Fortunately for us we received nothing but high class goods in this lot; every coil spring used in the manufacture of these goods is made of hard steel wire, and has been subjected to 750 degrees of heat, and should last a life time. The angle iron used is extra heavy and has no flaws. The woven wire is of the best quality very closely woven, consequently it will not sag. All wood frames are securely bolted at corners and have metal ends. So it can easily be seen that this stock is an entirely superior line of goods than those usually sold by regular dealers.

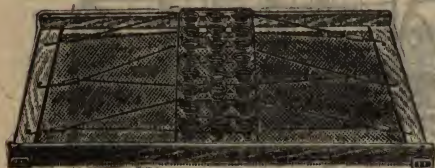

**No. P. 19.** Hardwood frame woven wire spring, bolted at the corners, substantially made in every way.

Price .....\$0.95

**No. P. 20.** Hardwood frame, woven wire spring with best steel tempered supports, for iron or wooden beds.

Price, each.....\$1.60

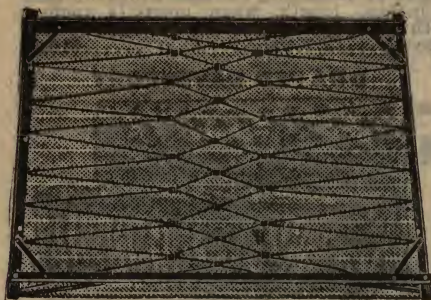

**No. P. 21.** Hardwood frame, woven wire spring, best steel woven wire, pencil weave. Edges are made of number 9 wire with a helical springs to give it elasticity. This spring is supported with three rows of best tempered springs, anchored at each end with heavy steel wire and helical spring. The frame is strongly bolted, making it one of the best frames on the market.

Price .....\$1.75

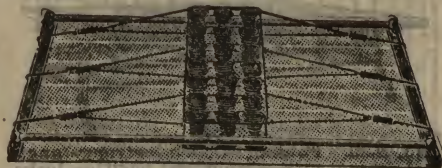

**No. P. 22.** Same spring and frame without support.

Price each .....\$1.25

**No. P. 23.** Angle iron frame spring with the best pencil weave wire, heavy wire edge with helical spring to give elasticity. Has three rows of oil tempered springs for support. This support is securely anchored at each end with heavy wire, and helical spring. This is a very comfortable spring to rest upon, and will not sag.

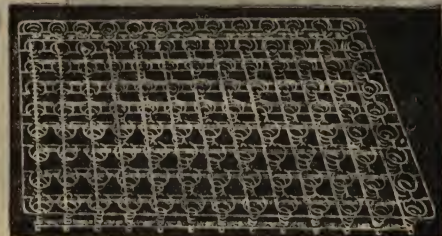

Price .....\$2.65

**No. P. 24.** Iron frame woven wire spring has angle iron on each end with pipe sides, double weave wire with 3 rows of high tempered coiled springs. Supports anchored to each end of spring with heavy steel wire and helical spring. Extra heavy steel wire edge with helical making a very soft edge.

Price each.....\$2.90

**No. P. 25.** Same spring made with  $\frac{3}{4}$ -inch wire cable edge 50c extra.

**No. P. 27.** Woven wire, iron frame spring. This one has a bent iron side rail, which raises the woven wire six inches above bed. It has a double angle iron end piece, which hold the woven wire very firmly, the mesh is of the very closest double weave and edge is made of  $\frac{3}{4}$ -inch woven wire cable. This is the best Woven Wire Spring on the market, and is bound to suit the most fastidious.

Price .....\$4.85

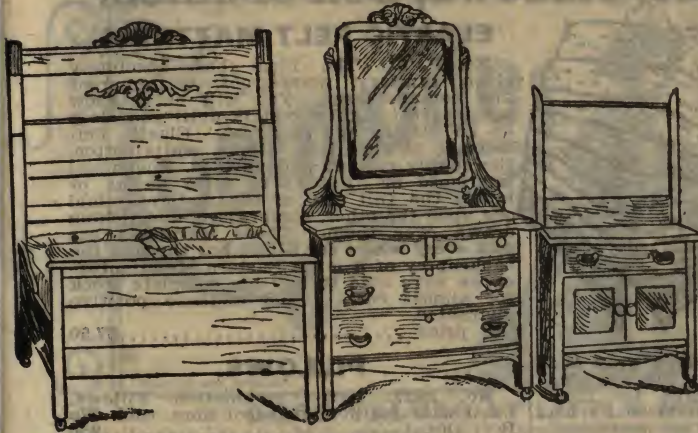

**No. P. 28.** Coil wire spring. This spring is made of No. 11 high tempered, hard steel. There are 117 coils in each spring, has iron slats under each row of springs. Iron frame all around, with angle irons at each side to fit on side rails of iron beds. Springs are single cone, consequently noiseless, tied with two wires which holds each spring to its place. The coils are made of No. 11 wire which is a gauge and a half heavier than is usually used. This spring is sold under an absolute guarantee and if not found satisfactory can be returned.

Price .....\$3.90

## BEDROOM SUITES—FOLDING BEDS

The following list of Bedroom Sets include many excellent bargains. Owing to size of space on which we are limited in describing same, we only mention a few points in connection with each article.

## ODD COMMODES

# Commodore

### GOOD VALUES AT LITTLE MONEY

The following list of odd Commodore and Bureaus represent patterns secured from many of the various small hotels and in some cases from living rooms of managers of the various buildings and exhibits from different parts of the Exposition grounds. The majority of them are in fair condition and they are described exactly as we find them. Any one making a selection from the following list may feel assured of getting full value for the money.

**No. 850.** One odd Commode, has shaped top, one long drawer; below are two drawers on the left side; on the right side is a cabinet. Has been overhauled and is in fair condition at the present time.

Price.....\$2.50

**No. 851.** One Black Walnut Commode, has one long drawer, cabinet and two small drawers, base has a marble top, also a marble back standing about 9 inches high from base; at either end of back are two projecting marble slabs, giving a very neat appearance to this article. It has been overhauled and is in good condition.

Price.....\$4.50

**No. 852.** One very beautiful Carved Black Walnut Commode, has large cabinet base and long drawer above, covered with a white marble top. In fair condition.

Price.....\$3.75

**No. 853.** Is a beautiful Black Walnut Commode of Colonial design, has massive carved corner posts, large cabinet base, double door with raised panels, nicely lined and carved; one long top drawer, also has carved and raised center panel; base surmounted by an Italian marble top. This is a very handsome piece of furniture and is a bargain for anybody with a taste for Colonial effects.

Price.....\$5.00

**No. 854.** One Oak Commode, large long drawer on top; has a cabinet below, to the right of which are two small drawers; has marble top, with marble slab on back, from which projects two marble ledges.

Price.....\$4.50

**No. 856.** One Oak Commode, large drawer, cabinet, two small drawers, marble slab on top, marble back; projecting ledges also in marble.

Price.....\$4.50

**No. 855.** Small Walnut Commode or Dresser, standing about 30 inches high, is about 18 inches deep and 18 inches wide; surmounted with an Italian marble slab; has a cabinet base with a small drawer on top. Front of drawer is beautifully decorated with a raised oval panel in which is inserted a carved bunch of fruit. The panel of the cabinet below is plain and neatly polished; corner posts are also hand carved. This is a very beautiful piece of work and must have originally cost a large amount. Except for one side of marble slab, it is in perfect condition. All that we ask for this beautiful little dressing stand is.....

Price.....\$4.00

**No. 857.** One Oak Commode, about 36 inches long, 18 inches deep; has marble slab covering top, has splasher top with cross towel bar. The panels of this splasher are neatly turned. The base has one long drawer and half length cabinet, the balance of the lower section being open. It is in fair condition.

Price.....\$4.50

**No. 858.** One Antique Black Walnut Bureau, has two large drawers, with drop fronts; two large upper drawers with slide fronts; surmounted by an Italian marble slab, width of base about 34 inches, depth about 12 inches, height about 39 inches. Has seen much service but at present time frame work is intact and except for small amount of polishing, is in good shape.

Price.....\$4.25

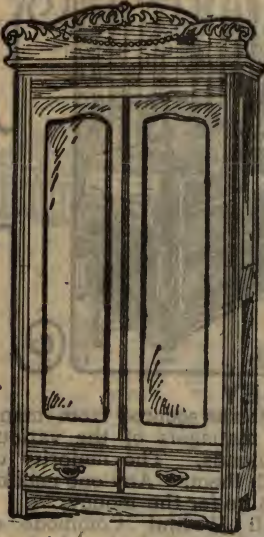

**No. 862.** One very beautiful Curly Birch Commode, regulation length and width, has half length cabinet below to left of which are two small drawers; above these extending the width of base, one long drawer; drawer pulls are in solid brass; has a very neat splasher top with shaped panels. This is in perfect condition; was used in one of the parlor rooms of the Inside Inn. Is beautifully polished.

Price.....\$6.50

OUR GOODS ARE ALL PROPERLY PACKED BEFORE SHIPPING

## WARDROBES.

**No. 645.** Very massively constructed oak Wardrobe, with double door and 2 lower drawers. Stands about 80 inches high, and about 36 inches wide. It is surmounted on top by neatly carved moulded edge, finished in golden oak.

Price ... \$8.50

**No. 646.** One oak Wardrobe something similar to preceding one. Also finished in a dark golden shade, heavily polished, has 2 small lower drawers; fitted inside with shelf and coat fasteners attached. General condition fair.

Price ... \$8.00

**No. 647.** One very handsome oak Wardrobe, with single door. Stands about 82 inches high, and about 36 inches wide. Has deep lower drawer for shoes, packages, etc. Heavily polished, with panel ends and sides.

Price ... \$10.00

**No. 648.** One black walnut Wardrobe, height about 84 inches; width about 36 inches. Has 1 large front door with double panel. Is fitted inside with shelf and coat fasteners attached. Somewhat used but still in fair condition.

Price ... \$6.00

**No. 649.** One oak Wardrobe in a very neat golden finish; height about 80 inches, width about 30 inches. Single door with large panel, lower drawer; sides are very neatly paneled, and the entire case is of prepossessing appearance. Has been overhauled, and its present condition is good.

Price ... \$7.00

**No. 640.** A very solid well-constructed Wardrobe, finished in golden oak, height from floor to top about 90 inches, width about 30 inches. Has double door and regulation drawer in base; neatly finished inside and fitted with shelf, to which are fastened adjustable hangers. It has been overhauled, and is in fair condition.

Price ... \$8.00

**No. 641.** One reconstructed Mahogany Finished Wardrobe, in square colonial design; stands about 80 inches high and about 32 inches wide. Has one large paneled door, and deep drawer below. Has been overhauled and is at present in perfect condition.

Price ... \$12.50

## ODD COMMODES.

**No. 869.** 12 Golden Oak Finish Commodes, base about 32 inches long and about 18 inches wide, tops have neatly shaped edges and ends, have large splasher backs, which are neatly carved, with a towel bar extending across the top, are scratched in places, but still in fair condition.

Price ... \$2.50

**No. 869½.** 24 large Commodes or Bureaus, made from either black walnut or

solid mahogany, base about 39 inches wide and about 20 inches deep, have 3 massively appointed drawers, which extend full width of base, have small cabinet tops extending 10 inches wide and full length of base. Cabinets are about 5 inches high, in which are inserted 2 small drawers. These cabinets, with a little work, could be made into a handsome piece of furniture; must have originally cost quite a sum to build. A very odd feature of these articles and one that gives them quite a unique appearance are large wooden handles on all of the drawers.

Price ... \$8.00

**No. 870.** 12 Black Walnut Commodes or Stands, are about 22 inches wide and 15 inches deep, have marble slabs on top, with a 4-inch marble slab extending across the top at back; has lower shelf with a small drawer, space from shelf to top being open; are in fair condition.

Price ... \$2.25

**No. 863.** 12 Golden Oak Finish Commodes; medium size; have cabinet base, 2 small drawers and 1 long drawer, square cut tops, good heavy posts and towel bar; in fair condition.

Price ... \$2.75

**No. 864.** This is an excellent bargain in a Black Walnut Commode; has a massive and well constructed base, which includes a half length cabinet, 1 long drawer cabinet is placed below and on the right of which is an open shelf; has a Tennessee marble top, also a half height back panel of Tennessee marble inserted in a nicely polished wood frame, with upright towel bar; is in fair condition.

Price ... \$4.50

**No. 865.** 16 small Golden Oak Commodes. On the lower left hand side of base are 2 small drawers, on the right of which is placed a cabinet and above 1 long drawer extending the width of base; have neatly carved backs standing about 11 inches high, have seen some service, but still in good condition.

Price ... \$2.50

**No. 866.** Golden Oak Finish Commode. We might add that this particular article is made of fine quarter sawed oak and also has the regulation 2 small drawers and cabinet; 1 long upper drawer; top has a very handsome brown marble slab, which extends 2 inches beyond the top of base. Extending up from the back of this Commode to a height of 10 inches is another marble slab, running the width of base and having at either end a very neat projecting, slab same quality of marble. This is a very neat appearing article and we can recommend it at the figure.

Price ... \$3.50

**No. 867.** 12 medium size Birch or Cherry Commodes, in a dark mahogany finish, 2 small drawers on cabinets and 1 long upper drawer; very neat in appearance, have small well-proportioned backs about 9 inches high, extending width of base; are in fair condition.

Price ... \$2.50

**No. 868.** Six small White Enameled Bureaus, without backs, and consisting of 2 small drawers, 1 cabinet and 1 upper drawer; considerably used, but still in good condition and with a little work can be made as good as new.

Price ... \$1.50

**No. 868½.** 12 Oak Commodes, regulation large drawers, 2 smaller drawers and 1 cabinet, have marble slab on top, brown or oxblood in color, in good condition, marble slab in back, with reinforced marble corner pieces; have been overhauled and are in good condition. Might state that the color of these is a light antique.

Price ... \$4.50

The Time to Purchase is Now.

# MUSIC CABINETS AND HALL TREES.

## ODD DRESSERS

The following list of Dressers represent patterns secured from all parts of the ground. Some were used for exhibition purposes and are scarcely soiled; others have seen a little wear but are to all purposes as good as new, while still, others have had rough usage. They are all described just as they looked on being removed from their various quarters. If we occasionally speak in glowing terms of any particular pattern, be it dresser or other article, you may be sure that the article has merited this notice; and if you should place an order for anything so described, we can positively assure you the delivery of a satisfactory article.

**No. 749.** A beautiful Dresser like illustration; was secured from the Hungarian Ash exhibit on the Exposition Grounds. This represents the handiwork of Continental cabinetmakers. The design is a pure Sheraton. The woodwork is on the order of nearly all Hungarian ash, which is one of the most beautiful cabinet woods on the market at the present day. This elicited the admiration of all casual visitors to the above exhibit. We are listing it without any regard to intrinsic value. Any one desiring to purchase same may feel doubly sure of securing not only an article with an historic value attached to it, but also a beautiful piece of bedroom furniture suitable to the most fastidious. In perfect condition.

Price.....\$17.50

**No. 750.** One Birch Mahogany Finished Dresser; has medium size base and 3 large drawers. Top has large swinging mirror, nicely beveled, size about 24x30. Overhauled, in fair condition.

Price.....\$8.50

**No. 751.** One very neat Golden Oak Finished Dresser, shaped top; 2 large drawers; 2 small drawers. Top has good-sized swinging mirror, nicely beveled, the size of which is about 20x24.

Price.....\$8.00

**No. 758.** One very handsome Golden Oak Finished Dresser, has large well-appointed base, which contains 2 long drawers and 2 small drawers; all with heavy brass trimmings on handles. Top has adjustable swinging frame in which is set a very neat French plate mirror of large size. The Dresser is in perfect condition.

Price of this handsome article is only...\$6.50

**No. 759.** One very pretty Combination Cherry and Black Walnut Dresser. Base is about 22x38. Has 2 large lower drawers; all solid brass trimmings. Top of Dresser is a very handsome Grecian marble slab. The back is enclosed, within which is a very neat beveled mirror, size about 24x30. The entire Dresser has been gone over, and is in good, presentable condition.

Price.....\$11.00

**No. 760.** One Oak Finished Dresser, medium sized base; 3 long drawers in same, with brass trimmings. Top has large bevel mirror, size of which is about 24x30. It is in an enclosed frame. Has seen some hard wear, but is still in fair condition.

Price.....\$6.80

**No. 761.** One very handsome Princess Dresser, secured from the Inside Inn on the Exposition grounds. Base is about 37 inches long; has round front; 2 large drawers; top has very fine French bevel plate mirror about 18x36, set in a neat swinging frame. During its six months' service it has sustained no appreciable damage, and we can quote this as being in perfect condition.

Price only.....\$11.00

**ODD DRESSERS—Continued**

neat oak frame, surmounted on top by nicely carved centerpiece.  
Price.....\$8.50

**No. 765½.** One very neat Golden Oak Finished Dresser, with large plate glass something similar to illustration. This is one of a number secured from one of the smaller hotels just inside the Exposition gates. It has been overhauled, and is in good condition.  
Price.....\$8.50

**No. 766.** One very neat Golden Oak Finish Dresser, with serpentine front, also a shaped top; has a French plate glass, nicely beveled, about 22x20. It is in good condition.  
Price.....\$9.75

**No. 767.** One very neat White Enameled Dresser, with serpentine front, large base, has French plate glass, size about 20x30, set in a swinging frame. It has seen some usage, is marred in some places, but with a little work it could be put in first-class shape.  
Price.....\$12.50

**No. 768.** This is a very neatly appointed combination Dresser. Base contains 1 large drawer extending the width of base and on left side 2 small drawers. On the right side below is a cabinet. Front of base is round. It is surmounted by a plate glass mirror and also a towel bar. It makes a very suitable Dresser for a small bedroom.  
Price.....\$5.50

**No. 769.** This is a Dresser very similar to one above, but having glass 12x20, hung in an upright position in a swinging frame, also equipped with towel bar to right of glass.  
Price.....\$6.00

**No. 770.** This is a very neat-appearing Cheval Dresser in a birch-mahogany finish. Base has the regulation 2 drawers, on top of which is a small cabinet containing 3 small drawers. To the left of cabinet is a regulation 18x30 mirror. Dresser has seen some usage, but is in fair condition.  
Price.....\$10.00

**No. 771.** One Golden Oak Finish Cheval Dresser, regulation base same as preceding one, cabinet on top has 1 small drawer and 1 small linen receptacle. A large French plate mirror is set in a neat swinging frame. Entire Dresser is in fair condition and presents a very neat appearance.  
Price.....\$10.50

**No. 772.** One very massive Cheval Dresser, has cabinet on top containing linen receptacle and small drawer. The glass on this Dresser is of an exceptionally large size, being fully 18x40 inches. It is of French plate, neatly beveled on edges. This Dresser is as good as new. However, we quote it at \$12.00

**No. 762½.** One neatly finished Golden Oak Dresser, something similar to cut, fine French plate mirror of reasonable size; was used in Manufacturers' Exhibit, and is in good condition at the present time.  
Price.....\$8.75

**No. 762.** This Princess Dresser is on the same general lines as the No. 761, but in mahogany finish. Glass is of same dimensions.  
Price.....\$12.50

**No. 763.** One very handsome Oak Dresser, neatly finished base, with round top drawer. The top has an adjustable swinging mirror, size about 22x26, French plate and beveled. It was used in a small hotel on the Exposition Grounds during the Fair. It is in first-class condition.  
Price.....\$8.00

**No. 764.** One Golden Oak Dresser, something similar to above article, 3 large drawers, the top one being rounding. It has a large well appointed top, which includes a swinging mirror of French plate glass, size about 20x24, in fair condition, and no scratches.  
Price.....\$7.50

**No. 765.** One Oak Dresser, golden finish, size of top about 20x38, has 3 drawers. The top has a French plate glass of fair size, in a

**WE GUARANTEE EVERYTHING AS REPRESENTED**

## ODD DRESSERS

**No. 772½.** One very fine appearing Oak Finish Dresser, large square mirror in an adjustable frame, in good condition and a very suitable article for any bedroom.

Price.....\$7.50

**No. 773.** One Black Walnut Dresser, very neatly designed, has a high base, containing 3 drawers on top of which is a marble slab. At one end of this slab there is a small piece chipped off. On top of slab are 2 small jewelry cabinets, which are fastened to the back frame. Has a very nice mirror in the back in a swinging frame. Size of mirror is 19x30. The entire Dresser is in fair condition.

Price.....\$6.00

**No. 774.** Another Black Walnut Dresser, size of base 20x40, has 3 small drawers with heavy brass trimmings, all in fair condition. The top has a closed frame, in which is set a French plate mirror, size 20x24, in perfect condition. This Dresser has been overhauled and while not as good as a new one, is still in presentable shape.

Price.....\$7.00

**No. 775.** One very beautiful Black Walnut Dresser, has large massive base, size 20x42, contains 3 deep drawers and has beautiful Grecian marble top, the top has an enclosed frame, in which is hung a neat beveled mirror, size 26x32. The entire dresser stands from floor to top of frame about 73 inches. We can particularly recommend this Dresser as being a bargain at the price.....\$14.00

**No. 776.** A very neat, well constructed Golden Oak Finished Dresser, like illustration. Has heavy plate mirror about 20x24. Was used in apartments of Secretary of Mining Building. Shows no scratches or signs of wear.

Price.....\$8.00

**No. 777.** One very neatly polished Golden Oak Dresser, has shaped front, 2 large drawers, 2 small drawers, with heavy brass trimmings. The top has a large glass size about 24x30, set in a swinging frame, is in good condition.

Price.....\$12.50

**No. 778.** One very neat Combination Bureau Dresser, stands about 76 inches from floor to top of back. Base has 2 small drawers on top, with large double door cabinet below. Top has neatly beveled mirror, size about 14x24, above which is a canopy effect extending the width of top. In fair condition. Is made of Oak.

Price.....\$7.50

**No. 779.** One very beautiful Old Colonial Black Walnut Dresser or Bureau. The base stands about 24 inches high, on top of which is an Italian marble slab. Set on top of either end of base are 2 small cabinets containing 2 drawers each and surmounted on top by slabs of Italian marble, pure white, size of each marble slab 13x13. The back is a stationary frame in which is set a large mirror about 40x18 inches high. From floor to top of frame is about 90 inches. This is a very imposing piece of furniture and must have cost when new, \$75.00. We offer this at a remarkably low figure considering its present good condition.

Price.....\$8.00

**No. 780.** One very neat Golden Oak Finish Dresser, fairly high base, 3 long drawers, the top one being round, has an open standard frame in which is set a very neat French plate mirror, size about 20x22. It is in fair condition.

Price.....\$8.50

**No. 781.** One very neat Antique Oak Dresser, 3 large drawers, has brown marble top, large glass in an enclosed frame, size of glass about 24x28. A very neat pattern Dresser at a reasonable figure.

Price.....\$10.00

# ENAMELED REFRIGERATORS.

Nothing appeals to a neat housewife, more than a spotless pure white enameled refrigerator. This Refrigerator is not only the greatest ice saver on the market, but it is built along scientific lines. By its peculiar construction a continuous circulation of fresh pure air is forced in and all impure air expelled from the chambers. It combines every conceivable convenience with strict economy. Large ice chamber, roomy provision chamber, cabinet base, loose, close wood slat shelves, convenient to set small crocks, or tea cups, without fear of upsetting. This is positively the only refrigerator made in which you can keep milk, butter, cheese, vegetables, fruit, fish, mutton or poultry, at the same time and not contaminate each other. The Enamel is applied to both surfaces of high grade sheet steel, which insures against breakage and unsanitary joints, so common in tile lined refrigerators. By this process you are practically provided with a chemically pure steel safe, surfaced on both sides with white or gray enamel. Hinges, latches and catches are nickel plated.

**No. 93.** Ice capacity, 60 pounds. Interior, white enamel on wood. Outside measurements: Width, 25 in.; depth, 16 in.; height, 46 in.  
Price .....\$6.00

**No. 1071.** One massively constructed Restaurant Table, size 48x72, heavy, well braced rim, neatly turned. Slightly scratched; otherwise in perfect condition. Price .....

## MISSION DINING ROOM TABLES.

**No. L 299.** Here is a rare work of art in weathered oak. The design is after the original copies of the handwork of the Jesuit Fathers, with a little softening of the lines and a touch of comfort. The present mission furniture, while a direct copy of the old Fathers, has been delightfully changed to the comforts of the present generation. This massive yet beautiful piece of furniture was obtained by us from the Liberal Arts Building at the St. Louis World's Fair. The top is double, 48 inches square, veneered in quarter-sawed oak. They come in 6-8-10 and 12-ft.

Price..... 6-ft.....  
Price..... 8-ft.....  
Price..... 10-ft.....  
Price..... 12-ft.....

## MISSION ROUND EXTENSION TABLE.

**No. L 294.** This is one of the most beautiful products of the furniture makers' art. Finished in American quarter-sawed oak veneer, has 45x45-inch top, mounted on an 8-inch pedestal, handsomely turned. There is a leg inside the pedestal which supports the table when extended. Has nicely turned feet mounted on heavy casters. This is without doubt one of the prettiest creations on the market today. Strongly constructed and well made, and an ornament as well as a useful dining room table. These tables were on exhibit at the Louisiana Purchase Exposition. They come in 6-8-10 and 12-ft.

Price..... 6-ft.....  
Price..... 8-ft.....

# CHAIRS

COPYRIGHT 1913 C.H.W.CO

## DINING ROOM CHAIRS

From the Exposition hotels, restaurants and cafes on the Exposition grounds, we secured a large quantity of Dining Room Chairs of all kinds. Some of these were in fine hardwood, nicely polished, fancy patterns, ranging from \$4.00 to \$9.00. Others we have listed in five general divisions as follows:

**No. 1088-1.** About 500, wood and cane seated, fancy spindle back, with paneled insertions, some with plain wooden seats, others have saddle effect, good, well-constructed bases, some scratched, others in perfect condition.

Price .....each, **\$0.60**

**No. 1088-2.** About 400 cane seated Dining Room Chairs, spindle back, some have double panels enclosing spindles that run into the seat. In fair condition. In some of these it is possible to match up a set of six.

Price.....per Chair, **\$0.75**

**No. 1088-3.** Five dozen Cane or Wooden Seated Chairs, made of oak; a few in ash and elm wood, golden finish. Very neatly turned spindles and rounds. Have double panels and nicely turned posts. These Chairs are retailed at \$1.30, \$1.40, \$1.60.

Our price.....each, **\$0.95**

**No. 1088-4.** Twenty dozen very handsome Dining Room Chairs; some have cane seats, others have wooden seats; all have neatly turned rounds. A very excellent Chair; they retail for \$2.50 and \$2.75. Some with saddle seats.

Our price.....each, **\$1.20**

This lot contains three divisions of Chairs:

**No. 1088-5.** Vienna or Bent Wood Chairs, some with cane, and some with wood seats; some in oak, and some in birch. There is not much can be said in connection with these patterns excepting that they are of excellent value for the money and are in very good condition.

Price.....each, **\$1.10**

**No. 1089.** The second lot of these Chairs include several fine box frame Cherry Wood Chairs, which were used in some of the hotels on the Exposition grounds. Have square spindle backs and are in excellent condition.

Price.....each, **\$1.25**

**No. 1089½.** The third division contains several finely polished Oak Chairs, in neat golden finish; some have panel and others have spindle backs. It may be possible to match out of this number similar patterns for a set. These Chairs retail from \$2.75 up to \$6.00 and \$8.00 each.

Our price.....each, **\$1.50**

**No. 1090.** Several dozen round back Kitchen Chairs, made of hardwood. Have heavy posts, rounds and spindles. Are shipped K. D.

Price.....in dozen lots, **\$6.50**

**No. 1090½.** Several odd Dining Room Chairs, with arm braces; some scratched, others in fair condition.

Price.....each, **\$0.65**

**No. 1091.** Two dozen Oak Dining Room Chairs, five and six spindle back, cobbler leather seat. Price.....each, **\$0.70**

**No. 1092.** One-half dozen Oak and Golden Finish Chairs, long spindle backs, heavy cross panels, cane seats, well braced below.

Price.....each, **\$0.70**

**No. 1093.** One dozen Wood and Leather Seat Chairs, having spindle backs, brace arms. In fair condition.

Price.....each, **\$0.80**

**No. 1094.** Two dozen very handsome Golden Oak Finish Dining Room Chairs, have braced arms, cane seats, fancy turned rounds, also fancy spindle backs with double upper and lower panels. Heavy, nicely turned posts. Were obtained from the Commissary Department at the World's Fair. In fair condition.

Price.....each, **\$1.00**

**No. 1095.** One dozen Vienna or Wood Chairs, in mahogany finish. Have fancy turned arms and leather seats. Well braced legs. Very handsome article. Retail for not less than \$6.50.

Our price.....each, **\$2.00**

## FOLDING CHAIRS

Over 2,000 of these chairs secured from the different concessions, reception halls, etc., on Exposition Grounds, all in first-class condition and free from possible defects. They are packed ready for shipment in lots of six and twelve.

In the construction of these Folding Chairs, only thoroughly seasoned hard maple and the best malleable iron are used. All are so built that strain placed upon them is distributed to points where provision has been made for it. In consequence these chairs are strong, durable, comfortable, and do not warp, and are far superior to any other made.

**Lot No. 1575.** A light, strong Folding Chair that stays folded. The folding device is as simple as it is effective. One last little push completes the folding, until another little push in the opposite direction starts the unfolding. The chair is handled more easily than a board of the same dimensions,  $1\frac{1}{2} \times 16 \times 14$ . In a hall used for all purposes, to-night these chairs will comfortably seat an audience, and to-morrow night, folded and piled against the walls, with boards along the top, they'll provide the necessary seats and give all the room possible for a dance. In fact, wherever Folding Chairs are desirable, these chairs are sure to give complete satisfaction. Shipping weight (per dozen), 120 pounds.

Price ..... each, 60¢      Per dozen ..... \$6.50

## A JOB OF OPERA CHAIRS

**Lot No. 1609.** We have for sale 1,200 veneered Opera Chairs like illustration. They are practically new, have seen service only about two months, and are guaranteed in first-class condition. They have iron standards, are full size, supplied with hat-racks, and a superior article in every way. Price.....each, \$1.50

**ORDER NOW BEFORE THEY ARE ALL SOLD**

## FOLDING CAMP BEDS

**No. 1580.** 3,000 of these Cots. They were used during one summer at St. Louis. Some of them, in fact, have not been used. The frame and canvas are connected in such a way that the Cot can be opened and closed without any separation of its parts. When open it is full size, comfortable and elastic. When folded it makes a snug package about 3 ft. long and 5 inches in thickness. Just the thing for camp, lawn, piazza or house use. Each Cot is complete with pillow. Weight about 15 pounds. Price.....each, \$0.75

## LAWN AND PORCH FURNITURE

Just received from the Exposition Grounds

All the following described articles were secured in large quantities. The term of service in which they were used has not impaired their value in the least.

## CAMP CHAIRS AND STOOLS

Price.....each, \$0.30  
Price.....per dozen, 3.00

Packed one dozen in a crate. The stock in these articles is of much better quality than is generally used, free from knots, smoothly machined and ends of legs are "shaped" off to set square.

No. 1578½.

No. 1578.

## SOLID-SEAT CAMP CHAIRS AND STOOLS

### The Cheapest and Most Compact Folding Chair on Earth

No side motion or sag in the seat. Comfortable when it is occupied. The only solid-seat, folding camp stool in existence. This stool is much larger, stronger, and more comfortable than any canvas stool, as it will not sag when used in the sand or other places of like nature.

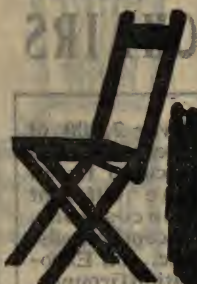

Stock is best Michigan hardwood, free from knots, smoothly finished but not varnished.

No. 1577½. Seat 13x13½ inches. Packed one dozen in crate, 13½x20x25; weight, 45 lbs. per dozen.

Price,.....each **\$0.26**

Price,.....per dozen **3.30**

These two articles are indispensable to camping parties, parades and exhibitions, as the solid seat can be used to stand on when necessary. So cheap that they can be thrown away when through with them.

## FOLDING CHAIRS, SPECIAL

No. 1576. Secured from different points on Exposition Grounds, about 2,500 Folding Chairs. These were the kind sold and rented to the sightseers on which they might rest at intervals during their travels over the various places of interest on the grounds. They are made of hard white maple, are 16 inches wide, with a seat when open about 17 inches from floor. The back extends up from floor 36 inches. Chair weighs about 5 lbs. They have flat seat enclosed in a heavy outer frame of maple, nicely finished, with rounded edges. The back is a double panel bracing same, and it renders it very comfortable to the user. Forced into a compact package, it only occupies 1 inch of space in addition to the width given above. We have taken these out of our main warehouse, overhauled them and packed them in dozen lots, which we quote at Per dozen.....**\$5.50**

## METAL CHAIRS AND STOOLS

No. M-99. Five hundred Aluminum Finish Metal Chairs, with hard wood seat. Each.....**\$2.00**

No. M-100. Same as above, except that this chair has a revolving seat. Price.....

## METAL STOOLS

No. M-101. Aluminum Finish Metal Stools, hard wood seat Price.....**\$1.50**

No. M-101.

No. M-99.

## SPECIAL STORE OR RECEPTION CHAIRS

No. 1590. About one dozen handsome Store Chairs; base is a pillar made from heavy wrought iron, extending about 13 inches from floor and about 4 inches thick; is in the form of a column; just before joining floor, it extends into a flat circular shaped bottom, about 13 inches in diameter, through which holes have been made for joining same into a stationary position on floor. The seat, which is round and revolving, is about 35 inches high from floor, is about 5 inches thick and at top is about 20 inches across. The entire seat and back are upholstered with springs and covered with genuine leather. The outer edges are studded with brass caps in japanned or black enamel.

The above chair cost originally at least \$15. As stated, we have a number of these and they are all in perfect condition, both bases and tops. They make a handsome Store Chair and are suitable for office or reception purposes.

We quote them at, each.....**\$3.50**

**You certainly must appreciate the enormous saving we offer you in every line.**

## SCHOOL DESKS

We are constantly securing from the various public schools of this and other cities, large quantities of school desks which are discarded owing to changes in their various systems. We take them into our establishment and overhaul them. We have one separate department in this business devoted entirely to the overhauling of school desks and school furniture.

The desks we ship are in thoroughly first-class condition, and practical for further use. You need have no hesitation in placing your order with us for them.

The illustration shown herewith does not represent any particular desk that we are shipping. The descriptions of them are handed you below.

The desks in the list are made of all hardwood and are superior to anything we have had in hand for sometime past:

**No. D1.** 115 desks. Height of top from floor 30 in. Height of seat from floor 14 in. Length of desk 24 in. Width of top 16 in. Cast iron legs and sides. Brake seat. Price, each.....\$1.40

## OFFICE DESKS, TABLES, ETC.

The following odds and ends in Store and Office Furniture and Fittings are articles crowded out of regular pages. Carefully examine the following lists for perhaps there may be something therein that would answer description of an article you are looking for.

**No. 2189.** One Office Table or Desk; stands about 34 inches high, is about 38 inches long and 30 inches wide; has a top that can be raised, with cabinet underneath. Has seen considerable use and is scratched up in many places, but the condition of framework is good and with a little polishing can be put into serviceable condition. Is furnished in cherry or walnut.

Price ..... \$2.25

**No. 2197.** Several double flat top Desks, each about 40x60 inches; are fitted on either side with drawers and cabinet; made of nice selected oak, neatly polished. Are in good presentable condition.

Price ..... each, \$15.00

**No. 2198.** One quarter-sawed oak flat top Office Desk, 60 inches long and regulation width; has drawers on one side of pedestal and cabinet and drawer on the other side; on the right-hand pedestal is a book cabinet which opens from end. This beautiful quarter-sawed oak article invoiced at \$45.00. Its general condition at the present time is excellent. We feel that we quote it at a bargain when we offer it at the price of ..... \$19.00

**No. 2199.** Is a flat top Desk 4 feet, 6 inches long, in black walnut. Top has been covered with leather which has been torn off it; has chest of drawers on one pedestal; other pedestal contains cabinet below, one drawer above. Is in fair condition. Price ..... \$8.00

**No. 2200.** One massively constructed 5-foot roll top Office Desk; has an extra deep bend at desk top, the width of which is 32 inches; has a large assortment of pigeon holes; is fitted with drawers on one side and cabinet on the other. Has seen some service and was scratched and roughly used but with a little work can be put into condition to make it last a number of years to come. We will further agree on this item to put same in fairly presentable shape before shipping.

Price ..... \$10.00

**No. 2193.** Several handsome mahogany finish small Office Desks or Tables; they stand about 33 inches high, are each about 40 inches long; tops are flat and have neat panel mouldings extending from a point midway on width of table around and encircling back; fitted in the front with 2 drawers, one on either side. Desks were used in offices of Administration and other Buildings. They are beautiful specimens of the cabinet maker's art and invoices show they cost the Exposition Company per desk \$14.00. Price ..... each, \$7.50

**No. 2201.** One flat top Office desk, 40 inches long; has drawers on right hand side and one long drawer in the top; is made of good seasoned oak. Has been well finished, and barring a long service, is in presentable condition. Price ..... \$9.00

**No. 2202.** One flat top Office Desk, 4 feet wide, has drawers on one side, cabinet on the other side; is made of good seasoned oak, nicely finished. Only saw six months' service. Price ..... \$11.00

**No. 2208.** One small Secretary's Desk; has hinged front, ink well holders with caps on top; has panel running around back edge of table. Table is 39 inches long and over 30 inches wide; in mahogany finish. Has seen some usage, but is in good presentable condition. Price ..... \$2.00

**No. 2203.** One flat top Office Table, is about 6 feet long, has neatly turned corner posts and two massive drawers; each 36 inches long, 8 inches deep. Fronts are of hand-carved black walnut; top has been covered with green baize which is slightly torn in places. Table is in good serviceable condition and with a very little cleaning will be suitable for almost any office.

Price ..... \$11.00

**No. 2204.** Heavily constructed oak Office Tables, 4 feet long, 40 inches wide; base includes heavy square posts, neatly carved at lower extremity. Are in good condition, suitable for fine office use.

Price ..... each, \$3.75

**No. 2205.** One Office Table, with desk compartment below; top can be raised up. Finished in mahogany, about 36 inches long and 30 inches deep. Price ..... each, \$2.50

**No. 2206.** Four beautiful Colonial style Office Tables, about 28 inches long and 18 inches wide. They stand 32 inches high, have square Colonial legs, heavy lower shelf and one long drawer in top; in a mahogany finish. All in good condition, show but very few scratches from their six months' usage. Price ..... each, \$3.00

**No. 2210.** One round Office or Library Table, 42 inch top; has heavy turned base, is made from select oak and is thoroughly well finished. Somewhat scratched in places, but still in presentable condition.

Price ..... \$2.00

**No. 2216.** One small Office Table; top is about 26x40 inches, finished in mahogany. Table is of hardwood, and while it has seen considerable service, is still in presentable shape. Price ..... \$1.25

**No. 2192.** Several dozen Office Stools, in heights averaging from 18 to 30 inches; are all hardwood. Some are considerably scratched, others in presentable condition. Price ..... each, \$0.50

Price .....each, \$0.60

We carry a complete line of Office Furniture.

## SECTIONAL FILING CABINET.

Being a system of units and a method for the application of the multiple idea, in reducing the system of keeping correspondence and records of every kind.

This system was used throughout in filing the various records of the **Louisiana Exposition Co.**, and was highly successful, thoroughly practical and the only method by which the growing demands of various departments have been properly taken care of. All the "Y. & E." sections which we will show are 33 inches long. In height they vary from the single sections, which are 4 1/4 inches, to the 9-drawer Shannon sections, which are 14 1/2 inches. They are all 17 inches in depth, with the exception of the vertical cupboard sections, which are 25 inches deep. The filing devices are noted for their unusual solidity of construction. They will fit snugly together and make practically a solid case. You can buy as many parts as we have, and tops and bases to match.

### CUPBOARD BASE SECTION.

**No. 2310.** 10 of these Cupboard Sections. Length 33 inches, height 33 1/2 inches; contains 2 sliding shelves, 15 1/4 inches wide. Double door cupboard, divided by horizontal partition.

Price .....each, \$11.00

**No. 2311.** 2 low Cupboard Sections, lengths 33 inches, height 14 1/4 inches, depth 25 inches outside. Interior divided in two compartments.

Price .....per section, \$8.75

### GENUINE SHANNON ARCH LETTER FILE SECTIONS.

**No. 2279.** Length 33 inches, height 14 1/4 inches, depth 17 inches outside. Each section contains 9 Shannon arch letter files, which will hold papers 9x12 inches. Each file drawer is equipped with a Shannon Arch cover, for keeping records of transfers. The outside of door is furnished with oxidized brass label holder and drawer pull, same as shown in illustration above of the Shannon Letter File. We have 20 of these sections.

Price .....per section, \$8.50

### TOPS.

**No. 2312.** Tops of 1-inch sections. Length 33 inches, height 2 inches, depth 17 inches.

Price .....per top, \$1.75

**No. 2313.** Also Tops for 17-inch sections. Length 33 inches, height 5 inches, depth 17 inches.

Price .....each, \$2.00

**All kinds of Filing Devices coming in Daily.**

# Metal Frames and Pictures.

## PORTRAIT FRAMES.

This cut illustrates a photograph holder which is a very attractive ornament, the subject being mounted on a 10x20 in glass. The interior is fitted with handsome lined pockets to hold the portraits. It is made of metal, gold plated and decorated with ornaments of very odd designs, making it unique and attractive. The outside dimensions are 18x26 inches.

Price .....\$3.50

## METAL FRAMES AND PICTURES.

**No. 1116.** This is an elaborate, yet dainty frame containing a pearl painting of an original and artistic design, one of the latest things out. Finished gold, and guaranteed not to tarnish. Contains a beautiful hand painted picture inlaid with pearl. Size 14x20.

Price complete .....\$3.50

**No. 1734.** Plain oval frame surmounted on top, bottom and sides with floral clusters. Finished in gold. Will not tarnish. Containing a hand painted, inlaid with pearl picture, comes in different subjects. Size 14x20.

Prices complete .....\$3.75

## SWIVEL MIRROR.

**No. 100.** Just the thing for your studio or toilet. Figure is solid metal, Egyptian figure, finished in ebony, oxidized copper, nickel and gold. Stands 12 inches high.

Price .....\$1.45

## FRAMED PICTURES.

Pictures of various kinds suitable for wall ornaments, with appropriate designs for dining-rooms, parlors or bedrooms.

**No. 1255.** Several handsome Oak Frames with gilt mouldings around the frame, and center mat enclosing fruit or game subjects. In fair condition.

Price .....each, \$1.05

**No. 1256.** Dining-room Picture. The frame is handsome veneered Flemish oak. Has a neatly moulded edge; is fitted inside of each corner with raised work of gold design. Size of Frame 21x26 inches inside, with an opening for the picture 16x20 inches. Many different pictures are included in this lot, some being in fruit, some fish and some game.

We quote them at.....each, \$1.35

**No. 1257.** About 2 dozen large Weathered Oak Frames. Are fitted on the outer edge with black or gilt ornaments. The framework is of 3-ply veneered stock; the outside dimensions of the frames are 22x26 inches; size of picture is 16x20 inches, in oval style of opening. They are fitted with fruit subjects and photos. One particular subject that appeals to us as we are describing these pictures, is a group representing "Eventide in Animal Land." The picture represents a group of sheep in the foreground, the background being a hillside studded with a small growth of trees, the foliage of which stands out against the golden glare of the setting sun.

Price of this very handsome picture as described above .....\$1.75

**No. 1258.** Several very neat Oval Frames which are about 16x26 inches outside dimensions, with 10x10 inch opening for pictures. They are fitted with colored photos and landscape views, many including game and fish subjects. A very suitable picture for dining-room.

Price .....each, \$0.95

**No. 1259.** We secured several copies of the celebrated artist Rosa Bonheur's masterpiece, "Pharaoh's Horses," which subject we presume is well known to all art lovers. Dimensions of the frame are 24 inches outside, being circular shape, and they have an 18x18-inch opening. The edges of the frame are neatly ornamented by a moulded strip which is tinted with gilt.

Price .....each, \$1.75

**We Cheerfully Rectify Any Mistake.**

## Pictures.—Continued.

No. 1260. Six round Frames, 2 in Flemish, 2 in weathered oak, and 2 in golden oak. Frame 4 inches wide, neatly ornamented on the outer edge with gold or gilt trimmings. They represent in subject Lions, Tigers, Horses and Dogs.

Price .....each, \$1.80

No. 1261. One oblong Dining-room subject; contains 3 openings. Framework in oak. About 19x35 in outside dimensions. The center opening is oval 12x14 inches, on each side of which are 2 small neatly shaped openings. These small openings are fitted one with Fish and the other with Game subjects, the center or oval opening being neatly and artistically decorated with Fruit subjects. It is in perfect condition and shows no signs of having been hung before.

Price .....\$2.25

No. 1262. Two massively constructed oak Frames, one in gold and the other in Flemish; size 25x35 outside measurement. They have openings about 17x27 inches, which are fitted with very appropriate subjects, such as Fruit, etc. Are in perfect condition at the present time.

Price .....\$1.75

No. 1263. About 3 dozen very nice oval Frames in dark brown or golden oak; size 16x19. Are ornamented with gilt on the edges of frames and fitted with Fruit and Game subjects.

Price .....\$0.60

No. 1264. One very appropriate large Parlor subject; is fitted with a Flemish oak frame, nicely embossed and ornamental mouldings; size of the frame 16x19 inches outside, and contains a 14x17-inch opening. Very suitable for parlor, bedroom or dining-room.

Price .....\$0.95

No. 1265. One Parlor or Bedroom subject. Frame is 19x35 inches outside: 1 in Flemish or golden oak, subjects ranging to Ballet Girls and other professional subjects. Picture mat is divided into 5 parts, each one fitted with a subject as mentioned above. All are in perfect condition, ready for immediate use.

Price .....each, \$1.25

No. 1266. In this lot is included a number of Parlor decorations secured from the Brazil Building on the Exposition grounds. Several handsome Parlor subjects in golden and Flemish oak frames; the outside size of these being 19x35 and the inside 14x30. The mats are divided into 3 parts, each of which enclose a hunting scene, generally representing horses and riders. All in perfect condition.

Price .....each, \$2.50

No. 1267. Secured from the wall decorations of the Brazil Building. Several very fine appearing polished Flemish Oak Frames 28x38 inches; the size of the opening 20x30 inches, which are fitted with Lion, Tiger and other subjects. The Tiger represents a Royal Bengal in the act of springing on his prey; the framework and border being very massive and nicely burnished. A very handsome article at the price we quote.

Price .....\$3.25

No. 1269. One very handsome Parlor Frame in ebony or black enamel with gilt corner trimmings; size 16x28 inches outside. The opening for picture is about 12x24; has a three-panel style, each containing a very appropriate subject of out-door life.

Price .....\$1.15

No. 1269<sup>1</sup>/<sub>4</sub>. From a bazaar at the lower end of The Pike we secured several very handsome Frames suitable for parlor, containing various subjects in water colors and photos. The frames are finished in lemon and gold and have massive ornaments in gilt. Outside dimensions of Frames are 30x34 and they have 16x20-inch openings. All are in perfect condition.

Price .....each, \$2.75

No. 1270. From the above mentioned bazaar we also secured several Pastoral Views in frames finished in gilt with brass corner ornaments, their sizes being 22x26 inches outside; picture opening being about 16x20. Views are very handsome ones, including such subjects as Eventide, The Herd, and Drinking at the Stream; these subjects being taken from masterpieces. They are all in very excellent condition.

Price .....each, \$1.25

No. 1270<sup>1</sup>/<sub>2</sub>. Several very neat Gilt Frames, brass corner ornamentation; the frames are about 20x24 inches outside, with 16x20 inch pictures. Several of these are fitted with duplex photos and imitation water colors. All manner of subjects.

Price .....each, \$0.80

No. 1271. One dozen handsome Gilt Frames, about 27x30 inches; are fitted with very appropriate subjects which include pastoral views, lakes and mountain scenes, also a few holy pictures. Corner of frames are neatly burnished and have moulded edges. These make very handsome parlor ornaments and represent the \$5.00 and \$6.00 kind of pictures usually retailed in stores.

Price .....each, \$1.90

No. 1272. Nine 23x27-inch Frames, some are finished in gilt, others in oak, others in black, green and white enamel. They are fitted with pictures 16x20 inches, containing landscapes, etc. All are in excellent condition, ready to hang.

Price .....each, \$0.80

No. 1272<sup>1</sup>/<sub>4</sub>. Three very handsome Gilt Frames, oval style, size about 24x28. Are fitted with subjects which include Mountains, Lakes, Castles, etc. Pictures bordered with a very appropriate mat in green and gray colors.

Price .....each, \$1.50

No. 1273. From Manufacturers' Exhibit Building we secured 15 very handsome serpentine-edged Frames. They are about 23x27 inches outside and are fitted with pictures 16x20 inches. Pictures include colored photos, photogravures, etc., and have all manner of subjects. Frames are finished in black with gilt trimmings and are nicely designed with raised carving. All in perfect condition and ready to hang.

Price .....each, \$1.00

No. 1274. Two dozen substantial Oak Frames; size about 25x30 inches outside with picture openings averaging about 16x20 inches. Subjects include fac-similes of noted works and holy pictures. Frames are all in good condition and ready to hang.

Price .....each, \$0.90

**We Secured Not Only All the Exposition Furniture, but Also All Building Material.**

EACH

\$6.<sup>50</sup>

# GENUINE SEMI-PORCELAIN, FULL-SIZE ONE HUNDRED PIECE DINNER SET.

EACH

\$6.<sup>50</sup>

Secured by an enormous purchase direct from a leading pottery, fifty effects in sample Dinner Sets. These include several patterns in absolutely perfect semi-porcelain, hand painted; they have well filled-in natural effects in flowers and floral decorations, and are free from crazes or imperfections. The decorations are all hand painted, with solid gold-filled edges and are perfectly true to nature. These sets were all packed on the Exposition grounds, allowing one set to a package, consisting of

- 12 Dinner Plates
- 12 Soup Plates
- 12 Breakfast Plates
- 12 Handled Tea Cups
- 12 Saucers
- 12 Individual Butter Dishes
- 6 "Newport" Deep Bowls
- 1 "Manhattan" Platter
- 1 Fish Dish

- 1 Large Size Vegetable Dish
- 1 Water Pitcher
- 6 "Lexington" Fruit Dishes
- 6 Pudding Dishes
- 1 "Waldorf" Cake Plate
- 1 Salad Dish
- 1 Pickle or Olive Dish
- 1 Covered Sugar Bowl
- 1 "Seabreeze" Cream Pitcher

## ALL SECURELY PACKED FOR \$6.50

We can guarantee the above Dinner Sets to be well worth, not alone the price asked, \$6.50, but the value representing their real worth, which is about \$12.00 or \$14.00. This is certainly an opportunity for the economical housewife to secure one of the lifetime bargains so seldom seen, in genuine semi-porcelain Dinner Sets.

**This bargain set is good enough for any table in the land**

## SILVERWARE—Continued.

**No. 1363.** One beautiful Cake Basket, quadruple silverplate, nicely burnished and floral decoration as shown. Decoration is all hand work. Quality of this silverware is the very best. We secured just 6 of these from the celebrated Wallace Exhibition in Silversmiths' National Exhibit on Exposition grounds. This is an article that would easily retail in ordinary jewelry stores for at least \$10.00 or \$12.00  
Price .....each, **\$3.90**

This is guaranteed to be a genuine Wallace Bros. article of silverware, and as the public is well aware of the fine quality of goods which bear that name, we can truthfully state that the purchaser of one of these Cake Baskets will have something to be proud of.

**No. 1364.** Three beautiful Pickle Dishes or Jars of semi-cut glass enclosed in a quadruple plate base and surmounted by silver plate cover. Have heavy handles with fine edges ornamentally encircling same. Will never tarnish, no matter how hard the usage or how continuous the length of same.  
Price .....each, **\$1.75**

**No. 1365.** Broad Tray. Has fine scalloped center made of quadruple silver plate with heavily embossed beaded edges, in a burnished finish. This makes a beautiful piece of tableware and would sell in any jewelry store for at least \$4.00. We quote on this exceptionally fine article.....**\$1.90**

**No. 1366.** One dozen Pepper and Salt Sets. Bodies are in heavy semi-cut glass with corrugated sides and caps and are of fine quadruple plate; nicely beaded edges.  
Price .....each, **\$1.00**

**No. 1367.** The article we describe under No. 1367 is an exquisitely mounted Berry Dish. The base is a beautifully burnished and has heavily chased rim in Roman design. The body of bowl is of heavy drill glass in fancy figured shape and green color. The outside of glass has neatly raised floral and flower designs. Trimmings are gilt. A fantastic handle encircles the dish on top; handle is finely carved and neatly mounted, balance of same being a very heavy burnished finish.  
Price .....each, **\$3.75**

**No. 1368.** Sugar Shell. We guarantee this particular item to be a genuine Essex, which denotes the very finest kind of quadruple silver plate. Handle is beautifully ornamented with scroll design extending length of same. A floral scroll design covers upper part of the shell.  
Price .....each, **\$0.45**

**No. 1369.** Sugar Shell. Something similar to one just described. Is an ordinary triple plate, but still a very handsome article. A number of these secured from different exhibits.  
Price .....each, **\$0.30**

**No. 1370.** One closing item in this silver department that we wish to impress strongly on the prospective purchaser is a Sugar Shell and Butter Knife Set, which we secured to the number of 1 dozen. The Sugar Shell includes a beautifully chased handle and heavily plated shell; all quadruple. We believe it to be Essex pattern. Knife has same style of handle and is also heavily ornamented with raised work. Blade is beautifully shaped. These are packed 2 in a box, which is satin lined and of prepossessing appearance. They are articles that at a glance would impress one as being worth \$8.00 or \$10.00. We offer them at per set .....**\$0.90**

**No. 1353.** Three 4-piece Tea Sets; bowls are exactly like illustration. Were the samples of one of the most noted silversmiths of this country. Name withheld owing to conditions governing sale of samples. They are beautifully embossed on spout, handles and rim, body being finished in a bright burnished effect. Set includes Tea Pot like illustration, Sugar Bowl, double handles, Small Cream Pitcher, and a Spoon Holder Bowl. One of these sets, if ordinary sold through the medium of the average dealer, would bring no less than \$15.00 or \$16.00. Our price is .....**\$8.75**  
For any one desiring a particularly fine Silver Set we could offer the above as an unexampled value.

**No. 1354.** There were included in this Assortment several Syrup and Butter Dishes, etc., which would match the above sets. These are also in the finest kind of silver plate.  
Price of Syrup Dish with tray to match.....**\$3.25**  
Price of Butter Dish to match.....**\$3.25**

**SILVERWARE—Continued.**

**No. 1361.** Berry Dishes of medium size. Have heavy burnished quadruple base with raised work on the pillars which support same. From a point where the large Berry Dish handle joins the base it is engraved around same. The upper part of handle is also heavily mounted. The dish itself is all scalloped glass with a ruffled edge which is a real imitation of a piece of hand-made fabric. This beautiful Berry Dish would be a decided acquisition upon any fine table.  
Price .....\$3.75

**No. 1357.** The accompanying illustration portrays an individual Pepper and Salt Set. We secured just 12 Sets like this. The material is heavily quadruple silver plated, handsomely embossed edges. The cellars have beaded rim and are lined inside with gold. Sets like these are worth easily \$5.00 each. The materials they are constructed from are of such a nature as to render them impervious to acids or hard usage. They will last a lifetime. A handsomer or more useful decoration for a table is hard to find. We can recommend this item to be one of the greatest values in this line of which we have come into possession.  
Price .....per set, \$1.90

**No. 1358.** Four handsome quadruple-plate Cracker Jars, heavy semi-cut glass sides, hand decorated. The lower parts of the panels are very neatly ornamented and touched in gold. The base is of heavy plate with circular form edges neatly paneled. The top is covered with quadruple plate, with embossed rim. Jar stands about 8 inches high and 5 inches in diameter. It makes a splendid decoration for a sideboard, and for a practical and useful piece of tableware it would be hard to improve on this article. We would gladly ship this on a guarantee that if same is not exactly as represented it may be returned.  
Price .....\$2.50

**No. 1359.** One beautiful decorated Crumb Set; includes a half-moon style Tray with hand engraved flower design in center. Has raised edge with neatly ornamented rim, and in the center of half-moon is inserted a handle which represents a Roman leaf; leaf is also neatly decorated and hand engraved. These are perfect specimens of the maker's art and are to be found only with first-class jewelers. We feel that we are offering them at a genuine bargain at .....per set, \$3.25

**No. 1360.** A very pretty Gravy Boat with Tray. Same is in regular formation of all gravy dishes. The rim is most beautifully beaded and has handsomely embossed handle. The accompanying Tray has neatly designed centerpiece with very appropriate beaded edge which matches the dish. For any one desiring a very handsome and fine piece of silver, we would recommend this, especially at the very low figure of \$4.95

**No. 1362.** One large, fine-appearing Cracker Jar. Has half-cut glass in octagon shape, is about 5 inches in diameter, stands about 8 1/4 inches high. Is surmounted by a cap of heavy plate with beaded rim. The base is also of heavy quadruple plate. This is a very beautiful piece of tableware and we can especially recommend it at the price of.....\$2.75

**No. 1356.** About six dozen fine heavy plated Tea Spoons, very similar to above illustration, were secured from the silversmith's exhibit at St. Louis. Have heavily embossed handles which stand out in decided contrast to a beautiful burnished effect on balance of Spoon. The maker from whom these were secured guarantees this pattern of Spoon to last a lifetime and never to tarnish. They are the kind usually rated in the stores for about \$5.00 per set. We offer a set of 6 of these Spoons for \$1.40

If you do not see what you want, write for our Special Lists.

## STANDARD SILVERWARE.

Many odds and ends secured from the Exposition; majority taken from Manufacturer's Exhibits, others from small hotels, dining-rooms, etc. The lots include standard wares from all of the noted manufacturers or silversmiths. We represent these articles or list them exactly as we find them. No details are exaggerated and we can truthfully state that any one making selections from the following list will be doubly satisfied on receipt of goods.

So confident are we of the extraordinary values represented by these Genuine Plate Sets at the above price, that we positively guarantee them. If on receipt of one of these Sets any purchaser finds goods have been misrepresented, we will refund the purchase price.

**No. 1351.** Quadruple-plate Dish exactly like illustration. We secured 4 of these beautiful Silver Plated Butter Dishes. They have handsome beaded rim close to top as faintly shown on illustration, and are surmounted by embossed knob or handle. They are finished in satin.  
Price .....each, \$2.50

**No. 1350.** Among the many pieces of genuine Silverware secured from Silversmiths' Exhibit, were about half a dozen 4-piece sets of quadruple silver plate. They are in tea-set styles. The style of Tea Pot is exactly like illustration. The second piece in set is a handsome Sugar Bowl, same style as tea pot only with double handles; third piece being a Cream Pitcher with neatly turned spout, and the fourth a Spoon Holder. This set is beautifully embossed on handles, spout and top of each piece having beaded rim. The engraving work on side, shown in illustration, is of a most complex nature and has evidently embodied the highest skill of the silversmith's craft. Engraving is in a satin finish. These sets were made solely for Exposition purposes and are finished even better than the ordinary sets to be obtained from high-priced jewelers. We feel that we are quoting extraordinary bargains when we offer this 4-piece set for.....  
\$6.50

**No. 1355.** The above illustration portrays a beautiful Drinking Goblet. The lower part of same is handsomely engraved, and handle has embossed effect. Goblet is made from the very finest kind of heavy quadruple and is gold lined. A handsomer piece of silverware would be hard to find in any jewelry house, even in articles running into \$7.00 or \$8.00 figures.  
We secured 6 and offer them at.....each, \$0.95

**No. 1352.** This very beautiful Syrup Plate, as shown in illustration just above, will match the tea pot set on the upper portion of page. We secured 2 of these. As illustration shows, they are beautiful examples of the silversmith's art. have handsome beaded rims, embossed handles and spout. This Syrup Dish alone will decorate the finest table on state occasions.  
Price .....each, \$2.30

## ODD STOVES AND RANGES

From various buildings on the Exposition Grounds which had been completed during the winter previous to the opening of the Fair, we secured a number of Heating Stoves of various kinds and patterns. We list about a dozen, suitable for home use, as follows:

**No. 1286.** One substantial Base Burner Heating Stove, has a 14-inch fire-pot, large nickel top, neatly surmounted by cornice. Has grate of good quality, has been overhauled, in fair condition.  
Price .....\$9.50

**No. 1287.** One Combination Wood or Coal Base Burner Drum Stove, stands about 55 inches high from the floor, has 12-inch fire-pot, revolving drop grate, large base attached below. Of the Garland make. Is a standard pattern. Has been thoroughly overhauled.  
Price .....\$10.50

**No. 1288.** One very massively constructed Bright Oak Heater, has a large 16-inch fire pot, with heavy cast base, neatly turned nickel legs. Lower part of fire-pot is enclosed with handsome nickel railing, in fair condition. Also surmounted at the top of the fire-pot by another neat nickeled rail. All castings have been overhauled and all trimmings are complete.  
Very reasonable at price.....\$7.75

**No. 1289.** One very neatly constructed Art Heating Stove. This is a Base Burner. Has a 13-inch fire-pot. While a standard pattern, name can not be ascertained at the present moment. Has been overhauled, all trimmings complete. Base is neatly nickeled. The upper part of the top is surmounted by a neatly nickeled crown.  
Price .....\$12.50

**No. 1290.** One very neatly constructed Heating Stove, about a 12-inch fire-pot, good substantial base, has been thoroughly overhauled. Is in perfect condition at the present time.  
Price .....\$5.50

**No. 1290½.** One solid constructed Yankee pattern Drum Stove. The fire-pot is about 15 inches in diameter. Heavy well-constructed base, with large 8-inch lid on top; has 5-inch pipe collar. This is a very substantial style of Heater and will heat four or five rooms in winter. Is in good condition.  
Price.....\$7.75

**No. 1291.** One fine Hot Blast Heater, has large oval-shaped fire-pot about 18 to 20 inches deep. Has malleable iron crown; has a large front door with damper draft. Stove has neatly nickeled flanges on the sides which would serve for foot-rests. This kind of Hot Blast Stove can not be purchased for less than from \$18.00 to \$25.00.  
We ask only.....\$8.25

**No. 1292.** One very massive Store Heater, has large 15-inch fire-pot. Has a top section which extends the height of the Stove to a point of 80 inches from the floor. The above described is an immense heater used to heat the north wing of the Maine Building during the winter period preceding the Exposition. It is fitted with a base burner adjusted to permit of any kind of coal or wood being used.  
Price.....\$17.50

**No. 1292½.** One large Store Heater, Cannon Ball pattern, has a 16-inch fire-pot enclosed by a very neat nickel rim. Is fitted with hot water reservoir. On top is a 5-inch lid which permits of kettle being heated on same. Stove is in fair condition.  
Price .....\$10.50

**No. 1293.** One well-constructed Cannon Ball pattern of Store Heater with a capacity for heating four good-sized rooms. Has very heavy drum of solid sheet iron. The top crown of the stove is 18 inches across. Has a 6-inch pipe collar. The door of fire-pot is fitted with a new style damper which permits of regulation of fire so as to burn over night. Hard or soft coal may be used in the Stove.  
Price .....\$10.00

**No. 1294.** One Cannon Ball Store or House Heater, 19-inch fire-pot, good capacity. Front door slightly clipped as is a small piece of the base, but otherwise in good condition.  
Price .....\$5.00

**No. 1294½.** One 8-column vertical Gas Heater, stands about 39 inches high and about 33 inches long. Columns oval shaped. Have very neatly ornamented sides. Is fitted with one long side door which permits of the Stove being cleansed. Nicely carved claw feet, finished in black enamel. In good condition.  
Price .....\$5.50

# CARPET BARGAINS

—

READ BELOW

**T**HE FOLLOWING ARTICLES SHOULD COMMAND THE ATTENTION OF EVERY ECONOMICAL PURCHASER. THESE CARPETS ARE ALL NEW. SOME ARE FROM THE WORLD'S FAIR EXHIBITS AND SOME WERE OBTAINED IN A RECENT SHERIFF'S SALE. THE PRICES QUOTED ARE BELOW THE COST OF MANUFACTURE.

== THINK WELL OF THIS FACT. ==

## INGRAINS

**Lot 3201.** A variety of designs in grantees, all body colors. Clean new goods, worth at least 50c. Our price per yard 32c.

**Lot 3202.** Union wool ingraings, fine qualities and harmonized colored designs. Our price speaks for itself. Per yard 44c.

**Lot 3203.** Fine, all-wool ingraings, body colors in green and red, with pretty floral effects. An 85c quality at per yard 56c.

## BRUSSELS CARPETS

100 ROLLS.

**Lot 3203.** Is a high grade tapestry Brussels. Has oak and dark red backgrounds with floral patterns in harmonizing colors to match. These are the very newest effects and could bring very easily 95c per yard. We will dispose of the entire lot at 59c per yard.

## VELVET CARPETS

**Lot 3204.** Only 35 rolls of a fine quality of imported velvet carpet, beautiful patterns of red, oak and green bodies with harmonizing

colored designs, all new, and would be cheap at \$1.45. Our figure is 93c per yard.

## AXMINSTER CARPETS

**Lot 3205.** About 100 rolls of Axminster carpets were secured as salvage stock. On opening same we found every yard perfect. The body colors are green, brown and red with very delicate shadings. We would be justified in asking the full retail value, \$1.75 per yard, but while it lasts you can have it for \$1.05 per yard.

## STAIR CARPETS

**Lot 3206.** Venetian stair carpet of a good quality. Correlated center with pattern edge. Makes a durable carpet for hall or stairs. Colors are green, brown or tan. 18 inches wide. Price per yard 24c.

**Lot 3207.** 75 rolls of fine, all-wool stair carpet, 22½ inches wide, dark green body with blending colors, floral designs. Per yard 43c.

**Lot 3208.** Hemp carpet, 36 inches wide, red or green and white mixed stripes. A very substantial floor covering. Per yard 14c.

IN ADDITION TO ABOVE ITEMS WE HAVE ON HAND A COMPLETE LINE OF  
**RUGS AND CARPETS, NEW AND USED,**

INCLUDING ALL THE MANUFACTURERS' SAMPLES FROM THE ST. LOUIS EXPOSITION. A LIST OF THESE MAY BE HAD ON APPLICATION.

WE SELL EVERYTHING USED IN CONSTRUCTING AND FURNISHING A HOUSE.

## A SACRIFICE IN INGRAINS.

# Rugs and Art Squares From the World's Fair

Purchased from a leading manufacturer the entire exhibit used at the great World's Fair. They are more or less shop worn, but are all new and have never been used.

## "SPECIAL BARGAIN IN ART SQUARES"

Design No. 1

oriental goods. These goods are reversible, and can be used on both sides, which naturally gives you two rugs for the price of one.

At the present time we can supply any of these designs in the following combinations:--Dark green back ground, with orange and white figure; dark red and black back ground, with gold and white figure; dark blue back ground, with orange and white figure; dark green back ground, with dark red figure; dark red and black background, with light green and white figure.

Design No. 3

**T**HE CHEAPEST and most serviceable Rug or Art Square that is manufactured, and at prices which must suit the needs of every one, and which surpass any other floor coverings for wearing qualities.

**Lot No. 1000.** These goods are extra heavy Ingrains or Cotton Granites, closely woven and made in one piece with a deep fringe on two ends. The centers are either handsome scrolls or floral designs, with a deep border to correspond; some are rich, oriental medallion centers with border to match. We can only illustrate three of the patterns, but these will give you a faint idea of the designs.

These goods are not in solid colors, but in an appropriate combination of beautifully blended colorings; imitating very closely, in this manner, the high priced

Design No. 2

You can get a rug large enough to cover a small room for \$1.90, leaving a small border of nicely stained floor around the rug; which is far better and far cheaper than covering your entire floor with carpet, and the rug can easily be taken up and cleaned and put back again, and are therefor more cleanly and sanitary than carpets, and necessarily more free from collecting dirt and dust, so annoying to the house-keeper, and so harmful to the health. These goods are offered in sizes and prices, as follows:

9 feet x 6 feet.....	\$ 1 90
9 feet x 7½ feet.....	2 35
9 feet x 9 feet.....	2 75
9 feet x 10½ feet.....	3 25
9 feet x 12 feet.....	3 75

**Be sure to order by Lot No. 1000.**

**Will be shipped from our Chicago warehouse**

# Rugs and Art Squares From the World's Fair

Handsome designs in fine quality, Wool Art Squares or Floor Rugs. Secured from Manufacturer's World's Fair Exhibit. All New. Some slight shop worn.

## "Delmar Reversible Wool Art Squares or Floor Rugs"

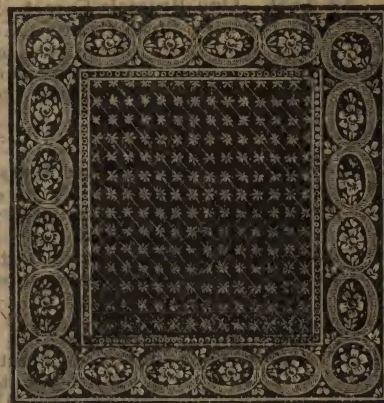

Design No. 4

They come in an almost endless variety of colorings in handsome combinations of greens, reds, blues, and tans; and we can surely please you if you will but tell us the special combination you desire.

We illustrate just a few of the patterns, although we can please you with any others you may desire. You will notice the centers are either very handsome all-over patterns or striking

Lot No. 1020. These are entirely new rugs. These designs have never before been shown. They are made of a very closely woven fabric of cotton warp and very heavy wool filling. The colors are guaranteed to be strictly fast, and there is nothing of the kind that you can buy at twice what we are asking for these goods, and that will wear half so well. These are as heavy and as durable as the so called All Wool rugs sold usually at twice the price we are asking.

Design No. 5

medallions, with extra wide border to match the centers, and very heavy fringe on two ends. They can be used on both sides, and there is nothing in a wool rug manufactured, so cheap in price or so serviceable. These goods can be had in the following sizes and prices:

9 feet x 6 feet.....	\$ 3 30
9 feet x 7½ feet.....	4 05
9 feet x 9 feet.....	4 95
9 feet x 10½ feet.....	5 75
9 feet x 12 feet.....	6 60

**Be Sure to Order by Lot No. 1020.**

Design No. 6

**Will be shipped from our Chicago warehouse**

## WORLD'S FAIR RUGS AND CARPETS

**No. 3550.** One Moquette Carpet, size  $4\frac{1}{2} \times 12$  feet. Body colors, tan with floral design in dark brown and old gold. This is a very heavy Carpet, and although it has seen considerable wear, is in excellent condition.  
Price.....**\$2.50**

**No. 3551.** One heavy Body Brussels Carpet, size 6 feet, 10 inches by 12 feet, tan, handsome floral designs in light colors. Very suitable Carpet for most any room.  
Price only.....**\$4.75**

**No. 3552.** One extra heavy Tapestry Brussels Carpet, size  $7 \times 13\frac{1}{2}$  feet; body color in dark red, with light tan figured designs. Considerably worn but still is not threadbare and will give excellent wear for a number of years.  
Price.....**\$4.75**

**No. 3553.** One Brussels Carpet, size  $8\frac{1}{2} \times 17\frac{1}{2}$  feet; body color in tan with floral figured patterns in blended colors. Good quality of carpeting and good for back parlor, dining-room or bedroom.  
Price.....**\$7.25**

**No. 3554.** One Brussels Carpet, size  $9 \times 12$  feet; dark red body floral design. Considerably worn, somewhat threadbare in places but not bad. Will give excellent service for quite a while to come; is a suitable Carpet for large bedroom or rear parlor.  
Price.....**\$4.50**

**No. 3555.** One good quality Brussels Carpet; size about  $9 \times 18$  feet; body in color of tan; floral design in blue, old gold and red which harmonize perfectly with body. Somewhat worn, slightly threadbare, but still a suitable Carpet for many different rooms.  
Price.....**\$10.00**

**No. 3556.** One fine Axminster Square Carpet; size 4 feet, 8 inches by about 6 feet; body colors in tan and old gold, with black figured patterns in Oriental and Persian designs. Very fine piece of goods, at a low price.....**\$2.75**

**No. 3557.** One very fine quality Brussels Carpet,  $9\frac{1}{2} \times 11$  feet, body colors in tan, in figured designs and blended colors; border on three sides, seen but little wear. Will make a nice Carpet for any parlor or dining-room.  
Price.....**\$13.00**

**No. 3558.** One Tapestry Brussels Carpet of very good quality, size about  $9\frac{1}{2} \times 12$  feet, body colors in tan, old gold and red to match in neat figured designs; slightly worn but in good condition. We recommend it for any parlor, bedroom or dining-room.

Price.....per yard, 45c

## DOMESTIC ORIENTAL RUGS

The Egyptian Rug Exhibit on the Exposition grounds surpassed everything in magnitude in regard to floor coverings that had ever been presented. We find on examination that the majority of these samples which we secured are worthy of description, especially Rugs in various Oriental colors, with Egyptian and Persian figures and squares, representing historical events in the Far East, as the reader who is well up in Oriental history knows that all historical events of the Far East are represented on the Egyptian and Persian Rugs. All these Rugs are made of pure white, long staple wool, and nothing but the purest vegetable dyes were used in coloring same. The Egyptian Rugs differ slightly from the Persian, inasmuch as they are woven on one side and are reversible. There are so many combinations of colors and styles of these Rugs that space will not permit of all being described, and if you should order, kindly mention the combination of colors and the style Rug you desire and we will endeavor to fill your order to your entire satisfaction. Sizes and prices as follows:

<b>Lot No. 3208.</b>	27x56 .....	<b>\$3.75</b>
<b>Lot No. 3209.</b>	3x 5.....each,	<b>\$ 4.25</b>
<b>Lot No. 3210.</b>	4x 6.....each,	<b>7.75</b>
<b>Lot No. 3211.</b>	9x12.....each,	<b>29.50</b>

## SMYRNA RUGS

There were also hundreds of small and large-size Smyrna Rugs. The many patterns include different combinations of colors, some in modern effects with figured and medallion centers; others in Egyptian and Persian squares. They are handsome, durable floor coverings, suitable for parlor, bedroom or dining-room. They represent a high quality of the makers' art and were constructed for the inspection of critics from all over the world.

The patterns include Royal Smyrna Rugs, Parisian and genuine Orleans patterns.

It is well nigh impossible for us to give correct descriptions of the articles which our lists contain, but will state that some have medallion centers, some squares, others in finely blended colors. Some of the patterns have medallion centers as well as animal patterns. Sizes and prices as follows:

<b>No. 3212.</b>	30 x50, neatly fringed.....	<b>\$1.50</b>
	30 x60.....	<b>2.05</b>
	6 x9 feet.....	<b>4.75</b>
	7½x10 or 10½.....	<b>7.25</b>
	9 x12.....	<b>9.25</b>

In addition to these we have 9x12 Smyrna Rugs that have seen some floor service during the Exposition period. We offer these at .....

## PURE ARABIAN WOOL SMYRNA RUGS

**No. 3213.** In 30x60 inch sizes. We were very fortunate in securing about 20 of these Arabian Rugs from the Arabian village at the Exposition. They were used as samples of the handiwork of these tribes. In both modern and antique designs, beautiful blended colors. We would particularly recommend these articles as being of most excellent merit. This particular pattern is not very well known in this country as they are not made for importation, being the products of certain Arabian tribes. These followers of the wind-swept deserts were induced to come here to the St. Louis Exposition, and they made arrangements to bring samples of their handiwork with them. They are very beautiful floor patterns and exceptional bargains at the price asked for them.

Each.....**\$3.75**

## KURDISTAN RUGS

Secured from the Oriental section of the Rug Exhibit. Many of these patterns were used on the exhibition rack. Many of the others were used on the floors. The material of which they are composed is a hard granite fabric, has native Amsterdam ingrain or granite weave. They are reversible and closely woven through and through. They come in combinations of colors; one side green, the other red, also in combinations of other colors, red and olive green. We understand them to have been made from scoured wool and cotton of Persian extraction. They represent all modern and antique patterns and make a splendid floor covering for either dining-room or bedroom; the smaller ones being suitable for ornaments in parlors. Sizes and prices as follows:

<b>No. 3214.</b>	3x5.....	<b>\$ 3.25</b>
	9x12.....	<b>14.00</b>
	6x9.....	<b>6.75</b>

**No. 3215.** One beautiful Oriental design of Axminster Rug, coming from Reception Room of Oriental Temple of Palmistry, and is supposed to have been imported direct from Teheran. The design is a beautiful large medallion and all-over Persian effect, embodying alternating backgrounds of individual medallions of cream color, tan color and then old gold; all other possible combinations of Oriental colors are represented thereon. The value of such a Rug, considering the slight amount of service it sustained, should be at least \$75.00.

We list it at .....

## LINOLEUMS

Among the various lots of Linoleums secured from so many different points on the Exposition grounds, are a few worthy of special mention.

**No. 3510.** Includes about 16 rolls, in 2-yard widths. This Linoleum is in an ox-blood shade, or granite. It is a genuine Edinburg material which denotes finest quality of Semi-Scotch Linoleum sold. Some of this had been used, but a majority of it had never been laid on floor; makes a handsome floor covering, suitable for store, office or home.

We price it at.....per square yard, **\$0.52**

**No. 3511.** Included in the above lot were a number of rolls of semi-Mosaic tile pattern of Inlaid Linoleum. This is an exceptionally flexible piece of material and is almost rendered impervious to heat or cold owing to the quantity of oil used in its manufacture. Colors run in a butterfly brown and bird's-nest background, with regulation semi-Mosaic and tile pattern.

Price.....per square yard, **\$0.75**

**No. 3512.** Includes about 7 rolls of 2-yard wide Inlaid Linoleum, somewhat similar to above. Had been used during Exposition period, but is in excellent condition.

Price.....per yard, **\$0.70**

**No. 3513.** Includes many small pieces of Linoleum, majority of them being 2 yards wide and averaging in lengths from 1 to 8 yards. Material is all of the inlaid pattern; includes the different designs, tiles, solid colors, etc. Owing to the fact that these pieces are valueless to anyone except when used for a special purpose, we quote them at an exceptionally low price of

Per square yard.....**\$0.65**

The above mentioned remnants will average from 3 to 15 square yards to the piece.

**No. 3514.** Several rolls of the vast Exposition stock of new and used Linoleums yet remain on our hands. To close these out we offer very fine print Linoleum with heavy body; it is the double D grade; all fancy floral, tile and imitation oak patterns. Comes in 2 yard widths.

Price.....per square yard, **\$0.38**

## OIL CLOTHS

**No. 3517.** A vast quantity of Oilcloth secured from Commissary department store room, include a variety of beautiful semi-Mosaic, tile and floral and many other designs. Comes in 1 and 1½ and 2 yard widths, all in good condition. This makes a splendid floor covering and considering the circumstance, we offer it at far below even the mill price on same.

Price.....per square yard, **\$0.22**

**No. 3518.** About 8 rolls of genuine American Oilcloth, includes all the finest grades of same obtained in the above assortment and thoroughly overhauled and we can certainly vouch for its first-class condition.

Price.....per square yard, **\$0.25**

**No. 3519.** Includes a variety of remnants in Oilcloth, including pieces containing from 2 to 12 square yards. All in fair condition.

Price.....per square yard, **\$0.20**

Dishes of all kinds including wash bowls, pitchers, line. Let us send you our special list.

## STRAW MATTING

**No. 3529.** Every yard of Straw Matting used in the great Exposition at St. Louis came into our possession at the close of the Fair. Much of this material is of such an excellent nature that our workmen in their dismantling operations came across strips 40 and 50 yards long and these were removed from the floors and of the majority of these strips, the removal process has not injured the material in the least. Of course it shows the slight usage that it received in its six months' use in dirt and dust to a slight extent, but otherwise with a little cleaning, matting is just as perfect as when it was originally laid. It comes in a large assortment of China patterns, including cross stripes of various colored designs. All has been grouped into a single lot and listed at.....per yard, **\$0.14**

**No. 3530.** Over 2,500 yards of Cocoa Matting or Hall Carpeting secured from all the different above-mentioned buildings; same has been thoroughly renovated and is in excellent condition. Comes in 22-inch widths and in strips varying from 2 to 15 yards long. It is material the very finest of its kind and would retail for from 20 to 40 cents per yard. We group all the several qualities in one lot at

Price.....per square yard, **\$0.37**

**No. 3531.** 400 yards of Cocoa Matting in dark and light stripes alternating; comes in one yard widths; is slightly water stained at one end.

Price.....per running yard, **\$0.40**

**No. 3532.** Includes all the remnants in Straw Matting received from the great Exposition grounds. Many pieces are included in this lot averaging from 1 to 3 yards in length.

From 1 to 2 yard lengths.....**\$0.10**

" 2 " 3 " ".....**.15**

Has 18 inch trellised fringe, 36 inches wide, 3 yards long. You can purchase with perfect safety, as we guarantee absolute satisfaction. Price.....per pair, **\$2.50**

No. 3118.

No. 3117.

All sample portieres as used in Manufacturers' exhibits and bazaars in general, throughout the Exposition grounds have been secured by us. The designs and styles represent many imperial patterns, expressly woven and designed for exhibition purposes. They are in qualities from the cheapest to the best. We have also divided these items into various lots, which represent to some extent the different values as they appear to us. We describe them as follows:

**No. 3119.** Includes all ordinary width portieres which range about 36 inches and in 3 yard lengths. Many represent oriental panel effect with floral borders, others alternate with heavy brocaded woven Arabian design of patterns. They come in different combinations of colors. These colors include all the popular effects that are to be found on draperies in general. Such combinations as red and green, green and old gold, stripe effect of green, old gold, red and cream colors being prominent in the assortment. They are all in good condition. Many of them were enclosed in cases and are thus free from even exhibition dust. Price.....per pair, **\$1.50**

**Nothing in Merchandise that we do not handle**

**Lot No. S. 291.** 24 Couch Covers, Bagdad stripe, extra heavy, tassels all around; very neat design blended with old gold, red and green; size 60" wide and 3 yards long; can be used for Portiere. Price, each ..... \$2.75

## ROPE PORTIERES—COUCH COVERS

**Lot No. 3131.** Includes some better patterns in Portieres. These are in average 72x96 inch sizes; have average 5/8-inch ropes with solid 6-inch tassels. They come in many different colors which include green and old rose, empire green and red, Nile green and olive green, dark red and apple green; color effects are very pretty and would certainly prove an adornment to any parlor. The colors mentioned will harmonize with all general wall decorations. All in good condition; free from wear.

Price.....each, **\$1.75**

**Lot No. 3132.** Includes 72x96-inch sizes in handsomely decorated Portieres. All different combinations of green and red colors represented; also old rose and tan. Have heavy lattice constructed upper edges with handsomely hung border and heavy 6 and 7-inch mercerized tassels. The cords range in 3/4-inch sizes. They represent very fine articles and include \$6, \$7 and \$8 values.

Price.....each, **\$2.25**

**Lot No. 3133.** Includes all the fine imported Chenille Cord Portieres secured. They are in large sizes, have heavy 6 and 7-inch tassels; are in well-blended combinations of colors. All in perfect condition. The upper festoonings on these patterns include 2 and 3-rope effects, over which is a regular lattice work construction which forms the adjustment to bar. When hung they create a beautiful effect and certainly lend ornamentation to even the plainest of parlors. They are suitable to match the finest decorated walls and the colors and combinations thereof. Are bound to please wherever seen. All these finer articles are grouped in one assortment which we quote at.....each, **\$3.50**

**Lot No. 3138.** Includes many beautiful imported patterns in extra wide sizes, full lengths; majority of them run in alternating stripes of red, green and old gold, with fancy small designs inserted. They are combinations of colors that please and harmonize with any surroundings. The very finest of these were grouped together and listed at.....each, **\$3.00**

Regular ones and the ones which represent values up to \$7 and \$8, are listed at each, **\$2.50**

The above list of Couch Covers is one that includes values impossible to duplicate in ordinary retail circles. Many of these patterns were ones that will never be made up for ordinary use or placed on sale. They represent extra fine designs and handwork of the weaver's art, designs that were to be used for exhibition purposes only; this owing to the fact that the extra amount of work would render it impossible for the makers to continue these patterns at the ordinary market prices. We recommend them as values to anyone in need of Couch Covers or Single Portieres, and can safely say that any order placed will be bound to give satisfaction.

It will pay to come to Chicago to see us. Our mammoth plant covers 25 acres and is the most marvelous institution of the city. Anything manufactured can be purchased of us.

All the beautiful sample Couch Covers used in Exposition Bazaars were secured by us. They include many beautiful oriental and modern designs. All the famous coverings from noted Arabian and Persian tribes are reproduced in fac-simile on these Couch Covers. These beautiful covers which include tapestries, chenilles and all of the other materials used for first-class couch coverings, are listed in a number of 5 lots, according to condition and quality of articles. The lots are as follows:

**Lot No. 3134.** Reversible patterns, average lengths about 3 yards; widths over all about 50 inches. Have handsome fringed borders, are in Bagdad and Persian stripes, some in Roman stripes, alternate in green, red and mixed harmonizing colorings. Some have brocaded weave and others solid weaving; of the kind that usually retail for \$4, \$5, \$6 and \$7.

Price.....each, **\$1.25**

**Lot No. 3135.** Includes patterns ranging in 3-yard lengths, 60-inch widths. Are in gray, blue, old gold, red and tan colors; some in medallion and overall effects; others in Roman and Arabian stripes, all with neatly fringed edges. All of these articles are strictly reversible and the colors are solid. There are so many different combinations of colors that it is difficult to describe them owing to our limited space. If a selection on this pattern is made, all we ask is the colors desired and we will endeavor to fill any orders in such a satisfactory manner that the customer or purchaser will be invariably pleased. Price.....each, **\$2.25**

**Lot No. 3136.** Several beautiful reversible Tapestry Couch Covers; lengths are 6 feet, 4 inches. The majority of them have body of dark green with beautiful scroll or floral design worked in red. They are finished at corners with large ornamental designs and on border are equipped with double tied fringe and tassels. Color combinations on these items is such as to harmonize with most any color scheme used in ordinary parlors. They are all in perfect condition and are bound to give satisfaction at the low figure of each, **\$1.50**

**Lot No. 3137.** Consists of beautiful Bagdad Persian Insertions, combination Roman and modern designs in stripes; figured centers and also medallion centers. They are of medium weight and average colors are red and green. Are in exceptionally wide sizes, being 62 inches wide, full length. These may be used for either couch coverings or portieres. Are equipped with the regular fringe and tasseled edges.

Price.....each, **\$1.85**

## FINE LAMINATE SHADING

### VENETIAN BLINDS

**No. 1450.** All over the Exposition grounds the different Continental exhibitions were fitted with Venetian Blinds. These were in all lengths, some being as high as 10 and 12 feet; patterns ranging in width from 30 to 35 inches. Constructed of fine substantial teak wood, which is weather-proof. Fitted with canvas straps and equipped with pulley, rope, etc.; all in fair condition. In these Blinds each slat is independent of the rest. They make a splendid porch awning, being more substantial than the canvas or cloth awnings. We quote them for windows of the ordinary size, in the average 9-foot lengths.

Price.....each, **\$0.60**

### CURTAIN POLES

**No. 1452.** As our dismantling operations included everything in the buildings at the Exposition, we came into possession of articles which might be considered as trifles, but which may be necessary for the use of some of our various patrons. We have just removed about 1,200 Curtain Poles, some of which are fitted with brass ornaments at the ends, others perfectly plain; some in mahogany, and others in oak finish. We can quote you in 1/2 dozen lots of Poles, 3 feet long.

Price.....per pole, **\$0.05**  
In 1/2 dozen lots, 4 feet long, price, **.06**  
" 1/2 " " 5 " " " " **.07**

We quote on our 8-foot Poles in lots of 3 or more, price.....per pole, **\$0.10**

We can also quote on brass-covered Poles, 7 feet long, price.....each, **\$0.25**

### MOSQUITO BARS

**No. 1453.** If the reader has visited the World's Fair at St. Louis, he or she will readily imagine the use for Mosquito Bars. They were used in the various hotels and sleeping quarters, and we secured several hundreds of 3/4-size Mosquito Bars. All have canopy arrangements, which permit of net being folded up in the day time. They do not interfere nor mar the appearance of the bed in the least. Are equipped with cord and pulley.

Price.....each, **\$0.75**

### BOLSTERS

**No. 1454.** Three dozen full-size Bed Bolsters, filled with a fine quality of Sea Island cotton; pure white, covered with A. C. A. ticking, somewhat faded. All in fair condition.

Price.....each, **\$0.75**

### FLOOR BROOMS

**No. 1469.** Two dozen heavy Mexican fiber Sweeping Brushes; have regular handles, solid tops and long 10-inch fibers. The kind used for street service.

Price.....each, **\$0.50**

### WINDOW SHADES

We have just finished listing the entire lot of Window Shades and Blinds secured from the Exposition grounds. The majority of the Shades we received are made of pure linen, many being opaque, ranging in all the various widths. We have Window Shades suitable for 26, 30, 36, 40 and up to windows 65 inches wide. They have been divided into three lots, according to condition:

**Lot No. 1455.** Embraces many patterns, in 30, 32, 36 and 40-inch widths, and are brand new, never having been opened or hung on windows; majority are of a green color and opaque. We list them at each, complete with brackets.....**\$0.20**

**Lot No. 1456.** Includes many fine linen Shades, in fair condition; many being of cream color in widths from 26 to 50 inches. Many soiled, others in fair condition.

Price.....each, **\$0.15**

**Lot No. 1457.** This lot includes the balance of the shades, many of which are in fair condition; width up to 65 inches, regulation full length. Some slightly torn, others spotted or stained. They are capable of a long term of service in the ordinary house.

Price.....each, **\$0.10**

**No. 1458.** About 1 dozen fine Holland Linen Shades in a cream color, considerably used and soiled. Are in 6-foot lengths. We offer them at an exceptionally low price for serviceable Window Shades.

Price.....each, **\$0.30**

### FANCY SOFA CUSHIONS

**No. 1465.** From one of the numerous bazaars on one of the principal avenues of the Exposition grounds, we secured a number of small wares of various kinds. Among these items were several dozen fancy Sofa Cushions, 22-inch size, filled with fine quality of Sea Island cotton, pure white. They are covered some with fancy cretonne, others with flowered Bagdad, striped effects; others have neatly proportioned ornamental squares and designs on cover. All are brand new and perfect in every way.

Price.....each, **\$0.70**

### SOFA PILLOWS

**No. 1466.** We secured from the Brazil Bazaar on the Exposition grounds, seventy-five 20-inch Sofa Pillows, covered with fancy Oriental design covering filled with best quality of horsehair. In perfect condition.

Price.....each, **\$1.50**

### PILLOW SLIPS

**No. 1467.** Several dozen pair of an excellent quality New York Mills material, made into Pillow Slips; regular size, some used a short time, others are still new and have never been opened up. All in good condition.

Price.....each, **\$0.10**

In dozen lots.....**1.00**

Price, per pair.....\$2.00

# UNIFORMS—CLOTHING—ARMS

Complete equipment of Jefferson Guards in our warehouse, invoiced and ready for delivery, at the following prices:

**No. 2850.** 250 Regular Regimental Uniforms; were used by the Jefferson Guards. Each set consists of coat, pants and fatigue caps; are in a standard army blue. Trousers are fitted with very handsome 1-inch stripe in gold braid. The coats are ornamented with full complement of gold braid trimmings; caps are also trimmed with braid. These Uniforms were the admiration of all visitors to the noted Exposition and were voted the handsomest uniforms displayed in recent years. They are all made of pure wool, U. S. standard and cost Exposition authorities \$15.00 each. Some of them show signs of wear, others are in as perfect condition as when turned out of the mill. We divide them into two lots; the first one, containing all the A1 sets.

Price.....per set, **\$5.00**

The second lot, containing those that show rifling signs of wear.

Price.....per set, **\$3.75**

**No. 2851.** 450 Khaki Uniforms, consisting of coat, trousers and caps. Are made according to regulation army standard and cost about \$7.00 per uniform. The slight amount of wear they sustained during the Exposition has not impaired their value in the least. The material they are composed of is of such excellent quality they may be washed times without number and will not shrink. We particularly recommend these for use by any one employed out-doors or for military or social organizations. They make splendid parading uniforms.

Price.....each, **\$1.60**

**No. 2852.** 350 Khaki fatigue Caps in all sizes; all in good condition; show no signs of wear, in fact, many of these caps are still in original wrappings in which they had been placed in the store rooms of Guards' Barracks on Exposition grounds.

We quote them at.....each, **35c**

**No. 2853.** We have on hand all of the Overcoats used by the Jefferson Guards. They are made of the finest kind of middle-sex cloth in an extra heavy weight and are all double lined. Coats are trimmed with gold braid, have regulation buttons, but if purchased for private use these trimmings may be removed and the coat dyed. The material that these overcoats are composed of is seldom to be purchased in a ready-made garment at a clothing store, as U. S. Army standard is used by so few clothing manufacturers in the composition of their goods. Original cost of these overcoats was each \$16.00.

Price.....each, **\$5.00**

**No. 2854.** 475 Side Arms, or as they are better known, short length swords; are made of the finest kind of welded steel, beautifully nickel plated. Each sword blade stamped with Exposition Co.'s official stamp, as well as Jefferson Guard's stamp. They have neat brass plated handles with hand protector and are equipped with leather scabbards. A beautiful black leather belt accompanies each sword. Front of belt is neatly set with brass buckle plate. These articles represent in historic value many times more than actual cost of same. As a souvenir of Exposition days, nothing is more appropriate in our minds than an emblem suggesting battle days at the same time. Many of these swords were disposed of on the Exposition grounds at very high prices. However, the intrinsic value they represent to us is very little, as we are not swayed by historic feelings in making our price on these articles. We therefore quote them at the exceptionally low figure of each.....**\$1.75**

The above price to include sword, scabbard and belts.

## OFFICE COSTUMERS, OR HAT RACKS

**No. 2860.** Made of fine wrought iron in a Japanese copper finish; base has neatly ornamented set of projecting feet in the center of which is an umbrella pan or drip pan; higher up on pedestal is an umbrella collar attachment and further up are hat racks or coat racks; is well balanced and can not be tipped over. We have about 2 dozen of these, all in perfect condition. They are ideal office coat hangers and are suitable for either inner or outer office.

Price.....each, **\$1.95**

**Don't overlook a single item on this page**

## SEWING MACHINES.

In the various Work Shops and Repair Rooms of the Exposition, as well as the Linen Rooms of most of the Hotels that we purchased, we secured numerous Sewing Machines of all makes and kinds.

We also have some Fifty (50) or more Exhibit Sewing Machines, all of which are offered you in the following list. We regret that we cannot give you an elaborate description of them. We have stated the facts in the case, and have also given a guarantee on certain of these new Exhibit Sewing Machines, which we will live up to in every way.

### STYLE NO. 1.

#### IMPROVED DROP HEAD SEWING MACHINES.

15 Machines exactly like the illustration. Absolutely up-to-date and constructed on latest lines. Made of very good material. Has full high arm and are accurately adjusted and carefully tested, making a double thread lock-stitch. Is supplied with modern improvements, including a self-threading shuttle, self-setting needle, automatic bobbin winder and is mounted on a neatly finished solid Oak woodwork with substantial iron stand. It is guaranteed to give service for five years, during which time we will furnish free of charge any defective parts and pay transportation charges, or

if it becomes necessary to return the Machine to us for adjustment, we will pay freight both ways.

**ATTACHMENTS.** Every one of these Machines is supplied with a complete set of steel attachments, consisting of Ruffler or Gatherer, Tucker, Binder, Braider, Quilter, 5 extra Hemmers, assorted width, one dozen Needles, 6 Bobbins, Screw Driver, Oil Can filled with oil and a Complete Instruction Book.

**Price, Each**

**\$10.50**

### STYLE NO. 2.

#### FULL HIGH ARM DROP HEAD MACHINES.

20 of these Machines for sale, absolutely brand new and perfect in every particular. Have never seen any service. These full high arm Machines were made of the very best of material. They are finely made, accurately adjusted and carefully tested. In their manufacture the highest grade of enamels were used. They are handsomely decorated and were built to meet the demands of those requiring a perfect machine for family sewing. They are self-threading throughout. You will find in these Machines a combination of Simplicity, Reliability, Durability, Speed, Strength and Beauty.

If you buy one of these Machines you will have one that is unequalled for ease of management and capacity for wide range of work. There is nothing too hard or too easy for the Machine to do—hemming, stitching, bind-

ing, tucking, ruffling, gathering, hem-stitching, seaming, etc. In fact, it is adapted to every variety of sewing, from the lightest muslin to the heaviest cloths. These Machines are all highly nickel-plated.

### WE FURNISH FREE:

the following named accessories are supplied with each machine free:

| 1 Hemmer (which is also a Feller). | 1 Braider.                          |
| 1 Belt and Couplings.              | 1 Thread Cutter.                    |

### OUR TEN-YEAR WARRANTY.

We give with every Machine an absolute binding guarantee that they are as good a Sewing Machine as there is in the World, and, furthermore, we agree to duplicate any part that proves defective in ten years, free of charge (Shuttles, Needles and Bobbins excepted), thereby proving to you our confidence in these Machines.

We explain the leading features of these Machines as follows:

**AUTOMATIC BOBBIN WINDER**—So simple that a child can easily operate it.

**FEED MOTION**—Our latest patent, absolutely positive gyrating movement, operated on ball bearings.

**THE DOUBLE, 4-MOTION DROP-FEED**—Extends on both sides of the needle and permits a greater variety of work than any other.

**STITCH REGULATOR WITH SCALE**—Showing number of stitches to the inch.

**A SPRING TENSION CYLINDER SHUTTLE**—Holding a bobbin that carries a large amount of thread. There is no hole to thread through, making it the most easily threaded shuttle in use.

**NEEDLE**—Self-setting short blade, large shank and is not easily broken.

**LIGHT RUNNING**—On account of the simple mechanical devices employed in its construction it is one of the simplest, easiest operated, best made and most elegantly ornamented machines in the world, combining every requisite to produce a perfect machine.

**WOODWORK, GOLDEN OAK**—Unique and attractive in style, and substantially made from well-seasoned and carefully selected material. Its elegant finish and rich trimmings are in good taste and harmonize with the excellent workmanship of the machine. Far more handsome and ornamental than the ordinary style of woodwork, it is at the same time of equal durability, utility and good finish.

**STAND**—Mounted on Nickel-Plated Casters. Ball-bearing Steel Pitman and Drive Wheels.

**Price, Each, crated ready for shipment.....\$16.75**

### STYLE NO. 3.

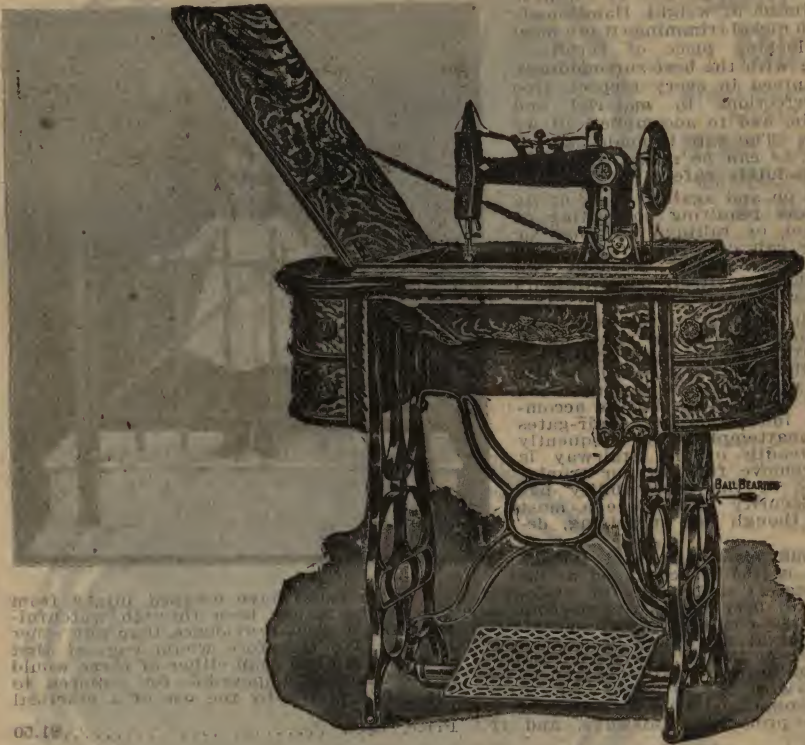

### AUTOMATIC BALL-BEARING MACHINES.

22 of these Absolutely Perfect, Improved, Swell Front, Automatic Lift, Ball-Bearing Sewing Machines. They are the latest improved machines on the market. You will find them entirely new, both as to woodwork and the machine head. We offer you the most perfect machine now on the market. The handsomest machine, both in design and finish, and the most substantial in construction. It is the only Sewing Machine on the market that is made with an Automatic Self-Locker. We furnish it only in fine Quarter-Sawn Golden Oak. This cut is an exact illustration of the machine. You dare not overlook this opportunity to purchase at an extremely low price one of these Swell Front, Automatic Lift Machines. Every lady will appreciate the automatic drawer-locking device. When the head is lowered, the drawers lock themselves and remain locked until the head is lifted and the machine ready to sew, when they unlock themselves. They are strictly ball-bearing in action, light and easy to operate. The head used is the finest than can possibly be manufactured.

We give the same absolute guarantee on these Machines for ten years as we do on Style No. 2, noted above. The weight of these machines, crated for shipment, is 125 lbs. Each Machine is furnished with a full list of Accessories, same as named in Style No. 2, above. It is a handsome and substantial machine, perfect in every detail and will give

you absolute satisfaction. You need have no hesitation to select this machine if you are looking for the best. Nothing finer constructed and no handsomer ornament is made in the Sewing Machine line.

Price, Each, complete, crated ready for shipment..... \$19.75

Price.....each, \$8.75

Before purchasing elsewhere hear from us.

# SECURITY STAIR GATE AND BED GUARD

One of the most useful articles ever invented. Bought at Sheriff's Sale.

**No. M103.** This gate is made of maple, which gives it a maximum of strength with a minimum of weight. Handsomely finished with nickel trimmings it is a most attractive looking piece of furniture, harmonizing with the best surroundings. It is guaranteed in every respect, free from imperfections in material and workmanship, and to accomplish all we claim for it. The gate is made as well and careful as can be made and above all it is absolutely safe.

It swings on and against posts of its own, therefore requiring no cutting of either plaster or railings. A man or woman who can drive a screw is the only "genius" required. Sockets, two posts and the gate itself constitute its entire mechanism.

Two small sockets on the step next to the top hold the posts. Two metal collars or straps on the edge of the top step brace them. The gate can be put in place or removed at will—posts and all—without tools. This feature accomplishes an innovation in stair-gates heretofore unattempted, for frequently the full breadth of the stairway is desired to remove furniture or trunks. This feature of the removability has given the Security Stair Gate a most unexpected, though not surprising, demand.

Its adjustability is accomplished through the principle of the telescope, and as the gate will protect a breadth of stairway from thirty to fifty inches, its usefulness is therefore not confined to any one stairway for which it may have been ordered.

It would seem that if the word "home" have any significance at all it ought to be synonymous with safety; yet, with little children creeping and running about, few homes have protected stairways, and if

the little folks have escaped injury from this cause it has been through watchfulness and a good Providence than any other means. We therefore would suggest that a better method than either of these would be to make it impossible for children to fall down stairs, by the use of a practical stair gate.

Price, each .....\$1.50

## SECURITY SLUMBER GUARD

**No. M 104.** Every one with children has experienced the sensation of hearing those **dull thuds** which mean that the bed is empty and the child is on the floor. It

If this Guard will keep your little one in bed and entirely exempt from such dangers, can you afford to be without it? It will do this, and it is but one of its invaluable features.

How many times have you awakened at night to find a child almost totally bare of clothing from head to heels? Such exposures are frequently attended with most serious results, colds, croup and doctor's bills. The Security Slumber Guard binds the clothing as tightly as may be desired, and it is then immovable until released. Similarly may a shawl or blanket be thrown over the guard and the bed will be protected from draughts its entire length when it is desired that the windows shall be open.

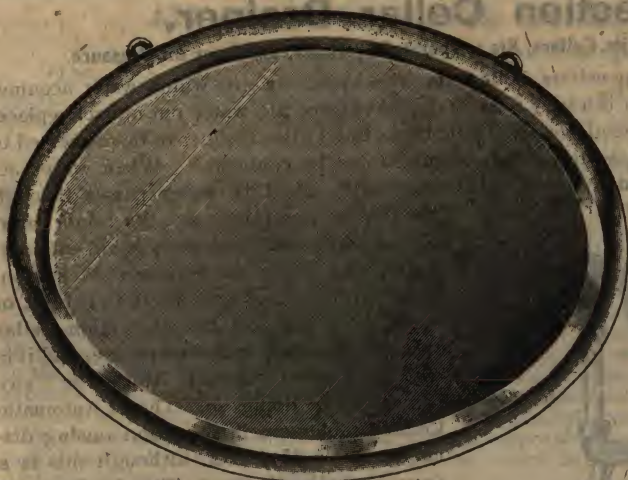

### CAN BE USED WHILE TRAVELING.

It would seem that if there is a time when such a guard is needed it is away from home as well as in the home. To provide for this, we have made the guard as light as is consistent with strength, and its weight is less than three pounds. When carried it can be folded into a space as large as a rolled magazine and thirty-six inches in length. It is adjustable without tools to any bed of any description; folding, wooden or iron, crabs, couches, and even Pullman and steamer berths. Its scope is unlimited. Made of well seasoned maple, beautifully finished with nickel trimmings.

Price .....\$1.50

would be difficult to recount all the bruises so occasioned, they are so numerous, and they assume a more serious aspect, most readily, without our dwelling upon them.

No. 325—Plain Oval Mirror.

## Perfection Cellar Drainer.

For Draining Boiler Pits, Cellars, Etc. Operated by Water, Steam or Air Pressure.

There are a great many cellars, boiler pits, wheel pits, etc., in which water accumulates, and this Cellar Drainer is a very reliable device to force the water out of such a place. For ordinary use we recommend the Automatic Perfection Cellar Drainer to be connected to City water pressure. We show herewith how this should be connected. When water accumulates in the pit, the float is lifted from the stop valve and City water passes through

No. C. D. 100

Automatic Perfection Cellar Drainer.

### DIMENSIONS, CAPACITY AND PRICE LIST.

No.	Pipe Connections Inlet Discharge	Gals. disc. per hr.	Wt. lbs.	Price
1	¾ in. 1 in.	400	19	\$17.50
2	¾ in. 1½ in.	800	22	22.00
3	1 in. 2 in.	1500	28	26.00

Dimensions: 18 in. long, 12 in. wide, 20 in. high.

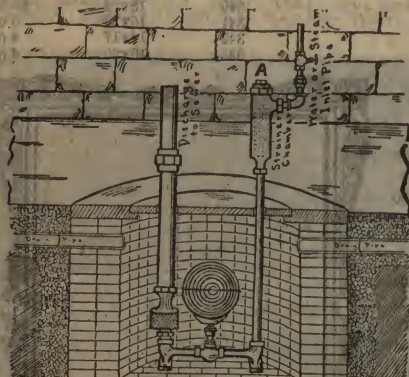

the Drainer and forces out the bilge water. This drainer starts and stops itself automatically, and it is so very simple in construction that it is not likely to get out of order. All parts of the Perfection Cellar Drainer are made interchangeable, and it is easily repaired should there be any occasion for doing so. These Automatic Cellar Drainers are in operation raising discharge water 15½ feet, although this is a very exceptional case. The Drainer can safely be depended on, however, to lift the discharge water one-fifth of the distance in feet of the City water pressure in pounds. In other words, with a fifty pound City water pressure, you could raise the discharge water ten feet.

Cut No. C. D. 105 shows the Plain Cellar Drainer without the automatic attachment.

We recommend this drainer for use under

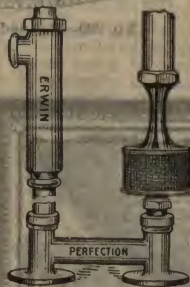

very heavy duty. It can be operated with water, steam or air pressure. Connection would be made into this same as on the automatic, but it would operate only when the valve on the power line is open, permitting either water, steam or air to blow through the Drainer. Where there is almost a constant discharge of water to be cared for, this Drainer is better than the automatic. These Plain Cellar Drainers are largely used to keep water out of ditches, excavations and foundations for plumbers and contractors. They can be easily operated by attaching a rubber hose to the City water supply and another from the discharge to the sewer and let it run as long as may be necessary to keep the excavation drained.

These Drainers, both automatic and plain, are noiseless, are very substantially built and have a larger capacity than other Drainer on the market.

Plan showing one of a number of ways of setting and connecting a Perfection Cellar Drainer.

NOTE—When information is desired or order is given, please state the estimated water or steam pressure. Height from bottom of Drainer pit to point where water is to be discharged. Plan to make the distance as short as possible.

## AIR PRESSURE WATER WORKS SYSTEM.

### Individual Water Works Plant for Your Home or Farm.

Our system consists of a large, heavy, air tight steel storage tank and a powerful force pump. In the larger systems these pumps may be worked by either windmill or gasoline engine. We sell gasoline engines for this purpose, but do not deal in windmills.

**OPERATION.** The principle in the system is delivery of water by the pressure of compressed air. Air is very elastic. A normally empty tank is full of air and as water is pumped into the tank, the air above is compressed into smaller and smaller space, the pressure increasing in proportion to the quantity of water forced into the tank. Experience has demonstrated that the most satisfactory service in one of these air pressure outfits will be obtained by having an excess of about 10 lbs. air pressure in the tank. This is obtained by pumping just a few gallons of water, merely enough to insure covering the connection of the pump to the tank and the openings into it, then pumping in air until the pressure on the gauge is increased 10 lbs. More than 10 lbs. would give a greater proportion of air than required, and less than 10 lbs. would not give sufficient. This 10 lbs. pressure is sufficient to deliver all of the water that may be pumped into the tank to the plumbing fixtures of the second floor. As water is pumped into the tank and the pressure increases, you will find that with 30 lbs. pressure the tank will be approximately half full of water, and when the tank is two-thirds full you will have 60 lbs. pressure. If no excess air is pumped into the tank the pressure will be only about 17 lbs. when the tank is half full of water, and 35 lbs. when two-thirds full. This is not sufficient to force ALL the water to the second floor.

It is not advisable to pump more than a 60 lbs. pressure. In hand outfits we do not recommend pumping to more than 40 lbs. pressure, for the pressure increases very rapidly after the tank is half full of water, and the few extra gallons that you can pump in will not make up for the strain on your plumbing, pipes and fixtures. As the faucets are opened expansion of the air in the tank will force the water through the piping and it will flow the same as water from city water works. Water will be delivered a fraction more than 2 ft. in height for every pound pressure in the tank. Of course, as the water is drawn out of the tank the pressure decreases, because the air has a chance to expand. In an average family with one bathroom about 100 gallons of water per day is the amount used, and in most of our outfits we use tanks for approximately 300 gallons capacity, so that if the tank is pumped to 40 lbs. pressure there will be about 185 gallons of water in the tank that can be drawn off through the faucets. This will be about two days' supply. From this tank the water may be piped to the plumbing fixtures, or to the heating plant, to the lawn for sprinkling purposes, to the barn lot or to the pasture lot, in fact, it may be piped anywhere and almost any distance.

The advantages of this system over an elevated tank are that the tank may be placed in your cellar or in a pit, and it is thus protected from the elements, from freezing in winter and from extreme heat in summer. Another advantage is that water may be piped much higher than with the average elevated tank, the pressure of 40 lbs. being equal to an elevated tower of about 93 ft. With this air pressure system a pressure may be maintained that will throw water over any building and thus provide effective fire protection. As compared with the attic tank, in our system there is no danger from leaks or from settling walls, either of which would crack your plaster. As compared with an elevated windmill tank or elevated tower tank, there is no danger of the tank and the connecting pipe freezing up in the winter time and no danger of the water becoming too warm and stagnant in summer. Water under heavy pressure will absorb some air, and this destroys all animal or vegetable matter in the water and renders it remarkably sweet and clean. An evidence of this absorption of air is when the water is drawn in a glass it has a whitish color, but this passes off in five or ten seconds in the form of minute bubbles. The absorption of air will gradually rob the tank of its air cushion, so that it is necessary to supply fresh air in the tank once or twice a month. This can be accomplished in a number of ways. The most satisfactory way is to have a separate hand air pump, as shown in the cut herewith of our outfit No. A. P. 1. In connecting this air pump it should always be connected as shown in the illustration—into the bottom of the tank and never into the air space at the top of the tank. The pumps, as we furnish them, have  $\frac{3}{8}$  in. iron pipe threaded connection and should be connected with  $\frac{3}{8}$  in. pipe and have a  $\frac{3}{8}$  in. check valve, and a  $\frac{3}{8}$  in. globe valve between the air pump and the tank.

There are some automatic devices on the market that are good, but we do not recommend their use, because the average mechanic installing one of these outfits does not make the connections absolutely true and correct, and the result is that the automatic device causes more or less annoyance and trouble and very frequently it will fail entirely to supply the air. Consequently, we think that the most simple method is the safest, and it is what we recommend. With the special hand air pump, after the first air cushion of 10 lbs. is supplied, it is only necessary to pump air once or twice a month to maintain this air cushion, and fifteen or twenty minutes pumping is about all that would be required. Do not attempt to pump the air when the tank is filled with water. Rather you should pump the air when the tank is almost empty, as the air will enter then under very slight pressure and you can pump it quite rapidly. In some of our outfits we show

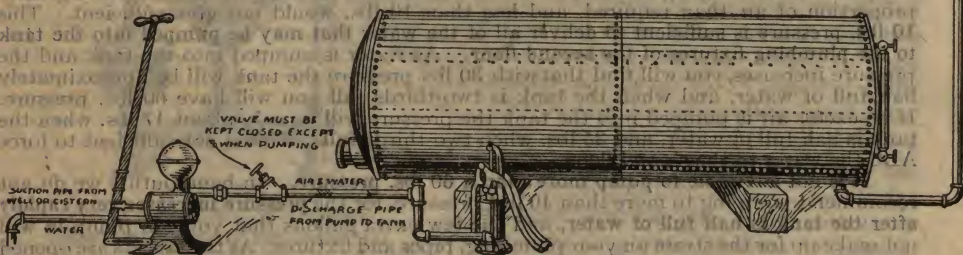

**OUR OUTFITS ARE FULLY GUARANTEED.**

a way of supplying the air without the use of the separate hand air pump by means of a small air cock. While this plan may be used with the special air and water pumps that we furnish, we do not recommend it as being entirely satisfactory as the outfit with the separate hand air pump:

Now, in regard to our special Chicago Air Pressure Tanks, these tanks are specially constructed with a view of making them air tight, and we guarantee them air tight. Our tanks are made extra heavy, so that there is a wide margin of safety between the actual requirements of a tank and the heavy ones that we furnish. This extra heavy tank insures you getting a tank that will last in an absolutely air tight condition for a great many years.

In regard to the low prices that we quote, we do this following our general policy of quoting the lowest possible price for a first-class article, eliminating middlemen's profits and commissions.

#### OUTFIT NO. A. P. 1.

This outfit consists of a special Chicago Air Pressure tank 30 in. x 8 ft., tapped to lay horizontally, capacity 295 gallons.

One special horizontal cylinder double acting hand force pump, brass lined.

One No. 600 hand air force pump.

One air pressure gauge.

One water gauge with water glass and guard rods.

One 1 in. gate valve.

One 1 in. check valve.

One  $\frac{3}{8}$  in. globe valve for the air pipe.

One  $\frac{3}{8}$  in. check valve for the air pipe.

One  $\frac{1}{4}$  in. foot valve and strainer.

Price of this outfit.....\$65.00

#### OUTFIT NO. A. P. 2.

This outfit consists of a special Chicago Air Pressure tank 36 in. x 8 ft., capacity 425 gallons.

One special horizontal cylinder double acting hand force pump, brass lined.

One No. 600 hand air force pump.

One air pressure gauge.

One water gauge with water glass and guard rods.

One 1 in. gate valve.

One 1 in. check valve.

One  $\frac{3}{8}$  in. globe valve for the air pipe.

One  $\frac{3}{8}$  in. check valve for the air pipe.

One  $\frac{1}{4}$  in. foot valve and strainer.

Special price of this outfit.....\$78.00.

#### OUTFIT NO. A. P. 3.

This outfit consists of a special Chicago Air Pressure tank 36 in. x 12 ft., capacity 630 gallons.

One special horizontal cylinder double acting hand force pump, brass lined.

One No. 600 hand air force pump.

One air pressure gauge.

One water gauge with water glass and guard rods.

One 1 in. gate valve.

One 1 in. check valve.

One  $\frac{3}{8}$  in. globe valve for the air pipe.

One  $\frac{3}{8}$  in. check valve for the air pipe.

One  $\frac{1}{4}$  in. foot valve and strainer.

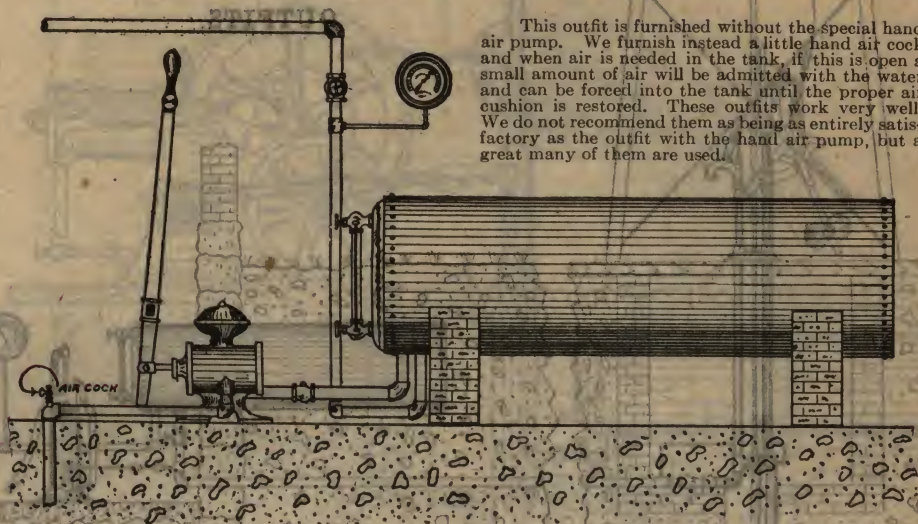

Price of this outfit.....\$93.00.

**THE LOWEST PRICES EVER QUOTED ON 1ST. CLASS PNEUMATIC WATER SUPPLY OUTFITS.**

OUR OUTFITS ARE FULLY GUARANTEED

## PUMPING OUTFITS WITH HAND AIR VALVE.

This outfit is furnished without the special hand air pump. We furnish instead a little hand air cock and when air is needed in the tank, if this is open a small amount of air will be admitted with the water and can be forced into the tank until the proper air cushion is restored. These outfits work very well. We do not recommend them as being as entirely satisfactory as the outfit with the hand air pump, but a great many of them are used.

## OUTFIT NO. A. P. 11.

This outfit consists of a special Chicago Air Pressure tank 30 in. x 8 ft., tapped to lay horizontally, capacity 295 gallons.

One special air and water horizontal cylinder force pump, brass lined; one 1 in. check valve; one 1 in. gate valve; one 1 1/2 in. foot valve and strainer; one 2 1/2 in. elbow tap to receive air cock; one air cock; one air pressure gauge; one water gauge with water glass, guard rods, etc.

Price of this outfit .....\$60.00

## OUTFIT NO. A. P. 12.

This outfit consists of a special Chicago Air Pressure tank 36 in. x 8 ft., capacity 425 gallons.

One special air and water horizontal cylinder force pump, brass lined; one 1 in. check valve; one 1 in. gate valve; one 1 1/2 in. foot valve and strainer; one 1 1/2 in. elbow tap to receive air cock; one air cock; one air pressure gauge; one water gauge with water glass, guard rods, etc.

Price of this outfit .....\$73.00

## OUTFIT NO. A. P. 13.

This outfit consists of a special Chicago Air Pressure tank 36 in. x 12 ft., capacity 630 gallons.

One special air and water horizontal cylinder force pump, brass lined; one 1 in. check valve; one 1 in. gate valve; one 1 1/2 in. foot valve and strainer; one 1 1/2 in. elbow tap to receive air cock; one air cock; one air pressure gauge; one water gauge with water glass, guard rods, etc.

Price of this outfit .....\$88.00

## OUTFIT NO. A. P. 15.

This outfit consists of one special Chicago Air Pressure tank 42 in. in diameter, 4 ft. long, capacity 1,000 gallons.

One special air and water horizontal cylinder force pump, brass lined; one 1 in. check valve; one 1 in.

gate valve; one 1 1/2 in. foot valve and strainer; one 1 1/2 in. elbow tap to receive air cock; one air cock; one air pressure gauge; one water gauge with water glass, guard rods, etc.

Price of this outfit .....\$130.00

## OUTFIT NO. A. P. 16.

This outfit consists of one special Chicago Air Pressure tank 42 in. in diameter, 16 ft. long, capacity 1,150 gallons.

One special air and water horizontal cylinder force pump, brass lined; one 1 in. check valve; one 1 in. gate valve; one 1 1/2 in. foot valve and strainer; one 1 1/2 in. elbow tap to receive air cock; one air cock; one air pressure gauge; one water gauge with water glass, guard rods, etc.

Price of this outfit .....\$137.00

## OUTFIT NO. A. P. 17.

This outfit consists of one special Chicago Air Pressure tank 48 in. x 16 ft., capacity 1,500 gallons.

One special air and water horizontal cylinder force pump, brass lined; one 1 in. check valve; one 1 in. gate valve; one 1 1/2 in. foot valve and strainer; one 1 1/2 in. elbow tap to receive air cock; one air cock; one air pressure gauge; one water gauge with water glass, guard rods, etc.

Price of this outfit .....\$170.00

## OUTFIT NO. A. P. 18.

This outfit consists of one special Chicago Air Pressure tank 48 in. x 20 ft., capacity 880 gallons.

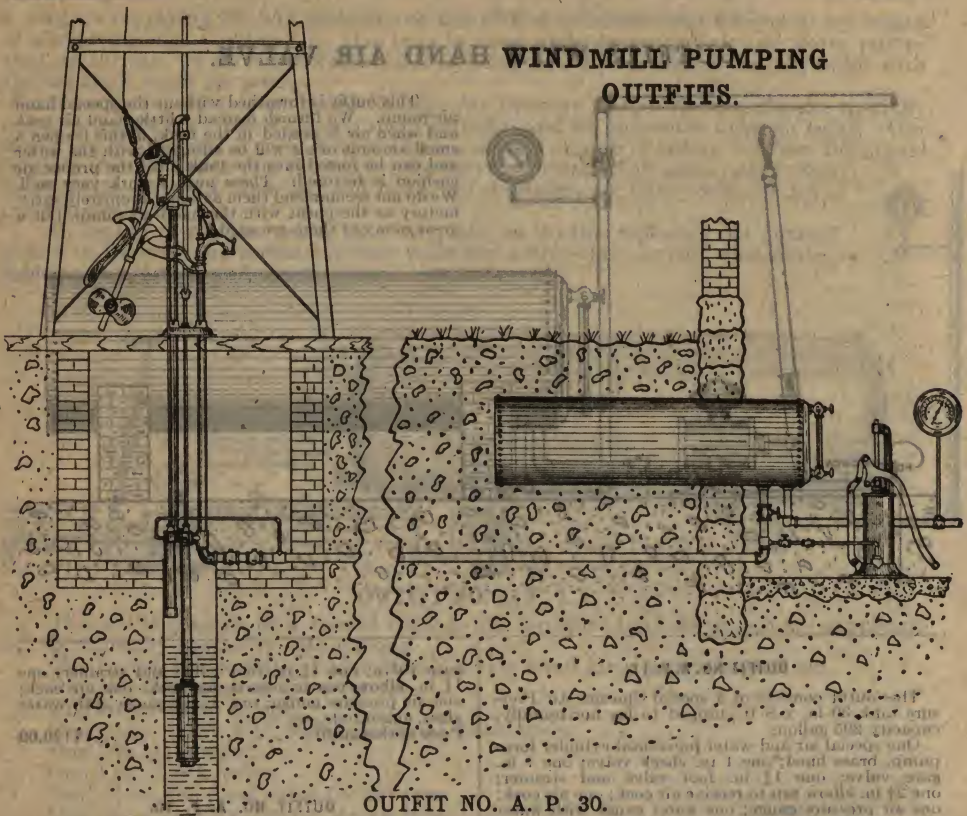

One special air and water horizontal cylinder force pump, brass lined; one 1 in. check valve; one 1 in. gate valve; one 1 1/2 in. foot valve and strainer; one 1 1/2 in. elbow tap to receive air cock; one air cock; one air pressure gauge; one water gauge with water glass, guard rods, etc.

Price of this outfit .....\$215.00

WRITE FOR PRICES ON ELECTRIC PUMPING OUTFITS.

WRITE FOR SPECIAL LISTS AND QUOTATIONS ON ORNAMENTAL IRON FENCE.

OUTFIT NO. A. P. 30.

This is a very fine outfit for the farmer. We use one of our special No. 273 windmill regulator force pumps. It has an adjustable stroke. This pump is easily set in position, easily adjusted to any well or to any elevation of water. The adjusting weight is near the platform and can be readily changed when necessary. The hydraulic cylinder has a seamless brass tube and is properly arranged for the various sizes of mills. In ordering be sure to specify the size mill that you have. This pump has our patent regulator cylinder and when the pressure in the tank reaches the pressure to which the mill is adjusted, this regulator cylinder will throw the mill out of gear and stop the pumping. When the pressure falls to the point at which the weight is set, it will throw the mill in gear again automatically, and it will start the pumping.

Using these outfits you are assured of always having a tank full of water, providing there is wind enough to turn the mill. The gate valve between the pump and the tank should be left open, and we provide two strong check valves, and these will hold the pressure in the tank with the other valve open. This device being entirely automatic the mill will only pump enough water to fill the tank to the required pressure, and then it will stop.

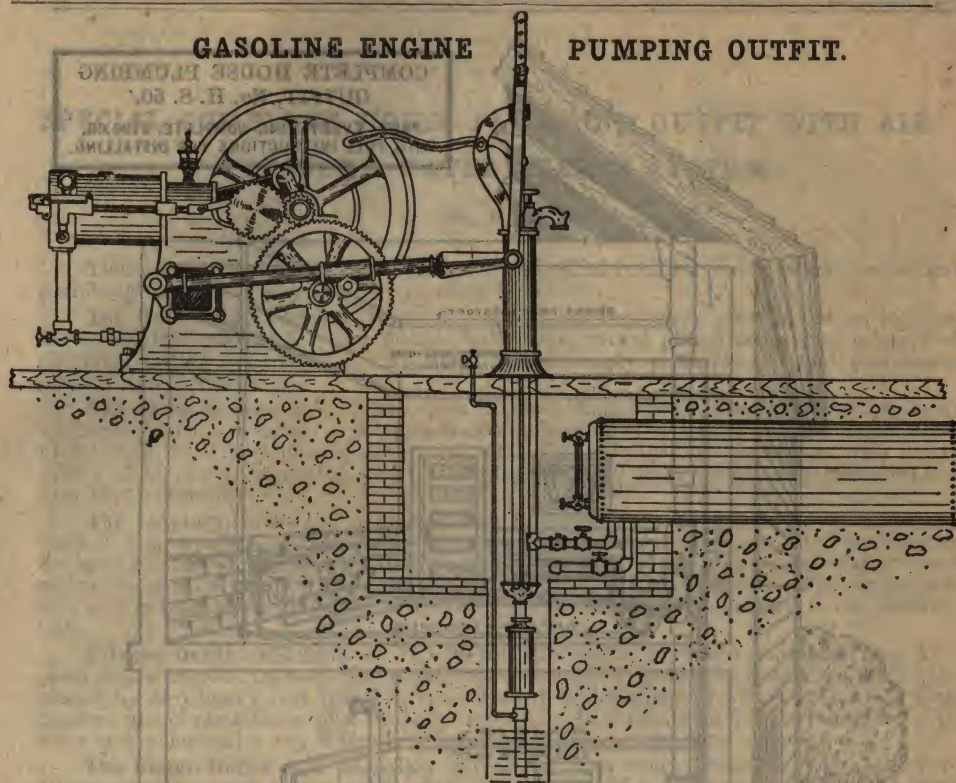

The price of this outfit will depend a little on the size of the pump required, that is, the size of your well casing. Figuring with a 2 in. well and a 10 in. stroke: 1 1/2 in. suction pipe; 1 in. discharge pipe, and one all brass deep well cylinder 20 in. in length; one special windmill regulating force pump; one No. 600 hand air force pump; one pressure gauge; one water gauge with glass, guard rods, etc.; one 1 in. gate valve; two 1 in. check valves; one 3/8 in. globe valve; one 3/8 in. check valve; one 1 in. safety valve and one special Chicago Air Pressure tank, size 4 ft. in diameter by 24 ft. in length, capacity 2,260 gallons. This tank is made of 5/16 in. shell and 1/2 in. heads and is guaranteed air tight. Outfit complete as above. . . . . \$250.00.

In using an outfit of this kind with a powerful windmill, or in an outfit with a gasoline engine, a safety valve should be set in the system either on the inlet pipe between the pump and the tank, or the outlet from the tank to the house supply. This safety valve should be set at not to exceed 100 lbs. pressure, so that if inadvertently the pressure in the tank becomes as great as this it could escape through the safety valve without damaging your plumbing fixtures.

We can furnish outfits with larger or smaller tanks than the above. Prices on other sizes quoted on application.

WRITE FOR SPECIAL LISTS AND QUOTATIONS ON ORNAMENTAL IRON FENCE.

OUTFIT NO. A. P. 40.

The gasoline engine furnished in this outfit is a  $1\frac{1}{2}$  H. P. gasoline, carefully designed and very simple. It contains very few parts and is as free from complications as it is possible for an engine to be. It is very strongly made. The electric igniter is simple and durable in construction. All parts of the engine are in plain view and very accessible. The gasoline is carried in the cast iron base of the engine where there is no possible danger from explosion. It is not conducted to the engine by gravity feed, but is elevated from the base as it is used. This is the safest and most reliable type of gasoline engine.

The advantage of not using the elevated gasoline can is easily understood. Gravity feeds are dangerous. Should the engine stop when the attendant is not near, the gasoline will continue to flow, filling the engine with gasoline, after which the floor will probably become saturated. Gasoline cans are liable to become leaky and small pipe connections liable to become broken. These difficulties are entirely obviated with our engines. After being carefully assembled these engines are given a test of two or three days' continuous running under full load. We ship with this engine the necessary wrenches, oil can, batteries, spark coils, switch and wire for connecting the batteries.

The pump jack which is furnished with this engine is so arranged as to give a slow upward working stroke and a rapid downward return stroke, which arrangement makes it possible to lift more water than when the upward and downward strokes are made at the same speed. At the same time less wear is produced on the pump. This jack is directly connected with the engine with the finest quality machine cut gears, which are so designed as to be very strong and capable of withstanding the wear put upon them without wearing away.

The pump furnished is a special deep well cylinder force pump.

The tank is one of our Chicago Air Pressure tanks, size 48 in. x 16 ft., capacity 1,500 gallons. This tank is made of  $\frac{1}{4}$  in. shell and  $\frac{3}{8}$  in. head, is tested and guaranteed air tight at 125 lbs. pressure. We furnish with this outfit one 1 in. gate valve; one 1 in. check valve; one air pressure gauge; one water gauge with glass, guard rods, etc.; one  $1\frac{1}{4}$  in. x  $\frac{1}{4}$  in. tee; one  $\frac{1}{4}$  in. x  $\frac{1}{2}$  in. reducing coupling, and one special  $\frac{1}{8}$  in. air cock; one 1 in. safety valve. Price of this outfit complete as above..... \$245.00.

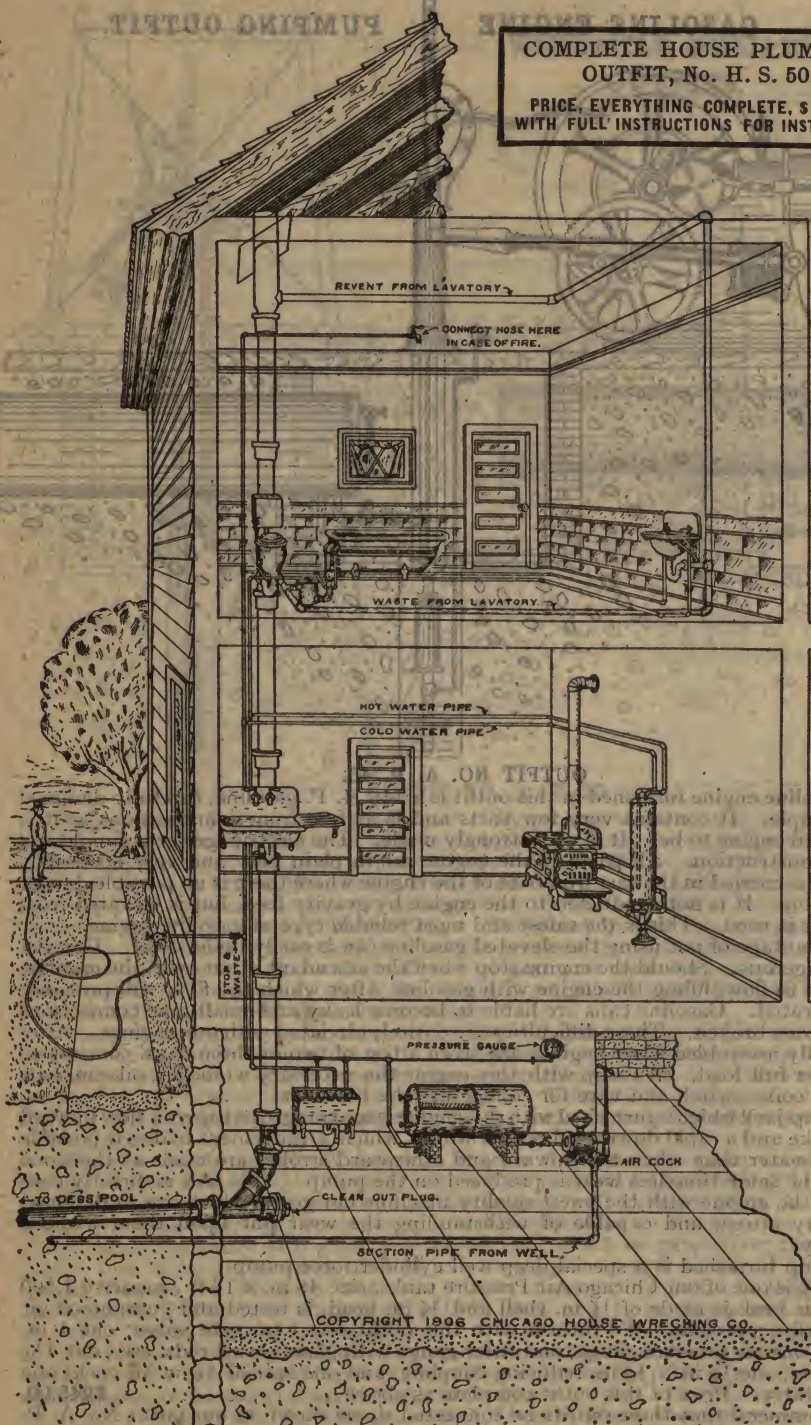

We recommend that these outfits be connected up, as shown in our outfit No. A. P. 30, with a separate hand air pump rather than with an air cock, and we will furnish the No. 600 hand air pump and a  $\frac{3}{8}$  in. check valve and  $\frac{3}{8}$  in. globe valve needed for this work at an addition of \$5.00, making the outfit with a hand air pump \$250.00. Larger and smaller size tanks can be furnished. Prices quoted on these other sizes of tanks on application.

WE HAVE HUNDREDS OF TONS OF BEAMS AND STRUCTURAL IRON WORK.

**COMPLETE HOUSE PLUMBING  
OUTFIT, No. H. S. 50.**

**PRICE, EVERYTHING COMPLETE, \$190.00.  
WITH FULL INSTRUCTIONS FOR INSTALLING.**

**WRITE FOR OUR SPECIAL HEATING CATALOGUE.**

WE HAVE HUNDREDS OF TONS OF BEAMS AND STRUCTURAL IRON WORK.

## SPECIAL COMPLETE HOUSE PLUMBING OUTFIT WITH AIR PRESSURE WATER SUPPLY SYSTEM.

No. H. S. 50.

This outfit contains all of the material needed to install a water supply outfit and plumbing fixtures in any ordinary country home.

**The Bath Room Fixtures** consist of one 5 ft. roll rim, white porcelain enameled iron bath tub, trimmed with Fuller double bath cock, nickel plated connected waste and overflow, outlet for iron pipe, and nickel plated supply pipes for hot and cold water for iron pipe connection.

**The Closet** is our No. 55 low tank syphon wash-down closet combination, consisting of vitreous porcelain syphon wash-down closet bowl with polished oak copper lined closet tank, with best flushing device and nickel plated push button action, with nickel plated elbow flush connection and nickel plated supply pipe, supply pipe threaded for iron pipe connection.

**The Lavatory** consists of enameled iron lavatory with the slab and oval basin and back all cast in one piece, furnished with cast iron brackets, with nickel plated basin cocks for hot and cold water, nickel plated supply pipes threaded for iron pipe connection and nickel plated "P" trap for iron pipe thread; together with the necessary pipe for the soil pipe and galvanized supply pipe, traps, etc., for installing this, as shown in our illustration.

**Kitchen Outfit** consists of an 18 x 30 roll rim, white porcelain enameled iron kitchen sink with roll rim back and overhanging enameled iron drain board, the sink supported by two heavy cast iron brackets, drain board supported with bracket, the sink has two nickel plated iron pipe bibbs for hot and cold water, nickel plated strainer, sink bolts and collar and a 1½ in. lead "P" trap threaded for iron pipe connection.

**The Range Boiler** is a 30 gallon galvanized iron range boiler, 200 lbs. test, furnished complete with boiler stand, with boiler tube and set of four brass ground joint couplings with iron pipe threads, one set of our lead pipe boiler connections.

**One Water Front** to fit your cook stove. In ordering be sure to give us the name of the manufacturer of your stove, the size and the number, in fact all distinguishing marks, so that we can be sure to get a water front from the manufacturer that will exactly fit your stove.

**The Laundry Outfit** consists of one of our No. 6, 2 part Economy Stone Ware Laundry Tubs with iron legs, with two pair of ½ in. iron pipe bibbs, and one 1½ in. short lead "S" trap threaded for iron pipe.

**The Water Supply Outfit** is one of our No. A. P. 11 Air Pressure Water Supply Outfits, the tank being our special "Chicago" air pressure tank, 30 in. x 8 ft., capacity 295 gallons, pump being one of our combined special air and water horizontal cylinder brass lined force pumps with gauges and valves, etc., as described in the Outfit No. A. P. 11.

**One 50 ft. length** of our 5-ply star Brand garden hose, with couplings and screw tip nozzle. This hose is an especially fine grade of garden hose.

We will furnish the above fixtures, together with all of the soil pipe, soil pipe fittings, galvanized iron supply pipe, and galvanized fittings, sill cock, outside hose connection and the hose faucet for the attic connection, in fact all of the material needed to install this outfit in an ordinary two-story house as we show in our illustration for. . . . . **\$190.00.**

If you do not want us to furnish water front for your kitchen range, you may deduct \$5.00, making the price of the entire outfit without water front. . . . . **\$185.00.**

We will furnish full instructions for installing the above and any handy man can install the same in a perfectly sanitary and satisfactory manner.

PINE CITY, MINN., May 11, '06.

In regard to water plant for private house which I bought of you last spring, it is certainly a success. Ten minutes pumping each day furnishes ample force and it is very satisfactory.

Respectfully,  
J. J. MADDEN.

**SPECIAL PRICES ON ANY PART OF THE ABOVE OUTFIT QUOTED ON REQUEST.**

## SPECIAL HOUSE SUPPLY OUTFIT.

## OUTFIT NO. H. S. 60.

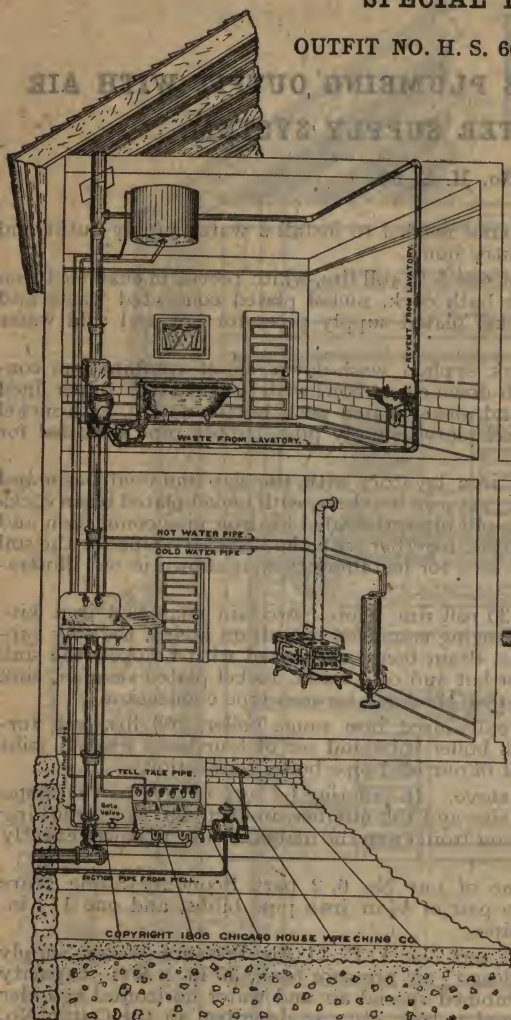

Fig. 9.

back and with drain board, with brackets for the sink, and one bracket for the drain lead "P" trap, threaded for iron pipe connection.

**One 30 gallon galvanized iron range boiler, 200 lbs. test, complete with stand, tube and four brass couplings, with ground joint unions, threaded for iron pipe connection, one set of lead pipe boiler connections to connect between the water front of the range and the boiler.**

**One six barrel galvanized iron open top storage tank No. A4, tank fitted with a 1 in. iron pipe inlet in the bottom and a 1/2 in. overflow 5 in. from the top.**

**One No. 1 figure 705 pump, brass lined, with 1 1/4 in. suction and 1 in. discharge.**

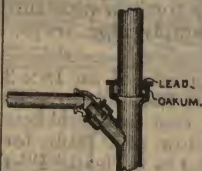

**One No. 6 two part stoneware laundry tub, with legs, with two 1/2 in. brass bibbs, for iron pipe—for hot and cold water, one 1 1/4 in. short lead "S" trap, threaded for iron pipe connection. One water front to fit your range. When ordering be sure to give us the name of the manufacturer of your range, the size and the number of your range. Give us all the distinguishing marks on this, so that we can get the water front that is made for your range, and we will furnish with the above outfit the necessary soil pipe and soil pipe fittings, traps, galvanized pipe and pipe fittings, caulking lead and oakum, all the valves, etc., that may be needed for installing this outfit in a strictly first-class manner.**

If you have a water front for your range and do not need another, deduct \$5.00. Our special price on the entire outfit is **\$150.00.**

We show in the above illustration an attic storage tank and a pump, a bathroom outfit, kitchen sink, range boiler, laundry tubs, the necessary pipe, etc., for installing, and we will furnish you with the above outfit and all the necessary piping for installing it, just as shown in this illustration, as follows:

**The Bath Room Outfit** will consist of a 5 ft. 3 inch rolled rim, white porcelain enameled iron bath tub, trimmed with Fuller double bath cock for hot and cold water, nickel plated connected waste, and overflow, chain and rubber stopper, a pair of 1 1/2 in. nickel plated brass supply pipes from the tub to the floor, threaded for iron pipe connections.

**The Closet** would be one of our modern up-to-date, low tank, syphon wash-down closet outfits No. 55, with vitreous porcelain wash-down closet bowl, polished oak, copper lined tank, with best flushing device and nickel plated push button action, with nickel plated supply pipe to the floor, threaded for iron pipe connection.

Sectional Detail of stack showing how waste from laundry tubs is run into it with a 45° ell and Y joint.

**The Lavatory** would be a half circle cast iron, white porcelain enameled iron lavatory, with slab, basin and back cast in one piece, furnished with painted cast iron brackets, with nickel plated basin cocks for hot and cold water, nickel plated supply pipes to the floor, and nickel plated threaded "P" trap with waste to the wall, nickel plated chain and rubber stopper.

**The Kitchen Sink** would be an 18 x 30 rolled rim, white porcelain enameled iron kitchen sink, with one bracket for the drain lead "P" trap, threaded for iron pipe connections, with 1 1/2 in.

## ELEGANT OAK DRESSERS.

NO. 220.

NO. 50.

NO. 212.

NO. K220. Made of well seasoned oak in a very handsome pattern, finished in golden oak and highly glossed. Drawers are dovetailed, neat brass pulls, lock and key. Size of top 18 x 38 in. Fitted with genuine French pattern mirror 18 x 24 inches, nicely shaped frame of oak with heavy carved ornament in center of top, standards are neatly rounded and mounted with carvings. Best quality casters. Weight 100 lbs. Price. \$9.75

NO. K50. This dresser is made of solid oak, thoroughly air seasoned and kiln dried. Finished in golden oak with a high gloss. Heavy oak is used in drawer guides, insuring strong, indestructible and easy working drawers. Mirror is heavy French bevel, 14 x 24 in. Fitted in a nicely rounded shaped frame. Automobile casters. Weight 100 lbs. Price. \$10.50

NO. K212. This high grade dresser has a genuine quarter sawed oak front, finished in a dark rich golden, highly polished. Full 3 in. swell front with 4 drawers, lock and key. Has very heavy double top, size 23 x 42. The large mirror is a genuine French beveled pattern, 22 x 28. Best quality casters. This dresser is very handsome. Weight 160 lbs. Price. \$14.50

NO. 62.

NO. 63.

NO. 60.

NO. K62. Elegant solid dresser, made of very choice material throughout, thoroughly air seasoned and kiln dried, insuring it against warping or checking. Drawers are perfect fitting and slide very easily. Polished brass pulls and brass key hole ornaments, serpentine shape top and front. Size of base 20 x 42 inch. Mirror is best beveled French plate, size 24 x 30. Finished golden and highly polished. Easy running casters. Weight 165 lbs. Price. \$15.25

NO. K63. Heavy solid oak dresser, made of best selected material. This dresser is of very handsome design 20 x 42 in. top. Full serpentine front, polished brass bail drawer pulls, extra large mirror of best French bevel plate, size 24 x 30 in., unique design, supported on handsomely designed standards. Weight 165 lbs. Price. \$16.00

NO. K60. This is a strictly high grade dresser, made with selected, genuine quarter sawed oak front. The solid oak top is 22 in. wide by 42 in. long, made double, with serpentine front. Front of base is full serpentine shape quartered oak. Drawers are very large and roomy with elegant solid brass pulls and brass key hole ornaments. The large oval mirror is the best French bevel plate, 24 x 30 in. Weight 175 lbs. Price. \$18.00

All Joints are Dovetailed Douls—No Glue Used Whatever.

## KITCHEN CABINETS AND CUPBOARDS.

NO. 638.

NO. 6.

NO. 610.

**NO. P638.** Made of poplar with projecting shelf; 12 x 34 in. glass in doors; 39 in. wide; 7 ft. 3 in. high. Finished in beautiful golden oak. Complete with all hardware. Weight 130 lbs.

Price ..... (shipped knocked down) ..... **\$8.75**

**NO. P6.** Height 82 in., 12½ in. deep; top part 41 in. wide, glass doors in top finished in golden oak. The flour and sugar bins in base can easily be taken out and cleaned. Guaranteed not to leak flour. Weight 90 lbs.

Price ..... **\$14.75**

**NO. P55.** Oak or maple, strong and well made, two sliding doors, two drawers and long shelf, all panel back; top height 34 in., width 42 in., depth 12 inches. Base has two mixing boards, two large drawers for cutlery, and two large flour drawers with curved built up, veneer stock fronts.

Price ..... **\$11.25**

**NO. P65.** Made in oak or maple, height of top 50 in., width 44 in., depth 12 in. Base 30½ in. high, top of base 26 x 47 in. Has bread board, 3 drawers, flour bin and cupboard with two doors.

Price ..... **\$15.75**

**NO. P25.** Made of oak or maple, height of top 25 in., length 40 in. Contains 5 small drawers, one large drawer, bread board and flour bin. The top of base is 42 x 26 in. Weight 65 lbs.

Price ..... **\$6.50**

**NO. P610.** Oak front, 7 ft. 10 in. high, 40 in. wide, base 18 in. deep, top 12½ in. deep, 12 x 28 in. glass in doors. Construction is first-class in every respect and a bargain at this price. Weight 160 lbs.

Price ..... (shipped knocked down) ..... **\$12.00**

Turn Buckles .....	237				

## IN CONCLUSION.

In presenting this book to you we have done our best to make it complete in every detail, but owing to the tremendous scope of our operations we find it impossible to keep up with the thousands of articles that are daily being received. Every description is carefully written, and we have done our utmost to tell exactly the condition of everything listed.

The enormous growth of our business has demonstrated the fact that we have gained the confidence of our customers by telling the absolute truth about all our goods, and new customers need have no hesitation in buying from us as everything is exactly as represented, and if for any reason you are displeased with the goods, they may be returned to us and others will be shipped in their place or money will be refunded.

We wish to thank our old customers for their generous patronage in the past, and assure you that we will spare no pains or exertions to deserve a continuance of such favors, which will be appreciated, and that we will do our very best to serve your interests.
